So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you
7 8 9 10 11 12 13 14	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.)  THE VIDEOGRAPHER: The time is 9:04 a.m.  We're back on the record.  MS. BROWN: Good morning. This is Ali	7 8 9 10 11 12 13 14 15	and so forth. So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you received after February 25th, 2019, correct?
7 8 9 10 11 12 13 14 15 16	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.)  THE VIDEOGRAPHER: The time is 9:04 a.m.  We're back on the record.  MS. BROWN: Good morning. This is Ali  Brown for J&J. We're back on the record, having taken a short break to put the cameras on both the	7 8 9 10 11 12 13 14 15	and so forth. So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you received after February 25th, 2019, correct?  MS. BROWN: Objection to the form.
7 8 9 10 11 12 13 14 15 16	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.)  THE VIDEOGRAPHER: The time is 9:04 a.m.  We're back on the record.  MS. BROWN: Good morning. This is Ali  Brown for J&J. We're back on the record, having taken a short break to put the cameras on both the questioner and myself, and we'll proceed, of	7 8 9 10 11 12 13 14 15 16	and so forth. So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you received after February 25th, 2019, correct?  MS. BROWN: Objection to the form.  THE WITNESS: I wouldn't assume that. I
7 8 9 10 11 12 13 14 15 16 17 18	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.)  THE VIDEOGRAPHER: The time is 9:04 a.m.  We're back on the record.  MS. BROWN: Good morning. This is Ali  Brown for J&J. We're back on the record, having taken a short break to put the cameras on both the questioner and myself, and we'll proceed, of course, with the camera on Dr. Diette. Thank you.	7 8 9 10 11 12 13 14 15 16 17 18	and so forth. So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you received after February 25th, 2019, correct?  MS. BROWN: Objection to the form.  THE WITNESS: I wouldn't assume that. I mean, so certainly some things here, right. So
7 8 9 10 11 12 13 14 15 16 17	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.)  THE VIDEOGRAPHER: The time is 9:04 a.m.  We're back on the record.  MS. BROWN: Good morning. This is Ali  Brown for J&J. We're back on the record, having taken a short break to put the cameras on both the questioner and myself, and we'll proceed, of course, with the camera on Dr. Diette. Thank you.  MS. PARFITT: Thank you. And I should	7 8 9 10 11 12 13 14 15 16 17 18 19 20	and so forth. So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you received after February 25th, 2019, correct?  MS. BROWN: Objection to the form.  THE WITNESS: I wouldn't assume that. I mean, so certainly some things here, right. So the expert reports that are dated 2/25, I didn't
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.)  THE VIDEOGRAPHER: The time is 9:04 a.m.  We're back on the record.  MS. BROWN: Good morning. This is Ali  Brown for J&J. We're back on the record, having taken a short break to put the cameras on both the questioner and myself, and we'll proceed, of course, with the camera on Dr. Diette. Thank you.  MS. PARFITT: Thank you. And I should have asked, there's no one on the phone, is there,	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	and so forth. So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you received after February 25th, 2019, correct?  MS. BROWN: Objection to the form.  THE WITNESS: I wouldn't assume that. I mean, so certainly some things here, right. So the expert reports that are dated 2/25, I didn't have, you know, even on the day that I submitted
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.)  THE VIDEOGRAPHER: The time is 9:04 a.m.  We're back on the record.  MS. BROWN: Good morning. This is Ali  Brown for J&J. We're back on the record, having taken a short break to put the cameras on both the questioner and myself, and we'll proceed, of course, with the camera on Dr. Diette. Thank you.  MS. PARFITT: Thank you. And I should have asked, there's no one on the phone, is there, today?	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	and so forth. So it's really that's how I got the materials, and then this is just to make sure that I had a complete list of everything that I've gotten.  BY MS. PARFITT:  Q All right. And the reason I asked is because you submitted your report on February 25th, 2019. So may I assume that everything on the list, Exhibit No. 3, the first page, supplemental, represents documents you received after February 25th, 2019, correct?  MS. BROWN: Objection to the form.  THE WITNESS: I wouldn't assume that. I mean, so certainly some things here, right. So the expert reports that are dated 2/25, I didn't have, you know, even on the day that I submitted mine, so those came after. Something like the
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	record for a second?  MS. PARFITT: Yes.  THE VIDEOGRAPHER: The time is 9:03.  We're going off the record.  (Pause in the proceedings.) 			the issues I need some clarification on. But
2	3/15/2019?	2	the issues I need some clarification on. But let's finish up the bills.
2	3/15/2019? A I will be.	2 3	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.
2 3 4	3/15/2019?  A I will be.  Q All right. How many hours have you	2 3 4	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for
2 3 4 5	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of	2 3 4 5	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?
2 3 4 5 6	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?	2 3 4 5 6	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.
2 3 4 5 6 7	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate	2 3 4 5 6 7	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for
2 3 4 5 6 7 8	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or	2 3 4 5 6 7 8	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?
2 3 4 5 6 7 8	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.	2 3 4 5 6 7 8	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for
2 3 4 5 6 7 8 9	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.  Q All right. And what is your hourly rate?	2 3 4 5 6 7 8 9	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.
2 3 4 5 6 7 8 9 10 11 12	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.  Q All right. And what is your hourly rate?  A So to clarify, so when on here it says	2 3 4 5 6 7 8 9 10 11	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. Is that correct?  A It is.
2 3 4 5 6 7 8 9 10 11 12 13	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.  Q All right. And what is your hourly rate?  A So to clarify, so when on here it says it's 485, my my rate itself is actually \$400 an	2 3 4 5 6 7 8 9 10	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. Is that correct?
2 3 4 5 6 7 8 9 10 11 12	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.  Q All right. And what is your hourly rate?  A So to clarify, so when on here it says it's 485, my my rate itself is actually \$400 an hour, and that's the amount that was charged.	2 3 4 5 6 7 8 9 10 11 12 13	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. Is that correct?  A It is.  Q And we have a bill for \$20,973.75; is
2 3 4 5 6 7 8 9 10 11 12 13 14	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.  Q All right. And what is your hourly rate?  A So to clarify, so when on here it says it's 485, my my rate itself is actually \$400 an hour, and that's the amount that was charged.  Q Okay. Now, is the amount that was	2 3 4 5 6 7 8 9 10 11 12 13 14	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. Is that correct?  A It is.  Q And we have a bill for \$20,973.75; is that correct?  A It is.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	3/15/2019? A I will be. Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019? A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take. Q All right. And what is your hourly rate? A So to clarify, so when on here it says it's 485, my my rate itself is actually \$400 an hour, and that's the amount that was charged. Q Okay. Now, is the amount that was charged, 400, because you worked with someone else	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. Is that correct?  A It is.  Q And we have a bill for \$20,973.75; is that correct?  A It is.  Q And then we have an additional 20, maybe
2 3 4 5 6 7 8 9 10 11 12 13 14 15	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.  Q All right. And what is your hourly rate?  A So to clarify, so when on here it says it's 485, my my rate itself is actually \$400 an hour, and that's the amount that was charged.  Q Okay. Now, is the amount that was charged, 400, because you worked with someone else who assists you with preparing the materials?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. Is that correct?  A It is.  Q And we have a bill for \$20,973.75; is that correct?  A It is.  Q And then we have an additional 20, maybe 25 hours that you will charge at the rate of \$400,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	3/15/2019?  A I will be.  Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019?  A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take.  Q All right. And what is your hourly rate?  A So to clarify, so when on here it says it's 485, my my rate itself is actually \$400 an hour, and that's the amount that was charged.  Q Okay. Now, is the amount that was charged, 400, because you worked with someone else who assists you with preparing the materials?  A It's not	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. Is that correct?  A It is.  Q And we have a bill for \$20,973.75; is that correct?  A It is.  Q And then we have an additional 20, maybe 25 hours that you will charge at the rate of \$400, although Medical Science Affiliates gets \$85 of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A I will be. Q All right. How many hours have you spent since your submitting the invoice of 3/15/2019? A Let's see, three I would estimate about about 20 hours or maybe 25 hours, give or take. Q All right. And what is your hourly rate? A So to clarify, so when on here it says it's 485, my my rate itself is actually \$400 an hour, and that's the amount that was charged. Q Okay. Now, is the amount that was charged, 400, because you worked with someone else who assists you with preparing the materials? A It's not MS. BROWN: Objection to the form of the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the issues I need some clarification on. But let's finish up the bills.  A Mm-hmm.  Q We have a bill for 12/14/2018 for \$17,103.75. Correct?  A Correct.  Q And we have a bill for 1/15/2018 for \$5,068.02, correct?  A That's correct.  Q We have a bill for 2/12/2019 for \$35,375. 	Page 26		Page 28
1	Q Now, attached to that is it has an	1	that I just made as I was reading through
2	exhibit on it, Plaintiffs' Exhibit No. 7, and it	2	different articles.
3	appears to be several pages of notes.	3	Q Okay. Would
4	Do you see that?	4	A No, I'm sorry.
5	A I do.	5	Q Are you finished?
6	Q All right. What are these notes?	6	A No, that's just what I was going to say,
7	A Well, these I haven't looked to see	7	so these are it just represents just notes that
8	for sure what's	8	I was making at certain times when I was looking
9	MS. BROWN: And, Counsel, just to make	9	at some of the articles.
10	sure the record is clear, this was produced in	10	Q Okay. When did you first start looking
11	response per your request for his notes that were	11	at any of the articles?
12	marked at the Ingham deposition. So this exhibit	12	A Sometime in by if we're talking
13	number is the marking from the Ingham deposition,	13	about the articles, meaning articles pertaining to
14	and these were the notes that he produced there	14	ovarian cancer and talcum powder, is it?
15	that I'm frankly sure you have access to, but in	15	Q Well, it's a good question, because you
16	the effort of cooperation, we reproduced them here	16	just said when you started looking at any of the
17	per your request.	17	articles, are you talk do these represent any
18	BY MS. PARFITT:	18	articles or do these represent articles of ovarian
19	Q So, Doctor	19	cancer and talcum powder?
20	A It's oh, go ahead. I'm sorry.	20	A Yeah, yeah.
21	Q Go ahead. You were going to tell me	21	MS. BROWN: And hold on, I think the
22	what they are.	22	record is going to be unclear. When you say
23	A Yeah, and I didn't know if that was	23	"these," are you referring to what has been marked
24	the the sufficient answer, because that's	24	as Plaintiffs' Exhibit 7 in response to your
25	literally, I guess, what they are right there.	25	MS. PARFITT: Correct.
	Page 27		Page 29
1		1	
1 2	These are they're an exhibit. But did you mean	1 2	MS. BROWN: notice of deposition?
	These are they're an exhibit. But did you mean something else, like		
2	These are they're an exhibit. But did you mean something else, like Q Well, now that I've had clarification by	2	MS. BROWN: notice of deposition? Okay.
2	These are they're an exhibit. But did you mean something else, like Q Well, now that I've had clarification by your attorney, that does help a bit, but I do have	2 3	MS. BROWN: notice of deposition? Okay. THE WITNESS: So this would have been
2 3 4	These are they're an exhibit. But did you mean something else, like Q Well, now that I've had clarification by	2 3 4	MS. BROWN: notice of deposition? Okay. THE WITNESS: So this would have been sometime in 2017 that that I started. I don't

Counsel, let's keep going with the questions for Dr. Diette so we don't waste the doctor's time.  MS. PARFITT: Believe me, I don't want to waste my time. So let's okay. I realize every now and again it happens.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MS. BROWN: notice of deposition?  Okay.  THE WITNESS: So this would have been sometime in 2017 that that I started. I don't know if these notes were made in 2017, but I just mean that that's the answer to when I started to look at those article articles.  BY MS. PARFITT:  Q And we'll get to that timeline in a moment.  Are there any additional notes that you have prepared post Plaintiffs' Exhibit No. 7, which I understand you presented at the Ingham deposition?  A I don't think so. I'll give you an example of something that I don't know whether you
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	These are they're an exhibit. But did you mean something else, like  Q Well, now that I've had clarification by your attorney, that does help a bit, but I do have a couple of questions.  MS. MILLER: For the record, she's not his attorney. She's J&J's attorney.  MS. PARFITT: We're going to have one examiner today. So you and Ali decide who that's going to be.  MS. BROWN: Okay. Counsel, let's keep going with the questions for Dr. Diette so we don't waste the doctor's time.  MS. PARFITT: Believe me, I don't want to waste my time. So let's okay. I realize every now and again it happens.  BY MS. PARFITT:  Q So, Dr. Diette, these are notes that you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	MS. BROWN: notice of deposition?  Okay.  THE WITNESS: So this would have been sometime in 2017 that that I started. I don't know if these notes were made in 2017, but I just mean that that's the answer to when I started to look at those article articles.  BY MS. PARFITT:  Q And we'll get to that timeline in a moment.  Are there any additional notes that you have prepared post Plaintiffs' Exhibit No. 7, which I understand you presented at the Ingham deposition?  A I don't think so. I'll give you an example of something that I don't know whether you consider it a note or not.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	These are they're an exhibit. But did you mean something else, like  Q Well, now that I've had clarification by your attorney, that does help a bit, but I do have a couple of questions.  MS. MILLER: For the record, she's not his attorney. She's J&J's attorney.  MS. PARFITT: We're going to have one examiner today. So you and Ali decide who that's going to be.  MS. BROWN: Okay. Counsel, let's keep going with the questions for Dr. Diette so we don't waste the doctor's time.  MS. PARFITT: Believe me, I don't want to waste my time. So let's okay. I realize every now and again it happens.  BY MS. PARFITT:  Q So, Dr. Diette, these are notes that you prepared back at the time of the Ingham	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MS. BROWN: notice of deposition?  Okay.  THE WITNESS: So this would have been sometime in 2017 that that I started. I don't know if these notes were made in 2017, but I just mean that that's the answer to when I started to look at those article articles.  BY MS. PARFITT:  Q And we'll get to that timeline in a moment.  Are there any additional notes that you have prepared post Plaintiffs' Exhibit No. 7, which I understand you presented at the Ingham deposition?  A I don't think so. I'll give you an example of something that I don't know whether you consider it a note or not.  Q Okay.  A Like as I was preparing my report, I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	These are they're an exhibit. But did you mean something else, like  Q Well, now that I've had clarification by your attorney, that does help a bit, but I do have a couple of questions.  MS. MILLER: For the record, she's not his attorney. She's J&J's attorney.  MS. PARFITT: We're going to have one examiner today. So you and Ali decide who that's going to be.  MS. BROWN: Okay. Counsel, let's keep going with the questions for Dr. Diette so we don't waste the doctor's time.  MS. PARFITT: Believe me, I don't want to waste my time. So let's okay. I realize every now and again it happens.  BY MS. PARFITT:  Q So, Dr. Diette, these are notes that you prepared back at the time of the Ingham deposition, correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MS. BROWN: notice of deposition?  Okay.  THE WITNESS: So this would have been sometime in 2017 that that I started. I don't know if these notes were made in 2017, but I just mean that that's the answer to when I started to look at those article articles.  BY MS. PARFITT:  Q And we'll get to that timeline in a moment.  Are there any additional notes that you have prepared post Plaintiffs' Exhibit No. 7, which I understand you presented at the Ingham deposition?  A I don't think so. I'll give you an example of something that I don't know whether you consider it a note or not.  Q Okay.  A Like as I was preparing my report, I would put like a like a little sticker on a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	These are they're an exhibit. But did you mean something else, like  Q Well, now that I've had clarification by your attorney, that does help a bit, but I do have a couple of questions.  MS. MILLER: For the record, she's not his attorney. She's J&J's attorney.  MS. PARFITT: We're going to have one examiner today. So you and Ali decide who that's going to be.  MS. BROWN: Okay. Counsel, let's keep going with the questions for Dr. Diette so we don't waste the doctor's time.  MS. PARFITT: Believe me, I don't want to waste my time. So let's okay. I realize every now and again it happens.  BY MS. PARFITT:  Q So, Dr. Diette, these are notes that you prepared back at the time of the Ingham deposition, correct?  A So not literally. Right, there are I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MS. BROWN: notice of deposition?  Okay.  THE WITNESS: So this would have been sometime in 2017 that that I started. I don't know if these notes were made in 2017, but I just mean that that's the answer to when I started to look at those article articles.  BY MS. PARFITT:  Q And we'll get to that timeline in a moment.  Are there any additional notes that you have prepared post Plaintiffs' Exhibit No. 7, which I understand you presented at the Ingham deposition?  A I don't think so. I'll give you an example of something that I don't know whether you consider it a note or not.  Q Okay.  A Like as I was preparing my report, I would put like a like a little sticker on a paper where I wanted to pull a quote into the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	These are they're an exhibit. But did you mean something else, like  Q Well, now that I've had clarification by your attorney, that does help a bit, but I do have a couple of questions.  MS. MILLER: For the record, she's not his attorney. She's J&J's attorney.  MS. PARFITT: We're going to have one examiner today. So you and Ali decide who that's going to be.  MS. BROWN: Okay. Counsel, let's keep going with the questions for Dr. Diette so we don't waste the doctor's time.  MS. PARFITT: Believe me, I don't want to waste my time. So let's okay. I realize every now and again it happens.  BY MS. PARFITT:  Q So, Dr. Diette, these are notes that you prepared back at the time of the Ingham deposition, correct?  A So not literally. Right, there are I was asked, and I don't remember exactly what	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MS. BROWN: notice of deposition?  Okay.  THE WITNESS: So this would have been sometime in 2017 that that I started. I don't know if these notes were made in 2017, but I just mean that that's the answer to when I started to look at those article articles.  BY MS. PARFITT:  Q And we'll get to that timeline in a moment.  Are there any additional notes that you have prepared post Plaintiffs' Exhibit No. 7, which I understand you presented at the Ingham deposition?  A I don't think so. I'll give you an example of something that I don't know whether you consider it a note or not.  Q Okay.  A Like as I was preparing my report, I would put like a like a little sticker on a paper where I wanted to pull a quote into the into the paper, and then I would tear that off and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	These are they're an exhibit. But did you mean something else, like  Q Well, now that I've had clarification by your attorney, that does help a bit, but I do have a couple of questions.  MS. THE WITNESS: So this would have been sometime in 2017 that that I started. I don't know if these notes were made in 2017, but I just mean that that's the answer to when I started to look at those article articles. BY MS. PARFITT:  Q And we'll get to that timeline in a moment.  Are there any additional notes that you have prepared post Plaintiffs' Exhibit No. 7, which I understand you presented at the Ingham deposition?  A I don't think so. I'll give you an example of something that I don't know whether you consider it a note or not.  Q Okay.  A Like as I was preparing my report, I would put like a like a little sticker on a paper where I wanted to pull a quote into the into the paper, and then I would tear that off and

1 Q All right. So you would put a sticker on a paper like when I wanted to put a quote in, and then I tore it off.  4 Are these medical records that — or excuse me, medical articles that you were reviewing?  7 A These are scientific articles, yeah, the one state informed your report at your office, at your home?  10 Scientific and medical articles that informed your report at your office, at your home?  11 A I've gort — I've got little piles of 1 stuff everywhere you can look.  12 A I've gort — I've got little piles of 1 stuff everywhere you can look.  13 Suff everywhere you can look.  14 Q Okay. Do any of them have markings on them or any stickies and any stickies and any stickies and a full don't think there's any stickies and any stickies and any stickies and a full don't think there's any stickies and any stickies and a full don't think there's any stickies and any stickies any stickies and any stickies any sticki		Page 20		Dago 22
and then I tore it off.  Are these medical records that or excuse me, medical articles that you were reviewing?  A These are scientific articles, yeah, the ones that informed my report.  Q All right. So do you have a stack of scientific articles that informed your report at your office, at your home?  A Tree got I've gol little piles of staff wereywhere you can look.  Q Okay. Do any of them have markings on them or any stickies?  A I don't think there's any stickies anymore. If they have markings, there could be some that have yellow highlights.  Q All right.  A There sure could be, yeah. Not on all of them, but could be on some.  Page 31  Q All right.  MS. PARFITT: I'll address this with counsel later, but I would request copies of all those worken. But we can talk about that  MS. PARFITT: I'll address this with counsel later, but I would request copies of all those highlighted articles that you may have somewhere. But we can talk about that  MS. BROWN: We can talk about that  MS. BROWN: We can talk about that off the record.  THE WITNESS: Okay.  BY MS. PARFITT: So he is not going to sassert work product. For it, but a working on the request to appear here at your deposition, there was an inquiry with regard to, I believe you called it, Medical  Science Affiliates.  MS. BROWN: And I'm just going to interject here, Counsel. To the extent you've asserting right now?  MS. BROWN: And I'm just going to interject here, Counsel. To the extent just of counsel.  MS. BROWN: And I'm just going to interject here, Counsel. To the extent just of counsel.  MS. BROWN: That's correct; Oxussel.  MS. PARFITT: So he is not going to answer that question. Is that correct; or counsel.  MS. BROWN: That's correct; or will not answer that question. Is that correct; or counsel. are that position, there was an inquiry with regard to, I believe you called it, Medical  Science Affiliates.  MS. BROWN: That's correct, Counsel.  MS. BROWN: That's correct, Counsel.	_	Page 30		Page 32
and then I tore it off.  Are these medical records that – or  sexuse me, medical articles that you were reviewing?  A These are scientific articles, yeah, the ones that informed my report.  B ones that informed my report.  A These are scientific articles, yeah, the ones that informed my report.  A These are scientific articles, yeah, the ones that informed my report.  A Pre got – I've got little piles of stuff everywhere you can look.  A I don't think there's any stickies any stickies?  A I don't think there's any stickies any stickies and the provided of the part of the men or any stickies?  A Burl don't think any that have like writing on them per se.  A Burl don't think any that have like writing on them per se.  A Burl don't think any that have like writing on them, correct?  A There sure could be, yeah. Not on all of them, but could be on some.  Page 31  Q All right.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to to those and object accordingly.  MS. PARFITT: Okay. And we're going to to to the number of narrative objections if we can so we can get through this  THE WITNESS: I remember your question if we can so we can get through this  THE WITNESS: I remember your duestion if we can so we can get through this  THE WITNESS: I remember your duestion if we can so we can get through this  A Burl and the part of plaintiffs Exhibit in a part of the part of Plaintiffs Exhibit in a part of the part of Plaintiffs Exhibit in a part of the part				
Are these medical records that or excuse me, medical articles that you were recuses me, medical articles that you were recuses me, medical articles that you were recuse me, medical articles that you mean for the mean set at the medical articles that informed your report at your office, at your home?  A These are scientific articles, yeah, the one some that informed my report.  A These are scientific articles, yeah, the one some that informed my report.  A These are scientific articles, yeah, the one scientific and medical articles that you mean for medical and scientific articles that you may have somewhere. But we can talk about that				
because me, medical articles that you were reviewing?  A These are scientific articles, yeah, the ones that informed my report. A These are scientific articles, yeah, the ones that informed my report. Q All right. So do you have a stack of scientific and medical articles that informed your report at your office, at your home? A Pve got – I've got little piles of stuff everywhere you can look. Q Okay. Do any of them have markings on them or any stickies? A I don't think there's any stickies anymore. If they have markings, there could be some that have yellow highlights. A But I don't think any that have like writing on them per se. Q Okay. But there might be yellow highlights on them, correct? A There sure could be, yeah. Not on all of them, but could be on some.  Page 31  Q All right. A SROWN: We can atlak about that off the record. B THE WITNESS: Okay. BY MS. PARFITT: I'll address this with counsel later, but I would request copies of all the record. B THE WITNESS: Okay. BY MS. PARFITT: Or would request copies of all own where. But we can talk about that off the record. B THE WITNESS: Okay. BY MS. PARFITT: Or would request copies of all own where. But we can talk about that off the record. B THE WITNESS: Okay. BY MS. PARFITT: Or would request copies of all some medical and scientific articles, there would be no additional notes like that which forms part of the record. B THE WITNESS: Okay. BY MS. PARFITT: Or would request copies of all those highlighted articles that you may have some medical and scientific articles, there would be no additional notes like that which forms part of the record. B THE WITNESS: Okay. BY MS. PARFITT: Or would request copies of all the part of Plaintiffs Exhibit 7, correct? A Correct. Q All right. In the request to appear here at your deposition, there was an inquiry with regard to, I believe you called it, Medical Science Affiliates.  MS. BROWN: Yes. He's not going to answer that question. Is that correct record correct?  MS. BROWN: And I'm just going to interject here, Counsel. To the extent you've asserting with now?  MS. BROWN: Yes. He's not going to answer that question. Is that correct record correct?				
ones that informed my report.  Q All right. So do you have a stack of scientific and medical articles that informed your report at your office, at your home?  A I ve got - I've got little piles of stuff everywhere you can look.  A I ve got - I've got little piles of stuff everywhere you can look.  A I don't think there's any stickies anymore. If they have markings the some that have yellow highlights.  Q All right.  A Bur I don't think any that have like writing on them per se.  Q O kay, But there might be yellow writing on them per se.  Q O kay, But there might be yellow of them, but could be on some.  Page 31  Q All right.  A There sure could be, yeah. Not on all of them, but could be on some.  Page 31  Q All right.  MS. PARFITT: Will yeah.  MS. PARFITT: Vay, And we're going to to those and object accordingly.  MS. PARFITT: Okay, And we're going to to those and object accordingly.  THE WITNESS: I remember your question if you want me to answer it.  By MS. PARFITT: U Q I do.  I wanted to know in response to request the somewhere. But we can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the part of Plainitffs Exhibit 7, correct?  A Correct.  Q All right. In the request to appear he no additional notes like that which forms part of here at your deposition, there was an inquiry with regard to, I believe you called it, Medical  Science Affiliates in own with regard to any agreement or writing or contracts that he has with Medical  Science Affiliates under the guidance of counsel that question under the work-product privilege.  MS. PARFITT: Okay, Counsel, you can assert my wife on any agreement or writing or contracts that he has with Medical  Science Affiliates under the guidance of counsel that question under the work-product privilege.  MS. PARFITT: Okay, Counsel, or object that we have asserting work product.  MS. PARFITT: Okay, Counsel		<del>-</del>		Dr. Diette's agreement with Medical Science
9 Q All right. So do you have a stack of 10 scientific and medical articles that informed your 11 report at your office, at your home? 12 A I've gotI've got little piles of 13 stuff everywhere you can look. 14 Q Okay. Do any of them have markings on 15 them or any stickies? 16 A I don't think there's any stickies 17 anymore. If they have markings, there could be 18 some that have yellow highlights. 19 Q All right. 20 A But I don't think any that have like 21 writing on them per se. 22 Q Okay. But there might be yellow 23 highlights on them, correct? 24 A There sure could be, yeah. Not on all 25 of them, but could be on some.  Page 31  1 Q All right. 2 MS. PARFITT: I'll address this with 3 counsel later, but I would request copies of all 4 those highlighted articles that you may have 5 somewhere. But we can talk about that 6 MS. BROWN: We can talk about that 6 MS. BROWN: We can talk about that off 6 the record. 8 THE WITNESS: Okay. 9 BY MS. PARFITT: I'll address this with 3 come medical and scientific articles, there would 4 be no additional notes like that which forms part 5 of the part of Plaintiff's Exhibit 7, correct? 14 A Correct. 19 Q All right. In the request to appear 16 here at your deposition, there would 17 regard to, I believe you called it, Medical 18 Science Affiliates. 19 A Correct. 20 Q All right. Do you have a retainer 21 agreement with Medical Science Affiliates? 22 MS. BROWN: And I'm just going to 23 interject here, Counsel. To the extent you've 24 made a request for any documentation regarding 24 MS. PARFITT: Okay. 25 MS. BROWN: That's correct? 26 MS. BROWN: And the interest and any drove assert and mumber of accourable as that the record is clear that the record is clear that the rate in the mumber of namble or make sure that the record is clear that whe are deavored to respond to those and object accordingly. 36 MS. PARFITT: Okay. And we're going to interject here, Counsel. 37 The warther on not you have any contracts, agreement or with regard to any agreement or writing or or rela			7	Affiliates?
scientific and medical articles that informed your report at your office, at your home?  A I've got -I've got little piles of stuff everywhere you can look.  Q Okay. Do any of them have markings on the me or any stickies?  A I don't think there's any stickies  A I don't think there's any stickies  A I don't think there's any stickies  anymore. If they have markings, there could be some that have yellow highlights.  A Bur I don't think any that have like  writing on them per se.  Q Okay. But there might be yellow  highlights on them, correct?  A There sure could be, yeah. Not on all of them, but could be on some.  Page 31  Q All right.  MS. PARFITT: Way and we're going to those and object accordingly.  MS. PARFITT: Okay. And we're going to try and reduce the number of narrative objections if we can so we can get through this-  THE WITNESS: I remember your question if you want me to answer it.  BY MS. PARFITT:  Q Ido.  I wanted to know in response to request  Page 31  Q All right.  MS. PARFITT: I'll address this with  counsel later, but I would request copies of all those highlighted articles that you may have somewhere. But we can talk about that—  MS. BROWN: We can talk about that off the record.  THE WITNESS: Okay.  BY MS. PARFITT:  Q All right. So other than notations on some medical and scientific articles, there would be no additional notes like that which forms part of the part of Plaintiffs' Exhibit 7, correct?  A Correct.  Q All right. In the request to appear here at your deposition, there was an inquiry with regard to, I believe you called it, Medical  Seience Affiliates of the past ten you've asserting right now?  MS. PARFITT: Okay, Counsel, you can assert work product. Got it. Is that what you're asserting right now?  MS. PARFITT: Okay, Counsel, you can assert work product. Got it. Is that what you're asserting right now?  MS. PARFITT: Okay. Counsel, you can assert work product. Got it. Is that what you're asserting right now?  MS. PARFITT: Okay, Counsel, you can assert work product. Got it. Is that			8	
regarding Medical Sciences.  A I've got - I've got little piles of street everywhere you can look.  A I've got - I've got little piles of street everywhere you can look.  A I've got - I've got little piles of street everywhere you can look.  A I've got - I've got little piles of street everywhere you can look.  A I've got - I've got little piles of street everywhere you can look.  A I've got - I've got little piles of street everywhere you can look.  A I've got - I've got little piles of some them are warkings, there could be some that have yellow highlights, there could be some that have yellow highlights on them, correct?  A But I don't think any that have like writing on them per se.  Q Okay, But there might be yellow highlights on them, correct?  A There sure could be, yeah. Not on all of them, but could be on some.  Page 31  Q All right.  MS. PARFITT: Okay, Counsel, I've got you wand met to answer it.  Page 31  Q All right.  MS. PARFITT: I'll address this with counsel later, but I would request copies of all those highlighted articles that you may have somewhere. But we can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: And, Counsel, I'm going to object to the extent that any of those requests or documentation involve work product that we have asserted privilege over, he will not be answering that question under the work-product privilege.  MS. PARFITT: Okay, Counsel, you can assert work product. Got it. Is that what you're asserting right now?  MS. PARFITT: Okay, Counsel, work product.  MS. PARFITT: Okay, Counsel, work product.  MS. PARFITT: Okay, Counsel, work product.  MS. PARFITT: Okay, Counsel or counsel that is objecting and refusing to have you answer writing or countracts that he has with Medical Science Affiliates?  MS. PARFITT: Okay, Counsel, in that convert - record correct?  MS. PARFITT: Okay, Counsel, in that question. We're asserting work produc	9		9

stuff everywhere you can look.  Q Okay. Do any of them have markings on them for any stickies?  A I don't think there's any stickies  A I don't think there's any stickies  A But I don't think thave like anymore. If they have markings, there could be some that have yellow highlights.  A But I don't think any that have like anymore. If they have markings, there could be some that have yellow highlights.  A But I don't think any that have like anymore. If they have markings, there could be some that have yellow highlights on them, correct?  A But I don't think any that have like anymore. If they have markings, there could be yeah. Not on all anymore. If they have markings, there could be yeah. Not on all anymore. If they have some can get through this proposed if you want me to answer it.  BYMS. PARFITT: Planderss this with a counsel later, but I would request copies of all those highlighted articles that you may have somewhere. But we can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the part of Plaintiffs criticles, there would be no additional notes like that which forms part of the part of Plaintiffs criticles, there would he here at your deposition, there was an inquiry with regard to, I believe you called it, Medical science Affiliates.  MS. BROWN: And I'm just going to answer that question under the work-product privilege.  MS. BROWN: And I'm just going to answer my question with regard to any agreement or writing or contracts that he has with Medical a request for any documentation regarding  MS. BROWN: Tunderstand here record is clear that whe have endeavored to respond to those and object accordingly.  MS. BROWN: I understand we have endeavored to respond to those and object accordingly.  MS. BROWN: I understand the record is clear that we have endeavored to the record is clear that we have endeavored to the some objections if we can so we can get through this proving it was any agreement or with my from the there on the part of	11	report at your office, at your home?	11	
them or any stickies?  A I don't think there's any stickies  anymore. If they have markings, there could be some that have yellow highlights.  A But I don't think any that have like  writing on them per se.  Q Okay. But there might be yellow  20 Okay. But there might be yellow  21 writing on them per se.  22 Q Okay. But there might be yellow  23 highlights on them, correct?  24 A There sure could be, yeah. Not on all  25 of them, but could be on some.  Page 31  1 Q All right.  2 MS. PARFITT: Via, and we're going to try and reduce the number of narrative objections if we can so we can get through this  THE WITNESS: I remember your question if you want me to answer it.  BY MS. PARFITT:  Q I do.  I wanted to know in response to request  Page 31  Q All right.  MS. PARFITT: I'll address this with  counsel later, but I would request copies of all those highlighted articles that you may have somewhere. But we can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the record.  MS. BROWN: We can talk about that off the past of Plaintiffs' Exhibit 7, correct?  A Correct.  Q All right. In the request to appear of the part of Plaintiffs' Exhibit 7, correct?  A Correct.  Q All right. In the request to appear here at your deposition, there was an inquiry with regard to, I believe you called it, Medical science Affiliates.  A Correct.  Q All right. Do you have a retainer agreement with Medical Science Affiliates?  MS. BROWN: And I'm just going to answer my question with regard to any agreement or writing or contracts that he has with Medical Science Affiliates or record correct?  MS. BROWN: And I'm just going to interject here, Counsel. To the extent you've and are quest for any documentation regarding  MS. PARFITT: Okay, Counsel.  MS. PARFITT: She is not going to answer my question with regard to any agreement or writing or contracts that he has with Medical Science Affiliates?  MS. BROWN: And I'm just going to interject here, Counsel. To the extent yo	12	A I've got I've got little piles of	12	MS. PARFITT: I will, yeah.
them or any stickies?  A I don't think there's any stickies  A I don't think there's any stickies  a A I don't think there's any stickies  a A I don't think there's any stickies  a A But I don't think any that have like  b Q All right.  A But I don't think any that have like  c Q Okay. But there might be yellow  a highlights on them, correct?  A There sure could be, yeah. Not on all  b of them, but could be on some.  Page 31  Q All right.  A Shar Fartit: I'll address this with  c counsel later, but I would request copies of all  those highlighted articles that you may have  somewhere. But we can talk about that —  MS. BROWN: We can talk about that —  MS. BROWN: We can talk about that —  THE WITNESS: I remember your question  if we can so we can get through this —  THE WITNESS: I remember your question  if you want me to answer it.  BY MS. PARFITT:  Q I do.  I wanted to know in response to request  Page 33  number 14, whether or not you have any contracts, agreements, writings conveying mutual  understandings between you and Medical Science  Affiliates or any entity of or related to Medical  Sciences, and I just want to make sure that the record is clear that we have dobject accordingly.  MS. PARFITT: Okay. And we're going to try and reduce the number of narrative objections  if we can so we can get through this —  THE WITNESS: I remember your question  if you want me to answer it.  BY MS. PARFITT:  Q I do.  I wanted to know in response to request  agreements, writings conveying mutual  understandings between you and Medical Science  Affiliates for the past ten years?  MS. 	Page 38		Page 40
1	MS. PARFITT: Ms. Brown, your objection,	1	thinking about your question before, I just wanted
2	according to the CMO in the MDL case, perhaps	2	to clarify that I because when you said that I
3	you're doing other state depositions, is that you	3	billed \$100,000, I think what you might be doing
4	say, "Objection. Form."	4	is adding up all of those MSA invoices, which that
5	And I'll try and do my best, if you'd do	5	doesn't all go to me. I mean there's a way to
6	the same. And I'm not admonishing you, and I hope	6	figure out how much that I've billed, but but
7	you're not admonishing me. That's not how I roll.	7	you wouldn't be correct if you're saying that
8	MS. BROWN: Well, the record is going to	8	those four invoices represent the amount that I've
9	be very clear	9	charged.
10	MS. PARFITT: It will be.	10	Q Okay. And we'll talk about that, but I
11	MS. BROWN: about the statement that	11	appreciate the clarification.
12	you just made about the other work that I'm doing.	12	So, the other question is, do you have
13	MS. PARFITT: I said	13	an understanding that most ovarian cancer cases
14	MS. BROWN: I am well aware of the	14	are detected and diagnosed at a late stage and
15	CMO	15	there are limited prospects for cure?
16	MS. PARFITT: Perfect. Okay.	16	MS. BROWN: Same objection.
17	Counsel	17	THE WITNESS: I have that general
18	MS. BROWN: and the deposition	18	understanding.
19	protocol in this case.	19	BY MS. PARFITT:
20	MS. PARFITT: that's fine.	20	Q Okay. Do you have any knowledge as to
21	MS. BROWN: And I	21	what the mortality and morbidity of ovarian cancer
22	MS. PARFITT: Counsel	22	is?
23	MS. BROWN: expect that you will	23	A Well, the morbidity is not a number,
24	abide by it	24	right. I mean you're talking about what are the
25	MS. PARFITT: let me ask questions.	25	consequences?
			Page 41
1	MS. BROWN: and not interrupt me.	1	Q You're right.
2	Thank you.	2	A And then the mortality would be
3	MS. PARFITT: I am not going to, but I	١ ,	<del>-</del>
		3	something that's an objective fact that there's a
4		4	something that's an objective fact that there's a percentage of people with the disease that die.
4 5	would ask the same courtesy. And, listen, we have		percentage of people with the disease that die.
	would ask the same courtesy. And, listen, we have a long day to go, and it will be longer	4	percentage of people with the disease that die.  Q Right.
5	would ask the same courtesy. And, listen, we have a long day to go, and it will be longer MS. BROWN: Just ask the doctor a	4 5	percentage of people with the disease that die.  Q Right.  A I don't know the number. I didn't
5 6	would ask the same courtesy. And, listen, we have a long day to go, and it will be longer MS. BROWN: Just ask the doctor a question and move on.	4 5 6	percentage of people with the disease that die.  Q Right.  A I don't know the number. I didn't memorize that. If it's important, we can look it
5 6 7	would ask the same courtesy. And, listen, we have a long day to go, and it will be longer MS. BROWN: Just ask the doctor a question and move on. MS. PARFITT: if we go back and	4 5 6 7	percentage of people with the disease that die.  Q Right.  A I don't know the number. I didn't

1	BY MS. PARFITT:	1	Q Okay. All right. And we're going to
2	Q All right. Have you in the course of	2	talk about that in conjunction with just hold
3	strike that.	3	tight. I'm going to set that aside, and let me
4	All right. From a review of the	4	ask you this
5	materials you reviewed attached to your expert	5	A Can I ask just real quick?
6	report, Doctor, I see that you reviewed the Purdie	6	Q Sure.
7	case	7	A There's like a cold breeze blowing down
8	MS. BROWN: Counsel Counsel, is there	8	here, and I know we will regret making it warmer
9	a page you want to point him to so we can follow	9	in here at some point.
10	along?	10	Q Sure.
11	MS. PARFITT: I'm still asking the	11	MS. PARFITT: Well, let's take a moment
12	question, Counsel.	12	and let's see if we can
13	BY MS. PARFITT:	13	MS. BROWN: Why don't we go off the
14	Q Dr. Diette, attached to your report is a	14	record for one second.
15	materials reviewed. And on page 7, it lists that	15	THE VIDEOGRAPHER: The time is 9:25 a.m.
16	you have read the Purdie case, which is a 1995	16	We're going off the record.
17	case study excuse me, not case study, but a	17	(Pause in the proceedings.)
18	scientific article.	18	THE VIDEOGRAPHER: The time is 9:27 a.m.
19	MS. BROWN: Objection to the form.	19	and we are back on the record.
20	Take your time to get to that page,	20	(Diette Exhibit No. 4 was marked
21	Doctor.	21	for identification.)
22	THE WITNESS: It's 7 in my report?	22	MS. PARFITT: Ready?
23	BY MS. PARFITT:	23	THE VIDEOGRAPHER: Oh, yeah, we're on.
24	Q It is on page 7 of your report.	24	MS. PARFITT: Okay. Thank you.
25	MS. BROWN: And, Counsel, I think we	25	BY MS. PARFITT:
	Page 43		Page 45
1	have a disconnect here. Are you referring to the	1	Q Dr. Diette, let me show you what's been
2	7 of the reliance list?	2	marked as Plaintiffs' Exhibit No. 4 to the Diette
3	MS. PARFITT: I am. I'm sorry about	3	deposition, and I'll represent to you sorry
4	that.	4	I'll represent to you that this is the
5	THE WITNESS: Oh. Is it 7 of the the	5	MS. BROWN: Thank you.
6	exhibit you gave me or is it part of what's my	6	BY MS. PARFITT:
7	reliance list that's attached to my report?	7	Q an article by Dr. Purdie entitled
8	BY MS. PARFITT:	8	"Ovulation and Risk of Epithelial Ovarian Cancer"
9	Q What I have is your reliance list, and	9	published in the International Journal of Cancer
10		10	in 2003. Do you see that?
11	it's page 7 of your reliance list.  A I got you.	11	A I do.
12		12	
13	MS. BROWN: Got that. Okay. BY MS. PARFITT:	13	Q All right. If I can direct your attention to page 231 of that article.
13	Q And I believe you have three Purdie	14	MS. PARFITT: Let's put it on the ELMO.
14 15	excuse me, two Purdie cites, one 2003 and one	15	BY MS. PARFITT: Let's put it on the ELMO.
16	1995. Correct?	16	
16 17		17	Q Okay. And, Dr. Diette, I'll put it up on the overhead as well. About halfway down
18		18	there you go left-hand column, Dr. Purdie and
	Q Okay. Did you indeed review the Purdie article for purposes of your testimony here today?	19	authors state: "Thus, the latency period of more
19		20	authors state: "I hus, the latency period of more advanced malignant epithelial ovarian cancer could
20	MS. BROWN: Objection to the form.		
21	THE WITNESS: I don't think I reviewed	21	be estimated to be approximately 30 to 40 years."
	it for the purpose of my testimony, but I I	22 23	Did I read that correctly?  A You read it fine.
22	included it because it's semathing I marriages = -4		A YOUTEROULINE
23	included it because it's something I reviewed at		
	some point prior to preparing the report.  BY MS. PARFITT:	24 25	Q All right. Do you agree or disagree that the latency period of more advanced malignant

	Page 46		Page 48
1	epithelial ovarian cancer can be estimated to be	1	BY MS. PARFITT:
2	approximately 30 to 40 years?	2	Q Sure. And, you know, that might be
3	A Well, I think, you know so there's no	3	that might be fair. So let me go for a third try.
4	way for me to know for sure, right, but could	4	Okay?
5	be it seems like a pretty safe statement	5	A Okay.
6	because it could be more, it could be less.	6	Q Do you develop public health programs
7	It's also an incomplete sentence, right,	7	for Johns Hopkins?
8	in the sense that when you talk about the latency,	8	A I'm trying to think I would say
9	you talk about the latency between a particular	9	generally, no. I mean
10	kind of exposure. I mean, in this context, right,	10	Q It's not part of your role.
11	there may have other there may be other ways	11	MS. BROWN: Well, let him finish. I'm
12	people use that word, but in this context it's the	12	sorry.
13	time from the exposure to the development of the	13	THE WITNESS: But I don't know I
14	disease. So there's no exposure mentioned in that	14	mean, I don't know what I mean that's a pretty
15	sentence, so it's a little a little loose, you	15	broad topic, which is what's a public health
16	know.	16	program. So I'm just thinking like, for example,
17	MS. PARFITT: All right. Move to strike	17	you know, I've done work with asthma in in the
18	that last part of your statement.	18	inner city nearby.
19	BY MS. PARFITT:	19	BY MS. PARFITT:
20	Q Okay. Dr. Diette, do you agree that	20	O Correct.
21	it's imperative to develop public health programs	21	A And we certainly have a program, you
22	that either reduce the incidence or detect ovarian	22	know, that deals with with that. I wouldn't
23	cancer at an earlier stage?	23	say I've developed it as a public health program
24	A It's an agreeable statement.	24	per se but as a as a research program. But,
25	Q Okay. In developing public health	25	you know, where public health starts and stops,
23	Q Okay. In developing public heaten	23	you know, where public hearth starts and stops,
	Page 47		Page 49
1	Page 47 programs, does in order to set up preventive	1	I'm not exactly sure.
1 2		1 2	I'm not exactly sure.  Q Fair enough.
	programs, does in order to set up preventive		I'm not exactly sure.
2	programs, does in order to set up preventive programs, detection programs, does that include getting information about whatever the putative exposure may be to individuals who may be	2	I'm not exactly sure.  Q Fair enough.
2 3	programs, does in order to set up preventive programs, detection programs, does that include getting information about whatever the putative	2 3	I'm not exactly sure.  Q Fair enough.  All right. Talcum powder products are

1	that it's Johnson's Baby Powder. Okay?	1	expert work for them?
2	MS. BROWN: And just to get my my	2	MS. BROWN: Objection to the form.
3	objection on the record to what you marked as	3	THE WITNESS: I believe so, yeah.
4	Exhibit 5, we have no representation of when this	4	BY MS. PARFITT:
5	was bought, by whom it was bought.	5	Q Okay. Had you ever worked for Johnson &
6	With that, Dr. Diette, here is	6	Johnson or any of their entities prior to 2017 in
7	Exhibit 5.	7	any type of litigation?
8	MS. PARFITT: Thank you.	8	MS. BROWN: Same objection.
9	BY MS. PARFITT:	9	THE WITNESS: I I don't think so. I
10	Q All right, Dr. Diette, look at the back	10	would say almost certainly no.
11	of that. Do you see that there's a little picture	11	BY MS. PARFITT:
12	that looks like a little baby with an X on it?	12	Q Okay. Since your retention in 2017, did
13	A I do.	13	Johnson & Johnson, their medical department, their
14	MS. BROWN: Objection to the form.	14	regulatory department, science department, ever
15	BY MS. PARFITT:	15	ask that you take a look at the back of the
16	Q Okay. Okay. What does that say on the	16	product, Johnson's Baby Powder, for purposes of
17	back of the product?	17	giving an opinion as to what scientific and
18	A It says: "Warning: Keep powder away	18	medical information should be on that product?
19	from child's face to avoid inhalation, which can	19	MS. BROWN: Objection to the form of the
20	cause breathing problems. Avoid contact with the	20	question.
21	eyes. For external use only."	21	THE WITNESS: I would be the wrong kind
22	Q Okay. And at the bottom of that	22	of expert for that. I mean I'm not a warnings
23	product, does it happen to say what's contained in	23	expert, so it wouldn't wouldn't make any sense
24	it?	24	for anybody to ask me that question.
25	MS. BROWN: Objection to the form of the	25	BY MS. PARFITT:
23	MB. BROWN. Objection to the form of the		B1 (46,174,011).
	Page 55		Page 57
1	question.	1	Q I'm not asking you about the adequacy of
2	THE WITNESS: It has a line called	2	the warning. I'm asking you about your expertise
3	"Ingredients," which says "Talc, fragrance."	3	as a pulmonary medicine expert with regard to
4	BY MS. PARFITT:	4	inhalation issues as contained on the back of that
5	Q Okay. Dr. Diette, you've been retained	5	product.
6	by Johnson & Johnson since when, for purposes of	6	A It still wouldn't make any sense. I
7	the ovarian cancer cases?	7	wouldn't be the person to ask that to.
8	MS. BROWN: Objection. Form. Do you	8	Q Dr. Diette, whether or not it makes
9	mean the Ingham case or do you mean the MDL?	9	sense to you or not, my question is simply this:
10	BY MS. PARFITT:	10	Yes or no, has Johnson & Johnson asked your
11	Q Well, let me clarify.	11	opinion at any point in time with regard to what
12	When were you first it's a fair	12	kind of scientific and medical information should
13	question when were you first retained by	13	be on the back of their powder?
14	Johnson & Johnson to represent them in either	14	MS. BROWN: Objection. Answered three
15	mesothelioma cases or ovarian cancer cases?	15	times.
	MS. BROWN: Objection to the form. He	16	THE WITNESS: They and everybody else in
16			the world has not asked me to do anything like
		17	the world has not asked the to do anything like

17 18 19 20 21 22 23 24	is an expert witness on behalf of Johnson & Johnson. He is not here representing anyone.  THE WITNESS: That honestly sounds like Ms. Brown's job, I mean, but but I guess to try to answer your question, the I was first asked to review the epidemiology in 2017.  BY MS. PARFITT:  Q Okay. And was that the first time that	18 19 20 21 22 23 24	that ever.  BY MS. PARFITT:  Q Okay. And they, Johnson & Johnson, has never asked you to your opinion with regard to the inhalation warning; is that correct?  MS. BROWN: Objection. Counsel, we've been through this like six times.
17 18 19 20 21 22 23	is an expert witness on behalf of Johnson & Johnson. He is not here representing anyone.  THE WITNESS: That honestly sounds like Ms. Brown's job, I mean, but but I guess to try to answer your question, the I was first asked to review the epidemiology in 2017. BY MS. PARFITT:	18 19 20 21 22 23	that ever. BY MS. PARFITT: Q Okay. And they, Johnson & Johnson, has never asked you to your opinion with regard to the inhalation warning; is that correct? MS. BROWN: Objection. Counsel, we've

	Page 58		Page 60
1	warning we're talking about, right?	1	you have who have a different opinion with regard
2	BY MS. PARFITT:	2	to the causality of talcum powder products and
3	Q The one that's on the back, yeah.	3	ovarian cancer?
4	A So it's still still the same.	4	MS. BROWN: Objection to the form.
5	Q Okay. And just for the record, we're	5	THE WITNESS: Well, I've seen like, for
6	going to put on the ELMO thank you. Just go	6	example, the expert reports that are that are
7	ahead and see if we can get that on there. Okay.	7	part of this matter and some of the deposition
8	(Counsel conferring.)	8	transcripts. So so, yes, I mean I've seen what
9	BY MS. PARFITT:	9	they've said.
10	Q And again, for clarity of the record,	10	BY MS. PARFITT:
11	what we've been talking about is on the child	11	Q Okay. And from your review of those
12	with the X over the nose and mouth and the warning	12	expert reports, do you understand that many of
13	that is to the far right, correct?	13	those scientists and epidemiologists are
14	MS. BROWN: Objection to the form.	14	individuals who treat women who have been
15	THE WITNESS: I was with you until you	15	diagnosed for ovarian cancer? Do you understand
16	said "to the far right." I don't know	16	that?
17	BY MS. PARFITT:	17	MS. BROWN: Objection. Lacks
18	Q To the right of the baby.	18	foundation, calls for speculation.
19	A Oh, I see. I'm sorry.	19	THE WITNESS: So I saw that there were
20	Q Yeah, no problem.	20	some GYN oncologists involved. I don't remember
21	A Yeah. No, that's	21	the count of them, but I saw there were GYN
22	Q That's what we're talking about.	22	oncologists, both on the defense and the
23	A It's to the right of the baby, yeah.	23	plaintiffs' side.
24	Q Okay. Very good. All right.	24	BY MS. PARFITT:
25	Dr. Diette, as a scientist and a	25	Q Okay. And the GYN oncologists would be
	Page 59		Page 61
1	clinician, do you have a belief or opinion that	1	the practice of medicine that treats women for
2	women should be informed of even a potential risk	2	reproductive diseases and cancers like ovarian
3	of using talcum powder products on their genital	3	cancer, correct?
4	area?		
	area:	4	MS. BROWN: Objection.

1	treat and care for women treat and care and	1	that.
2	provide gynecological and oncological care to	2	BY MS. PARFITT:
3	women who have been diagnosed with ovarian cancer?	3	Q Okay. What is your understanding of the
4	MS. BROWN: Objection to the form.	4	testing that's been performed by Johnson & Johnson
5	THE WITNESS: Mostly, no, although	5	on their talcum powder products?
6	I'll just there was a lot in your question,	6	MS. BROWN: Objection. That's overly
7	right, so that	7	broad.
8	BY MS. PARFITT:	8	THE WITNESS: Well, like the type
9	Q You want me to break it down?	9	MS. BROWN: You mean internal, external,
10	MS. BROWN: Let him finish first, and	10	third party, FDA?
11	then you can follow up. He has to be allowed to	11	BY MS. PARFITT:
12	answer your question.	12	Q Do you understand the question?
13	MS. PARFITT: Oh, absolutely, but if	13	A I was actually going to say something
14	it's unclear that was one of the	14	similar to what Ms. Brown said but less
15	THE WITNESS: I didn't say it was	15	sophisticated.
16	unclear. I just said it it's complicated, so	16	I mean what I meant was, were you asking
17	there's more than it's not just a simple	17	about like the kinds of tests that were done or
18	answer.	18	or things of that sort? I just I just know,
19	MS. PARFITT: Let me withdraw the	19	generally speaking, that there has been testing
20	question.	20	done.
21	MS. BROWN: Wait, Counsel, he's not	21	Q Sure. Let me make it very simple.
22	done.	22	Are you aware of studies strike that.
23	Dr. Diette, you finish your answer, and	23	Have you seen studies done by Johnson &
24	then counsel, of course, will follow up.	24	Johnson that tested and evaluated their talcum
25	BY MS. PARFITT:	25	powder products for the presence of asbestos?
			powers products for the presence of acceptable.
	Page 63		Page 65
1	Q Okay. Go ahead.	1	MS. BROWN: Same objection.
2			
	A Thank you.	2	THE WITNESS: I don't think I've seen
3	A Thank you. Q Sure.	3	THE WITNESS: I don't think I've seen anything from Johnson & Johnson, per se.
3 4			
	Q Sure.	3	anything from Johnson & Johnson, per se.
4	<ul><li>Q Sure.</li><li>A So, you know, I wouldn't be the person</li></ul>	3 4	anything from Johnson & Johnson, per se.  Is that what is that what you're
4 5	Q Sure.  A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the	3 4 5	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?
4 5 6	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. Part of my work is as an intensive care	3 4 5 6	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?  BY MS. PARFITT:
4 5 6 7	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. Part of my work is as an intensive care doc in the oncology center, and so I'll see people	3 4 5 6 7	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?  BY MS. PARFITT:  Q That is, yes.
4 5 6 7 8	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. Part of my work is as an intensive care doc in the oncology center, and so I'll see people with every kind of cancer possible and provide	3 4 5 6 7 8	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?  BY MS. PARFITT:  Q That is, yes.  A Okay. Then not not that I'm aware
4 5 6 7 8 9	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. Part of my work is as an intensive care doc in the oncology center, and so I'll see people with every kind of cancer possible and provide some of the care to them.	3 4 5 6 7 8	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?  BY MS. PARFITT:  Q That is, yes.  A Okay. Then not not that I'm aware of.
4 5 6 7 8 9	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. Part of my work is as an intensive care doc in the oncology center, and so I'll see people with every kind of cancer possible and provide some of the care to them.  I see people in my clinic that have, you	3 4 5 6 7 8 9	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?  BY MS. PARFITT:  Q That is, yes.  A Okay. Then not not that I'm aware of.  Q All right. I saw where you looked at
4 5 6 7 8 9 10	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. Part of my work is as an intensive care doc in the oncology center, and so I'll see people with every kind of cancer possible and provide some of the care to them.  I see people in my clinic that have, you know, pulmonary consequences of some of their	3 4 5 6 7 8 9 10	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?  BY MS. PARFITT:  Q That is, yes.  A Okay. Then not not that I'm aware of.  Q All right. I saw where you looked at the depositions of Drs. Longo and Rigler.
4 5 6 7 8 9 10 11	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. Part of my work is as an intensive care doc in the oncology center, and so I'll see people with every kind of cancer possible and provide some of the care to them.  I see people in my clinic that have, you know, pulmonary consequences of some of their treatment for ovarian cancer. And so it's it's	3 4 5 6 7 8 9 10 11	anything from Johnson & Johnson, per se.  Is that what is that what you're referring to?  BY MS. PARFITT:  Q That is, yes.  A Okay. Then not not that I'm aware of.  Q All right. I saw where you looked at the depositions of Drs. Longo and Rigler.  MS. BROWN: Objection to the form.
4 5 6 7 8 9 10 11 12 13	Q Sure. A So, you know, I wouldn't be the person who prescribes chemotherapy or provides the surgery. 	Page 66		Page 68
1	me one second. I apologize here.	1	Q But my question
2	Okay. It's your reference materials	2	MS. PARFITT: And noted.
3	reviewed and considered start on or in	3	BY MS. PARFITT:
4	Appendix B of your report.	4	Q My question to you is, sitting here
5	Do you see that?	5	today, what I need to know and if it's no,
6	A I don't see Longo and Rigler.	6	that's a fine answer. If it's yes, that's a fine
7	Q Okay. At the very top, it has	7	answer.
8	"Materials Reviewed and Considered by Gregory	8	Have you read the expert report of
9	Diette," and the second item under "Expert	9	Drs. Longo and Rigler dated November 14, 2018?
10	References" says "Expert report of William Longo	10	If you did, I'm not I'm not
11	and Mark Rigler."	11	MS. BROWN: Objection to the form. I
12	Do you see that?	12	think he answered that.
13	A Oh, I do, yeah. So I see Longo, and I'm	13	Counsel, I think what you're really
14	just	14	after is, is he relying on that to form his
15	Q Do you see Rigler? He's right after	15	opinion.
16	that. It says William	16	MS. PARFITT: Actually, I'm not. That's
17	A Oh, got you.	17	a good question, but I'm not asking that.
18	MS. BROWN: Counsel, these are reports.	18	BY MS. PARFITT:
19	I thought your question was about a deposition.	19	Q Did you read the report?
20	MS. PARFITT: That's a that's a fair	20	A So I I'm not sure if I read this one
21	objection.	21	with this particular date.
22	BY MS. PARFITT:	22	Q That's fine.
23	Q Have you read the expert report of	23	A But wait, wait. But, you know, if
24	William Longo and Mark Rigler?	24	it's on here, because that's what it reminds me
25	A So, because I see there's a date on it	25	of, I don't have a specific memory for this matter
	•		
	Page 67		Page 69
1	of November 14th, 2018	1	because I've been reading some of these things for
2	Q Correct.	2	other matters as well. So I you know, I don't
3	A I know I've seen at least a few of	3	remember whether whether I read that particular
4	Dr. Longo's reports, and I I think they're the	4	one, but if it looked like other ones that I had,
5	same over and over again. So I if I if I'm	5	I would have, you know, touched it, opened it,
6	not mistaken, I don't think I would have reread it	6	looked to see what was in there, and then not read
7	like, you know, specifically for this matter if it	7	every word of it. But I don't remember which way
8	looked the same as others. I think I probably	8	it worked.
9	just like flipped through it to see what it was	9	Q Sitting here today, are you able to tell
10	was there generally.	10	me the results of Dr. Longo and Rigler's testing
11	Q All right. So I understand your answer,	11	of Johnson & Johnson's talcum powder products as
12	is your testimony that you don't recall	12	reflected in their expert reports of November 14,
13	specifically reviewing the November 14th, 2018	13	2018?
	annest senset of Dr. Leavels and Dieles	14	MS. BROWN: Objection to the form.
14	expert report of Dr. Longo's and Rigler?		<del>=</del>
15	MS. BROWN: Objection to the form,	15	THE WITNESS: I don't remember the
15 16	MS. BROWN: Objection to the form, misstates his testimony.	15 16	THE WITNESS: I don't remember the details, but I could I could look that up and
15	MS. BROWN: Objection to the form, misstates his testimony.  MS. MILLER: So can I say something?	15	THE WITNESS: I don't remember the details, but I could I could look that up and pull pull out what I saw.
15 16 17 18	MS. BROWN: Objection to the form, misstates his testimony.  MS. MILLER: So can I say something? Because I was involved in that, I think that every	15 16 17 18	THE WITNESS: I don't remember the details, but I could I could look that up and pull pull out what I saw. BY MS. PARFITT:
15 16 17 18 19	MS. BROWN: Objection to the form, misstates his testimony.  MS. MILLER: So can I say something?  Because I was involved in that, I think that every item with respect to litigation that we sent to	15 16 17	THE WITNESS: I don't remember the details, but I could I could look that up and pull pull out what I saw.
15 16 17 18 19 20	MS. BROWN: Objection to the form, misstates his testimony.  MS. MILLER: So can I say something? Q Are you, for purposes of your opinion that you're sharing will share with me today and will share with the court in July, relying on any of the test results of Drs. Longo and Rigler contained in their reports of November 14, 2018?  A Yeah, I think the way I said it is exactly right, because to me "rely on" has some there's some legal connotation for that, right.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A And are you expecting me to to say that that's two different things, or is it just another way of you trying to ask the same question?  Q How do you define "asbestiform fibers"?  MR. LOCKE: Objection.  MS. BROWN: Objection to the form of the question.  THE WITNESS: Well, I I understand some the terminology, but I'm not a mineralogist. Right. So I I can tell you I think I have to diverge a little bit to answer your question, if I can, just to say that unless you don't want me to. Feel free to  MS. BROWN: No, you should answer the question  THE WITNESS: Okay.  MS. BROWN: as honestly and truthfully and accurately as you can.  THE WITNESS: Because asbestos I mean, asbestos in terms of at least its commercial, you know, forms is something that's

Gregory B. Diette, M.D.

	Page 74		Page 76
1	about asbestos, we're talking about a particular	1	would not alter your analysis, and I assume
2	kind of mineral that's in a particular form or	2	opinions, with regard to talcum powder products
3	habit.	3	causing ovarian cancer.
4	And so I I think when you're talking	4	A That's in my report?
5	about an asbestiform fiber, there's some	5	Q Yes.
6	redundancy there in a way, right, which is that	6	A Can we flip to that?
7	that's a description that you could apply to	7	Q Sure. Why don't you go to page 3.
8	something that other people would call asbestos.	8	And if I may, it's at the bottom,
9	BY MS. PARFITT:	9	paragraph 6.
10	Q All right. Fine. Thank you.	10	A I'm with you, yeah.
11	Has Johnson & Johnson provided you with	11	Q Okay. And it says: "To the extent
12	any testing that they performed on their product?	12	plaintiffs' expert opined that asbestos is an
13	MS. BROWN: Objection.	13	accessory mineral present in cosmetic talc that
14	BY MS. PARFITT:	14	causes ovarian cancer, this theory would not alter
15	Q Shower to Shower or Johnson's Baby	15	the analysis because the existing epidemiological
16	Powder.	16	literature regarding talc use would
17	MS. BROWN: Objection.	17	necessarily"
18	THE WITNESS: I don't think I have seen	18	MS. BROWN: You're reading it
19	anything.	19	MS. PARFITT: Beg your pardon?
20	BY MS. PARFITT:	20	MS. BROWN: You read it wrong. Perineal
21	Q Did you ever ask Johnson & Johnson to	21	talc use.
22	see any of the testing that they performed on	22	MS. PARFITT: Oh, I'm sorry. Perineal.
23	their own talcum powder products?	23	Thank you.
24	MS. BROWN: Objection. Asked and	24	BY MS. PARFITT:
25	answered.	25	Q "perineal talc use would necessarily

A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do
3 4 5 6 7 8 9	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls	2 3 4 5 6 7 8 9	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it
3 4 5 6 7 8 9 10 11 12	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other.	2 3 4 5 6 7 8 9 10 11 12 13	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've
3 4 5 6 7 8 9 10 11 12 13	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other. BY MS. PARFITT:	2 3 4 5 6 7 8 9 10 11 12 13 14	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum
3 4 5 6 7 8 9 10 11 12 13 14 15	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other.  BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that	2 3 4 5 6 7 8 9 10 11 12 13 14 15	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now.  Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so
3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other.  BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation. THE WITNESS: I don't know one way or the other. BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you? MS. BROWN: Same objections.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation. THE WITNESS: I don't know one way or the other. BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you? MS. BROWN: Same objections. THE WITNESS: Well, if they had, I'd be	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change how to interpret those studies.
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation. THE WITNESS: I don't know one way or the other. BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you? MS. BROWN: Same objections. THE WITNESS: Well, if they had, I'd be aware of it, right? I mean	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change how to interpret those studies.  Is that what you're asking?
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation. THE WITNESS: I don't know one way or the other. BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you? MS. BROWN: Same objections. THE WITNESS: Well, if they had, I'd be	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change how to interpret those studies.  Is that what you're asking? Q Mm-hmm.
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other. BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you? MS. BROWN: Same objections. THE WITNESS: Well, if they had, I'd be aware of it, right? I mean BY MS. PARFITT: Q I would think.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change how to interpret those studies.  Is that what you're asking? Q Mm-hmm. A Okay.
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other. BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you? MS. BROWN: Same objections. THE WITNESS: Well, if they had, I'd be aware of it, right? I mean BY MS. PARFITT: Q I would think. A Yeah. So it has to be no. Yeah.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change how to interpret those studies.  Is that what you're asking? Q Mm-hmm. A Okay. Q Mm-hmm. Is asbestos a carcinogen?
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other.  BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you?  MS. BROWN: Same objections. THE WITNESS: Well, if they had, I'd be aware of it, right? I mean BY MS. PARFITT: Q I would think. A Yeah. So it has to be no. Yeah. Q Okay. You state in your you state in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change how to interpret those studies.  Is that what you're asking? Q Mm-hmm. A Okay. Q Mm-hmm. Is asbestos a carcinogen? A It is.
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q Okay. Dr. Diette, are you aware that there are generic talcum powder products being sold in the marketplace today that contain an ovarian cancer warning for individuals who use it in their genital area?  MS. BROWN: Objection to the form THE WITNESS: I don't MS. BROWN: lacks foundation, calls for speculation.  THE WITNESS: I don't know one way or the other. BY MS. PARFITT: Q Okay. Has Johnson & Johnson shared that information with you? MS. BROWN: Same objections. THE WITNESS: Well, if they had, I'd be aware of it, right? I mean BY MS. PARFITT: Q I would think. A Yeah. So it has to be no. Yeah.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	products used in both studies."  Did I now read that correctly, with counsel's correction?  A Yeah, you're you've got it right now. Q Okay. What do you mean by that statement?  A So what I what I mean generally is that I've reviewed the what I think is the whole epidemiology on the on the topic, and the studies themselves don't break down or don't do analyses of what the talcum powder is or what it consists of. So to the extent that they've studied talcum powder, to me whatever is in talcum powder is baked into the epidemiology. And so whether asbestos is a fact that it's in there or it's a fact that it's not doesn't really change how to interpret those studies.  Is that what you're asking? Q Mm-hmm. A Okay. Q Mm-hmm. Is asbestos a carcinogen?

all over the world, right. And so everything comes down to dose in any case, right. So to be concerned about it, you'd have to show that there's a sufficient dose that a person go in order to raise the risk of whatever it is the you're talking about.  A No.  Q You will not.  Q Have you made an assumption then for purposes of your opinion that Johnson's – that  Johnson & Johnson's talcum powder products do not to contain asbestos?  A I will not.  Q Have you made an assumption then for purposes of your opinion that Johnson's – that  Johnson & Johnson's talcum powder products do not to contain asbestos?  Let I recognize that there's a debate about that, and I don't have the expertise to sort through that ferbate.  Johnson's talcum powder products base to it. Are you with me?  A I am, yeah.  A I am I am product in the right of the right of the products to consumers to use it in their genital areas?  MS. BROWN: Objection. Counsel, that's an incomplete hypothetical. Is that the same tale that is in the epi?  MS. PARFITT:  MS. BROWN: Objection to the incomplete hypothetical.  MS. BROWN: Objection to the incomplete hypothetical.  THE WITNESS: So, anyway, so the needless part, I think — I'm not sure if you need that in your question or whether it changes how I would answer it. I think the general issue is whether or not there's a risk of — did you say "ovarian cancer" in your question?  MS. PARFITT:  MS. BROWN: Objection to the incomplete hypothetical.  THE WITNESS: So, anyway, so the needless part, I think the general issue is whether or not there's a risk of whether there's a danger. And from what I can tell from reading the literature, that there's not a risk of — did you say "ovarian cancer" in your question?  MS. PARFITT:  A I am, yeah.  A I am yeak.  A I fire the world, right And bout that there's a byour's talking about.  BY MS. PARFITT:  BY MS. PARFITT:  Q Please.  A If we're talking about what exists the world right now, I	age 80
Are you going to be giving an opinion in this case that Johnson & Johnson's talcum powder products contain asbestos?  A No. 5 A No. 5 A I will not. 7 A I will not. 7 A I will not. 7 B Q Have you made an assumption then for 9 purposes of your opinion that Johnson's - that 10 Johnson's A Johnson's talcum powder products do not 11 contain asbestos? 11 L - I recognize that there's a debate about that, 12 Johnson & Johnson's talcum powder products do not 12 L - I recognize that there's a debate about that, 13 Johnson's right about that debate. 15 Johnson's right about that debate. 15 Johnson's right about that debate. 15 Johnson's Johnson of Johnson's Johnson of Johnson of Johnson's Johnson of Johnson of Johnson's Johnson's Johnson's Johnson's Johnson of Johnson of Johnson of Johnson's Johnson's Johnson's Johnson's Johnson's Johnson's Johnson's Johnson of Joh	ng
4 products contain asbestos? 5 A No. 6 Q You will not? 7 A I will not. 8 Q Have you made an assumption then for 9 purposes of your opinion that Johnson's that 10 Johnson & Johnson's talcum powder products do not 11 contain asbestos? 12 A I no, I haven't made that assumption. 13 I I recognize that there's a debate about that, 14 and I don't have the expertise to sort through 15 what's right about that debate. 16 Q All right. Assume that Johnson & 17 Johnson's talcum powder products do not 18 would that place consumers that use the product in 19 needless danger? 10 MS. BROWN: Objection. Counsel, that's 21 an incomplete hypothetical. Is that the same tale 22 that's in the epi? 23 BY MS. PARFITT: 24 Q Can you answer the question? 25 MS. PARFITT: And please don't coach the 26 that in your question or whether it changes how I 27 would answer it. I think the general issue is 28 whether or not there's a risk or whether there's a 29 danger. And from what I can tell from reading the 19 literature, that there's not a risk of — did you 11 say "ovarian cancer" in your question? 12 BY MS. PARFITT: 13 Q Correct. 14 A Yeah, I don't see that there's a a 15 risk of ovarian cancer from the literature. 15 PY MS. PARFITT: 16 Q Assume for purposes of my question that 17 Johnson & Johnson's alcum powder products has asbestos in it, would it be imprudent fe to that 18 asbestos in it, would it be imprudent fe to that 19 reasonable for Johnson & Folhnson to sell it at a person ge in order to raise the risk of whatever it is the your diversity in the products has abestos in it, would it be imprudent fe to the sale products to consumers to use it in their genital con their genital areas?  10 Let me ask you this: Assume Johnson to sell that in pour opinics has abestos in it, would it be imprudent fe to that there's a a 11 procedus to consumers to use it in their set on the fire on the represent to you the products to consumers to use it in their set on the fire on the represent to you the products to consumers to use it in t	o for me
5 A No. 6 Q You will not? 7 A I will not. 8 Q Have you made an assumption then for 9 purposes of your opinion that Johnson's -that 10 Johnson & Johnson's talcum powder products do not 11 contain asbestos? 12 A I - no, I haven't made that assumption. 13 I - I recognize that there's a debate about that, 14 and I don't have the expertise to sort through 15 what's right about that debate. 16 Q All right. Assume that Johnson & 17 Johnson's talcum powder products contain asbestos, 18 would that place consumers that use the product in 19 needless danger? 20 MS. BROWN: Objection. Counsel, that's 21 an incomplete hypothetical. Is that the same talc 22 that's in the epi? 23 BY MS. PARFITT: 24 Q Can you answer the question? 25 MS. PARFITT: And please don't coach the 26 MS. BROWN: Objection to the incomplete 27 hypothetical 28 MS. BROWN: Objection to the incomplete 29 hypothetical 30 hypothetical 40 THE WITNESS: So, anyway, so the 41 needless part, I think — I'm not sure if you need 42 that's in over question or whether it changes how I 43 of that in your question or whether it changes how I 44 nowld answer it. I think the general issue is 45 whether or not there's a risk or whether there's a danger. And from what I can tell from reading the literature, that there's an or sick or whether there's a needless part, I think the general issue is 46 whether or not there's a risk or whether there's a danger. And from what I can tell from reading the literature, that there's not a risk of — did you 11 as ay "ovarian cancer" in your question? 12 BY MS. PARFITT: 13 Q Correct. 14 A Yeah, I don't see that there's a - a 15 risk of ovarian cancer from the literature. 15 Q Assume for purposes of my question that 16 Q Assume for purposes of my question that 17 Johnson & Johnson & Johnson to sell that 18 asbestos in it, would it be imprudent ft or the portugation of the products has asbestos in it, would it be imprudent ft is a factor to a factor in the its and the products to a factor in the ireas and is here to talk about?  18 With the s	ow me
6 Q You will not? 7 A I will not. 8 Q Have you made an assumption then for 9 purposes of your opinion that Johnson's that 9 Johnson's form of 10 Johnson's form of 11 contain asbestos? 11 Contain asbestos? 12 A I — no, I haven't made that assumption. 13 I — I recognize that there's a debate about that, 13 Johnson's talcum powder products has asbe 14 Johnson & Johnson & Johnson to sell its lateur powder products consumers to use it in their 15 what's right about that debate. 15 what's right about that debate. 16 Q All right. Assume that Johnson & 16 Johnson & Johnson to sell its lateur powder products consumers to use it in their 17 genital — on their genital areas? 16 Q All right. Assume that Johnson & 16 Johnson & Johnson talcum powder products contain asbestos, 17 would that place consumers that use the product in 18 needless danger? 19 MS. BROWN: Objection. Counsel, that's 20 MS. BROWN: Objection. Counsel, that's 21 an incomplete hypothetical. Is that the same tale 21 that's in the epi? 22 that's in the epi? 22 that's in the epi? 23 BY MS. reasonable for Johnson & Johnson to sell that 19 you aware of that?	
21 MS. BROWN: Objection to the incomplete 21 Q Okay. And the deposition that wa	was taken
hypothetical. 22 of Dr. Nicholson was a deposition that was	
23 THE WITNESS: So I think, you know, it 23 wherein she we call it a 30(b)(6). That	
24 isn't a yes or no, right? I mean, because it's 24 she represents the voice of the company the	
25 if you're talking about asbestos, there's asbestos 25 works for. Understand?	1111 SHC
works for. Oligorstatic:	

	Page 82		Page 84
1	MS. BROWN: Objection to the form of the	1	Q Okay. At the top, if I may, it says
2	question.	2	line 2: "Well" and I'll represent to you that
3	THE WITNESS: I understand what you	3	I was one of the attorneys that took
4	said. I don't know what I if I understand what	4	Dr. Nicholson's deposition.
5	that means.	5	The question is: "Well, if your
6	MS. PARFITT: Okay. All right. Let me	6	products contain asbestos, would you agree with me
7	have marked as Exhibit I believe it's	7	that that impacts the safety of the product?"
8	Exhibit No. 6 that we're on.	8	Answer: "Absolutely, yes."
9	(Diette Exhibit No. 6 was marked	9	Next question: "Would you agree that
10	for identification.)	10	Johnson & Johnson has a zero tolerance policy with
11	MS. BROWN: And, Counsel, if you're	11	regard to having asbestos in their talcum powder
12	going to ask him questions about Dr. Nicholson's	12	products?"
13	deposition that he has not reviewed, we need to at	13	The answer: "Yeah, that is correct."
14	least have a full copy of the deposition here.	14	Next question: "In fact, as a
15	Thanks.	15	representative of the company, it's your position
16	MS. PARFITT: I believe you have	16	that your Johnson & Johnson's talcum powder
17	MS. BROWN: And you should take as long	17	products should not contain asbestos; is that
18	as you need to review it to answer any questions	18	correct?"
19	counsel might have.	19	"That's correct that is correct."
20	MS. PARFITT: Okay. And, Counsel, I'll	20	Next question: "And you would agree
21	get you that I don't have a copy	21	with me that if your talcum powder products had
22	MS. BROWN: We have I mean your	22	asbestos in them, it would place the consumers
23	colleague just	23	that use your product in needless danger,
24	MS. PARFITT: We have just one. I'm	24	correct?"
25	just saying we just have one. I don't have one	25	"It could, yes."
	Page 83		Page 85
1	for you.	1	Next question on page 48 of that same
2	MS. BROWN: As long as the doctor has	2	deposition
3	time to review it you know he hasn't seen this	3	MS. BROWN: Counsel, I'm sorry, but your
4	before. If you're going to ask him questions	4	pages are not matching up to what we've been
5	about it, he needs to read it.	5	handed. Can you just direct us and we're in
6	MS. PARFITT: Just one.	6	the snippet you gave us, I can't find this.
7	BY MS. PARFITT:	7	THE WITNESS: I don't have 48. Mine
8	Q Dr. Nich or Dr. Diette, let me	8	goes to 41.
9	direct your attention to page 37.	9	MS. BROWN: Yeah, mine says 37, 37, 37.
10	A Okay.	10	THE WITNESS: Maybe here in the whole
11	Q And specifically line 2, and let me read	11	thing?
12	it. We'll put it up on the ELMO.	12	MR. HEASLIP: And mine is 46 through 53.
13	MS. BROWN: Counsel, while you're doing	13	MS. PARFITT: Okay.
14	that, I'm going to object to taking one page out	14	MS. BROWN: This is not what you're
	of Dr. Nicholson's deposition that the doctor has	15	reading, so it's impossible to follow.
15		T. Contract of the Contract of	
15 16	not reviewed and asking questions out of context.	16	Were you able to follow that, Doctor?

	Page 86		Page 88
1	questions?	1	Did I read all that correctly?
2	MS. BROWN: But, Counsel, that's not	2	A You did.
3	even a transcript. What is that?	3	Q All right. Do you so you disagree
4	MS. PARFITT: It's	4	with Dr. Nicholson; is that correct?
5	MS. MILLER: How are you going to mark	5	MS. BROWN: Objection to the form.
6	that as an exhibit?	6	MR. LOCKE: Objection.
7	MS. PARFITT: I'm going to put an	7	MS. BROWN: Misstates his testimony.
8	exhibit sticker on it, and I'm going to put it in	8	THE WITNESS: I don't I don't agree
9	as representative pages from the Nicholson	9	or disagree. I mean, I I honestly don't know
10	deposition.	10	who she is other than what you just said. But
11	MS. BROWN: Can he find it in the large	11	but it sounds like she's articulating a policy for
12	copy?	12	the company, which I think is her right her
13	MR. ROSEN: Would you mind passing	13	right to do that and to express those opinions.
14	back Exhibit 6 that we handed	14	BY MS. PARFITT:
15	THE WITNESS: Oh. This is all of your	15	Q Okay. All right.
16	36's. That's a whole bundle of the same thing.	16	Okay. Now, counsel provided for us in
17	But I would like to get the 36-page	17	advance of this deposition a copy of your CV. So
18	back	18	let me
19	MS. PARFITT: Sure.	19	THE WITNESS: Would it would it be a
20	THE WITNESS: if we're going to talk	20	good time just to refill coffee? Is that okay?
21	about it.	21	MS. PARFITT: Sure. And I should have
22	MS. PARFITT: Absolutely. I want you to	22	said that. Any time you need a break
23	have actually 37, and you need here we go.	23	THE WITNESS: No, I know.
24	MS. BROWN: This is the complete set?	24	MS. PARFITT: you holler.
25	MS. PARFITT: Yes, I'm assuming.	25	THE WITNESS: Thank you. I appreciate
	Mo. 11114 111. 100, 111 usouming.		, , , , , , , , , , , , , , , , , , ,
	Page 87		Page 89
1	MS. BROWN: You have that in front of	1	that.
2	you?	2	MS. PARFITT: You're very welcome.
3	THE WITNESS: I do.	3	THE VIDEOGRAPHER: The time is 10:07
4	BY MS. PARFITT:	4	p.m. We're going off the record.
5	Q And, Dr. Diette, if you have any trouble	5	(Recess.)
6	reading any of that or you can also look up on	6	THE VIDEOGRAPHER: The time is
7	the ELMO that's being displayed.		
_		7	10:20 a.m., and we're back on the record.
8	MS. BROWN: Thank you.	7 8	10:20 a.m., and we're back on the record. BY MS. PARFITT:
9			
	MS. BROWN: Thank you.	8	BY MS. PARFITT:
9	MS. BROWN: Thank you. MS. PARFITT: Okay. Yeah, sorry.	8 9	BY MS. PARFITT:  Q Dr. Diette, are you still
9 10	MS. BROWN: Thank you.  MS. PARFITT: Okay. Yeah, sorry. BY MS. PARFITT:	8 9 10	BY MS. PARFITT:  Q Dr. Diette, are you still THE VIDEOGRAPHER: Microphone, Counsel.
9 10 11	MS. BROWN: Thank you. MS. PARFITT: Okay. Yeah, sorry. BY MS. PARFITT: Q Again, page 48, line 14.	8 9 10 11	BY MS. PARFITT:  Q Dr. Diette, are you still  THE VIDEOGRAPHER: Microphone, Counsel. BY MS. PARFITT:

Would the presence of asbestos in talcum powder products provide biologically plausible

	Page 90		Page 92
1	MS. BROWN: Objection to the form of the	1	papers that have been either accepted or published
2	question.	2	since then. There's probably some talks and
3	THE WITNESS: You would have to qualify	3	things. The the grant award section I'm sure
4	it, right, because I if you're talking about	4	needs updating.
5	like even like, you know, one fiber or	5	Q Okay. It looks, on the far right of
6	something would be quite different than if there's	6	that CV, that it's got a June 2017 date; is that
7	a sufficient amount in order to to cause a	7	correct?
8	disease, right. So it it always comes down to	8	A It is.
9	dose in terms of what you're talking about.	9	Q All right. Has there been a curriculum
10	So it's all by itself, I don't think	10	vitae prepared by you since June of 2017?
11	that that question is answerable.	11	A No.
12	BY MS. PARFITT:	12	Q All right. Where would I get these
13	Q Can one fiber of asbestos alone cause	13	additional articles and speeches? Do you have
14	cancer?	14	them in a contained in one particular place?
15	MS. BROWN: Objection to the form.	15	A No. Where where you could get the
16	THE WITNESS: It's it's so impossible	16	articles would be on PubMed, and if you just did a
17	to think that it would, because we all have	17	PubMed search with my name, you would find them
18	asbestos in our lungs, and there's a background	18	all.
19	amount of asbestos in the world that if one fiber	19	For speeches, I don't actually have a
20	could do it, I think we would all have cancer. So	20	repository, so it's going to take me some work to
21	I I think somebody could say that, but I don't	21	actually sort of populate that part of the CV.
22	think it would be true.	22	Q Are you do you have any intention of
23	BY MS. PARFITT:	23	updating your CV?
24	Q You certainly don't think it's true; is	24	A Yes. Can I give you an extra sentence
25	that correct?	25	or two?
	Page 91		Page 93
1	Page 91  A Oh, for sure, yeah.	1	Page 93 Q Sure.
1 2		1 2	
	A Oh, for sure, yeah.		Q Sure.

This is an iterative exercise over time. So it's I mean, me in the sense, although not as the person, you know, typing the words, but it's you know, it's my my information on here. And I've had different administrative assistants who have who have helped to sort of shape it.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q Sure. A Okay. So I sure want to. The stakes are low for me at this point. This is our Department of Medicine format CV, which we use for promotion purposes, for the most part. I've been promoted to professor, which there's no other rank to get promoted to. And so it's not really that urgent for me to to change that.  Then on top of that, my administrative assistant went out on maternity leave, and then I didn't want to swamp her with this when she came back.  Q That was nice. A And literally just last week, she took a new job, a better job but in a different place. So long answer, yeah, I want to, but it's not going to happen really soon. Q Okay. So your current academic
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A Oh, for sure, yeah. Q Okay. Let me mark at this time a copy a copy of your curriculum vitae, and we'll have it marked as exhibit Exhibit 7. (Diette Exhibit No. 7 was marked for identification.) BY MS. PARFITT: Q Do you have that in front of you? A I do. Q Okay. Who prepared that curriculum vitae? A Well, not one person. This is an iterative exercise over time. So it's I mean, me in the sense, although not as the person, you know, typing the words, but it's you know, it's my my information on here. And I've had different administrative assistants who have who have helped to sort of shape it. Q Is it current? A No.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q Sure. A Okay. So I sure want to. The stakes are low for me at this point. This is our Department of Medicine format CV, which we use for promotion purposes, for the most part. I've been promoted to professor, which there's no other rank to get promoted to. And so it's not really that urgent for me to to change that.  Then on top of that, my administrative assistant went out on maternity leave, and then I didn't want to swamp her with this when she came back.  Q That was nice. A And literally just last week, she took a new job, a better job but in a different place. So long answer, yeah, I want to, but it's not going to happen really soon. Q Okay. So your current academic appointment at Johns Hopkins University, is that a professor of medicine, is that correct, Division
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A Oh, for sure, yeah. Q Okay. Let me mark at this time a copy a copy of your curriculum vitae, and we'll have it marked as exhibit Exhibit 7. (Diette Exhibit No. 7 was marked for identification.) BY MS. PARFITT: Q Do you have that in front of you? A I do. Q Okay. Who prepared that curriculum vitae? A Well, not one person. So your current academic appointment at Johns Hopkins University, is that a professor of medicine, is that correct, Division of Pulmonary and Critical Care?

1 A And sleep, yeah. 2 Q All right. Are you still within the 3 Department of Fipidemiology? 4 A Yes. 5 Q All right. Are you still an associate professor of medicine in epi and environmental health? 5 Q All right. Are you still an associate professor of medicine in epi and environmental health? 6 A No, that's a typo somewhere. I don't know where you saw that, but - od, probably in my report. But, no, l'm - the professor fabel carries across all the - the different entities. 12 Q So you're no longer an associate professor. 13 professor. 14 A Right. Professor of whatever it is that professor fabel carries across all the - the different entities. 15 Pm a professor of. 16 Q All right. Your board certification is in purpolation of the professor of professor of whatever it is that in the professor of professor. 16 Q All right. Your board certification is in purpolation of the professor of professor of whatever it is that in the professor of professor of professor of whatever it is that in the professor. 16 Q All right. Now that member of the American in the professor of whatever it is that it is correct. 15 Pm a professor of whatever it is that it is correct. 20 A No. 21 College of Epidemiology, correct? 22 A No. 23 Q Your undergraduate degree was in engage of Epidemiology, correct? 24 English? 25 A English and economics.  26 A So Bay Shape and professor of whatever it is that correct? 27 A Well, it was in epidemiology. 28 A Well, it was in epidemiology. 39 A Well, it was in epidemiology. 40 Q Okay. Let me s		Page 94		Page 96
2 Q All right. So if someone were going on 3 Department of Epidemiology? 4 A Yes. 5 Q All right. Are you still an associate 5 professor of medicine in epi and environmental 6 health? 8 A No, that's a typo somewhere. I don't 9 know where you saw that, but oh, probably in my 10 report. But, no, f.m the professor label 11 carries across all the the different entities. 12 Q So you're no longer an associate 13 professor. 14 A Right. Professor of whatever it is that 15 I'm a professor of. 16 Q All right. Your board certification is 17 in pulmonary and critical care? 18 A It's in internal medicine and pulmonary 19 medicine. 20 Q You're not a member of the American 21 College of Epidemiology, correct? 22 A No. 23 Q Your undergraduate degree was in 24 English? 25 A English and economics.  Page 95 1 Q Okay. And then post-medicia school, you 27 received a MHS in public health, and that's not what mine 28 was called. 29 Q Okay. Let me show you what we'll have 29 marked as the Johns Hopkins Medicine website as 20 kan a repidemiology. 20 Gokay. Let me show you what we'll have 21 mass a repidemiology. 22 mass a repidemiology. 23 Q Okay. Let me show you what we'll have 24 Q Okay. Let me show you what we'll have 25 mass a repidemiology. 26 G All right. Do you have that in front of 27 Q All right. Do you have that in front of 28 you? 29 You're not a member of the American 20 Q Okay. Let me show you what we'll have 21 mass a repidemiology. 22 medicine. 23 Q Okay. Let me show you what we'll have 24 Q Okay. Let me show you what we'll have 25 mass a flow in the professor and find a 26 degree in public health, and that's not what mine 27 mass a repidemiology of a received a Branchia short was called. 28 Q Okay. Let me show you what we'll have 29 mass a flow in the professor and reproduced and all kinds of things, but I don'tI 29 don't know what the format is for this. Like I don't know what the format is for this. Like I don't know what the format is for this. I ske I 29 Q All right. Do you have that in front of 29 Q A	1	A And sleep, yeah.	1	hospital as well.
Department of Epidemiology?  A Yes.  Q All right. Are you still an associate professor of medicine in epi and environmental professor of medicine carries across all the — the different entities.  Q All right. Is — it reads: "Expertise: Q All right. Is — it reads: "Expertise: Q All right. Is — it reads: "Expertise: Q C(OPP), pulmonary" — excuse me — "pulmonary disease, and critical care medicine, pulmonary of disease, and critical care medicine."  A Right. Professor of whatever it is that 14 A It is correct.  A Right. Professor of whatever it is that 15 Ima professor of whatever it is that 16 Ima professor of whatever it is that 17 in pulmonary and critical care?  A If in infermal medicine and pulmonary medicine.  Q You're not a member of the American College of Epidemiology, correct?  A No.  Q Your undergraduate degree was in English?  A English and economics.  Page 95  Page 95  1 Q Okay. And then post-medical school, you received a MHS in public health; is that correct?  A Well, it was in epidemiology.  A We	2		2	
4 Yes. Q All right. Are you still an associate brofessor of medicine in epi and environmental health? A I do. A No, thar's a typo somewhere. I don't report. But, no, I'm - the professor label curries across all the - the different entities. Q So you're no longer an associate professor. A Right. Professor of whatever it is that I'm a professor of. Q All right. Your board certification is in pulmonary and critical care? A No. Q You're not a member of the American College of Epidemiology, correct? A No. Q You not a member of the American College of Epidemiology, correct? A Reglish and economics.  Page 95 Q Okay. And then post-medical school, you received a MHS in public health; is that correct? A No. Q Okay. And then post-medical school, you received a MHS in public health; is that correct? A No. I Q Okay. And then post-medical school, you was acalled. Q Okay. Let me show you what we'll have marked as the Johns Hopkins Medicine website as - MS. PARFITT: MS. BROWN: So this looks like some kind of place that somebody could go and find a call-in number to get an appointment for - for a doctor. Q Okay. Let me show you what we'll have marked as the Johns Hopkins Medicine website as - MS. PARFITT: Q All right. Now, this is for the Johns Q All right. Now, this is for the John	3		3	
5 sec. And look over to the far right, and it has 6 professor of medicine in epi and environmental 7 health? 8 A No, that's a typo somewhere. I don't 8 know where you saw that, but oh, probably in my 10 report. But, no, I'm the professor label 11 carries across all the the different entities. 12 Q So you're no longer an associate 13 professor. 14 A Right. Professor of whatever it is that 15 I'm a professor of. 16 Q All right. Your board certification is 16 in pulmonary and critical care? 17 A I is correct. 18 A I's in internal medicine and pulmonary 18 medicine. 20 Q You're not a member of the American 21 College of Epidemiology, correct? 22 A No. 23 Q Your undergraduate degree was in 24 English and economics. 25 Page 95 26 A English and economics. 27 Q Okay. And then post-medical school, you received a MIRS in public health, is that correct? 2 A I only just say that because there is a degree in public health, is that correct? 2 A I only just say that because there is a degree in public health, and that's not what mine was called. 3 Q Okay. Let me show you what we'll have marked as the Johns Hopkins Medicine website as 2 MS. BROWN: 8 3 Page 97 4 Q Okay. Let me show you what we'll have marked as the Johns Hopkins Medicine website as 3 MS. BROWN: 8 4 (Diette Eshibit No. 8 was marked for identification.) 5 Page 97 5 Q All right. Now, this is for the Johns 6 Q Okal Iright. Now, this is for the Johns 7 Q All right. Now, this is for the Johns 8 Professor of whatever it is that to orrect or medical enterty? 9 A I do. 9 Q All right. Now, this is for the Johns 10 Q All right. Now, this is for the Johns 11 Hopkins Medical School, is that correct, or medical enterty? 12 Most Row Wash and that's not what mine was called. 13 Page 97 14 (Diette Eshibit No. 8 was marked for identification.) 15 page 97 16 page 97 17 page 97 18 page 97 19 A I do. 9 All right. 1	Health, this is the type of information they would	1	patients who come to you are experiencing?
2	receive, Dr. Diette.	2	MS. BROWN: Objection to the form.
3	Look down at the "Overview." Do you see	3	THE WITNESS: And I'll do my best, and
4	that?	4	then if it's not what you're looking for, please
5	A I do.	5	just ask me to clarify.
6	Q Okay. It says	6	I I see probably, you know, almost
7	MS. PARFITT: Let's get that up on the	7	every single kind of medical problem there is
8	ELMO.	8	because I I attend in so many different
9	BY MS. PARFITT:	9	locations within the Hopkins system. So meaning
10	Q All right. Do you see under "Overview,"	10	that I do work in the intensive care unit where
11	it says: "My research focuses on identifying	11	it's every kind of medical problem you could
12	factors that cause or provoke asthma. We have	12	imagine, it just happens to be the sickest of the
13	been interested especially in air pollutants,"	13	sick. So it could be any any organ system, or
14	parens, "particulate matter, NO2, secondhand	14	not even an organ system, but all sorts of
15	smoke," close parens, "and allergens," parens,	15	illnesses.
16	"including mouse," close parens, "that are	16	In the pulmonary clinic, I see I
17	especially problematic in inner city homes. We	17	certainly see people with asthma and COPD, but I
18	are studying the effects of these pollutants and	18	see pretty much any kind of pulmonary disease and
19	allergens on inflammation and oxidative stress.	19	get referrals for things that aren't pulmonary
20	More recently, we have begun examining how dietary	20	diseases. They they may be somebody who's got
21	patterns, especially a Western diet style a	21	a a symptom that turns out not to be a
22	Western-style diet, may increase susceptibility to	22	pulmonary disease.
23	inhalable pollutants and allergens."	23	In the oncology center, when I attend
24	Did I read that correctly?	24	there, I see every kind of cancer patient that at
25	A You did.	25	least that Hopkins sees.
	Page 103		Page 105
1	O Okay And then again under your	1	And then I'm also lucky enough to attend
1 2	Q Okay. And then again, under your	1 2	And then I'm also lucky enough to attend
2	"Research Interests, it states: "Epidemiology of	2	on the general internal medicine service, and so
2 3	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD"	2 3	on the general internal medicine service, and so there it's really everything, it's all comers.
2 3 4	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?	2 3 4	on the general internal medicine service, and so there it's really everything, it's all comers. And so it ranges from basically head-to-toe kind
2	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD? A Chronic obstructive pulmonary disease.	2 3 4 5	on the general internal medicine service, and so there it's really everything, it's all comers. And so it ranges from basically head-to-toe kind of medicine.
2 3 4 5	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then	2 3 4	on the general internal medicine service, and so there it's really everything, it's all comers. And so it ranges from basically head-to-toe kind of medicine. BY MS. PARFITT:
2 3 4 5 6 7	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health	2 3 4 5 6	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in
2 3 4 5 6	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities."	2 3 4 5 6 7	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I
2 3 4 5 6 7 8	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health	2 3 4 5 6 7 8	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?
2 3 4 5 6 7 8 9	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities."  Did I read that correctly?	2 3 4 5 6 7 8	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I
2 3 4 5 6 7 8 9	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities."  Did I read that correctly? A You did.	2 3 4 5 6 7 8 9	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive
2 3 4 5 6 7 8 9 10	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities." Did I read that correctly? A You did. Q All right. Does that represent some of your research interests?	2 3 4 5 6 7 8 9 10	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.
2 3 4 5 6 7 8 9 10 11	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities."  Did I read that correctly? A You did. Q All right. Does that represent some of your research interests? A It does represent some.	2 3 4 5 6 7 8 9 10 11 12	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is
2 3 4 5 6 7 8 9 10 11 12 13	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities."  Did I read that correctly? A You did. Q All right. Does that represent some of your research interests? A It does represent some.	2 3 4 5 6 7 8 9 10 11 12 13	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is an outpatient setting. So our intensive care unit
2 3 4 5 6 7 8 9 10 11 12 13 14	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities."  Did I read that correctly? A You did. Q All right. Does that represent some of your research interests? A It does represent some. Q Okay. You are a clinician?	2 3 4 5 6 7 8 9 10 11 12 13 14	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is an outpatient setting. So our intensive care unit is an inpatient setting for critically ill people.
2 3 4 5 6 7 8 9 10 11 12 13 14	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities." Did I read that correctly? A You did. Q All right. Does that represent some of your research interests? A It does represent some. Q Okay. You are a clinician? A True.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is an outpatient setting. So our intensive care unit is an inpatient setting for critically ill people.  BY MS. PARFITT:
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities." Did I read that correctly? A You did. Q All right. Does that represent some of your research interests? A It does represent some. Q Okay. You are a clinician? A True. Q All right. What is the profile of the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is an outpatient setting. So our intensive care unit is an inpatient setting for critically ill people.  BY MS. PARFITT:  Q Okay.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities." Did I read that correctly? A You did. Q All right. Does that represent some of your research interests? A It does represent some. Q Okay. You are a clinician? A True. Q All right. What is the profile of the types of patients that you see in your practice?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is an outpatient setting. So our intensive care unit is an inpatient setting for critically ill people.  BY MS. PARFITT:  Q Okay.  A So you might or might not end up seeing
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. Q "outcomes, environmental," and then it says, "Particulate matter, allergens and health disparities."  Did I read that correctly? A You did. Q All right. Does that represent some of your research interests?  A It does represent some. Q Okay. You are a clinician? A True. Q All right. What is the profile of the types of patients that you see in your practice? MS. BROWN: Form.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is an outpatient setting. So our intensive care unit is an inpatient setting for critically ill people.  BY MS. PARFITT:  Q Okay.  A So you might or might not end up seeing me, because if we're the way that the program
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	"Research Interests, it states: "Epidemiology of lung diseases, asthma, COPD" And what's COPD?  A Chronic obstructive pulmonary disease. What is the profile of the types of patients that you see in your practice? MS. BROWN: Form. THE WITNESS: You want me to just take a stab at it? Because I'm not sure is profile MS. BROWN: If you don't understand the question, I'm sure counsel will clarify it. MS. PARFITT: I will, sure.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	on the general internal medicine service, and so there it's really everything, it's all comers.  And so it ranges from basically head-to-toe kind of medicine.  BY MS. PARFITT:  Q Okay. Now, if I arrived at for in I guess you said the intensive care clinic, and I had a gynecological problem, would I see you?  MS. BROWN: Objection to the form.  THE WITNESS: So there's no intensive care clinic, just to be clear. Like a clinic is an outpatient setting. So our intensive care unit is an inpatient setting for critically ill people.  BY MS. PARFITT:  Q Okay.  A So you might or might not end up seeing me, because if we're the way that the program works is that so, for example, if somebody is pregnant, just giving an example, if it's an early pregnancy, then those patients would end up in our medical ICU. If it's a later pregnancy, then they would go to the the obstetrics unit to their

	Page 106		Page 108
1	not you were in our our unit or not.	1	certainly interested in pollutants.
2	Q So if I came in with a gynecological	2	Q Okay. And more recently, you've
3	problem, they might call you you, who are a	3	expressed a research interest in dietary patterns
4	pulmonologist, they might call you in to consult	4	particularly, and especially a Western diet and
5	with me?	5	how that might increase susceptibility to
6	MS. BROWN: Objection to the form of the	6	inhalable pollutants; is that correct?
7	question and the tone.	7	A True.
8	THE WITNESS: Well, I am picking up the	8	MS. BROWN: Form.
9	tone, which I which I think I mean, I know	9	BY MS. PARFITT:
10	you're trying to make a point here. And the	10	Q Are you have you published recently
11	question as you asked it is the answer is, of	11	on that?
12	course. But I think what you're trying to get at	12	A I'm sure there's stuff that's come out.
13	is would they have asked me to come deal with	13	Q Well, I only have your CV from 2017, so
14	their pregnancy, for example, and I wouldn't be	14	I'll represent that I'm not seeing something on
15	the person dealing with their pregnancy. I would	15	that CV.
16	be dealing with something else.	16	Is there something you've done recently?
17	BY MS. PARFITT:	17	A Yeah, it's a couple of years ago.
18	Q Okay. All right. Is it fair to say	18	Q Okay.
19	that your practice primarily deals with	19	A I mean the best way to find stuff would
20	individuals who have pulmonary and lung disease	20	be on PubMed.
21	conditions?	21	Q All right. You've been retained to
22	MS. BROWN: Objection.	22	serve as an expert for Johnson & Johnson, correct?
23	THE WITNESS: I think if you dial back	23	MS. BROWN: Form.
24	and listen to what I said for those other answers,	24	THE WITNESS: That's correct.
25	you would be pretty clear that it isn't just that.	25	BY MS. PARFITT:
	2 105		7 100
_	Page 107		Page 109
1	BY MS. PARFITT:	1	Q Okay. Do you know what the do you
2	Q Okay. Well, I would include asthma in	2	have an understanding of what the allegations are
3	that as well.	3	against Johnson & Johnson?
4	MS. BROWN: Same objection.	4	MS. BROWN: Objection to the form.
5	THE WITNESS: Well, include it, but I	5	THE WITNESS: Which which ones?
6	mean but, you know, when I'm on the general	6	BY MS. PARFITT:

29 (Pages 110 to 113)

	Page 114		Page 116
1	MS. BROWN: We are complying with it.	1	THE WITNESS: Can you say it again?
2	We're happy to call the Judge.	2	BY MS. PARFITT:
3	MS. PARFITT: So the CMO says that you	3	Q Sure.
4	get to say, "Objection. Form." That's what you	4	A Yeah.
5	get to say.	5	Q Have you ever been provided
6	You have a wonderful opportunity at the	6	gynecological care or treatment for a woman who
7	end of this deposition to ask him as many	7	has been diagnosed with ovarian cancer?
8	questions as you like, but for right now, my time,	8	A So there's just a couple of things
9	my deposition. It's, "Objection. Form." And I	9	there, and I think maybe I heard it wrong.
10	really would appreciate that courtesy. I will	10	Did you say been provided care?
11	give it to you, but I would appreciate getting it	11	Q Have you ever provided
12	back. So	12	A Provided. Okay. I'm sorry. I thought
13	MS. BROWN: And to be clear	13	you said "been provided."
14	MS. PARFITT: No, Counsel, no more	14	Q No, no, no, no.
15	speeches. No more speeches.	15	MS. MILLER: You did say that.
16	MS. BROWN: You just made a speech, and	16	THE WITNESS: I thought it sounded like
17	I'm going to respond	17	did I get care. I was like
18	MS. PARFITT: No more speeches, Counsel.	18	MS. MILLER: You did
19	My deposition.	19	BY MS. PARFITT:
20	MS. BROWN: No, Counsel.	20	Q No, I I don't think you did.
21	MS. PARFITT: Not your deposition.	21	A Yeah, right.
22	BY MS. PARFITT:	22	Q I know, that would have been a very
23	Q Next question I have	23	awkward question, wouldn't it?
24	MS. PARFITT: No more questions,	24	Have you ever provided gynecological
25	Counsel. You want me to depose you?	25	care or treatment for a woman who has been
	Page 115		Page 117
1	MS. BROWN: Counsel, no. You are	1	diagnosed with ovarian cancer?
2	raising your tone.	2	A Sure. And I think it goes back to some
3	MS. PARFITT: Counsel	3	of the things I said before where I see people in
4	MS. BROWN: You are yelling at me.	4	the hospital who have ovarian cancer, and through
5	MS. PARFITT: you know what, I was	5	my training, you know, for medical school and
6	told a little bit earlier nobody could hear me.	6	residency, that was part of our training also,
7	So I have lifted my voice, and now I'm using my	7	which was to rotate on services where people
8	stage voice. So now everyone can hear me, and now	8	had every every imaginable illness.
9	I'm speaking too loud to you.	9	Q Okay. Well, your residency was how long
10	So I'm going to try you know, you	10	ago?
			-8-1
11	can't have it both ways. One speaker, one	11	MS. BROWN: Objection.
11 12	objectioner. Next question.	11 12	
			MS. BROWN: Objection.
12	objectioner. Next question.	12	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to
12 13	objectioner. Next question.  MS. BROWN: The record will reflect that	12 13	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you
12 13 14	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please	12 13 14	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT:
12 13 14 15	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:	12 13 14 15	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you
12 13 14 15 16	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:  Q Are you an oncologist, Dr. Diette?	12 13 14 15 16	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you did in 1993, back in that period of time.
12 13 14 15 16 17	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:  Q Are you an oncologist, Dr. Diette?  A I am not an oncologist.	12 13 14 15 16 17	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you did in 1993, back in that period of time. What I'm talking about is whether or not
12 13 14 15 16 17 18	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:  Q Are you an oncologist, Dr. Diette?  A I am not an oncologist.  Q Are you a radiation oncologist?	12 13 14 15 16 17 18	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you did in 1993, back in that period of time. What I'm talking about is whether or not you have actually provided gynecological care to a
12 13 14 15 16 17 18	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:  Q Are you an oncologist, Dr. Diette?  A I am not an oncologist.  Q Are you a radiation oncologist?  A No.	12 13 14 15 16 17 18 19	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you did in 1993, back in that period of time. What I'm talking about is whether or not you have actually provided gynecological care to a woman who presented to you with ovarian cancer?
12 13 14 15 16 17 18 19 20	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:  Q Are you an oncologist, Dr. Diette?  A I am not an oncologist.  Q Are you a radiation oncologist?  A No.  Q Are you a gynecologist?	12 13 14 15 16 17 18 19 20	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you did in 1993, back in that period of time. What I'm talking about is whether or not you have actually provided gynecological care to a woman who presented to you with ovarian cancer? MS. BROWN: Objection to the form.
12 13 14 15 16 17 18 19 20 21	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:  Q Are you an oncologist, Dr. Diette?  A I am not an oncologist.  Q Are you a radiation oncologist?  A No.  Q Are you a gynecologist?  A No.	12 13 14 15 16 17 18 19 20 21	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you did in 1993, back in that period of time. What I'm talking about is whether or not you have actually provided gynecological care to a woman who presented to you with ovarian cancer? MS. BROWN: Objection to the form. Asked and answered five times.
12 13 14 15 16 17 18 19 20 21	objectioner. Next question.  MS. BROWN: The record will reflect that you are making incessant speeches. Please BY MS. PARFITT:  Q Are you an oncologist, Dr. Diette?  A I am not an oncologist.  Q Are you a radiation oncologist?  A No.  Q Are you a gynecologist?  A No.  Q Okay. Have you ever provided	12 13 14 15 16 17 18 19 20 21 22	MS. BROWN: Objection. THE WITNESS: My residency was 1990 to 1993. BY MS. PARFITT: Q Okay. So I'm not talking about what you did in 1993, back in that period of time. What I'm talking about is whether or not you have actually provided gynecological care to a woman who presented to you with ovarian cancer? MS. BROWN: Objection to the form. Asked and answered five times. You can answer, Dr. Diette.

Gregory B. Diette, M.D.

	Page 118		Page 120
1	MS. BROWN: Same objection.	1	hygienist?
2	THE WITNESS: I think I know your	2	A No.
3	question, but could you be specific like	3	Q Okay. Are you what's referred to as a
4	BY MS. PARFITT:	4	mineralogist or a mineral scientist specialist?
5	Q Sure.	5	A Neither one.
6	A like just an example, and then I'll	6	Q Are you a geologist?
7	know that we're talking about the same thing.	7	A No.
8	Q Okay. Have you ever provided primary	8	Q Okay. Is it fair to say that you do not
9	care, gynecological care or treatment for a woman	9	hold yourself out in the scientific and medical
10	who has been diagnosed with ovarian cancer?	10	community as an expert with regard to testing
11	A So	11	standards of particulate matter, toxins or
12	MR. LOCKE: Objection.	12	carcinogens?
13	THE WITNESS: I'm not trying to	13	A I think that sounds right.
14	criticize the question, but primary care sounds	14	Q And that would include testing of
15	like something that a like a family	15	minerals or, excuse me, that would include
16	practitioner or an internist would do. I think	16	testing of asbestos?
17	you mean something else, so	17	MS. BROWN: Objection to the form.
18	BY MS. PARFITT:	18	THE WITNESS: Correct.
19	Q I do. Okay. What I'm talking about is	19	BY MS. PARFITT:
20	if I called up Johns Hopkins and said, I have been	20	Q And that would include testing of talcum
21	diagnosed with ovarian cancer, I need to see a	21	powder products?
22	physician, would I be referred to the pulmonology	22	A That I I don't do that, is that
23	department, your department, or would I be	23	right?
24	referred to a different department?	24	Q Right.
25	MS. BROWN: Objection to the form.	25	A Yeah, that's correct.
	<u> </u>		
	Page 119		Page 121
1	THE WITNESS: Different department,	1	Q All right. Let's talk a little bit
2	assuming it's literally for the care of the	2	about your publications and your research.
3	ovarian cancer.	3	Let me direct your attention to I
4	BY MS. PARFITT:	4	believe this is Appendix C of your CV, which I
5	Q Okay. Fair. Thank you.	5	believe is Exhibit 7.
6	Have you ever researched the life	6	Do you have that in front of you?
7	expectancy of a woman who has ovarian cancer?	7	
8		'	A I do.
U	A No.	8	A I do. Q Okay. I understand, now that I have a
9	A No. MS. BROWN: Objection to the form.		
		8	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167
9	MS. BROWN: Objection to the form.	8 9	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have,
9 10	MS. BROWN: Objection to the form. BY MS. PARFITT:	8 9 10	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167
9 10 11	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist?	8 9 10 11	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167 publications in peer-reviewed literature.
9 10 11 12	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist? A I am not.	8 9 10 11 12	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167 publications in peer-reviewed literature.  Is that correct or incorrect?
9 10 11 12 13	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist? A I am not. Q All right. And are you a radiologist?	8 9 10 11 12 13	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167 publications in peer-reviewed literature.  Is that correct or incorrect?  A It was probably true as of June 2017.
9 10 11 12 13 14	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist? A I am not. Q All right. And are you a radiologist? A I am not.	8 9 10 11 12 13 14	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167 publications in peer-reviewed literature.  Is that correct or incorrect?  A It was probably true as of June 2017. Q All right. So sitting here today in
9 10 11 12 13 14	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist? A I am not. Q All right. And are you a radiologist? A I am not. Q Okay. Are you a mineralogist?	8 9 10 11 12 13 14 15	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167 publications in peer-reviewed literature.  Is that correct or incorrect? A It was probably true as of June 2017. Q All right. So sitting here today in April of 2019, approximately how many publications
9 10 11 12 13 14 15	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist? A I am not. Q All right. And are you a radiologist? A I am not. Q Okay. Are you a mineralogist? A No.	8 9 10 11 12 13 14 15 16	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167 publications in peer-reviewed literature.  Is that correct or incorrect? A It was probably true as of June 2017. Q All right. So sitting here today in April of 2019, approximately how many publications in peer-reviewed journals have you published?
9 10 11 12 13 14 15 16 17	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist? A I am not. Q All right. And are you a radiologist? A I am not. Q Okay. Are you a mineralogist? A No. Q Are you a toxicologist?	8 9 10 11 12 13 14 15 16 17	Q Okay. I understand, now that I have a CV that's dated June of 2017, and the CV I have, it says that you've published approximately 167 publications in peer-reviewed literature.  Is that correct or incorrect?  A It was probably true as of June 2017. Q All right. So sitting here today in April of 2019, approximately how many publications in peer-reviewed journals have you published? A I think if you look on PubMed, you will
9 10 11 12 13 14 15 16 17	MS. BROWN: Objection to the form. BY MS. PARFITT: Q Are you a pathologist? A I am not. Q All right. And are you a radiologist? A I am not. Q Okay. Are you a mineralogist? 31 (Pages 118 to 121)

	Page 122		Page 124
1	Q Sure.	1	THE WITNESS: So that's a different
2	A I can help you just clarify what I	2	question. So the answer to that is no.
3	what I'm trying to answer.	3	BY MS. PARFITT:
4	Q Please.	4	Q All right. Have you published any
5	A So nothing about asbestos, but if you	5	papers in the peer-reviewed literature on
6	if you consider asbestos-related diseases to	6	mesothelioma?
7	include lung cancer, for example, that there are	7	A No.
8	publications that bear on lung cancer, and there's	8	Q All right. So nowhere in the 200
9	at least one article, maybe more, on interstitial	9	publications that you have prepared would I see
10	lung diseases, and asbestosis would be an	10	the word "mesothelioma"?
11	interstitial lung disease.	11	A I can't promise that you won't see that
12	Q Okay. Can you tell me what those	12	word in some paper, but there's not a paper whose
13	articles are?	13	primary topic is about mesothelioma.
14	A Let's see. Would the how do you want	14	Q All right. Very good.
15	me to do it, like the number?	15	Having reviewed your 200 or so
16	Q If you give me the number, that would be	16	publications, is it fair to say that there are no
17	fine.	17	peer-reviewed publications regarding the subject
18	A Yeah. So number 5 has to do with lung	18	matter of ovarian cancer?
19	cancer.	19	A That's correct.
20	Q Now, does that have to do with lung	20	Q Is it fair to say that none of your
21	cancer and asbestos exposure?	21	peer-reviewed papers address a diagnosis of
22	A No, not specifically.	22	ovarian cancer?
23	Q All right. So that has that is not	23	MS. BROWN: Objection. Form. I don't
24	lung cancer and asbestos.	24	understand that.
25	All right. Is there another one?	25	THE WITNESS: Well, I think I think
	Page 123		Page 125
1	A Yeah, so if you look at number 6, this	1	the answer to the one before encompasses, you
2	is, you know, a study about evaluating lung masses	2	know, something else with the word "ovarian
3	and large lymph nodes.	3	cancer" in the question.
4	Q Yes.	4	BY MS. PARFITT:
5	A So that would include, you know, lung	5	Q Okay. All right. Have you published
6	cancer in that as well.	6	any peer-reviewed publications that talk about the
7	Q Does that include asbestos and lung	7	causes of ovarian cancer?
8	cancer?	8	MS. BROWN: Objection.
9	A Not specifically.	9	THE WITNESS: No.
10	Q All right. Any others?	10	BY MS. PARFITT:
11	A I would say any of the ones where you	11	Q Have you published any peer-reviewed
12	see the word "bronchoscopy," it has something to	12	papers that talk about risk factors for ovarian
13	do with lung cancer for the most part, though not	13	cancer?
14	literally lung cancer and asbestos.	14	MS. BROWN: Same objection.
15	So, for example, like 21, number 2,	15	THE WITNESS: No.
16	number 3, you know, all sort of have some bearing	16	BY MS. PARFITT:
17	on at least the you know, the care or	17	Q Have you published any publications in
18	management of people with suspected lung cancer or	18	the peer-reviewed journal on risk factors for
19	who actually have lung cancer.	19	mesothelioma?
20	Q Dr. Diette, my question is very specific	20	A No.
21	to publications in the peer-reviewed journal that	21	Q What causes mesothelioma?
22	deal with the topic of asbestos or asbestos-	22	A A few things. You know, asbestos in
23	related diseases like lung cancer where the word	23	sufficient dose can do it. Radiation can do it.
24	"asbestos" appears in your publication.	24	There's some other minerals that aren't asbestos
Ì			
25	MS. BROWN: Objection to the form.	25	that are suspected to do it. It can arise on its

1	own spontaneously. And, you know, there's	1	A Right, are there no.
2	thoughts of, at least in the peritoneum, about	2	Q Okay. I noted in your CV or in some of
3	certain kinds of chronic inflammation that may	3	the readings that you are currently involved in
4	lead to that as well.	4	some clinical trials.
5	Q Okay. Can asbestos cause lung cancer?	5	Did I did I get that correct?
6	A Yes. In a sufficient dose.	6	A I have been involved in trials.
7	Q Okay. Is it fair to say that you have	7	Q Something recent?
8	not published in the peer-reviewed literature any	8	A Oh, all the time.
9	studies on talcum powder products as a causative	9	Q Okay. Are you currently involved in any
10	factor for ovarian cancer?	10	clinical trial
11	A That is correct.	11	A Yeah.
12	Q Is it fair to say that you have not	12	Q trials?
13	published in the peer-reviewed journal any studies	13	Okay. Do any of them deal with the
14	with regard to talcum powder products as a risk	14	subject of asbestos?
15	factor for ovarian cancer?	15	A No.
16	A That's correct.	16	Q Do any of your trials or research deal
17	Q Is it fair to say to say that there are	17	with the subject of talcum powder products?
18	no publications in your peer-reviewed literature	18	A No.
19	on the subject of talcum of talc as a source of	19	Q All right. Do you currently have
20	asbestos fibers?	20	ongoing any research work in the area of asbestos?
21	MS. BROWN: Objection. Counsel, I think	21	MS. BROWN: Objection to the form.
22	you just misspoke. Do you mean on his CV?	22	THE WITNESS: No.
23	MS. PARFITT: I'm sorry? I did.	23	BY MS. PARFITT:
24	BY MS. PARFITT:	24	Q Do you currently have ongoing in any of
25	Q Is it fair to say	25	your research work on the topic of mesothelioma?
	Page 127		Page 129
1	MS. PARFITT: Thank you.	1	A No.
2	BY MS. PARFITT:	2	Q Do you currently have any research work
2 3	BY MS. PARFITT:  Q Is it fair to say that there are no	2	Q Do you currently have any research work ongoing on the topic of talcum powder products?
	Q Is it fair to say that there are no		
3		3	ongoing on the topic of talcum powder products?  A No.
3 4	Q Is it fair to say that there are no peer-reviewed publications in your CV that discuss	3 4	ongoing on the topic of talcum powder products?  A No.  Q Do you currently have any research in
3 4 5	Q Is it fair to say that there are no peer-reviewed publications in your CV that discuss the subject as of talc as a source of asbestos	3 4 5	ongoing on the topic of talcum powder products?  A No.

	Page 134		Page 136
1	A That's this	1	BY MS. PARFITT:
2	Q Do you see that?	2	Q That's correct.
3	A That's this one for here?	3	A Oh, yeah, so then, no, nothing
4	Q Correct.	4	nothing for which I've been disclosed.
5	A Yes.	5	Q Okay. But I take it that you have been
6	Q All right. Now, you've identified on	6	retained you're currently retained to work on
7	the record that the report I have handed you,	7	some other cases other than talcum powder products
8	which is Exhibit No. 10, is a copy of your federal	8	and ovarian cancer, is that correct, by Johnson &
9	court expert report in the matter of dealing	9	Johnson?
10	with the issues of talc and ovarian cancer,	10	MS. BROWN: Counsel, I'm going to to
11	correct?	11	the extent you're asking about consulting
12	A Exactly right.	12	engagements, I'm going to instruct him not to
13	Q And in addition to that report, you have	13	answer.
14	prepared some affidavits in the past also	14	BY MS. PARFITT:
15	addressing the topic of talcum powder products and	15	Q No, I'm asking this: Are you an expert
16	ovarian cancer, correct?	16	on behalf of Johnson & Johnson and asbestos and
17	A That's correct.	17	and ovarian cancer cases?
18	Q Okay. Have you prepared any reports on	18	A So there's a subtlety there, right,
19	talcum powder products and ovarian cancer outside	19	because I mean you may call this an asbestos
20	of the legal context?	20	and ovarian cancer case. I think it's a talcum
21	MS. BROWN: Objection to the form.	21	powder and ovarian cancer case.
22	THE WITNESS: No.	22	Q Okay.
23	BY MS. PARFITT:	23	A There's nothing that's about asbestos
24	Q Okay. And have you provided any other	24	separately from what we're talking about here.
25	type of written report in a legal context, aside	25	Q Fair enough. Have you been retained by
	type of whiteh report in a regar content, uside		Q Tan chaugh. There you occurrenamed by
	Page 135		Page 137
1	from affidavits and the MDL report that you have	1	Johnson & Johnson to testify as a legal expert in
2	in front of you?	2	any talcum powder product cases and meso
3	MS. BROWN: Form.	3	mesothelioma?
4	BY MS. PARFITT:	4	A Yes.
5	Q On talcum powder products and ovarian	5	Q Okay. Are you currently an expert in
6	cancer. I'm just trying to find out your world.	6	any of those cases?
7	A No, I understand. And I'm not sure if	7	A Yes.
8	there could be like a work in progress. But	8	Q How many?
9	you're talking about completed, completed like	9	MS. BROWN: And again, Doctor, to the
10	products like this, right?	10	extent you've been disclosed, you can answer the
11	Q Correct.	11	question.
12	A I I can't think of another one.	12	THE WITNESS: So I don't I don't know
13	Q Okay. Do you have another report and/or	13	the count then. I would estimate ten, but I could
14	affidavit in progress in the talcum powder	14	be off by a couple.
15	products cases and ovarian cancer?	15	BY MS. PARFITT:
i	MS. BROWN: Dr. Diette, I'm going to	16	Q Have you given depositions in those
16	instruct you to the extent you're doing any work	17	cases yet?
16 17	monate jour to the entent jours doing any work	I	
		18	A In some cases I have.
17	on this issue that is in a consulting nature and	18 19	
17 18			Q Okay. Is this the first deposition that
17 18 19 20	on this issue that is in a consulting nature and has not been disclosed, you should not disclose that here.	19 20	Q Okay. Is this the first deposition that you have given in talcum powder products and
17 18 19 20 21	on this issue that is in a consulting nature and has not been disclosed, you should not disclose that here.  I assume counsel is only asking for	19 20 21	Q Okay. Is this the first deposition that you have given in talcum powder products and ovarian cancer?
17 18 19 20 21 22	on this issue that is in a consulting nature and has not been disclosed, you should not disclose that here.  I assume counsel is only asking for situations in which you have been disclosed as an	19 20 21 22	Q Okay. Is this the first deposition that you have given in talcum powder products and ovarian cancer?  MS. BROWN: Objection.
17 18 19 20 21 22 23	on this issue that is in a consulting nature and has not been disclosed, you should not disclose that here.  I assume counsel is only asking for situations in which you have been disclosed as an expert, and with that, you can answer the	19 20 21	Q Okay. Is this the first deposition that you have given in talcum powder products and ovarian cancer?  MS. BROWN: Objection.  THE WITNESS: I don't think so.
17 18 19 20 21 22	on this issue that is in a consulting nature and has not been disclosed, you should not disclose that here.  I assume counsel is only asking for situations in which you have been disclosed as an	19 20 21 22 23	Q Okay. Is this the first deposition that you have given in talcum powder products and ovarian cancer?  MS. BROWN: Objection.

Gregory B. Diette, M.D.

	Page 138		Page 140
1	Ingham case?	1	yes.
2	A I did.	2	Q Okay. The last date I have here is
3	Q Okay. Did you testify at trial at the	3	September 28, '18.
4	Ingham case?	4	A No. It should go further.
5	A I did not.	5	MS. BROWN: We have another page,
6	Q Okay. Is there any other case other	6	Counsel.
7	than the Ingham case where you have given	7	MS. PARFITT: Okay.
8	deposition in an ovarian cancer and a talcum	8	THE WITNESS: I think it's two-sided, so
9	powder case?	9	it's the back of that page.
10	A I think there's at least one other one.	10	MS. PARFITT: Okay. Well
11	Q Okay. Do you remember the name of it?	11	MS. BROWN: Do you want my copy?
12	A I don't. I could look at my testimony	12	MS. PARFITT: That would be great. I
13	list and see if I can figure it out.	13	appreciate that. I will give it right back to
14	Q Okay. And we'll have that marked as	14	you.
15	well. Why don't we have that marked as Diette	15	BY MS. PARFITT:
16	Exhibit it's part of your exhibit number	16	Q Okay. All right. So the last date is
17	it's part of your report, but we'll have it marked	17	February 22nd, 2019; is that correct?
18	as a separate exhibit.	18	A That is.
19	(Counsel conferring.)	19	Q All right. Are you able to circle for
20	BY MS. PARFITT:	20	me which cases are cases in which you have been
21	Q Let me show you what's we'll have	21	retained as an expert in the on the topic of
22	marked as Exhibit No. 11.	22	talcum powder products and ovarian cancer?
23	(Diette Exhibit No. 11 was marked	23	MS. BROWN: Objection to the form.
24	for identification.)	24	You can answer to the extent you know,
25	BY MS. PARFITT:	25	Doctor.
23	BI Mo. I Mai III.		Doctor.

PARFITT:  Q But you have performed  MS. BROWN: Let him answer, please.  MS. PARFITT: Sure.  THE WITNESS: That I performed, yes.  BY MS. PARFITT:  Q All right. So in your carrier as a medical doctor, you have published cohort studies?

36 (Pages 138 to 141)

	Page 142		Page 144
1	those cohort studies?	1	MS. BROWN: Wait. Hold on. Is that a
2	A Generally speaking, things related to	2	question?
3	respiratory diseases and and things people	3	MS. PARFITT: Mm-hmm.
4	inhale.	4	MS. BROWN: I didn't understand that.
5	Q All right. Have you published case-	5	If you understood it, you can answer.
6	control studies?	6	THE WITNESS: Well, the papers I was
7	A I don't know. I can't think of one. It	7	thinking about had to do with methods and
8	doesn't mean that there isn't one, but I'm I	8	quality quality assessment in terms of
9	can't think of a case-control study.	9	healthcare.
10	Q All right. Is it fair to say that none	10	BY MS. PARFITT:
11	of the published cohort studies address the issue	11	Q Okay.
12	of talcum powder products and ovarian cancer?	12	A I don't know if I've published anything
13	A Correct.	13	on epi methods, meaning like, you know, the topic
14	Q And is it fair to say that none of the	14	of a case-control study or
15	cohort studies that you published address the	15	Q Right.
16	issue of talcum powder products and mesothelioma?	16	A cohort studies, things of that sort.
17	A Correct.	17	Q So it would be fair to say that you have
18	Q Is it fair to say that none of the	18	not published in a peer-reviewed journal a paper
19	cohort studies that you have published address the	19	on study designs, correct?
20	issue of asbestos and mesothelioma?	20	MS. BROWN: Objection to the form.
21	A Correct.	21	THE WITNESS: I would have to look back
22	Q Is it fair to say that that the	22	and see. I mean it's it's possible I've been
23	majority of your publications in your listed in	23	involved in something that that I mean it's
24	your curriculum CV and those that you said you	24	just hard to remember. It's 200 plus papers,
25	have published since 2017 deal primarily in the	25	SO

I mean, it's the papers that I write are primary research papers, and that framework doesn't belong in those papers, but we articulate the the issues that are that are relevant for a Bradford Hill analysis.

Gregory B. Diette, M.D.

	Page 146		Page 148
1	you did file in the federal court, you stated	1	different than what you asked? Because I'm
2	specifically that you followed the Bradford Hill	2	just
3	framework. Do you recall saying that?	3	BY MS. PARFITT:
4	A I I do. There was more to it, but it	4	Q It is.
5	included that.	5	This would be some original research
6	Q Okay. So what I'm asking you, in any of	6	that you might be got a funding or a grant or
7	the papers, whether they be cohort study, case	7	something.
8	control, other research and scientific	8	A I see. Nothing like that.
9	publications that you've listed on your curriculum	9	Q Okay. Have you received any funds
10	vitae, have you stated in those papers that you	10	any funding or any grants to study mesothelioma?
11	are following or are guided by the Bradford Hill	11	A No.
12	framework?	12	Q Have you received any funding or grants
13	MS. BROWN: Objection. He just answered	13	to study asbestos?
14	that.	14	A No.
15	THE WITNESS: Yeah, it's sort of baked	15	Q Have you received any funding or grants
16	into what we do. So it's like in I mean the	16	to study talcum powder products and their
17	answer is no, generally, but but we include	17	association with ovarian cancer?
18	things in a way that they fit with what Bradford	18	MS. BROWN: Objection to the form.
19	Hill considerations are. But there's not one that	19	THE WITNESS: No.
20	was called like the Bradford Hill approach or	20	BY MS. PARFITT:
21	something.	21	Q Have you ever published in peer-reviewed
22	BY MS. PARFITT:	22	literature a causation analysis or a review
23	Q Okay. And by	23	article asking whether an exposure causes a
24	MS. BROWN: Let him finish.	24	disease?
25	Were you finished, Doctor?	25	MS. BROWN: Objection to the form of the
	Page 147		Page 149
1	THE WITNESS: I'm okay. Thank you.	1	question.
2	MS. PARFITT: Thank you.	2	THE WITNESS: I don't know. I would
3	BY MS. PARFITT:	3	have to look back over. I don't like I don't
4	Q Assume I did a search of the word	4	know if I would use those words "causation
5	"Bradford Hill" in the 167 papers that you have		
6		5	analysis. Dut we certainly write did you say
6	published in the peer-reviewed journal, would it	6	analysis," but we certainly write did you say review article?
6 7	published in the peer-reviewed journal, would it surprise you if those words did not appear?		review article?
	surprise you if those words did not appear?	6	
7	surprise you if those words did not appear?  MS. BROWN: Objection to the form.	6 7	review article? BY MS. PARFITT: Q Yes.
7 8	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me,	6 7 8	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles.
7 8 9	surprise you if those words did not appear?  MS. BROWN: Objection to the form.	6 7 8 9	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles. They're really they're really low quality
7 8 9 10	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me, but I I don't know that it's not there somewhere. And I would search more broadly than	6 7 8 9 10	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles. They're really they're really low quality academic products for the most part, and so I try
7 8 9 10 11	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me, but I I don't know that it's not there somewhere. And I would search more broadly than just those 167. I would look at the more recent	6 7 8 9 10 11	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles. They're really they're really low quality academic products for the most part, and so I try to focus more on original research.
7 8 9 10 11 12	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me, but I I don't know that it's not there somewhere. And I would search more broadly than just those 167. I would look at the more recent ones too. I mean I can't say that it's not there,	6 7 8 9 10 11 12	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles. They're really they're really low quality academic products for the most part, and so I try to focus more on original research. Q All right. Well, same question applied
7 8 9 10 11 12	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me, but I I don't know that it's not there somewhere. And I would search more broadly than just those 167. I would look at the more recent	6 7 8 9 10 11 12 13	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles. They're really they're really low quality academic products for the most part, and so I try to focus more on original research. Q All right. Well, same question applied to original research.
7 8 9 10 11 12 13	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me, but I I don't know that it's not there somewhere. And I would search more broadly than just those 167. I would look at the more recent ones too. I mean I can't say that it's not there, but there's not a paper about Bradford Hill.	6 7 8 9 10 11 12 13 14	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles. They're really they're really low quality academic products for the most part, and so I try to focus more on original research. Q All right. Well, same question applied to original research. MS. BROWN: Objection to the form.
7 8 9 10 11 12 13 14	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me, but I I don't know that it's not there somewhere. And I would search more broadly than just those 167. I would look at the more recent ones too. I mean I can't say that it's not there, but there's not a paper about Bradford Hill. BY MS. PARFITT:	6 7 8 9 10 11 12 13 14	review article? BY MS. PARFITT: Q Yes. A So I don't write many review articles. They're really they're really low quality academic products for the most part, and so I try to focus more on original research. Q All right. Well, same question applied to original research. MS. BROWN: Objection to the form. THE WITNESS: Well, it wouldn't be I
7 8 9 10 11 12 13 14 15	surprise you if those words did not appear?  MS. BROWN: Objection to the form.  THE WITNESS: It wouldn't surprise me, but I I don't know that it's not there somewhere. And I would search more broadly than just those 167. I would look at the more recent ones too. I mean I can't say that it's not there, but there's not a paper about Bradford Hill. BY MS. 	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect. BY MS. PARFITT:		other people.
2	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect. BY MS. PARFITT: Q Okay. Straighten it out for me.	2	other people. BY MS. PARFITT:
2	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect. BY MS. PARFITT:	2 3	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical
2 3 4	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect. BY MS. PARFITT: Q Okay. Straighten it out for me.	2 3 4	other people. BY MS. PARFITT: Q All right. Is J&J a client of Medical Science Affiliates?
2 3 4 5	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect. BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do	2 3 4 5	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is,
2 3 4 5 6	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect. BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing	2 3 4 5 6	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client
2 3 4 5 6 7	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they	2 3 4 5 6 7	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client or not.
2 3 4 5 6 7 8	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of.	2 3 4 5 6 7 8	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client or not.  Q Okay. Does Medical Science Affiliates
2 3 4 5 6 7 8	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect. BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me.	2 3 4 5 6 7 8	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client or not.  Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson?
2 3 4 5 6 7 8 9	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached	2 3 4 5 6 7 8 9	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client or not.  Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson?  MS. BROWN: Objection. Speculation.
2 3 4 5 6 7 8 9 10	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological	2 3 4 5 6 7 8 9 10	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client or not.  Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson?  MS. BROWN: Objection. Speculation. THE WITNESS: So I can tell you about
2 3 4 5 6 7 8 9 10 11	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients.	2 3 4 5 6 7 8 9 10 11	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client or not.  Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson?  MS. BROWN: Objection. Speculation.  THE WITNESS: So I can tell you about what they do for me with regard to Johnson &
2 3 4 5 6 7 8 9 10 11 12	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients. A Exactly right.	2 3 4 5 6 7 8 9 10 11 12 13	other people.  BY MS. PARFITT:  Q All right. Is J&J a client of Medical Science Affiliates?  A I don't know what their relationship is, like I don't know if you would call them a client or not.  Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson?  MS. BROWN: Objection. Speculation.  THE WITNESS: So I can tell you about what they do for me with regard to Johnson & Johnson. I don't know about anything else.
2 3 4 5 6 7 8 9 10 11 12 13 14	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients. A Exactly right. Q Okay. Over the course of ten years that	2 3 4 5 6 7 8 9 10 11 12 13 14	other people. BY MS. PARFITT: Q All right. Is J&J a client of Medical Science Affiliates? A I don't know what their relationship is, like I don't know if you would call them a client or not. Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson? MS. BROWN: Objection. Speculation. THE WITNESS: So I can tell you about what they do for me with regard to Johnson & Johnson. I don't know about anything else. BY MS. PARFITT:
2 3 4 5 6 7 8 9 10 11 12 13 14 15	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients. A Exactly right. Q Okay. Over the course of ten years that you've been affiliated as an independent	2 3 4 5 6 7 8 9 10 11 12 13 14 15	other people. BY MS. PARFITT: Q All right. Is J&J a client of Medical Science Affiliates? A I don't know what their relationship is, like I don't know if you would call them a client or not. Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson? MS. BROWN: Objection. Speculation. THE WITNESS: So I can tell you about what they do for me with regard to Johnson & Johnson. I don't know about anything else. BY MS. PARFITT: Q All right. Tell me what you know.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients. A Exactly right. Q Okay. Over the course of ten years that you've been affiliated as an independent contractor with Medical Science Affiliates, how	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	other people. BY MS. PARFITT: Q All right. Is J&J a client of Medical Science Affiliates? A I don't know what their relationship is, like I don't know if you would call them a client or not. Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson? MS. BROWN: Objection. Speculation. THE WITNESS: So I can tell you about what they do for me with regard to Johnson & Johnson. I don't know about anything else. BY MS. PARFITT: Q All right. Tell me what you know. A Well, like, for example, like in the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients. A Exactly right. Q Okay. Over the course of ten years that you've been affiliated as an independent contractor with Medical Science Affiliates, how many times have you prepared a report for one of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	other people. BY MS. PARFITT: Q All right. Is J&J a client of Medical Science Affiliates? A I don't know what their relationship is, like I don't know if you would call them a client or not. Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson? MS. BROWN: Objection. Speculation. THE WITNESS: So I can tell you about what they do for me with regard to Johnson & Johnson. I don't know about anything else. BY MS. PARFITT: Q All right. Tell me what you know. A Well, like, for example, like in the cases that we've discussed that involve Johnson &
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients. A Exactly right. Q Okay. Over the course of ten years that you've been affiliated as an independent contractor with Medical Science Affiliates, how many times have you prepared a report for one of Medical Science Affiliates' clients?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	other people. BY MS. PARFITT: Q All right. Is J&J a client of Medical Science Affiliates? A I don't know what their relationship is, like I don't know if you would call them a client or not. Q Okay. Does Medical Science Affiliates do some work for Johnson & Johnson? MS. BROWN: Objection. Speculation. THE WITNESS: So I can tell you about what they do for me with regard to Johnson & Johnson. I don't know about anything else. BY MS. PARFITT: Q All right. Tell me what you know. A Well, like, for example, like in the cases that we've discussed that involve Johnson & Johnson, they've provided a service by collecting
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MS. BROWN: Objection to the form. THE WITNESS: It's incorrect.  BY MS. PARFITT: Q Okay. Straighten it out for me. A Well, they didn't contract me to do anything. They asked if I was interested in doing this epidemiologic project for a client that they knew of. Q Okay. That helps me. So Medical Science Affiliates reached out requested that you do an epidemiological report for one of their clients. A Exactly right. Q Okay. Over the course of ten years that you've been affiliated as an independent contractor with Medical Science Affiliates, how many times have you prepared a report for one of Medical Science Affiliates' clients? A I don't know.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	other people. BY MS. PARFITT: Q All right. Is J&J a client of Medical Science Affiliates? A Well, like, for example, like in the cases that we've discussed that involve Johnson & Johnson, they've provided a service by collecting the materials, right. So, for example, like when you see that list of materials that that I provided that I reviewed, they will collect those and and organize them for me.

	Page 158		Page 160
1	they were able to help sort my through my	1	you said, which is that they billed somebody else
2	schedule, you know, with me, and figure out a day	2	for the work that they did.
3	or days, I don't remember what we offered, things	3	BY MS. PARFITT:
4	of that sort. They'll prepare invoices on my	4	Q Do you know who that somebody else is?
5	behalf. They'll help edit a report. You know,	5	And I want to remind you you're under oath,
6	administrative type things.	6	Dr. Diette.
7	Q Okay. Let's break that down a little	7	MS. BROWN: What
8	bit.	8	THE WITNESS: What's
9	Is it your understanding that Medical	9	MS. BROWN: Whoa, whoa, whoa. I'm
10	Science Affiliates bills Johnson & Johnson	10	objecting to the implication there. Dr. Diette
11	MS. BROWN: Object	11	has done nothing but testify truthfully today.
12	BY MS. PARFITT:	12	MS. PARFITT: Counsel, objection, form.
13	Q and invoices them for work?	13	I'm telling you.
14	MS. BROWN: Objection to the form, calls	14	BY MS. PARFITT:
15	for speculation.	15	Q Please go on, Dr. Diette.
16	BY MS. PARFITT:	16	MS. BROWN: No, but what you just said
17	Q If you know.	17	is inappropriate
18	A I don't know where the bill goes because	18	MS. PARFITT: It was not
19	I don't know if it goes to the law firm. Like if	19	MS. BROWN: and it violates both the
20	it matters to you whether it's directly to Johnson	20	federal rules
21	& Johnson or I mean I can only guess that, you	21	MS. PARFITT: violative of anything,
22	know, the law firm is not going to pay the bill	22	Counsel.
23	out of their own pocket. They're probably going	23	MS. BROWN: as well as deposition
24	to then invoice Johnson & Johnson, but I don't	24	protocol. He of course is testifying under oath,
25	know whether the bill goes directly to Johnson &	25	and if you're suggesting something otherwise,
	know whether the onl goes directly to somison &		
	Page 159		Page 161
1	Johnson or whether it goes to the law firm.	1	that's wildly inappropriate.
2	Q All right.	2	MS. PARFITT: Counsel, let the Court
3	MS. BROWN: And, Doctor, counsel doesn't	3	decide if it's I think the Court might decide
4	want you to guess, so just answer the question the	4	that your objections and your manner today are
5	best	5	wildly inappropriate.
6	BY MS. PARFITT:	6	BY MS. PARFITT:
7	Q Dr. Diette, if they Medical Science	7	Q So, Dr. Diette, so we can move forward,
8	Affiliates collects material for you as you say	8	do you remember the question?
9	they did, correct?	9	A I remember it, but I think I already
10	A That's correct.	10	answered it. It's I don't have a better answer
11	Q do they bill you or do they bill	11	than what I gave you before.
12	someone else?	12	Q You don't know who Medical Science
13	MS. BROWN: Objection to the form.	13	billed for the services they rendered to you?
13 14	MS. BROWN: Objection to the form. THE WITNESS: They bill someone else.	13 14	billed for the services they rendered to you?  A Well, let's look at the invoice if we
14	THE WITNESS: They bill someone else.	14	A Well, let's look at the invoice if we
14 15	THE WITNESS: They bill someone else. BY MS. PARFITT:	14 15	A Well, let's look at the invoice if we want to. If it's on the top of that, then I
14 15 16	THE WITNESS: They bill someone else. BY MS. PARFITT: Q Okay. So when you testified that J&J	14 15 16	A Well, let's look at the invoice if we want to. If it's on the top of that, then I might
14 15 16 17	THE WITNESS: They bill someone else.  BY MS. PARFITT:  Q Okay. So when you testified that J&J excuse me, when you testified that you had	14 15 16 17	A Well, let's look at the invoice if we want to. If it's on the top of that, then I might Q It's been blacked out, Dr. Diette.
14 15 16 17 18	THE WITNESS: They bill someone else.  BY MS. PARFITT:  Q Okay. So when you testified that J&J excuse me, when you testified that you had assistance with regard to the preparation of some	14 15 16 17 18	A Well, let's look at the invoice if we want to. If it's on the top of that, then I might Q It's been blacked out, Dr. Diette. A So it's either a law firm or it's
14 15 16 17 18 19	THE WITNESS: They bill someone else.  BY MS. PARFITT:  Q Okay. So when you testified that J&J excuse me, when you testified that you had assistance with regard to the preparation of some of the materials that accompany your report, that was work that you contracted with Medical Service	14 15 16 17 18 19	A Well, let's look at the invoice if we want to. If it's on the top of that, then I might Q It's been blacked out, Dr. Diette. A So it's either a law firm or it's Johnson & Johnson. I don't know whether it's one or the other.
14 15 16 17 18 19 20	THE WITNESS: They bill someone else.  BY MS. PARFITT:  Q Okay. So when you testified that J&J excuse me, when you testified that you had assistance with regard to the preparation of some of the materials that accompany your report, that was work that you contracted with Medical Service Affiliates to do, and they didn't bill you, they	14 15 16 17 18 19 20	A Well, let's look at the invoice if we want to. If it's on the top of that, then I might Q It's been blacked out, Dr. Diette. A So it's either a law firm or it's Johnson & Johnson. I don't know whether it's one or the other. MS. BROWN: Counsel, you're
14 15 16 17 18 19 20 21	THE WITNESS: They bill someone else.  BY MS. PARFITT:  Q Okay. So when you testified that J&J excuse me, when you testified that you had assistance with regard to the preparation of some of the materials that accompany your report, that was work that you contracted with Medical Service Affiliates to do, and they didn't bill you, they billed somebody else, correct?	14 15 16 17 18 19 20 21	A Well, let's look at the invoice if we want to. If it's on the top of that, then I might Q It's been blacked out, Dr. Diette. A So it's either a law firm or it's Johnson & Johnson. I don't know whether it's one or the other. MS. BROWN: Counsel, you're misrepresenting the documents. It's very clear
14 15 16 17 18 19 20 21	THE WITNESS: They bill someone else.  BY MS. PARFITT:  Q Okay. So when you testified that J&J excuse me, when you testified that you had assistance with regard to the preparation of some of the materials that accompany your report, that was work that you contracted with Medical Service Affiliates to do, and they didn't bill you, they	14 15 16 17 18 19 20 21 22	A Well, let's look at the invoice if we want to. If it's on the top of that, then I might Q It's been blacked out, Dr. Diette. A So it's either a law firm or it's Johnson & Johnson. I don't know whether it's one or the other. MS. BROWN: Counsel, you're

BY MS. PARFITT:  Q With I want to understand, for purpose of the expert report you prepared in this lifigation, I want you to tell me, if you will, every service that Medical Science Affiliates performed for you.  A I don't think I can give you a full list. I think that the -go ahead. Q No, no, please, go ahead. A All right. So I think the category of things that I told you about before are the kinds of the performance of the formation to you in the pass of the you keep asking the same thing, and if - my answer is I'm and the T min to - I'm to you we per training dike a couple of papers, I don't remember.  Page 163  think they did any for this. Q All right. So it's your testimony that in the talcum powder and ovarian cancer case, they did not do any research the peer-reviewed it in you are year the you whit the papers? A I don't - Hon the passing the you'd begovition		Page 162		Page 164
Q What I want to understand, for purpose of the expert report you prepared in this shall be severy service that Medical Science Affiliates performed for you.  A I don't think I can give you a full bit, I think that the - go ahead. Q No, no, please, go ahead. A All right. So I think the category of things that they that they did in this case. I I don't know if I mentioned like arranging like a phono call. Like if I was going to have a phono call, they would arrange that. Help with I already talked about defining editing reports and I can't think of right now. Q Okay. Did Medical Science Affiliates or research the scientific literature for you in preparation for some of the information contained in your expert report? A I don't I don't think they did any of that. I mean, they've they've done searches in the past on other other topics, but I don't  Page 163 think they did any for this. Q All right. So it's your testimony that in the talcum powder and ovarian cancer case, they did not do any research of the per-reviewed is about talcum powder and ovarian cancer case, they did not do any research of the per-reviewed is report and over talking about this particular matter as you're asking these questions or or- Q Well, that's a that's a great point. You got involved in talcum powder and ovarian talk about talcum powder and ovarian this particular matter as you're asking these questions or or- Q Well, that's a that's a great point. You got involved in talcum powder and ovarian talk about talcum powder and ovarian cancer because when you became engaged to work on talcum powder and varian cancer case, they did in this case.  A I talce they woo a better answer is Tm ont - I think it beptile to any iterative research for you. I all can't give the think of right now.  Q All right. So it's your testimony that in the talcum powder and ovarian cancer because as or whateve, hu we're talking about the over talking about the past of the	1	BY MS. PARFITT:	1	something else with the papers?
of the expert report you prepared in this  litigation, I want you to tell me, if you will,  every service that Medical Science Affiliates  performed for you.  A I don't think I can give you a full  list. I think that the —go ahead.  Q No, no, please, go ahead.  A All right. So I think the category of things that I wan be produced in things that I wan the plant because I — I find it easier to do it myself.  Q Whether it was helpful or not, my question is, did Medical Science Affiliates do any literature research for you in — on the topic of talcump moved reports and ovarian cancer?  I don't know if I mentioned like arranging like a phone call, they would arrange that. Help with — I already talked about editing — editing reports and proparation for some of the information contained preparation for some of the information contained preparation for some of the information contained in your expert report?  A I don't — I don't think they did any of that. I mean, they've — they've done hat at my request in the past. But not — not too much. I mean is causing the the past on the ready and the arranging like a large that they was better answer. I mean in — I think it sounds to me like you keep asking the search filiates and ovarian cancer?  A I can't give you a better answer. I mean I — I think it sounds to me like you keep asking the search filiates and ovarian cancer?  A I can't give you a better answer. I mean I — I think it sounds to me like you keep asking the search filiates are search the scientific filerature for you in — on the topic of talcump over pert pertor.  Page 163  think they did any for this.  Q Okay. Did Medical Science Affiliates  preparation for some of the information contained in preparation for some of the information contained in preparation for some of the information contained in the talcum powder and ovarian cancer — because think they did any for this.  Q All right. So it's your testimony that in the talcump owder and ovarian cancer — because I in the talcump owder and ovarian cancer — becaus	2		2	
4   A Yeah, and that's what I don't remember, 5   performed for you. 7   A I don't think I can give you a full 8   list. I think that the -go ahead. 9   Q No, no, please, go ahead. 9   Q No, no, please, go ahead. 11   A Al right. So I think the category of things that I told you about before are the kinds of things that I told you about before are the kinds of things that I told you about before are the kinds of things that I told you about before are the kinds of things that I they - that they did in this case. 12   I don't know if I meaninge that. Help with - I already talked about editing - editing reports and - I can't think of another service they did, but that's what I can think of right now. 19   Q Okay. Did Medical Science Affiliates reports and - I can't think of another service they did, but that's what I can think of right now. 19   Q Okay. Did Medical Science Affiliates reports are search the scientific literature for you in preparation for some of the information contained in your expert report? 20   research the scientific literature for you in preparation for some of the information contained in your expert report? 21   Q Okay. Did Medical Science Affiliates reports and - I can't think they did any of that. I mean, they've - they've done searches in the past on other - other topics, but I don't think they did any for this. 2   Q All right. So it's your testimony that in the taleum powder/ovarian cancer case, they did not do any research of the peer-reviewed in the past on other - other topics, but I don't have to think back with each - you know, each ease or whatever, but we're talking about this particular matter as you're asking these questions or	3		3	· · · · · · · · · · · · · · · · · · ·
severy service that Medical Science Affiliates performed for you.  A I don't think I can give you a full list. I think that the — go ahead.  O No, no, please, go ahead.  A All right. So I think the category of things that I they—that they did any of things that I they—that they did any of the past on other—other topics, but I don't  proparation for some of the information contained in the past on other—other topics, but I don't  the past on other—other topics, but I don't  Page 163  think they did any for this.  Q All right. So if sy our testimony that in the talcum powder roadvarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A I is.  A I don't think that the —go ahead.  B (Whether it was helpful or not, my question is, did Medical Science Affiliates of any literature research for you in—on the topic of things that I was helpful or not, my question is, did Medical Science Affiliates of any literature research for you in—on the topic of things that I was helpful or not, my question is, did Medical Science Affiliates do any literature research for you in—on the topic of the past out a low mpowder advise a phone in the talcum powder and ovarian cancer.  A I can't give you a better answer. I most —on the origin of the your depart give you a better answer. I most —on the same I—in think is counted to make a phone in the talcum powder and ovarian cancer.  A I can't give you a better answer. I most —on the origin give a shift give a packed and it is already talked about editing —editing reports and for they did or not. They certainly didn't do the search, like I don't remove it frey did or not. They certainly didn't do the search, like I don't remove it frey did or not. They certainly didn't do the search, like I don't remove it frey did or not. They certainly didn't do the search, like I don't remove it is pour expert report.  A I don't home did Medical Science Affiliates and it is a particular matter as you't easient and you are porter.  A I don't thome would they de	4		4	
performed for you.  A I don't think I can give you a full  Rean it's actually not that helpful, because I —  I find it easier to do it myself.  Q No, no, please, go ahead.  Rean I find it easier to do it myself.  Q Whether it was helpful or not, my things that I told you about before are the kinds of that I mean it's actually not that and any of the talcump powder and think or right now.  Page 163  The preparation for some of the information contained of that. I mean it's actually not the wash played and a cancer are as the find any of the page. The port of the page and the				•
The products and products and plant is actually not that helpful, because I - I find it easier to do it myself:	6	-		
B   Isist I think that the - go ahead.   9   Q   No, no, please, go ahead.   9   Q   Whether it was helpful or not, my question is, did Medical Science Affiliates do any question is, and the plant of t	7	-	7	
9 Q No, no, please, go ahead. 10 A All right. So I think the category of 11 things that I told you about before are the kinds of things that I told you about before are the kinds of things that they—that they did in this case. 14 phone call. Like if I was going to have a phone call, they would arrange that. Help with—I aleady talked about defing—editing reports and—I can't think of another service they did, 18 but that's what I can think of right now. 19 Q Okay. Did Medical Science Affiliates are search the scientific literature for you in preparation for some of the information contained in your expert report? 12 in your expert report? 13 A I don't —I don't think they did any of that. I mean, they've—they've done searches in the past on other—other topics, but I don't 15 Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed 15 literature; is that correct? 16 A Well, let me be clear, when you talk about this papiralular matter as you're asking these questions in the past on other—other topics, but I don't 17 Thing they were and ovarian cancer—because 15 linear tas you're asking these questions 16 literature is that correct? 18 A Well, let me be clear, when you talk about this papiralular matter as you're asking these questions of the report ask defended in a course of papers, I don't remember if they did or not. They certainly didn't do the search, like I didn't commission anybody to do like—like the search. 19 C Q All right. So it's your testimony that in the talcum powder on the paper like a couple of papers, I don't remember if they did or not. They certainly didn't do the search, like or not. They certainly didn't do the search, like or not. They certainly didn't do the search, like or not. They certainly didn't do the search, like or not. They certainly didn't do the search, like or not. They certainly didn't do the search, like or not. They certainly didn't do the search, like or not. They certainly didn't do the search, like o	8		8	
things that I told you about before are the kinds of things that they—that they did in this case.  I don't know if I mentioned like arranging like a phone call. Like if I was going to have a phone call, they would arrange that. Help with—I already talked about defiting—editing reports and—I can't think of another service they did, let use a couple of papers, I don't know what I can think of right now.  I o Q Okay. Did Medical Science Affiliates research the scientific literature for you in a couple of papers, I don't remember if they did or not. They certainly didn't do the search, like I didn't commission anybody to do like—like the search the scientific literature for you in a couple of papers, I don't remember if they did or not. They certainly didn't do the search, like I didn't commission anybody to do like—like the search the scientific literature for you in a couple of papers, I don't remember if they did or not. They certainly didn't do the search, like I didn't commission anybody to do like—like the search is your expert report?  A I don't a I don't know would they deliver that information to you? Do they send it to you? What happens?  A I don't a I don't know would they deliver that information to you? Do they send it to you? What happens?  A I depends upon how I ask. So it can come as a binder, like the binder you have in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed like traiting about this particular matter as you're asking these questions I a you got involved in talcum powder and ovarian cancer because I have to think back with each—you know, each case or whatever, but we're talking about this particular matter as you're asking these questions I a decent and the products and ovarian cancer, what I'm interested in knowing is whether or not, whether it was for this when you became engaged to work on talcum powder and ovarian cancer, what I'm interested in knowing is whether or not, whether it was for the second in the pour peopt. A life for the polaritify t	9		9	<u> </u>
things that I fold you about before are the kinds of things that they — that they did in this case. I four know if I mentioned like arranging like a phone call. Like if I was going to have a phone call, they would arrange that. Help with — I already talked about editing — editing reports and — I can't think of another service they did, but that's what I can think of right now.  Q Okay. Did Medical Science Affiliates research the scientific literature for you in preparation for some of the information contained in your expert report?  A I can't mean in the science of the pear to the past on other — other topics, but I don't  Page 163  think they did any for this. Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed I literature; is that correct? A Well, let me be clear, when you talk about talcum powder and ovarian cancer — because I have to think back with each — you know, each g case or whatever, but we're talking about this particular matter as you're asking these questions I or —  Q Well, that's a — that's a great point. You got involved in talcum powder and ovarian cancer, what I'm interested in knowing is whether or not, whether it was for this when you became engaged to work on talcum powder products and ovarian cancer.  I testimony.  I A And by "research work," does that — do  I this report, another report, ask Medical Science A Alliatez done any research work," does that — do  I this they did any for this.  I testimoration to you? Do they semil it to you? Do they semil time the search.  Q All right. So it's your testimony that in time the past on other — o	10		10	•
talcum powder products and ovarian cancer?  I don't know if I mentioned like arranging like a plane call. Like if I was going to have a phone call. Like if I was going to have a phone call, they would arrange that. Help with — I already talked about editing - editing reports and - I can't think of another service they did, and — I can't think of another service they did, a but that's what I can think of right now.  Q Okay. Did Medical Science Affiliates research the scientific literature for you in preparation for some of the information contained in your expert report?  A I don't - I don't think they did any of that. I mean, they've — they've done searches in the past on other — other topics, but I don't  Page 163  think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Nell, let me be clear, when you talk about talcum powder and ovarian cancer — because I have to think back with each — you know, each case as own thatever, but we're talking about this or — Q Well, that's a — that's a great point.  Q Q Well, that's a — that's a great point.  Q Q Well, that's a — that's a great point.  Q Q Well, that's a — that's a great point.  Q Q All right. So at that point in time when you became engaged to work on talcum powder products and ovarian cancer, what I'm interested in knowing is whether or not, whether it was for this report, another report, has Medical Science Affiliates summaries of any type of information for you in the talcum.  A Non, there is a great point to you've had any summaries of any type of information for you in the talcum.	11		11	
13 I don't know if I mentioned like arranging like a phone call. Like if I was going to have going to have gashing the same thing, and if they did a couple of papers, I don't remember if they did or not. They carrially idin't do the search, like I didn't commission anybody to do like – like the search.  20 (Asy. Did Medical Science Affiliates are creating that to some of the information contained information to you? Do they e-mail it to you? What happens?  21 think they did any for this.  22 Q All right. So it's your testimony that a the lacum powder and ovarian cancer case, they did any for this.  23 think they did any for this.  24 that. I mean, they've – they've done searches in the past on other – other topics, but I don't  25 think they did any for this.  26 Q All right. So it's your testimony that a in the talcum powder and ovarian cancer – because I have to think back with each – you know, each case or w	12		12	
14	13		13	
asking the same thing, and it — my answer is I'm not — I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did not not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not.—I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not. They certainly didn't do the search, like the search.  2	14		14	
already talked about editing — editing reports and — I can't think of another service they did, but that's what I can think of right now.  Q Okay. Did Medical Science Affiliates research the scientific literature for you in preparation for some of the information contained in your expert report?  A I don't — I don't think they did any of that. I mean, they've — they've done searches in the past on other — other topics, but I don't  Page 163  think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk cancer cases sometime in 2017. That's your  Q Well, that's a — that's a great point.  Q Well, that's a — that's a great point.  Q All right. So at that point in time when you became engaged to work on talcum powder products and ovarian cancer, what I'm interested in knowing is whether or not, whether it was for literature; on this topic?  A Ald by "research work," does that — do  A And by "research work," does that — do  To — I'm not sure. Like they may have gathered a couple of papers, I don't remember if they did or not. They certainly didn't do the search, like I didn't commission anybody to do like — like the search.  Q Okay. And how would they deliver that information to you? Do they send it to you? What happens?  A It depends upon how I ask. So it can come as a binder, like the binder you have in come as a binder, like the binder what information to you? Do they send it to you? What happens?  A It depends upon how I ask. So it can come as a binder, like that and be hard copies. It could be through, you know, an electronic mechanism, if there were something to share that way.  Q All right. Did Medical Science  Affiliates summarize any of those depositions that you have listed in your report?  A I don't — do I have — I don't think — do I have — I don't think — do I have —	15		15	· · · · · ·
and — I can't think of another service they did, but that's what I can think of right now. Q Okay. Did Medical Science Affiliates research the scientific literature for you in preparation for some of the information contained in your expert report?  A I don't — I don't think they did any of that. I mean, they've — they've done searches in the past on other — other topics, but I don't  Page 163  Page 163  Page 165  think they did any for this.  Q All right. So ir's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the pear-reviewed literature; is that correct?  A Well, let me be clear, when you talk and talcum powder and ovarian cancer — because I have to think back with each — you know, each case or whatever, but we're talking about this particular matter as you're asking these questions 1 you got involved in talcum powder and ovarian cancer ask in testimony.  A It is.  Q All right. So art say our estimony that or — 1 or — 1 A Oh, then no.  Q Well, that's a — that's a great point.  You got involved in talcum powder and ovarian cancer ask of testimony.  A It is.  Q All right. So art say our's asking these questions 1 testimony.  A It is.  Q All right. So art say our's asking these questions 1 testimony.  A It is.  Q All right. So art say our's asking these questions 1 testimony.  A It is.  Q All right. So art that point in time when you became engaged to work on talcum powder and ovarian cancer. what I'm interested 1 testimony.  A It is.  Q All right. So art that point in time when you became engaged to work on talcum powder products and ovarian cancer, what I'm interested 1 in think they did any of those depositions of various experts either on onty ou've had any summaries done of those reports by Medical Science Affiliates.  A And by "research work," does that — do  and what I'm questioning is whether or on onty ou've had any summaries of any type of information for you in the talcum	16		16	
but that's what I can think of right now.  Q Okay. Did Medical Science Affiliates research the scientific literature for you in preparation for some of the information contained in your expert report?  A I don't – I don't think they did any of the past on other – other topics, but I don't  Page 163  Page 163  Page 165  think they did any for this. Q O All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct? A Well, let me be clear, when you talk about talcum powder and ovarian cancer – because I have to think back with each – you know, each case or whatever, but we're talking about this peraticular matter as you're asking these questions You got involved in talcum powder and ovarian cancer. Y	17		17	
19	18	but that's what I can think of right now.	18	
research the scientific literature for you in preparation for some of the information contained in your expert report?  A I don't - I don't think they did any of that. I mean, they've they've done searches in the past on other other topics, but I don't  Page 163  Page 163  Page 165  Think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer because I have to think back with each you know, each ease or whatever, but we're talking about this or late of the cancer cases sometime in 2017. That's your testimony.  Q Well, that's a that's a great point.  Q All right. So at that point in time when you became engaged to work on talcum powder and ovarian cancer case, they did not would be through, you know, an electronic mechanism, if there were something to share that way.  A I don't do I have I don't think do I have I don't hink do I have I don't think do I have I don't hink do	19		19	
preparation for some of the information contained in your expert report?  A I don't I don't think they did any of that. I mean, they've they've done searches in the past on other other topics, but I don't  Page 163  Page 165  think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk particular matter as you're asking these questions or  Q Well, that's a that's a great point.  Q Well, that's a that's a great point.  A It depends upon how I ask. So it can come as a binder, like the binder you have in  Page 165  front of you, it could like that, and be hard copies. It could be through, you know, an electronic mechanism, if there were something to share that way.  Q All right. Did Medical Science  A Hoth'- do I have I don't think do I have elposition summaries?  Q No.  A I don't do I have I don't think do I have depositions.  A Then the answer is no.  Q You have depositions.  A Then the answer is no.  Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've you've put them on your reliance list.  A It is:  A It is report, another report, has Medical Science  A A And by "research work," does that do  A And why tree that in formation to you? bothey e-mail it to you? Do they send it to you? Do they send it to you? Unive had any summaries of any type of information for you in the talcum	20		20	
22 in your expert report? 23 A I don't — I don't think they did any of 24 that. I mean, they've — they've done searches in 25 the past on other — other topics, but I don't  26 Page 163  1 think they did any for this. 2 Q All right. So it's your testimony that 3 in the talcum powder/ovarian cancer case, they did 4 not do any research of the peer-reviewed 5 literature; is that correct? 6 A Well, let me be clear, when you talk 7 about talcum powder and ovarian cancer — because 8 I have to think back with each — you know, each 9 case or whatever, but we're talking about this 10 particular matter as you're asking these questions 11 or — 12 Q Well, that's a — that's a great point. 12 Q Well, that's a — that's a great point. 13 You got involved in talcum powder and ovarian 14 cancer cases sometime in 2017. That's your 15 testimony. 16 A It is. 17 Q All right. So at that point in time 18 when you became engaged to work on talcum powder 19 products and ovarian cancer, what I'm interested 10 in knowing is whether or not, whether it was for 20 Ilterature on this topic? 21 this report, another report, has Medical Science 22 Affiliates done any research work of the 23 literature on this topic? 24 A I don't — do I hey send it to you? What happens? 25 they send it to you? What happens? 24 A It depends upon how I ask. So it can come as a binder, like the binder you have in 25 front of you, it could like that, and be hard 26 copies. It could be through, you know, an electronic mechanism, if there were something to share that way. 2 Q All right. Did Medical Science 3 A I don't — do I have — I don't think — 4 do I have depositions that you have listed in your report? 4 A I don't — do I have — I don't think — 4 do I have deposition summaries? 4 Q You have depositions. 4 Then the answer is no. 4 Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've — you've put them on your relaince list. 4 And that I'm questioning is whethe	21	<del>-</del>	21	
they send it to you? What happens?  A I don't — I don't think they did any of that. I mean, they've — they've done searches in the past on other — other topics, but I don't  Page 163  Page 163  Page 165  I think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed I iterature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer — because I have to think back with each — you know, each gear ow hatever, but we're talking about this or —  Q Well, that's a — that's a great point.  Q Well, that's a — that's a great point.  You got involved in talcum powder and ovarian cancer cases sometime in 2017. That's your testimony.  A I to you? What happens?  A It depends upon how I ask. So it can come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have listed in your, know, and electronic mechanism, if there were something to opies. It could be through, you know, an electronic mechanism, if there were something to opies. It could be through, you know, an electronic mechanism, if there were something to opies. It could be through, you know, an electronic mechanism, if there were something to opies. It could be through, you know, and the popies. It could be through, you know, and the popies. It could be through, you know, and the popies. It could be through, you kn	22		22	· · · · · · · · · · · · · · · · · · ·
that. I mean, they've — they've done searches in the past on other — other topics, but I don't  Page 163  Page 165  think they did any for this.  Q All right. So it's your testimony that into the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed All right. So it's your testimony that into talcum powder and ovarian cancer — because or whatever, but we're talking about this particular matter as you're asking these questions  Q Well, that's a — that's a great point.  Q Well, that's a — that's a great point.  You got involved in talcum powder and ovarian to ancer cases sometime in 2017. That's your testimony.  A It depends upon how I ask. So it can come as a binder, like the binder you have in moder and binder, like the binder you have in moder and binder. It could be through, you know, and copies. It could be through, you know, and electronic mechanism, if there were something to share that way.  Q All right. Did Medical Science  A I don't — do I have — I don't think — do I have elepositions that you have listed in your report?  A Oh, then no.  Q Well, that's a — that's a great point.  You got involved in talcum powder and ovarian and cancer cases sometime in 2017. That's your  A Oh, then no.  Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've — you've put them on your reliance list.  And what I'm questioning is whether or not you've had any summaries done of those reports by Medical Science Affiliates.  A No.  Q Okay. Have they done any summaries of any type of information for you in the talcum	23		23	
Page 163  Page 165  think they did any for this.  Q All right. So it's your testimony that a interested products and ovarian cancer cases sometime in 2017. That's your  Q Well, that's a that's a great point.  Q Well right. So at that point in time when you became engaged to work on talcum powder or an knowing is whether or not, whether it was for this report, another report, has Medical Science  A Ald by "research work," does that do  Page 165  Come as a binder, like the binder you have in come as a binder, like the binder you have in come as a binder, like the binder you have in the binder you have, and electronic mechanism, if there were something to copies. It could be through, you know, an electronic mechanism, if there were something to share that way.  Q All right. Did Medical Science  Affiliates summarize any of those depositions that you have listed in your report?  A I don't do I have I don't think do I have be oposition summaries?  Q No.  A Oh, then no.  Q Oy No.  A Then the answer is no.  Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've you've put them on your reliance list.  And what I'm questioning is whether or not you've had any summaries done of those reports by Medical Science Affiliates.  A No.  Q Okay. Have they done any summaries of any type of information for you in the talcum	24		24	
Page 163  think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer — because I have to think back with each — you know, each case or whatever, but we're talking about this particular matter as you're asking these questions  Q Well, that's a — that's a great point.  Q Well, that's a — that's a great point.  You got involved in talcum powder and ovarian cancer cases sometime in 2017. That's your  A It is. Q All right. So at that point in time when you became engaged to work on talcum powder when you became engaged to work on talcum powder this report, another report, has Medical Science A Riliates summarize any of those depositions that you have listed in your report?  A I don't — do I have — I don't think — do I have deposition summaries? Q No.  A Then the answer is no. Q You have depositions.  A Then the answer is no. Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've — you've put them on your reliance list.  And what I'm questioning is whether or not you've had any summaries done of those reports by Medical Science Affiliates.  A No. Q Okay. Have they done any summaries of any type of information for you in the talcum	25		25	
think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer because I have to think back with each you know, each particular matter as you're asking these questions ror  Q Well, that's a that's a great point.  You got involved in talcum powder and ovarian cancer cases sometime in 2017. That's your  A It is. Q All right. So at that point in time when you became engaged to work on talcum powder this report, another report, has Medical Science A Fifiliates summarize any of those depositions that you have listed in your report? A I don't do I have I don't think do I have deposition summaries? Q No. A Oh, then no. Q You have depositions. A Then the answer is no. Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've you've put them on your reliance list. And what I'm questioning is whether or not you've had any summaries done of those reports by Medical Science Affiliates. A No. Roll iterature on this topic? A And by "research work," does that do  A Roll iterature of information for you in the talcum				
2  Q All right. So it's your testimony that 3  in the talcum powder/ovarian cancer case, they did 4  not do any research of the peer-reviewed 5  literature; is that correct? 6  A Well, let me be clear, when you talk 7  about talcum powder and ovarian cancer because 8  I have to think back with each you know, each 9  case or whatever, but we're talking about this 10  particular matter as you're asking these questions 11  or 12  Q Well, that's a that's a great point. 13  You got involved in talcum powder and ovarian 14  cancer cases sometime in 2017. That's your 15  testimony. 16  A It is. 17  Q All right. So at that point in time 18  when you became engaged to work on talcum powder 19  products and ovarian cancer, what I'm interested 10  in knowing is whether or not, whether it was for 20  literature on this topic? 21  A And by "research work," does that do  22  Copies. It could be through, you know, an 23  electronic mechanism, if there were something to 3  electronic mechanism, if there were something to 3  electronic mechanism, if there were something to 4  share that way.  2  C All right. Did Medical Science 4  Affiliates summarize any of those depositions that you have listed in your report?  A I don't do I have I don't think do I have depositions that don't I don't think do I have depositions that don't I don't I don't think do I have depositions that don't I don't I don		D 163		
in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer because li have to think back with each you know, each particular matter as you're asking these questions or  Q Well, that's a that's a great point.  You got involved in talcum powder and ovarian cancer cases sometime in 2017. That's your letestimony.  A It is. A It is. C All right. Did Medical Science Affiliates summarize any of those depositions that you have listed in your report? A I don't do I have I don't think do I have deposition summaries?  Q No. A Oh, then no. Q No. A Then the answer is no. Q Vau have depositions.  A Then the answer is no. Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've you've put them on your reliance list.  And what I'm questioning is whether or not you've had any summaries done of those reports by Medical Science Affiliates.  A And by "research work," does that do  any type of information for you in the talcum		Page 163		Page 165
4 share that way.  5 literature; is that correct?  6 A Well, let me be clear, when you talk 7 about talcum powder and ovarian cancer because 8 I have to think back with each you know, each 9 case or whatever, but we're talking about this 10 particular matter as you're asking these questions 11 or 12 Q Well, that's a that's a great point. 13 You got involved in talcum powder and ovarian 14 cancer cases sometime in 2017. That's your 15 testimony. 16 A It is. 17 Q All right. Did Medical Science 18 Affiliates summarize any of those depositions that you have listed in your report? 19 A I don't do I have I don't think do I have deposition summaries? 10 Q No. 11 A Oh, then no. 12 Q You have depositions. 13 A Then the answer is no. 14 cancer cases sometime in 2017. That's your 15 reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've you've put them on your reliance list. 19 products and ovarian cancer, what I'm interested 19 And what I'm questioning is whether or not, whether it was for 20 in knowing is whether or not, whether it was for 21 this report, another report, has Medical Science 22 Affiliates done any research work of the 23 literature on this topic? 24 A And by "research work," does that do  25 do Rall right. Did Medical Science 26 Affiliates summarize any of those depositions that you have listed in your report?  26 A I don't do I have I don't think 27 do I have deposition summaries?  28 A Then the answer is no.  29 Q You have depositions.  4 Then the answer is no.  4 C You have depositions.  4 Then the answer is no.  9 Q Okay. Now, what you've provided me are reports and depositions of various experts either for Johnson & Johnson or for the plaintiff that you've indicated you've you've put them on you've had any summaries done of those reports by Medical Science Affiliates. cancer cases sometime in 2017. That's your  14 Q Okay. Now, what you've provided me are 15 testimony.  16 A It is.  16 for Johnson & Johnson or for the plaintiff that 17 Q All right. So at that point in time 18 when you became engaged to work on talcum powder 19 products and ovarian cancer, what I'm interested 19 And what I'm questioning is whether or 20 in knowing is whether or not, whether it was for 21 this report, another report, has Medical Science 22 Affiliates done any research work of the 23 literature on this topic? 24 A And by "research work," does that do 25 reports and depositions of various experts either 26 for Johnson & Johnson or for the plaintiff that 27 you've indicated you've you've put them on your 28 reliance list. 29 And what I'm questioning is whether or 20 not you've had any summaries done of those reports 21 by Medical Science Affiliates. 22 A No. 23 Q Okay. Have they done any summaries of 24 any type of information for you in the talcum	2 3 4 5 6 7 8 9	think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer because I have to think back with each you know, each case or whatever, but we're talking about this particular matter as you're asking these questions or	2 3 4 5 6 7 8 9	front of you, it could like that, and be hard copies. It could be through, you know, an electronic mechanism, if there were something to share that way.  Q All right. Did Medical Science Affiliates summarize any of those depositions that you have listed in your report?  A I don't do I have I don't think do I have deposition summaries?  Q No. A Oh, then no.
testimony.  A It is.  Q All right. So at that point in time  when you became engaged to work on talcum powder  products and ovarian cancer, what I'm interested  in knowing is whether or not, whether it was for  this report, another report, has Medical Science  Affiliates done any research work of the  literature on this topic?  A It is.  16 for Johnson & Johnson or for the plaintiff that  you've indicated you've you've put them on your  reliance list.  And what I'm questioning is whether or  not you've had any summaries done of those reports  by Medical Science Affiliates.  A No.  Q Okay. Have they done any summaries of  any type of information for you in the talcum	2 3 4 5 6 7 8 9 10 11	think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer because I have to think back with each you know, each case or whatever, but we're talking about this particular matter as you're asking these questions or  Q Well, that's a that's a great point.	2 3 4 5 6 7 8 9 10	front of you, it could like that, and be hard copies. It could be through, you know, an electronic mechanism, if there were something to share that way.  Q All right. Did Medical Science Affiliates summarize any of those depositions that you have listed in your report?  A I don't do I have I don't think do I have deposition summaries?  Q No. A Oh, then no. Q You have depositions.
A It is.  Q All right. So at that point in time  17 you've indicated you've you've put them on your  18 when you became engaged to work on talcum powder  19 products and ovarian cancer, what I'm interested  20 in knowing is whether or not, whether it was for  21 this report, another report, has Medical Science  22 Affiliates done any research work of the  23 literature on this topic?  24 A And by "research work," does that do  16 for Johnson & Johnson or for the plaintiff that  27 you've indicated you've you've put them on your  28 reliance list.  29 And what I'm questioning is whether or  20 not you've had any summaries done of those reports  21 by Medical Science Affiliates.  22 A No.  23 Q Okay. Have they done any summaries of  24 any type of information for you in the talcum	2 3 4 5 6 7 8 9 10 11	think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer because I have to think back with each you know, each case or whatever, but we're talking about this particular matter as you're asking these questions or  Q Well, that's a that's a great point. You got involved in talcum powder and ovarian	2 3 4 5 6 7 8 9 10 11 12 13	front of you, it could like that, and be hard copies. It could be through, you know, an electronic mechanism, if there were something to share that way.  Q All right. Did Medical Science Affiliates summarize any of those depositions that you have listed in your report?  A I don't do I have I don't think do I have deposition summaries?  Q No.  A Oh, then no.  Q You have depositions.  A Then the answer is no.
Q All right. So at that point in time  when you became engaged to work on talcum powder  products and ovarian cancer, what I'm interested  in knowing is whether or not, whether it was for  this report, another report, has Medical Science  Affiliates done any research work of the  literature on this topic?  A And by "research work," does that do  27 you've indicated you've you've put them on your  reliance list.  And what I'm questioning is whether or  not you've had any summaries done of those reports  by Medical Science Affiliates.  A No.  Q Okay. Have they done any summaries of  any type of information for you in the talcum	2 3 4 5 6 7 8 9 10 11 12 13	think they did any for this.  Q All right. So it's your testimony that in the talcum powder/ovarian cancer case, they did not do any research of the peer-reviewed literature; is that correct?  A Well, let me be clear, when you talk about talcum powder and ovarian cancer because I have to think back with each you know, each case or whatever, but we're talking about this particular matter as you're asking these questions or  Q Well, that's a that's a great point. You got involved in talcum powder and ovarian cancer cases sometime in 2017. That's your	2 3 4 5 6 7 8 9 10 11 12 13	front of you, it could like that, and be hard copies. It could be through, you know, an electronic mechanism, if there were something to share that way.  Q All right. Have they done any summaries of any type of information for you in the talcum

	Page 166		Page 168
1	MS. BROWN: And, Counsel, here I'm going	1	Q Did you use for purposes of your expert
2	to interject, and to the extent your question	2	report any of the summaries that were that were
3	MS. PARFITT: Objection. Form.	3	conducted by Medical Science Affiliates that you
4	MS. BROWN: seeks to I'm	4	just spoke about?
5	instructing on privilege, which I'm allowed to do	5	A See, this is where I I don't know if
6	under the federal rules and under the	6	you're trying to confuse me or what, but
7	MS. PARFITT: If it's a privilege	7	Q No, I'm not.
8	issue	8	A Okay. So I just want to be clear,
9	MS. BROWN: let me do that.	9	because there aren't any summaries for this,
10	MS. PARFITT: it's certainly fine.	10	right.
11	MS. BROWN: Thanks. So my instruction	11	Q Okay.
12	here will be that, Doctor, you are not under the	12	A So and that's why I keep trying to
13	work-product privilege to disclose any	13	I just because there's a different answer for
14	correspondence you've had with MSA, unless it is	14	what what people have done in other matters and
15	something on which you rely for your opinions	15	what they've done in this matter. There aren't
16	here, and then of course, counsel is entitled to	16	any summaries that I'm aware of to to look at.
17	have that information.	17	Q All right. Did Medical Science
18	BY MS. PARFITT:	18	Affiliates help you write your expert report?
19	Q With that understanding, how do you	19	MS. BROWN: Objection to the form of the
20	answer the question?	20	question.
21	A Can you say it again because I think I	21	THE WITNESS: You know, "write" is a
22	lost it?	22	is a word that can mean a lot of things. They
23	Q Sure. Let me just have it read back to	23	helped me to to shape it, like to create the
24	you here.	24	the format for it and like edit out typos and
25	Has Medical Science Affiliates done any	25	things of that sort.
	Page 167		
-		1	
1	summaries of any type of information for you or	1	BY MS. PARFITT:
2	provided any information for you on the talcum	2 3	Q Okay. Well, that has it means a lot of things as well. So let me ask you
3	powder products and ovarian cancer cases?		•
4	MS. BROWN: Same instruction. If you're	4 5	MS. BROWN: Counsel, just ask the
5 6	relying on anything they've done, of course,	6	question.  MS. PARFITT: Counsel, I'm please.
7	please answer the question.  THE WITNESS: So if we're talking about	7	MS. BROWN: You can't editorialize like
8	cases because that's why I clarified before,	8	that. It's a question and an answer.
	· · · · · · · · · · · · · · · · · · ·	9	
9 10	we're not talking about this matter. We're talking about ever in any in any case?	10	BY MS. PARFITT:  Q Dr. Diette, what I would like to ask you
11	BY MS. PARFITT:	11	is, when you say they helped shape your report,
12	Q Ovarian cancer and talcum powder	12	what do you mean they helped shape your report?
13	products.	13	MS. BROWN: Objection.
14	A Oh, yeah. No, I understand the words.	14	THE WITNESS: What I just said I mean
15	I'm just trying to make sure whether we're talking	15	what I said after after that before.
16	about like this this matter that we're talking	16	BY MS. PARFITT:
17	about fike this this matter that we're taiking about only or or beyond that.	17	Q Is every word in your expert report that
18	Q Has has beyond that.	18	you have there in front of you a word that you put
19	A So I'm going to say probably they have.	19	in it?
20	That if there are cases where there were like	20	MS. BROWN: Objection to the form.
21	medical records, for example, although I don't	21	THE WITNESS: Well, I don't know. I
22	think I've gotten any medical records, but they	22	mean, there's there's quotes from people,
23	would have provided a summary. If there were	23	right, so that those aren't my words, for example.
24	deposition transcripts in those other cases, they	24	BY MS. PARFITT:

45 (Pages 174 to 177)

	Page 178		Page 180
1	add \$85 when they bill somebody for my time.	1	and basically an amount. I don't have
2	Q Who "they"?	2	A Like it
3	A MSA.	3	Q it's been blacked out.
4	Q "They," MSA?	4	A It doesn't matter. I can still
5	A Yeah.	5	MS. BROWN: It's been redacted for work
6	Q All right. So that I get it straight,	6	product.
7	you charge 400 \$400 for your time, correct?	7	THE WITNESS: I mean I can help you
8	A Correct.	8	understand it if you want.
9	Q And then your understanding is MSA	9	BY MS. PARFITT:
10	charges an additional \$85 to someone for their	10	Q All I really want to understand and get
11	assistance for you, correct?	11	a better understanding, Dr. Diette, is the types
12	MS. BROWN: Objection to the form, calls	12	of services that MSA provided you in order to
13	for speculation.	13	file this prepare this report.
14	THE WITNESS: So it's I don't know	14	A Yeah, I I listed those.
15	I don't know how they break it down, because they	15	Q Okay. Do they help you with all of your
16	bill for different things, like they bill for	16	expert reports?
17	photocopying, they bill for some administrative	17	A In what?
18	tasks separately. Whatever it is, it's their	18	Q Does MSA provide any type of service in
19	business model, and they they add that amount	19	any and all expert reports that you prepare in the
20	to the hourly rate.	20	context of litigation?
21	BY MS. PARFITT:	21	A No.
22	Q How much did Medical Science bill for	22	Q Okay. Do you have another go-to service
23	their work, do you know?	23	to help you with the preparation of your expert
24	MS. BROWN: Objection. Calls for	24	services?
25	speculation.	25	MS. BROWN: Objection to form.
	Page 179		Page 181
1	THE WITNESS: You can tell if we look at	1	THE WITNESS: No. I do stuff on my own
2	the the invoices.	2	as well.
3	BY MS. PARFITT:	3	BY MS. PARFITT:
4	Q Okay. They would bill the same number	4	Q All right. So there are cases where
5	of well, let me ask for a clarification. Not	5	you've done the work by yourself, and there are
6	all your work was done in conjunction with the	6	cases like this particular case where you engage
7	assistance of Medical Science Affiliates, correct?	7	the services of MSA, correct?
8	MS. BROWN: Objection to the form.	8	A That is
9	THE WITNESS: I mostly sat by myself.	9	MS. BROWN: Objection to the form.
10	Yeah.	10	THE WITNESS: correct.
11	BY MS. PARFITT:	11	BY MS. PARFITT:
12	Q Okay. So the invoices that I have for	12	Q Okay. And did MSA edit any of your
13	you would not necessarily reflect all of the work	13	any of your did MSA edit your expert report?
14	that Medical Science Affiliates afforded you,	14	A Yeah.
15	correct?	15	Q Okay. What kind of edits did they make?
16	A That's incorrect.	16	A Well, all sorts. Like I asked them to
17	MS. BROWN: Objection to the form.	17	look for typos, for example.
18	BY MS. PARFITT:	18	Q Right.
19	Q Okay.	19	A I just happen to be open to page 30 and
20	A I mean that's what I was trying to offer	20	31, and where you see that the there's like
	you earlier is to try to understand the the	21	bulleted sections, when I wrote that, it was just
21		22	one long impenetrable paragraph, and so they were
21 22	bills. Because also when you add that comment	1	
21 22 23	about the amount of money in total, it wasn't all	23	nice enough to sort of break it into some chunks
21 22		1	

	Page 182		Page 184
1	before, but did MSA ever suggest any new sentences	1	Q And I'm not concerned about the format.
2	or study that you didn't previously insert in your	2	What I'm concerned about is the substance,
3	paper?	3	Dr. Diette, as you can appreciate.
4	A I doubt a new study. It could be I	4	MS. BROWN: Objection.
5	mean we worked we worked pretty hard to make	5	BY MS. PARFITT:
6	sure that I have the full list of studies, you	6	Q And so what I'm trying to to get some
7	know, acknowledged, and so if there was something	7	clarity here is that, other than perhaps providing
8	I left off I mean I don't remember this	8	you a study that you may have omitted from your
9	specifically for this, but that would be a normal	9	report, is there anything else that falls more in
10	practice, right, like which is to say, you know,	10	the substantive area that they provided and
11	Oh, I saw in your list of papers that there's a	11	offered for you?
12	Smith paper, should that be on here? Not them	12	A I I think I've answered as best I
13	going out and saying, Oh, I found a Smith paper,	13	can.
14	would you like that on there?	14	Q Well, why don't we let's talk about
15	Q But they might looked at yours and say,	15	your contact with J&J. When did they first reach
16	You you missed a study. Fair?	16	out to you to talk with you about being an expert
17	A Oh, sure.	17	to defend them in these lawsuits?
18	MS. BROWN: Objection to the form.	18	MS. BROWN: Objection to the form of the
19	THE WITNESS: Yeah.	19	question.
20	BY MS. PARFITT:	20	THE WITNESS: So they never asked me to
21	Q Okay. And they might look at your	21	defend them. They they asked me to evaluate
22	report and say, You missed	22	the epidemiologic literature.
23	I think what I'm getting at, Dr. Diette,	23	And just to be clear, because it seemed
24	you described their efforts as generally	24	like it was tripping us up before trying to talk
25	editorial. Is that fair?	25	about this, when I talk about J&J, it's lawyers
	Page 183		Daga 10F

	Page 186		Page 188
1	done, when he let me explore that a little bit.	1	Q Okay. Have they ever listed you on some
2	When he called you, did you tell him	2	type of website as a consultant for legal
3	that you had previously worked with MSA to help	3	purposes?
4	you with your expert reports?	4	A Well, I see
5	A I didn't have to.	5	MS. BROWN: Objection to the form,
6	Q He knew that.	6	calls for speculation.
7	A Yes.	7	THE WITNESS: Mr. Finch is here and
8	Q Okay. How would Mr. Cooper have known	8	he
9	that you worked with MSA before?	9	THE REPORTER: Excuse me.
10	MS. BROWN: Objection to the form, calls	10	THE WITNESS: Oh, sorry.
11	for speculation.	11	MS. BROWN: Objection to the form, call
12	MR. LOCKE: Objection.	12	for speculation. Thank you.
13	BY MS. PARFITT:	13	THE WITNESS: Mr. Finch flashed
14	Q If you know. Seems like you know.	14	something up at a trial to suggest that they had,
15	A Oh, I do. We had he and I had worked	15	but that wasn't an advertisement for me. It was a
16	together on other cases.	16	list of somebody who had credentials that were
17	Q Okay. What other cases did you work	17	similar to mine.
18	with Mr. Cooper on?	18	BY MS. PARFITT:
19	A They were asbestos-related cases with	19	Q Okay. Well, my question is, have are
20	plastic or phenolics, like electrical equipment.	20	you aware of whether or not Medical Science
21	Q Okay. And in those cases that you	21	Affiliates has ever advertised your name out in
22	worked with Jonathan on or Mr. Cooper on, did	22	the the community as someone
23	you utilize the services of MSA as well to help	23	MS. BROWN: Same objection
24	you prepare your expert report in those cases?	24	BY MS. PARFITT:
25	A I did.	25	Q who was a specialist in pulmonology
	Page 187		Page 189
1	Q Okay. Has MSA reached out to you and	1	medicine?
2	engaged or asked if you would engage in assisting	2	MS. BROWN: Same objection.
3	them on any other projects currently?	3	THE WITNESS: I'm not aware that they
4	A What do you mean by "currently"?	4	advertise.
5	Q Well, are you working with MSA on any	5	BY MS. PARFITT:
6	other projects other than the talcum powder	6	Q Okay. So are there times that Medical
7	products and ovarian cancer?	7	Science Affiliates reaches out to you and says,
8	A Yes.	8	Dr. Diette, we want you to do a medical a
9	Q What projects?	9	scientific review for us on a topic?
10	MS. BROWN: And again, Doctor, to the	10	A Never.
11	extent that a confidentiality agreement doesn't	11	Q Okay. They've never done that. You've
12	prevent you from disclosing other work that you're	12	never provided that service for them.
13	doing, you can answer the question.	13	A They they don't ask me to do work for
14	THE WITNESS: Some cases that relate to	14	them.
15	asbestos and other chemical-related cases.	15	Q Okay. Do their clients ask you to do
16	BY MS. PARFITT:	16	work for them?
17	Q Okay. Was there a time when you,	17	A Of course, that's where we started,
18	instead of receiving services from MSA, you	18	right, from ten years ago.
19	provided services to MSA as an affiliate expert?	19	Q Right. And that's what I'm trying to
20	MS. BROWN: Objection to the form of the	20	figure out.
21	question.	21	MS. BROWN: Let him finish. I don't
22	THE WITNESS: I know they have that word	22	think he was done.
23	"affiliate" in their name. I don't know what that	23	THE WITNESS: No, that was that was
24	means. But I don't provide services to them.	24	the description of what I was saying, like how
25	BY MS. PARFITT:	25	the the first time that I met them was that
20	~ 1140, 1140, 111.	23	and the first time that I met them was that
		1

	Page 190		Page 192
1	they there was some, you know, group that	1	Q So you never work for MSA; you always
2	wanted an epidemiologic review, and they were	2	work for a corporate client?
3	trying to figure out if there were local	3	MR. LOCKE: Objection.
4	epidemiologists that could take on a task like	4	MS. BROWN: Objection to the form of the
5	that, and so that's the way it worked.	5	question.
6	BY MS. PARFITT:	6	THE WITNESS: So I've never worked for
7	Q Okay. So I now get	7	MSA.
8	MS. BROWN: He is not done.	8	BY MS. PARFITT:
9	BY MS. PARFITT:	9	Q Who pays your bills? Law firms?
10	Q Are you done, Doctor? I thought you	10	MS. BROWN: Objection to the form.
11	were.	11	THE WITNESS: So
12	A I'll be done.	12	MS. BROWN: What bills? What are you
13	Q Okay. So if I appreciate this	13	talking about?
14	structure, so we can move on, a client, some	14	BY MS. PARFITT:
15	company can reach out to Medical Science	15	Q Who pays your bills for doing services
16	Affiliates and say, We need some work done and	16	at the request of MSA?
17	research done on a particular area. Will you do	17	MS. BROWN: Objection to the form.
18	that for me?	18	BY MS. PARFITT:
19	Medical Science Affiliates will say,	19	Q Anybody?
20	Yes, we can. And then Medical Science Affiliates	20	MS. BROWN: Objection. Can we let's
21	reaches out to people like you?	21	have one question and let him answer.
22	MS. BROWN: Objection to the form.	22	Go ahead.
23	THE WITNESS: So I don't know I don't	23	BY MS. PARFITT:
24	know when they say, Yes, we can. Like I don't	24	Q And I'll tell you the reason I'm asking,
25	know, for example like their I don't know	25	Dr. Diette.
	Page 191		Page 193
1	what their size is, but they may say, Yes, we can,	1	MS. BROWN: No, no, no, no. You ask the
2	and just do it themselves. Right. They have	2	question, he answers. We don't need to know why
3	other people that I don't work with that work	3	you're asking the question.
4	there.		
-		4	MS. PARFITT: Excuse me.
5	I'm just saying, like you're asking the	5	MS. PARFITT: Excuse me. MS. BROWN: It's improper. You're not
5 6	I'm just saying, like you're asking the question, so it's like so if somebody calls

They may or may not need a content expert or methodologic expert to do it. So it I assume it depends, but I'm I'm not familiar with their entire business operation. BY MS. PARFITT:  Q Okay. All I'm trying to find out is is who comes to who, and from what I understand your testimony is, a client will reach out to MSA and say, We have a project. MSA will determine whether or not someone someone's expertise is needed in order to complete that job, and then MSA reaches out to you. Is that fair?  MR. LOCKE: Objection.  MS. BROWN: Objection. Speculation.	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MS. BROWN: It's improper. You're not going to give a speech, Counsel. BY MS. PARFITT:  Q Dr. Diette, we has there ever been a chance or an opportunity where you have reached out to MSA on your own, and say, A client that doesn't work or do business with you, MSA, has asked me to do a report. Can you help me?  A Yes.  Q Okay. So that's one scenario, correct? A Correct. Q It's some other client has some other individual or entity has reached out to you and said, Dr. Diette, I would like to engage your expertise in the legal context. Fair?  MS. BROWN: Objection to the form. THE WITNESS: Or the epidemiologic
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	question, so it's like so if somebody calls them and says, Can you do this work? They may well say, Yes, we can do it. They may or may not need a content expert or methodologic expert to do it. So it I assume it depends, but I'm I'm not familiar with their entire business operation. BY MS. PARFITT:  Q Okay. All I'm trying to find out is is who comes to who, and from what I understand your testimony is, a client will reach out to MSA and say, We have a project. MSA will determine whether or not someone someone's expertise is needed in order to complete that job, and then MSA reaches out to you. Is that fair?  MR. LOCKE: Objection. MS. BROWN: Objection. Speculation. THE WITNESS: I like the answer I just	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MS. BROWN: It's improper. You're not going to give a speech, Counsel. BY MS. PARFITT:  Q Dr. Diette, we has there ever been a chance or an opportunity where you have reached out to MSA on your own, and say, A client that doesn't work or do business with you, MSA, has asked me to do a report. Can you help me?  A Yes.  Q Okay. So that's one scenario, correct? A Correct. Q It's some other client has some other individual or entity has reached out to you and said, Dr. Diette, I would like to engage your expertise in the legal context. Fair?  MS. 	Page 194		Page 196
1	MS. BROWN: Objection to the form.	1	conflicts checks?
2	THE WITNESS: Something like that, yeah.	2	MS. BROWN: Objection. Speculation.
3	BY MS. PARFITT:	3	Engaged by who?
4	Q Okay. That's one scenario.	4	BY MS. PARFITT:
5	Another scenario is when a corporate	5	Q When you're engaged by a client, who
6	client, for instance, engages the services of MSA	6	does the conflict
7	to do a project and a particular expertise is	7	MS. BROWN: Same
8	needed, and MSA then reaches out to folks like	8	BY MS. PARFITT:
9	yourself or folks in other medical specialties.	9	Q conflicts checks for you?
10	Fair?	10	MS. BROWN: Same objection.
11	MS. BROWN: Objection. Speculation.	11	THE WITNESS: I don't know that anybody
12	THE WITNESS: So I'm not a lawyer,	12	does conflicts checks. I mean if there is
13	right. So I'm trying to listen carefully to the	13	somebody, I'm not aware of who that is. If it
14	words that you're using, and when you say they	14	comes up, people will ask me sometimes if I have a
15	reach out and they retain MSA, I I actually	15	conflict of interest. Sometimes I'll see a
16	don't know if that's actually what happens, right.	16	complaint, you know, and be asked to look at, you
17	So I gave you an example that	17	know, the names on the complaint.
18	BY MS. PARFITT:	18	It all depends, but I I don't even
19	Q Okay.	19	know if I know what a conflict checks is, I mean
20	A they might retain MSA for their own	20	if that's a technical term. It's only been
21	purposes, and nobody else gets involved. If like,	21	it's only been done the way I'm describing, which
22	for example, in this case when Jonathan Cooper	22	somebody will say to me like, you know, Do you
23	reached out, he wanted to work with me, and MSA	23	have any conflict of interest?
24	provided the support services for me to get that	24	BY MS. PARFITT:
25	work done. So I I have no idea whether he	25	Q Okay. You prepared two affidavits that
23	work done. So I I have no idea whether he	25	Q Okay. Tou prepared two arridavits that
		25	
	Page 195		Page 197
1	Page 195 retained MSA per se. I mean that's that's	1	Page 197 I'm aware of, one in the Ingham case and one in
1 2	Page 195 retained MSA per se. I mean that's that's something for lawyers to kind of sort through.	1 2	Page 197 I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in
1 2 3	Page 195 retained MSA per se. I mean that's that's something for lawyers to kind of sort through. Q Well, did Jonathan Cooper go to you	1 2 3	Page 197 I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?
1 2 3 4	Page 195 retained MSA per se. I mean that's that's something for lawyers to kind of sort through. Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?	1 2 3 4	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do.
1 2 3 4 5	Page 195 retained MSA per se. I mean that's that's something for lawyers to kind of sort through. Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA? MS. BROWN: Objection to the form.	1 2 3 4 5	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do.  Q Okay. Are you aware of any other
1 2 3 4 5	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form.  You can answer if you know.	1 2 3 4 5 6	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do.  Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the
1 2 3 4 5 6	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form.  You can answer if you know.  THE WITNESS: It was kind of both. I	1 2 3 4 5 6 7	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do.  Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?
1 2 3 4 5 6 7 8	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form.  You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something	1 2 3 4 5 6 7	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you
1 2 3 4 5 6 7 8	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form.  You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be	1 2 3 4 5 6 7 8	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do.  Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you have one, I would be glad to help confirm it, but
1 2 3 4 5 6 7 8	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form.  You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.	1 2 3 4 5 6 7	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do.  Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head.
1 2 3 4 5 6 7 8	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know. THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this. BY MS. PARFITT:	1 2 3 4 5 6 7 8	l'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge
1 2 3 4 5 6 7 8 9	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form.  You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then	1 2 3 4 5 6 7 8 9	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest? A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit?
1 2 3 4 5 6 7 8 9 10	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form.  You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?	1 2 3 4 5 6 7 8 9 10	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit?  MS. BROWN: Objection to the form.
1 2 3 4 5 6 7 8 9 10 11 12 13 14	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.	1 2 3 4 5 6 7 8 9 10 11 12	Page 197  I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do.  Q Okay. BROWN: Objection. Speculation.  BY MS. PARFITT:	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit?  MS. BROWN: Objection to the form.  THE WITNESS: I don't remember.  BY MS. PARFITT:
1 2 3 4 5 6 7 8 9 10 11 12 13 14	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.  BY MS. PARFITT:  Q You said both. That's why I'm asking.	1 2 3 4 5 6 7 8 9 10 11 12 13 14	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit?  MS. BROWN: Objection to the form.  THE WITNESS: I don't remember.  BY MS. PARFITT: Q More than 50,000?
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.  BY MS. PARFITT: Q You said both. That's why I'm asking. A Yeah, yeah, I mean	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	l'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest?  A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit?  MS. BROWN: Objection to the form.  THE WITNESS: I don't remember.  BY MS. PARFITT: Q More than 50,000?  MS. BROWN: Same objection.
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know. THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this. BY MS. PARFITT: Q Okay. And did Jonathan Cooper then reach out to MSA as well? MS. BROWN: Objection. Speculation. BY MS. PARFITT: Q You said both. That's why I'm asking. A Yeah, yeah, I mean MS. BROWN: Same objection.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	l'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest? A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit? MS. BROWN: Objection to the form. THE WITNESS: I don't remember.  BY MS. PARFITT: Q More than 50,000? MS. BROWN: Same objection. THE WITNESS: So I guess it depends upon
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.  BY MS. PARFITT:  Q You said both. That's why I'm asking. A Yeah, yeah, I mean  MS. BROWN: Same objection.  THE WITNESS: I don't know how that part	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest? A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit? MS. BROWN: Objection to the form. THE WITNESS: I don't remember. BY MS. PARFITT: Q More than 50,000? MS. BROWN: Same objection. THE WITNESS: So I guess it depends upon when we're talking about like me, you know,
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.  BY MS. PARFITT:  Q You said both. That's why I'm asking. A Yeah, yeah, I mean  MS. BROWN: Same objection.  THE WITNESS: I don't know how that part worked, I mean, but but it was pretty clear	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest? A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit? MS. BROWN: Objection to the form. THE WITNESS: I don't remember.  BY MS. PARFITT: Q More than 50,000? MS. BROWN: Same objection. THE WITNESS: So I guess it depends upon when we're talking about like me, you know, because earlier you were lumping together, you
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.  BY MS. PARFITT:  Q You said both. That's why I'm asking. A Yeah, yeah, I mean  MS. BROWN: Same objection.  THE WITNESS: I don't know how that part worked, I mean, but but it was pretty clear that it was such a big volume of work, that if I	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest? A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit? MS. BROWN: Objection to the form. THE WITNESS: I don't remember. BY MS. PARFITT: Q More than 50,000? MS. BROWN: Same objection. THE WITNESS: So I guess it depends upon when we're talking about like me, you know, because earlier you were lumping together, you know, services that MSA charges for and gets paid
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.  BY MS. PARFITT:  Q You said both. That's why I'm asking. A Yeah, yeah, I mean  MS. BROWN: Same objection.  THE WITNESS: I don't know how that part worked, I mean, but but it was pretty clear that it was such a big volume of work, that if I was going to do it with him that I was going to	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	I'm aware of, one in the Ingham case and one in the Forrest. Do you recall doing that back in 2018?  A I do. Q Okay. Are you aware of any other affidavits you prepared in 2018 other than the Ingham and the Forrest? A I don't think so. But I mean if you have one, I would be glad to help confirm it, but I can't recall one off the top of my head. Q Fair enough. How much did you charge for preparation of the Ingham affidavit? MS. BROWN: Objection to the form. THE WITNESS: I don't remember. BY MS. PARFITT: Q More than 50,000? MS. BROWN: Same objection. THE WITNESS: So I guess it depends upon when we're talking about like me, you know, because earlier you were lumping together, you know, services that MSA charges for and gets paid for. So I don't remember what what part I got.
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	retained MSA per se. I mean that's that's something for lawyers to kind of sort through.  Q Well, did Jonathan Cooper go to you directly or did Jonathan Cooper go to MSA?  MS. BROWN: Objection to the form. You can answer if you know.  THE WITNESS: It was kind of both. I mean I think we we were talking about something else one day, and he asked if I would be interested in this.  BY MS. PARFITT:  Q Okay. And did Jonathan Cooper then reach out to MSA as well?  MS. BROWN: Objection. Speculation.  BY MS. PARFITT:  Q You said both. That's why I'm asking. A Yeah, yeah, I mean  MS. BROWN: Same objection.  THE WITNESS: I don't know how that part worked, I mean, but but it was pretty clear that it was such a big volume of work, that if I was going to do it with him that I was going to use MSA's services.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	I'm aware of, one in the Ingham case and one in the Forrest. THE WITNESS: So I guess it depends upon when we're talking about like me, you know, because earlier you were lumping together, you know, services that MSA charges for and gets paid for. So I don't remember what what part I got.

	Page 198		Page 200
1	you know, the input for that was stuff I was	1	products and ovarian cancer.
2	already, you know, reading and interpreting	2	And the question I have is, in any
3	otherwise.	3	context, when the topic of interest is talcum
4	BY MS. PARFITT:	4	powder products and ovarian cancer, have you ever
5	Q All right. How much did you charge for	5	been asked by MSA to do any work that's
6	the Forrest report?	6	non-pulmonary, other than the ovarian cancer
7	MS. BROWN: Objection to the form.	7	cases?
8	THE WITNESS: The same same answer.	8	A Related
9	I don't know. And in fact, the Forrest report, if	9	MR. LOCKE: Objection.
10	it came second, probably not very much because I	10	THE WITNESS: Related to talcum powder?
11	think it's mostly derivative from the first. I	11	BY MS. PARFITT:
12	mean I try I'm not trying to just, you know,	12	Q Related to anything.
13	create work to create it. Like if there's	13	A Well, wait a minute. No, because so,
14	something I that I like the way it reads, I try	14	first of all, you said has MSA asked me to do it.
15	to use it again.	15	Like they don't ask me to do stuff. Like they
16	BY MS. PARFITT:	16	it's the relationship we described before is
17	Q Okay. Are you aware, having actually	17	what it is. So if it's more general about are
18	prepared both of those affidavits, they are	18	there other cases
19	virtually the same affidavit? Would that surprise	19	O Yeah.
20	you?	20	A and when you say non-pulmonary, you
21	MS. BROWN: Objection to the form.	21	know, there are cases I've been involved in that
22	THE WITNESS: I hope they are. I mean	22	have nothing do with talcum powder that are
23	that that was the intent.	23	non-pulmonary.
24	BY MS. PARFITT:	24	So I'm just trying to figure out,
25	Q Okay. Other than the ovarian cancer/	25	there's a lot of different angles to what to
	Page 199		Page 201
1	talcum powder cases, have you been engaged by	1	what you're asking.
2	anyone else for opinions on a non-pulmonary issue?	2	Q Sure.
3	MS. BROWN: Objection to the form.	3	A Are you talking about talcum powder
4	THE WITNESS: Related to?	4	cases that are related to something other than
5	BY MS. PARFITT:	5	ovarian cancer, and something other than a
6	Q Your work with MSA.	6	pulmonary
7	A No, but you said it sounded like	7	Q I'll simplify it. Have you ever
8	there's something missing from the question.	8	prepared a report in a let me do it this way.
9	Q Sure. Let me let me ask it again.	9	Talcum powder products and ovarian
10	Okay.	10	cancer have nothing to do with pulmonary medicine,
11	Other than this case involving ovarian	11	correct?
12	cancer and talcum powder products, have you been	12	MS. BROWN: Objection to the form. Are
13	asked and or requested by anyone for your	13	we abandoning inhalation as a theory of
		14	MC DADELET NA .
14	opinions on a topic that was something other than	1	MS. PARFITT: No, we're not, no.
15	non-pulmonary?	15	MS. BROWN: Okay.
	non-pulmonary?  MS. BROWN: Objection. Do you mean	15 16	MS. BROWN: Okay. THE WITNESS: Then no. I mean, no,
15 16 17	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary.	15	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that
15 16 17 18	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary. MS. BROWN: to exclude Ingham and the	15 16 17 18	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that certainly has something to do with pulmonary
15 16 17	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary. MS. BROWN: to exclude Ingham and the other? When you say "this case," do you mean just	15 16 17	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that
15 16 17 18	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary. MS. BROWN: to exclude Ingham and the	15 16 17 18	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that certainly has something to do with pulmonary
15 16 17 18 19	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary. MS. BROWN: to exclude Ingham and the other? When you say "this case," do you mean just	15 16 17 18 19	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that certainly has something to do with pulmonary medicine.
15 16 17 18 19 20	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary. MS. BROWN: to exclude Ingham and the other? When you say "this case," do you mean just the MDL?	15 16 17 18 19 20	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that certainly has something to do with pulmonary medicine.  BY MS. PARFITT:
15 16 17 18 19 20 21	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary. MS. BROWN: to exclude Ingham and the other? When you say "this case," do you mean just the MDL? MS. PARFITT: Yeah.	15 16 17 18 19 20 21	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that certainly has something to do with pulmonary medicine.  BY MS. PARFITT:  Q Okay. And I think what I'm really
15 16 17 18 19 20 21 22	non-pulmonary?  MS. BROWN: Objection. Do you mean MS. PARFITT: That was non-pulmonary. MS. BROWN: to exclude Ingham and the other? When you say "this case," do you mean just the MDL? MS. PARFITT: Yeah. BY MS. PARFITT:	15 16 17 18 19 20 21 22	MS. BROWN: Okay.  THE WITNESS: Then no. I mean, no, meaning that if that's a theory, then that certainly has something to do with pulmonary medicine.  BY MS. PARFITT:  Q Okay. And I think what I'm really driving at is, it looks as though your focus for

	Page 202		Page 204
1	MR. LOCKE: Objection.	1	anything
2	THE WITNESS: My focus	2	Q Do you want to take
3	BY MS. PARFITT:	3	A No, I'm just wondering. Not
4	Q Focus and research	4	necessarily, but if it's
5	MS. BROWN: Objection.	5	MS. MILLER: This would be a good time
6	BY MS. PARFITT:	6	for lunch.
7	Q for preparation of expert legal	7	THE WITNESS: Yeah, that's what I'm
8	reports.	8	wondering, just if it's going to be
9	MS. BROWN: Objection to the form.	9	MS. BROWN: Yeah, it's up to you. If
10	THE WITNESS: I I'm either not	10	you want to break, counsel will give you a break.
11	hearing you well or I think things are getting	11	MS. PARFITT: Whatever you want to do.
12	jumbled.	12	Do you want to take a break now?
13	BY MS. PARFITT:	13	THE WITNESS: It would be nice to to
14	Q Okay.	14	get a snack, and
15	A And I	15	MS. PARFITT: You want to take a half
16	Q Probably the the latter.	16	hour and grab
17	A No, and I apologize.	17	THE WITNESS: Would that be okay?
18	Q It's probably me.	18	MS. PARFITT: That's totally fine, yep.
19	A I'm not trying to give you a hard time.	19	THE VIDEOGRAPHER: The time is 12:08
20	I just mean that what I what I heard earlier	20	p.m., and we are going off the record.
21	is am I working on something with talcum powder	21	(Lunch recess.)
22	other than ovarian cancer or other than ovarian	22	THE VIDEOGRAPHER: The time is 12:43
23	cancer and something that isn't part of the lung?	23	p.m., and we're back on the record.
24	Is that it?	24	BY MS. PARFITT:
25	Q Are you preparing expert reports on a	25	Q Good afternoon, Dr. Diette.
	D 002		D 005
_	Page 203		Page 205
1	topic area other than talcum powder products and	1	A Good afternoon.
2	ovarian cancer currently?	2	Q All right, Dr. Diette, I'd like to focus
3	MS. BROWN: Objection. He's not	3	for a little bit about your actually your
4	answering questions about reports that have not	4	expert report and hopefully get to your opinions
5	been served in cases	5	here soon.
6	MS. PARFITT: Understood.	6	It's fair to say that this report is
7	MS. BROWN: where he's not a	7	this expert report is not a report that you
8	disclosed expert.	8	prepared in the ordinary course of your activities
9	THE WITNESS: You mean in my	9	as a pulmonary medicine at Johns Hopkins?
10	professional life in general?	10	MS. BROWN: Objection to the form.
11 12	BY MS. PARFITT:	11	THE WITNESS: That's correct.
	Q Correct.	12	BY MS. PARFITT:
13	A Yes.	13	Q Okay. And are all the opinions which
14	Q Okay. What other areas?	14	you will be sharing with us today, and eventually
15 16	A Well, that's what we talked about	15	the court and a jury, set forth in your your
16 17	before, right. So there was asbestos, there's	16	expert report?
17	some chemicals, probably like mold and dampness.	17	MS. BROWN: Form.
18 19	There's malpractice cases. I mean a whole variety	18	THE WITNESS: I hope so. I mean, it's there may be like like smaller opinions
20	of different things.	19 20	•
21	Q Okay. All right. I want to come to		that are underpinnings that I didn't capture, but
21 22	where I want to go is your your actual report.	21	I mean the fundamental opinions should be there.
	I want you to take me through I'll ask you some	22 23	And assuming nothing different comes out when you're asking me about it today, I guess the only
			voilte asking the about it today. I guess the only
23	questions about the process that you went through		
	questions about the process that you went through in actually putting this report together.  A And I don't want to overbreak or	24 25	other thing I'd say is that I don't think that I've seen all of the the testimony yet in this

Gregory B. Diette, M.D.

	Page 206		Page 208
1	case. So I don't know whether that's going to,	1	to say that that is your signature on the on
2	you know, spur some other thought, you know, from	2	the front page, Gregory Diette?
3	the other other experts who are testifying, but	3	A Yes, it is.
4	aside from that, then this should otherwise be	4	Q And you completed that on February 25th,
5	complete.	5	2019, correct?
6	BY MS. PARFITT:	6	A Exactly right.
7	Q And obviously if you see something,	7	Q Okay. And it would also is it also
8	testimony that causes you to change your opinions,	8	fair to say that the opinions contained in this
9	you will let me know, correct?	9	report are not the opinions of Johns Hopkins
10	MS. BROWN: Form.	10	University?
11	THE WITNESS: I will.	11	A Not as far as I know. I mean they're
12	BY MS. PARFITT:	12	literally just mine.
13	Q All right. Dr. Diette, on the front of	13	Q Have you shared these opinions with any
14	your report it says "Expert Report of Gregory	14	of the other members of the Johns Hopkins
15	Diette, MD, MHS, For General Causation Daubert	15	community?
16	Hearing." Did you write that?	16	A No.
17	A Not this page, no.	17	Q All right. Did you run the opinions
18	Q All right. Who wrote that?	18	that you have by any of the staff or your
19	MS. BROWN: Objection to the form.	19	superiors at Johns Hopkins?
20	THE WITNESS: I I don't know	20	MS. BROWN: Objection to the form.
21	literally. I think this came from the law firm as	21	THE WITNESS: No.
22	a cover page for me to to sign.	22	BY MS. PARFITT:
23	BY MS. PARFITT:	23	Q Okay. Aside from this expert report and
24	Q You've testified both in general	24	the opinions retained herein, have you shared your
25	causation case as a general causation witness	25	opinions with anyone else outside of the Johns
25	causation case as a general causation witness  Page 207	25	-
25	Page 207	25 1	opinions with anyone else outside of the Johns

THE WITNESS: Right, but I mean but lawyers that are involved in this case, I have expressed it to, but not those other kinds of entities that you described.  BY MS. PARFITT:  Q Okay. And to be clear, you have not shared with the Johns Hopkins community your opinions on talcum powder products and ovarian cancer.  MS. BROWN: Objection to the form.  THE WITNESS: That is correct.  BY MS. PARFITT:
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	and as well as a specific causation witness, correct?  A Generally speaking, like in legal cases? Q Correct. A Yes, I have. Q All right. So you understand the difference. A I hope so, yeah. Q Okay. Have you actually testified in an asbestos/meso mesothelioma case on giving specific causation opinions? A Yes. Q Okay. Have you also provided general causation opinions in a meso/asbestos case? A Yes. Q Okay. Now, it says Daubert. Do you understand what a Daubert hearing is? MS. BROWN: Objection to the form. THE WITNESS: Probably not the way that you do. I have a general general sense of this, but you know, I I wouldn't be able to answer, you know, a lot of test questions about	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	opinions with anyone else outside of the Johns  Page 209  Hopkins community, regulatory or scientific bodies?  MS. BROWN: Objection to the form.  THE WITNESS: No. You mean other than the lawyers and  BY MS. PARFITT:  Q Correct, other than your lawyers.  A Oh, yeah, yeah, yeah.  MS. BROWN: Objection to the form.  We're not his lawyers.  THE WITNESS: Right, but I mean but lawyers that are involved in this case, I have expressed it to, but not those other kinds of entities that you described.  BY MS. PARFITT:  Q Okay. And to be clear, you have not shared with the Johns Hopkins community your opinions on talcum powder products and ovarian cancer.  MS. BROWN: Objection to the form.  THE WITNESS: That is correct.

53 (Pages 206 to 209)

	Page 210		Page 212
1	front of you?	1	Q Okay. And if you would turn be so
2	A I do. Thank you.	2	kind to turn to the last page of the report,
3	Q Okay. Is it fair to say that your	3	page 51.
4	report contains the bases for your opinions as	4	A Okay.
5	well?	5	Q And again, if you would read the first
6	A Yes.	6	paragraph.
7	Q All right. And is it fair the do you	7	A At the
8	know whether or not this report has answered all	8	Q And we'll go ahead and put that up on
9	the questions that J&J asked you to answer for	9	the ELMO.
10	them?	10	A Under "Conclusion" or the
11	MS. BROWN: Objection. Lacks	11	Q Under the Conclusion, if you will.
12	foundation.	12	A Yep. The whole thing?
13	THE WITNESS: Well, I think there's only	13	Q Just that just that first
14	one question, right?	14	paragraph or first sentence.
15	BY MS. PARFITT:	15	A First sentence. Oh, okay. Yep.
16	Q And what was that question?	16	"It is my opinion, based on my
17	MS. BROWN: Wait. Let him finish.	17	qualifications and my extensive review of the
18	BY MS. PARFITT:	18	available epidemiology studies and scientific
19	Q What was that question?	19	literature, that there is not sufficient evidence
20	A I'm sorry. So the question was was	20	to conclude that there is a causal relationship
21	really about whether or not the what does the	21	between perineal talcum powder exposure and
22	epidemiologic evidence say about the relationship	22	ovarian cancer."
23	between talcum powder and ovarian cancer.	23	Q Okay. And I know you have much to say
24	Q All right. So let's turn to your	24	about that, but that is basically the the
25	report, page 2, and I believe	25	general opinion that you're going to be sharing,
	Page 211		Page 213
	- 3 -		rage 213
1	MS. PARFITT: And we'll put it up on the	1	correct?
1 2		1 2	correct?  A I agree with you, yes.
	MS. PARFITT: And we'll put it up on the		correct?
2	MS. PARFITT: And we'll put it up on the ELMO here.	2	correct?  A I agree with you, yes.
2 3	MS. PARFITT: And we'll put it up on the ELMO here.  (Counsel conferring.)	2 3	correct?  A I agree with you, yes.  Q Okay. Let me show you what we'll have marked as 12, Exhibit 12.  (Counsel conferring.)
2 3 4	MS. PARFITT: And we'll put it up on the ELMO here.  (Counsel conferring.)  MS. PARFITT: I guess we won't put it up	2 3 4	correct?  A I agree with you, yes.  Q Okay. Let me show you what we'll have marked as 12, Exhibit 12.

	Page 214		Page 216
1	I've seen.	1	up here, and I'm going to doc and I'm going to
2	Q Okay. Fair.	2	go ahead and make a notation as you talk, and
3	Now, this is from the Sidney Kimmel	3	we're going to put your initials by that which you
4	Comprehensive Cancer Center, correct?	4	agree or don't agree, or that which resonates with
5	A That's right.	5	you or that which does not.
6	Q And it's entitled "Risk Factors Risk	6	So give me a moment. Hang with me,
7	Factors" excuse me and Symptoms." Do you	7	okay?
8	see that?	8	A Yeah.
9	A I do.	9	Q All right.
10	Q All right. And if you and this is for	10	MS. BROWN: Objection to the exercise.
11	ovarian cancer, you see that?	11	THE WITNESS: And I will say I mean I
12	On the second line, "ovarian cancer," it	12	wasn't you know, that I don't necessarily
13	talks	13	I'm not going to be able to necessarily agree or
14	A Yes.	14	literally disagree with each one of these, but
15	Q Okay. Now, what I'd like you to do is	15	I'll just try to comment on what they what they
16	turn to the second page, and there is a risk	16	have here and what it says to me.
17	factor listed, amongst others. Do you see that?	17	BY MS. PARFITT:
18	A I do.	18	Q All right. Well, why don't we take the
19	Q And it says "Talcum Powder and	19	first one.
20	Asbestos." Do you see that?	20	"Habitual use of talcum powder on the
21	A Yes.	21	genital area may increase the risk for ovarian
22	Q All right. Would you read that, please.	22	cancer, but the evidence is not strong."
23	A "Habitual use of talcum powder on the	23	A Yeah.
24	genital area may increase the risk for ovarian	24	Q Do you agree with that?
25	cancer, but the evidence is not strong. A study"	25	A I agree that the evidence is not strong.
	Dama 215		Dama 217
1	Page 215	1	Page 217
1 2	the first sentence or the whole thing?  Q The whole thing.	1 2	And and I think it's a it's a pretty nuanced
3		3	statement. It may increase, which leaves open
4	A Yep. "A study at Harvard Medical School found that using talc this way doubled the risk,	4	that it may not increase. So I think it's a it's a balanced statement. And their inclusion of
5	but other studies found no increased risk. Some	5	the evidence not being strong is what resonates
6	researchers believe that tale may be carcinogenic	6	with me.
7	because it contains particles of asbestos, a known	7	Q Okay. Do you disagree, though, that
8	carcinogen. It's been shown that rates of ovarian	8	it do you agree or disagree with this
9	cancer are higher than normal in women whose jobs	9	statement: "Habitual use of talcum powder on the
10	expose them to asbestos."	10	genital area may increase the risk for ovarian
	Q All right. Thank you.		
11 12	Fair to say, Dr. Diette, that your	11	cancer, but the evidence is not strong"?  MR. LOCKE: Objection.
13	opinions are contrary to the opinions of what	13	BY MS. PARFITT:
13 14	of those individuals at the Sidney Kimmel	14	
15	Comprehensive Cancer Center?	15	Q Do you agree with that statement?
16	MS. BROWN: Objection to the form of the	16	A I don't literally agree or disagree with
17	question, lacks foundation.	17	it. I mean, I think I break it down the way that I did into those two parts.
18	THE WITNESS: I wouldn't say globally.	18	_
			Q Okay. Well, I have a different
19 20	I mean there's there's things here that	19	question. I know how you want to do it, but I
20	resonate with me just fine.	20	I do get the ask the questions.
21	BY MS. PARFITT:	21 22	MS. BROWN: He answered your question,
22	Q What resonates with you fine and what		Counsel.
23	does not resonate with you?	23 24	BY MS. PARFITT:
24	A Well, so, for example, when Q And if you will, I'm going to put mine	25	Q Habitual question yes or no MS. BROWN: No.
25

Gregory B. Diette, M.D.

	Page 218		Page 220
1	BY MS. PARFITT:	1	than "may increase the risk," and it's very
2	Q "Habitual use of talcum powder on the	2	different than saying it causes it.
3	genital area may increase the risk for ovarian	3	BY MS. PARFITT:
4	cancer." True or false?	4	Q Okay.
5	MR. LOCKE: Objection.	5	A So it's it's a pretty vague
6	MS. BROWN: Objection to the form of the	6	statement.
7	question, asked and answered.	7	Q Okay. And I think I hear what you're
8	You can give the same answer again.	8	saying, but my question, and I think you just
9	THE WITNESS: It's	9	answered it, is if if Judge Wolfson says to
10	MS. PARFITT: Counsel, please quit	10	you, Dr. Diette, I would like an answer to my
11	instructing the witness.	11	question: Does the habitual use of talcum powder
12	MS. BROWN: Counsel, don't yell at me.	12	on the genital area increase the risk for ovarian
13	BY MS. PARFITT:	13	cancer?
14	Q Go ahead.	14	My my question to you from Judge
15	MS. BROWN: We can call the Judge.	15	Wolfson.
16	MS. PARFITT: I'm not yelling we can	16	MR. LOCKE: Objection.
17	call the Judge because I'll tell you, I don't	17	MS. BROWN: Objection to the form of the
18	think he'll be she will be impressed.	18	question, asked and answered.
19	MS. BROWN: That's fine. Let's go.	19	THE WITNESS: And whether it does?
20	Let's walk right there and call her right now.	20	BY MS. PARFITT:
21	MS. PARFITT: I'm not going to waste the	21	Q Yeah, the question is
22	time right now.	22	A Well, it doesn't say that, though.
23	MS. BROWN: Okay.	23	Q do you have no, no, I know it
24	THE WITNESS: So I don't see it as a	24	doesn't.
25	true or false questions. I think that there's two	25	A Oh.
	Page 219		Page 221
1	parts, and I I like the way that I answered it.	1	Q I'm representing you've already told
2	BY MS. PARFITT:	2	me what you said about what's here.
3	Q Well, let me ask you this: My if	3	A I see.
4	Judge Wolfson, who is the judge presiding over	4	Q What I'm asking you is, do you have an
5	this case, says to you, Dr. Diette, I've got a	5	opinion whether or not the habitual use of talcum
6	question for you this is in July do you have	6	powder powder on the genital area may increase
7	an opinion whether or not habitual use of talcum	7	the risk for ovarian cancer?
8	powder on the genital area may increase the risk		the fish for ovarian cancer.
	powder on the gental area may increase the risk	8	A Not to quibble, but you just said does
9	for ovarian cancer, what are you going to tell	8 9	
9			A Not to quibble, but you just said does
	for ovarian cancer, what are you going to tell her?  MS. BROWN: Objection to the form of the	9	A Not to quibble, but you just said does increase before that, and now it's may increase? Is it is it does increase Q I'm going to do both, yeah.
10	for ovarian cancer, what are you going to tell her?  MS. BROWN: Objection to the form of the question and to the yelling at the witness.	9	A Not to quibble, but you just said does increase before that, and now it's may increase?  Is it is it does increase Q I'm going to do both, yeah. A Okay. Well, I think this is so watered
10 11	for ovarian cancer, what are you going to tell her?  MS. BROWN: Objection to the form of the	9 10 11	A Not to quibble, but you just said does increase before that, and now it's may increase? Gregory B. Diette, M.D.

#### Page 222 Page 224 MS. BROWN: -- of the question, 1 Q Okay. So you agree with "the evidence 1 misstates the document, and it's been asked and 2 is not strong." 2 3 And then what about the next part, "A 3 answered. 4 study at Harvard Medical School found that using 4 THE WITNESS: I'd be careful a lot of 5 5 talc this way doubled the risk, but other studies ways, right? I think it's -- it's easy to say 6 6 found no increased risk." Do you agree with that what, you know, Johns Hopkins is saying. I don't 7 7 statement? know how well this represents Johns Hopkins as an 8 8 entity. I -- like I don't know who controls this MS. BROWN: Objection to the form of the 9 question. 9 website. I don't know who the author was. I 10 10 THE WITNESS: It's -- I would say maybe. don't know if it was -- you know, somebody who was 11 11 And the reason is because they -- they haven't hired for the summer to create a website or 12 12 cited what the Harvard study is. It -- I could whether it's somebody who is a credible 13 13 assume, but I might be wrong that maybe it's the researcher. 14 But I also know that these kinds of 14 Cramer study from '82. Maybe it's not. So I don't know. So if they're citing that, then --15 15 things populate all kinds of different websites, 16 then that might well be a correct statement. And 16 and they're not necessarily like a policy 17 17 it's certainly correct that other studies have statement, you know, of a university or a hospital 18 18 found no increased risk. or an entity. 19 BY MS. PARFITT: 19 BY MS. PARFITT: 20 20 Q And I'll --Q All right. So from your review of the 21 medical and scientific literature, you have seen 21 A I would just be careful, I mean just in 22 where scientists who look at the same scientific 22 terms of saying Johns Hopkins is saying this. 23 and medical literature can arrive at different 23 Q Well, I will represent to you, and you 24 24 can see for yourself, that the Sidney Kimmel opinions, correct? 25 25 MS. BROWN: Objection to the form of the Comprehensive Center puts out this information. Page 223 Page 225 1 Your institution. 1 question. 2 2 THE WITNESS: Are we talking about a MS. BROWN: Objection to the form of the 3 specific topic or just you -- in general, that 3 question, and misstates the document. 4 scientists can disagree with each other? 4 THE WITNESS: It's the same issue. 5 5 BY MS. PARFITT: Right. I mean I know the Sidney Kimmel Cancer 6 6 Q Scientists can disagree with each other. Center, and I work there. It's -- but I don't 7 7 MS. BROWN: Objection to the form. know what the source is of this information, I 8 8 don't know who's the author, and I don't know what THE WITNESS: I think in general, they 9 can disagree about all sorts of things. I don't 9 they expect it to represent in terms of a Johns 10 think there's a good reason to disagree about this 10 Hopkins, you know, point of view. 11 BY MS. PARFITT: 11 topic that we're talking about. 12 12 BY MS. PARFITT: Q Did anyone over at the Sidney Kimmel 13 Comprehensive Cancer Center ever consult you with 13 Q Well, in this particular sentence, Johns 14 Hopkins University is representing to consumers, 14 regard to what language should be included on the 15 15 or anyone who wants to get onto the website, that website with regard to risk factor information? 16 medical schools found -- that a study of the 16 A No. Harvard Medical School found that using talc this 17 MS. BROWN: Objection to the form. 17 18 way doubled the risk, but other studies found no 18 BY MS. PARFITT: 19 19 increased risk. Q Okay. The second part, let's go on. If A Yes. 20 you will, it starts with -- if you can read on 2.0 21 "Some," if you would read that, please. 21 Q Is it fair to say they're communicating 22 that there are science -- there's science out 22 A "Some researchers believe that talc may 23 there that goes both ways? 23 be carcinogenic because it contains particles of 24 MS. BROWN: Objection to the form --24 asbestos, a known carcinogen." 25 25 MR. LOCKE: Objection. Q All right. And do you agree with that

PARFITT: 20 So, you know, they don't all have a 21 Q And I'll represent to you that this 22 is the statement of Ann McTiernan that was 22 leaving out information here and she's leaving out an awful lot of information here and and really right. I mean she she's leaving out an awful lot of information here and and really referring just to one narrow slice of the evidence that she's that she's citing here.  8 BY MS. PARFITT:  10 Q Okay. What did she leave out, Doctor' 11 A I'm sorry? 12 Q What is she leaving out? 13 A Well, saying that that "data from all the published studies consistently shows that women who had ever used talcum powder proceed the genital area had a statistically significant ovarian cancer.  11 So, you know, of developing ovarian cancer. 12 So, you know, they don't all have a statistically significant increase, and she's leaving out information that would run counter	e ucts in

Page 240 Page 238 1 Terry, but there's other information in there, 1 search terms that you used in order to do your 2 like from Berge, for example, you know, who points 2 literature review? 3 out that there's no risk seen in the cohort 3 A I didn't -- I didn't write them down, 4 studies. So I think if this were balanced, that 4 but it -- you know, this didn't start as like a --5 5 she would -- she would have more information than like a -- like there's been some searches that 6 6 just that particular statement. I've been involved in where, you know, somebody 7 7 Q Okay. And we'll talk a little bit more might commission a review of a particular topic, 8 about the -- the cohorts in just -- just a moment. 8 and you have to figure out what those search terms 9 Okay. What was the methodology you 9 10 10 employed in order to present the opinions and In this case, there's a really good head 11 11 bases for opinions in your report? start because there's meta-analyses done and 12 12 A So generally, I tried to identify all of there's some other -- some other papers. And so the relevant epidemiologic studies -- is that what 13 13 what I tried to use was the words that the authors you're -- you're asking? 14 used, you know, assuming that they would then link 14 up and find the other -- other articles. 15 Q That is? 15 16 16 A Okay. So -- so like "ovarian cancer," "talc," 17 17 O That is. "talcum powder," probably some -- you know, some 18 words like "risk" and "cause" and -- I think for 18 A And so I tried to find them in an 19 iterative way, you know, meaning that there were 19 that part of it that was -- that was kind of the 20 meta-analyses that had many of them listed. I did 20 bulk of it. There may have been other terms that 21 some searches of their own reference lists to look 21 came up in some of the -- some of the articles 22 that I would search for also, but that -- that was 22 for others. I did searches, you know, using 23 web-based, you know, tools to find other -- other 23 the main ones. 24 24 studies, and tried to get what I thought was a Q Did you search for the word "cancer"? 25 pretty comprehensive group of all the 25 A Oh, well, "ovarian cancer." Page 239 Page 241 1 epidemiologic studies. Q Okay. Did you search for the word 1 2 And then I also tried to read other 2 "asbestos"? 3 things, you know, IARC monographs, other -- like 3 A I did, but differently -- so I did sort 4 reports from like American College of Obstetrics 4 of a separate search for that, which was "asbestos 5 and Gynecology, and -- and get a sense of how some 5 and ovarian cancer." Same approach, but -- but 6 6 of the information was being interpreted by different -- I thought we were just talking about 7 7 other -- other bodies. the talcum powder at the moment. 8 And -- and then ultimately looked at 8 But separately, I did a search for 9 criteria that people recognize as useful for 9 "asbestos and -- and ovarian cancer." And -- and 10 assessing causation, which are labeled sometimes 10 just like for this issue of talcum powder, there Bradford Hill considerations, and then other 11 11 was a good head start from -- from IARC, at least 12 things too. 12 having identified several -- several key studies, 13 13 So besides that, then, you know, looking and then looked for more because there were 14 at the quality of the studies in some cases. So, 14 obviously some that they didn't cite or that 15 for example, were there valid measures of -- of 15 weren't available to them at the time that they 16 exposure that were used, was there evidence for 16 did their -- their review. 17 confounding and bias, and so forth. 17 Q Did you search for the word 18 Q All right. 18 "inflammation"? 19 19 A Meaning especially those latters A I did, for -- part of the searches was 20 aren't -- those latter factors aren't part of 20 for inflammation. Bradford Hill. Like he doesn't talk about, you 21 21 O Okay. 22 know, bias and confounding and validity of the 22 A I should say also -- I mean there's more 23 measures and so forth. So there's more to looking 23 to it if you want, just a little bit more. 24 at it than just Bradford Hill. 24 Q No. Let me ask you a question first. Q Okay. So what was -- what were the 25 25 A Okay.

61 (Pages 238 to 241)

	Page 242		Page 244
1	Q There's no question pending.	1	A Some
2	I assume you did a literature search	2	MS. BROWN: Objection to the form.
3	back in the early part of 2017 when you were first	3	THE WITNESS: Some of it.
4	retained, correct?	4	BY MS. PARFITT:
5	A Correct.	5	Q Okay. And how did you select the
6	Q All right. So did you update that	6	case the cases that became part of your list of
7	literature search?	7	cases on page 13 and 14 of your report?
8	A Oh, yeah.	8	A What does "cases" mean?
9	Q Okay. Did you keep do you keep some	9	Q Studies. You have them listed on
10	kind of recordation of material you had before and	10	page 13, and it carries over to page 14.
11	then what material you're looking at now for	11	A It's the way I describe it, I don't
12	purposes of this most recent report?	12	think I got to finish answering the question about
13	A No, I mean it's not sorted by by when	13	the the rest of the methodology. You'd have to
14	I found it.	14	turn over to page 6, and in the section called
15	Q All right. You represented, at least in	15	"Review of Epidemiology Data," there's a
16	your report, that you looked at the databases	16	description of what I just told you verbally just
17	Medline and Google.	17	a moment ago, which is talking about MedLine and
18	Did you use any other databases for your	18	Google Scholar, and reviewed the reference list of
19	research?	19	the individual studies and the meta-analyses to
20	A Well, scholar Google Scholar as	20	assemble a complete list of studies, and then I
21	opposed to just plain Google and then main Google	21	it goes on. That's not the whole paragraph
22	itself. I don't remember if I used any others.	22	obviously, but that's the that's the general
23	Q Okay. Where in your report do you share	23	method of how I found them.
24	your systematic review and collection of the	24	Q Okay. And what process did you go
25	various literature that formed the bases of your	25	through to select or deselect certain pieces of

Q employed in order to  A Sure, other places  Q form the basis for your opinions?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	literature that you reviewed?  A Well, I I included all of the ones that I could find. I mean we're talking about the epidemiologic studies.  Q We are. We are indeed, yeah.  A So like in terms of the cohort studies, there's only three I could find. There's more than three publications that pertain to the three, but I included all three, and I included all the publications I could find on the topic.  But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	opinion?  A I didn't write that part, I don't think, but it I do talk about the the methodology in general.  Q Okay. Well, you talk about the methodology on page I believe it's page 4, and there's about two paragraphs there, and then on the top of page 5, where there's just two full paragraphs.  So my question is, where do you is there anywhere else in your report that you set forth your methodology  A Yeah.  Q employed in order to  A Sure, other places  Q form the basis for your opinions?  A Sorry, I didn't mean to interrupt.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	literature that you reviewed?  A Well, I I included all of the ones that I could find. I mean we're talking about the epidemiologic studies.  Q We are. We are indeed, yeah.  A So like in terms of the cohort studies, there's only three I could find. There's more than three publications that pertain to the three, but I included all three, and I included all the publications I could find on the topic.  But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice, and it's not entirely clear how to unravel them. So I just tried to include as many of those as I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	opinion?  A I didn't write that part, I don't think, but it I do talk about the the methodology in general.  Q Okay. Well, you talk about the methodology on page I believe it's page 4, and there's about two paragraphs there, and then on the top of page 5, where there's just two full paragraphs.  So my question is, where do you is there anywhere else in your report that you set forth your methodology  A Yeah.  Q employed in order to  A Sure, other places  Q form the basis for your opinions?  A Sorry, I didn't mean to interrupt.  Q No, and what I'm saying  A Were you done?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	literature that you reviewed?  A Well, I I included all of the ones that I could find. I mean we're talking about the epidemiologic studies.  Q We are. We are indeed, yeah.  A So like in terms of the cohort studies, there's only three I could find. There's more than three publications that pertain to the three, but I included all three, and I included all the publications I could find on the topic.  But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice, and it's not entirely clear how to unravel them. So I just tried to include as many of those as I could that looked like distinct studies, and I tried to make sure I had the you know, the vast
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	opinion?  A I didn't write that part, I don't think, but it I do talk about the the methodology in general.  Q Okay. Well, you talk about the methodology on page I believe it's page 4, and there's about two paragraphs there, and then on the top of page 5, where there's just two full paragraphs.  So my question is, where do you is there anywhere else in your report that you set forth your methodology  A Yeah.  Q employed in order to  A Sure, other places  Q form the basis for your opinions?  A Sorry, I didn't mean to interrupt.  Q No, and what I'm saying  A Were you done?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	literature that you reviewed? But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice, and it's not entirely clear how to unravel them. So I just tried to include as many of those as I could that looked like distinct studies, and I tried to make sure I had the you know, the vast majority of what was being considered in the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	opinion?  A I didn't write that part, I don't think, but it I do talk about the the methodology in general.  Q Okay. Well, you talk about the methodology on page I believe it's page 4, and there's about two paragraphs there, and then on the top of page 5, where there's just two full paragraphs.  So my question is, where do you is there anywhere else in your report that you set forth your methodology  A Yeah.  Q employed in order to A Sure, other places Q form the basis for your opinions? A Sorry, I didn't mean to interrupt. Q No, and what I'm saying A Were you done? Q you have a methodology section let's start over.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	literature that you reviewed?  A Well, I I included all of the ones that I could find. I mean we're talking about the epidemiologic studies.  Q We are. We are indeed, yeah.  A So like in terms of the cohort studies, there's only three I could find. There's more than three publications that pertain to the three, but I included all three, and I included all the publications I could find on the topic.  But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice, and it's not entirely clear how to unravel them. So I just tried to include as many of those as I could that looked like distinct studies, and I tried to make sure I had the you know, the vast majority of what was being considered in the meta-analysis as well.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	opinion?  A I didn't write that part, I don't think, but it I do talk about the the methodology in general.  Q Okay. Well, you talk about the methodology on page I believe it's page 4, and there's about two paragraphs there, and then on the top of page 5, where there's just two full paragraphs.  So my question is, where do you is there anywhere else in your report that you set forth your methodology  A Yeah.  Q employed in order to A Sure, other places Q form the basis for your opinions? A Sorry, I didn't mean to interrupt. Q No, and what I'm saying A Were you done? Q you have a methodology section let's start over.  You have a methodology section of your	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	literature that you reviewed?  A Well, I I included all of the ones that I could find. I mean we're talking about the epidemiologic studies.  Q We are. We are indeed, yeah.  A So like in terms of the cohort studies, there's only three I could find. There's more than three publications that pertain to the three, but I included all three, and I included all the publications I could find on the topic.  But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice, and it's not entirely clear how to unravel them. So I just tried to include as many of those as I could that looked like distinct studies, and I tried to make sure I had the you know, the vast majority of what was being considered in the meta-analysis as well.  Q I think where I'm going is, where do
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	opinion?  A I didn't write that part, I don't think, but it I do talk about the the methodology in general.  Q Okay. Well, you talk about the methodology on page I believe it's page 4, and there's about two paragraphs there, and then on the top of page 5, where there's just two full paragraphs.  So my question is, where do you is there anywhere else in your report that you set forth your methodology  A Yeah.  Q employed in order to A Sure, other places Q form the basis for your opinions? A Sorry, I didn't mean to interrupt.  Q No, and what I'm saying A Were you done? Q you have a methodology section let's start over.  You have a methodology section of your report. Is it fair that that is where you set	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	literature that you reviewed?  A Well, I I included all of the ones that I could find. I mean we're talking about the epidemiologic studies.  Q We are. We are indeed, yeah.  A So like in terms of the cohort studies, there's only three I could find. There's more than three publications that pertain to the three, but I included all three, and I included all the publications I could find on the topic.  But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice, and it's not entirely clear how to unravel them. So I just tried to include as many of those as I could that looked like distinct studies, and I tried to make sure I had the you know, the vast majority of what was being considered in the meta-analysis as well.  Q I think where I'm going is, where do you where do you tell the the reader what
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	opinion?  A I didn't write that part, I don't think, but it I do talk about the the methodology in general.  Q Okay. Well, you talk about the methodology on page I believe it's page 4, and there's about two paragraphs there, and then on the top of page 5, where there's just two full paragraphs.  So my question is, where do you is there anywhere else in your report that you set forth your methodology  A Yeah.  Q employed in order to A Sure, other places Q form the basis for your opinions? A Sorry, I didn't mean to interrupt. Q No, and what I'm saying A Were you done? Q you have a methodology section let's start over.  You have a methodology section of your	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	literature that you reviewed?  A Well, I I included all of the ones that I could find. I mean we're talking about the epidemiologic studies.  Q We are. We are indeed, yeah.  A So like in terms of the cohort studies, there's only three I could find. There's more than three publications that pertain to the three, but I included all three, and I included all the publications I could find on the topic.  But the case-control study, a similar approach, although there's a little bit of confusion with the case controls because there's overlap. There is a redundant publication where some authors are presenting the same data twice, and it's not entirely clear how to unravel them. So I just tried to include as many of those as I could that looked like distinct studies, and I tried to make sure I had the you know, the vast majority of what was being considered in the meta-analysis as well.  Q I think where I'm going is, where do

62 (Pages 242 to 245)

	Page 246		Page 248
1	THE WITNESS: I tried to get them all.	1	of the risk risk estimates, not of the number
2	I wasn't trying to exclude any studies.	2	of cases.
3	BY MS. PARFITT:	3	BY MS. PARFITT:
4	Q So every so may I assume from that	4	Q Correct. So where on this page 13 or 14
5	statement that all of the literature that you've	5	do you tell the reader how many ovarian cancer
6	listed on page 13 and 14 in the cohort studies and	6	cases were part of that study?
7	the meta-analysis is the entire body of literature	7	MS. BROWN: Objection to the form.
8	that you reviewed?	8	THE WITNESS: It's not on there.
9	A Of course not.	9	BY MS. PARFITT:
10	MS. BROWN: Objection to the form.	10	Q Okay. Where on your list of cases, 13
11	THE WITNESS: No, no, what well, I	11	and 14, do you tell the reader the number of
12	guess, if you could, please be very precise what	12	controls that were involved in that study?
13	you're asking.	13	A I didn't I didn't list every single
14	To me what I think we're talking about	14	thing like that on here.
15	is the case-control studies and the cohort	15	Q You didn't list it in your report
16	studies, and so I tried to identify every single	16	either, correct?
17	one of them. So I didn't have an exclusion	17	MS. BROWN: Objection to the form.
18	criteria to say I was going to ignore this one	18	THE WITNESS: Well, this is the report.
19	because it wasn't supportive of my view or	19	BY MS. PARFITT:
20	something like that. I included them all.	20	Q Well, you didn't list it anywhere else
21	I searched for clinical trials, but	21	other that information is not contained in your
22	there weren't any. So that was that was an	22	report. Is that fair?
23	issue as well.	23	MS. BROWN: Objection to the form.
24	BY MS. PARFITT:	24	MR. LOCKE: Objection.
25	Q Were there any studies that you chose	25	THE WITNESS: The sample size?
	Q ore more any states and you enough		THE WITH BOST THE SUMPLE SEET
	Page 247		Page 249
1	not to include on your list of 13 and 14 that you	1	BY MS. PARFITT:
2	had actually reviewed during the course of your	2	Q The sample size is not information that
3	study?	3	you contained that you included in your report,
4	A And we're talking about case-control	4	correct?
5	studies and cohorts.	5	A I did not.
6	Q Correct.	6	MS. BROWN: Same objection.
7	A I didn't wait a minute. I didn't	7	BY MS. PARFITT:
8	deliberately not include any of them. I tried to	8	Q Okay. Where in your report do you tell
9	include every single one, with that exception	9	the reader the country from where these studies
10	being and I don't remember which ones were	10	came from?
11	which, but there were a couple that were	11	MS. BROWN: Objection to the form.
12	redundant. You know, the the authors of these	12	THE WITNESS: I don't list that.
13	haven't in every case been careful about reporting	13	BY MS. PARFITT:
14	findings that are unique.	14	Q Okay. Where do you tell the reader what
15	Q Okay. Focusing now, if I may, on your	15	the mean age of the participants in this study
16	chart, page 13 and 14 of the case-control studies.	16	were?
17	Do you have that in front of you?	17	MS. BROWN: Same objection.
18	A Almost.	18	THE WITNESS: And same answer, I
19	Q Okay.	19	don't I don't list that either.
20	A I do.	20	BY MS. PARFITT:
21	Q All right. Where in this document,	21	Q Where in your report do you tell the
22	page 13 and 14, do you identify the number of	22	reader the number of adjusted variables per study
23	ovarian cases that formed the bases of the study?	23	that were considered?
24	MS. BROWN: Objection to the form.	24	MS. BROWN: Objection to the form.
		44	1415. DICO 1414. Objection to the form.
2.5	THE WITNESS: This is the list of the	2.5	THE WITNESS: I didn't I didn't
25	THE WITNESS: This is the list of the	25	THE WITNESS: I didn't I didn't

63 (Pages 246 to 249)

	Page 250		Page 252
1	capture that here.	1	Q What specific, if any, in vitro studies
2	BY MS. PARFITT:	2	did you consider for purposes of your opinion?
3	Q Okay. And where in your report do you	3	A So I are you good?
4	tell the reader the type of ovarian cancer that	4	Q Yeah, thank you.
5	the women suffered?	5	A Okay. So I I don't know if you're
6	MS. BROWN: Objection to the form.	6	including some animal studies as in vitro studies
7	THE WITNESS: That's not listed on on	7	or whether you just mean sort of like ones that
8	this table either.	8	are that are cell-based or in a dish.
9	BY MS. PARFITT:	9	Q Well, there's a difference, isn't there?
10	Q Did you create this table yourself or	10	A There should be, yeah, but I just
11	did you have assistance?	11	since you're asking the question, I don't know
12	A So, actually, I made this initially, and	12	you, and so I I just want to be clear.
13	there might have been a couple that filtered in	13	Q No, I'm I'm cognizant of the
14	after I started to create it where you know,	14	difference between in vivo and in vitro, so what
15	where I had an assistant, you know, plug in a	15	I what I would ask you is what in vitro studies
16	different study.	16	did you consider for purposes of your analysis?
17	Q Where in your report do you tell the	17	A Yeah, I looked at some. I think the
18	reader if you applied a scoring system to the data	18	ones that were cited by IARC I looked at. I don't
19	and the studies that you reviewed?	19	remember the full list of ones which ones I may
20	A That wasn't	20	have listed, if any, that that I looked at.
21	MS. BROWN: Objection. Lacks	21	But that wasn't really my main my main purpose
22	foundation.	22	in looking at the epidemiology, which was to
23	THE WITNESS: That wasn't my approach.	23	was to look at in vitro studies.
24	BY MS. PARFITT:	24	Q Okay. Was part of your analysis or
25	Q Okay. We'll talk about that in a	25	did part of your analysis include looking at
1	Page 251 minute. Appreciate that.	1	Page 253 in vivo studies?
2	Did you exercise any independent	2	A So I looked at at a bunch of the
3	judgment in determining what cases to include on	3	1:00 4 1 1 4 1 4 1 4 1 1 1 1 1
4		1	different animal studies that were cited, cited in
	this chart of case-control studies on 13 and 14?	4	some of the other documents.
5	this chart of case-control studies on 13 and 14? MS. BROWN: Objection. Asked and		
5 6		4	some of the other documents.
	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive.	4 5	some of the other documents.  Q Which ones?  A So I don't remember the author names. I mean, there were there were studies of, you
6	MS. BROWN: Objection. Asked and answered.	4 5 6	some of the other documents.  Q Which ones?  A So I don't remember the author names. I
6 7	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT: Q Being inclusive did being inclusive	4 5 6 7	some of the other documents.  Q Which ones?  A So I don't remember the author names. I mean, there were there were studies of, you
6 7 8	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with	4 5 6 7 8	some of the other documents.  Q Which ones?  A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.
6 7 8 9 10 11	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed	4 5 6 7 8 9 10	some of the other documents.  Q Which ones?  A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in
6 7 8 9 10 11	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?	4 5 6 7 8 9 10 11	some of the other documents.  Q Which ones? A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and
6 7 8 9 10 11 12	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?  A So, mostly, yes. What I would say is I	4 5 6 7 8 9 10 11 12 13	some of the other documents.  Q Which ones? A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and then I think I found a couple more.
6 7 8 9 10 11 12 13 14	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?  A So, mostly, yes. What I would say is I was trying to understand what the universe was of	4 5 6 7 8 9 10 11 12 13 14	some of the other documents.  Q Which ones?  A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and then I think I found a couple more.  Q What, if any, information did you glean
6 7 8 9 10 11 12 13 14	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?  A So, mostly, yes. What I would say is I was trying to understand what the universe was of case controls that were being listed in the	4 5 6 7 8 9 10 11 12 13 14	some of the other documents.  Q Which ones?  A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and then I think I found a couple more.  Q What, if any, information did you glean from your review of the in vitro and in vivo
6 7 8 9 10 11 12 13 14 15	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?  A So, mostly, yes. What I would say is I was trying to understand what the universe was of case controls that were being listed in the meta-analyses, what the case controls were that	4 5 6 7 8 9 10 11 12 13 14 15 16	some of the other documents.  Q Which ones?  A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and then I think I found a couple more.  Q What, if any, information did you glean from your review of the in vitro and in vivo studies that formed the basis of your study
6 7 8 9 10 11 12 13 14 15 16	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?  A So, mostly, yes. What I would say is I was trying to understand what the universe was of case controls that were being listed in the meta-analyses, what the case controls were that were informing the opinions of the plaintiffs'	4 5 6 7 8 9 10 11 12 13 14 15 16 17	some of the other documents.  Q Which ones? A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and then I think I found a couple more.  Q What, if any, information did you glean from your review of the in vitro and in vivo studies that formed the basis of your study report?
6 7 8 9 10 11 12 13 14 15 16 17 18	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?  A So, mostly, yes. What I would say is I was trying to understand what the universe was of case controls that were being listed in the meta-analyses, what the case controls were that were informing the opinions of the plaintiffs' experts. And so I didn't want to have some	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	some of the other documents.  Q Which ones? A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and then I think I found a couple more.  Q What, if any, information did you glean from your review of the in vitro and in vivo studies that formed the basis of your study report?  A Well, mostly so to to think about
6 7 8 9 10 11 12 13 14 15 16 17 18	MS. BROWN: Objection. Asked and answered.  THE WITNESS: I tried to be inclusive. BY MS. PARFITT:  Q Being inclusive did being inclusive require you to exercise professional judgment with regard to selection of the cases that you reviewed and included for purposes of your analysis?  A So, mostly, yes. What I would say is I was trying to understand what the universe was of case controls that were being listed in the meta-analyses, what the case controls were that were informing the opinions of the plaintiffs' experts. And so I didn't want to have some arbitrary rule for saying one shouldn't be in	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	some of the other documents.  Q Which ones? A So I don't remember the author names. I mean, there were there were studies of, you know, rats, rabbits, primates. I can't remember if there were mouse there were mouse studies as well.  So whatever that list is that was in IARC that they had considered at that point, and then I think I found a couple more.  Q What, if any, information did you glean from your review of the in vitro and in vivo studies that formed the basis of your study report?  A Well, mostly so to to think about how for me as an epidemiologist, and not as a

1	I did want to understand some of their	1	MS. BROWN: What report is
2	underpinnings.	2	MS. PARFITT: Saed.
3	Q Okay.	3	BY MS. PARFITT:
4	A And just so, for example, right, so	4	Q Just give me a moment, Doctor.
5	there's the the studies on migration, for	5	If you turn your attention to page 42.
6	example. I thought it was important to look at	6	A Mm-hmm.
7	those and see what kind of animals, for example,	7	Q At the bottom.
8	had what kind of particles either put into their	8	A Okay.
9	vaginas or put into their uterus, or whatever it	9	Q "I leave a detailed assessment of
10	was, so I could understand what the what the	10	Dr. Saed's efforts to other experts. I did review
11	story was there.	11	Dr. Saed's report and his two depositions and was
12	Q Okay. Do animals have vaginas?	12	struck by the irregularities in his study, which
13	A Some do, yeah.	13	render his results highly questionable."
14	Q You you indicated you're not a cancer	14	So are you or are you not deferring with
15	specialist. Would you defer to on topics	15	regard to opinions concerning what Dr. Saed had to
16	involving those issues to a cancer biologist?	16	say?
17	MS. BROWN: Objection to the form of the	17	MS. BROWN: Objection. Misstates the
18	question.	18	expert report and the opinion.
19	BY MS. PARFITT:	19	THE WITNESS: I I meant to be
20	Q And let me clean it up because I think I	20	somewhat nuanced here, right, which is that you
21	left that off. You are not a cancer biologist,	21	know, it's possible for me to read things and
22	correct?	22	understand that there might be some issues with
23	A Correct.	23	what he's done. I I'm not going to be the
24	Q All right. So would you defer questions	24	person to critique the biologic aspects of his
25	in that wheelhouse to someone who is a cancer	25	work, though.
	Daga 255		Daga 257

THE WITNESS: I don't know if that's
as opposed to some other context.  Q Well, let's take mesothelioma. What are the risk factors for mesothelioma?  A Well, if we're talking about, you know, asbestos, for example, as one risk factor, then you could use it that way, that that an exposure elevates the risk of developing a disease.  Q Okay. Let's take talcum powder. Is talcum powder a risk factor for ovarian cancer?  A I don't believe so.  Q Are there risk factors that are modifiable?  MS. BROWN: Objection to the form.  THE WITNESS: For what?	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q Okay. Have you read it? A I have. Q Have you read it in its entirety? A I don't remember if there's like appendices or something, but I read all the you know, the mean part of the text. Q Okay. There is also meta-analysis that was performed about that same time. A Yes. Yeah. Q Have you read that? A I have. Q Okay. Did Health Canada do what we would refer to in your world of epidemiology a causality assessment? MS. BROWN: Objection to the form of the question.
	BY MS. PARFITT:  Q Do you know what the NTP is? A It's like the National Toxicological Program. Q Okay. Has the National Toxicological Program ever asked you to do research for them on talcum powder products? A No. Q Has the National Toxicology Program ever asked that you do research with them on asbestos? A No. Q Have you ever submitted any research to the NTP on anything? A No. Q Have you ever submitted any research to IARC on anything? A No. Q What is a risk factor? MS. BROWN: Objection to the form. THE WITNESS: Are we talking about like an epidemiologic definition? BY MS. PARFITT: Q Just generally, what's a risk factor? MS. BROWN: Objection. THE WITNESS: Well, I don't you said  Page 263 generally. It could mean a million things to different people. BY MS. PARFITT: Q What's it mean to you?	BY MS. PARFITT:  Q Do you know what the NTP is? A It's like the National Toxicological Program. Q Okay. Has the National Toxicological Program ever asked you to do research for them on talcum powder products? A No. Q Has the National Toxicology Program ever asked that you do research with them on asbestos? A No. Q Have you ever submitted any research to the NTP on anything? A No. Q Have you ever submitted any research to IARC on anything? A No. Q What is a risk factor? MS. BROWN: Objection to the form. THE WITNESS: Are we talking about like an epidemiologic definition? BY MS. PARFITT: Q Just generally, what's a risk factor? MS. BROWN: Objection. THE WITNESS: Well, I don't you said  Page 263 generally. It could mean a million things to different people. BY MS. PARFITT:

25	another meta-analysis of some sort by Dr. Taher,		Page 269
25	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess	1	Page 269
25 1 2	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment	1 2	Page 269 so BY MS. PARFITT:
1 2 3	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.	1 2 3	so BY MS. PARFITT: Q I'm sorry. A word what?
1 2 3 4	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:	1 2 3 4	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad.
1 2 3 4 5	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the	1 2 3 4 5	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad.
1 2 3 4 5 6	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And	1 2 3 4 5 6	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's
1 2 3 4 5 6 7	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.	1 2 3 4 5 6 7	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on
1 2 3 4 5 6 7 8	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked	1 2 3 4 5 6 7 8	Page 269  so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a
1 2 3 4 5 6 7 8	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)	1 2 3 4 5 6 7 8	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether
1 2 3 4 5 6 7 8 9	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)	1 2 3 4 5 6 7 8 9	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just
1 2 3 4 5 6 7 8 9 10	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:	1 2 3 4 5 6 7 8 9 10	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being
1 2 3 4 5 6 7 8 9 10 11 12	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?	1 2 3 4 5 6 7 8 9 10 11 12	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they
1 2 3 4 5 6 7 8 9 10 11 12 13	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.	1 2 3 4 5 6 7 8 9 10 11 12 13	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth.
1 2 3 4 5 6 7 8 9 10 11 12 13 14	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health	1 2 3 4 5 6 7 8 9 10 11 12 13 14	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay.
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs?	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs?  And by that, I mean case control, cohort, and	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a Bradford Hill type analysis about what the
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs?  And by that, I mean case control, cohort, and meta-analyses.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a Bradford Hill type analysis about what the whether the strength is high or low. And similarly, I would just say like,
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs?  And by that, I mean case control, cohort, and meta-analyses.  MS. BROWN: Objection to what you mean	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a Bradford Hill type analysis about what the whether the strength is high or low. And similarly, I would just say like,
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs?  And by that, I mean case control, cohort, and meta-analyses.  MS. BROWN: Objection to what you mean by "look at." Objection to the form.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a Bradford Hill type analysis about what the whether the strength is high or low. And similarly, I would just say like, you know, for temporality, you know, what they've
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs?  And by that, I mean case control, cohort, and meta-analyses.  MS. BROWN: Objection to what you mean by "look at." Objection to the form.  THE WITNESS: They've listed they've	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a Bradford Hill type analysis about what the whether the strength is high or low. And similarly, I would just say like, you know, for temporality, you know, what they've said here is crazy, right. So it's like
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs? And by that, I mean case control, cohort, and meta-analyses.  MS. BROWN: Objection to what you mean by "look at." Objection to the form.  THE WITNESS: They've listed they've listed some of each.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a Bradford Hill type analysis about what the whether the strength is high or low. And similarly, I would just say like, you know, for temporality, you know, what they've said here is crazy, right. So it's like Q I'm sorry. What they've said here is
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	another meta-analysis of some sort by Dr. Taher,  Page 267  and and then created the document that I guess that they put out there for for public comment of some sort.  BY MS. PARFITT:  Q Okay. All right. Let's have marked the Health Canada report, the draft assessment. And we'll have that marked as Exhibit No. 14.  (Diette Exhibit No. 14 was marked for identification.)  (Counsel conferring.)  BY MS. PARFITT:  Q Do you have that in front of you?  A I do.  Q Okay. All right. Did the did Health Canada look at all three types of study designs? And by that, I mean case control, cohort, and meta-analyses.  MS. BROWN: Objection to what you mean by "look at." Objection to the form.  THE WITNESS: They've listed they've listed some of each.  BY MS. PARFITT:	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	so BY MS. PARFITT: Q I'm sorry. A word what? A Word salad. Q Word salad. A Yeah. Not a technical term, but it's kind of a mess, right. So they've got like on page 19, they've got strength, and strength is a Bradford Hill criterion. They don't say whether the risk is, you know, weak or strong. They just have a list of 30 epidemiologic studies, and they say a couple things about some of them being statistically significant and and so forth. Q Okay. A And so that that isn't really a Bradford Hill type analysis about what the whether the strength is high or low. And similarly, I would just say like, you know, for temporality, you know, what they've said here is crazy, right. So it's like Q I'm sorry. What they've said here is what?

68 (Pages 266 to 269)

Page 270 Page 272 1 Q So let me just ask --1 Did I read that correctly? 2 MS. BROWN: Wait now, he is not done. 2 MS. BROWN: You didn't, and actually you 3 You can follow up when he is done with -said "consistently" and the word is "consistent." 4 MS. PARFITT: Thank you. 4 MS. PARFITT: Fair enough. 5 5 MS. BROWN: Go ahead, Doctor. BY MS. PARFITT: 6 BY MS. PARFITT: 6 Q Did I read that correctly with that 7 7 Q Okay. Crazy. correction? 8 A Okay. Oh, well, they said like in all 8 A Yes. 9 case-control studies reporting positive outcomes, 9 Q Okay. Do you see where the authors 10 the participants recalled the exposure to talc 10 state that, "Further available data are indicative 11 preceded the reported outcome. I mean that is so of a causal effect"? Do you see that? 11 12 far afield from any realistic epidemiologic 12 A I do. 13 principle that to say that that somehow informs a 13 Q Do you agree with Health Canada that Bradford Hill analysis -- I don't know, maybe 14 14 there was a causal effect drawn from the genital 15 "crazy" is the wrong word. Maybe absurd, maybe use of talcum powder products and ovarian cancer? 15 16 ridiculous. But every person in the world that 16 MS. BROWN: Objection to the form, 17 has a particular event or outcome, everything 17 misstates the draft assessment, lacks foundation. 18 about them preceded them. That isn't the same as THE WITNESS: I don't think so, but for 18 19 temporality. Temporality in the epidemiologic 19 the reason that -- being that this is -- this is 20 world is demonstrating that time flowed from the 20 at some level -- maybe it's a summary, I don't 21 time of the exposure. 21 know -- of what they have from above. But their 22 So, that's why I say like -- you know, I 22 input information into what they're concluding read the words here, I see consistency, 23 23 here is not good. Right. 24 specificity, and so forth, but I don't think their 24 I mean look -- look up a couple of 25 application to this is actually a legitimate 25 sentences under "Biologic plausibility," and they Page 271 Page 273 1 say: "The presence of talc in the ovaries has 1 Bradford Hill analysis. 2 been documented," and cite Heller. And they say, 2 Q All right. So it's absurd, it's crazy, 3 and your opinion is that they did not do a proper 3 "The evidence of retrograde transport supports the 4 Bradford Hill analysis. Is that your opinion? 4 biologic plausibility." 5 5 That Heller study doesn't -- doesn't 6 6 support that, right. So they're -- they're MR. LOCKE: Objection. 7 7 stringing things together here that don't MS. BROWN: Objection to the form. 8 8 literally support I think a conclusive statement BY MS. PARFITT: 9 Q Okay. All right. Let me direct -- did 9 here. 10 they -- let me direct your attention to page 21. 10 And also I would just say too, that when And we'll put that up on the ELMO. 11 they say that -- that with the last part of that 11 12 12 All right. Do you see that? Okay? part you read where it says that "The hazard 13 A I'm on page 21. characterization is qualitative in nature," well, 13 14 Q Page 21, and it's the last paragraph, 14 "qualitative" doesn't tell you something about 15 15 and I'll read it. whether it's a strong association. I mean they --16 "The most recent meta-analysis detailed 16 they've resisted using that -- that word here. 17 above, Taher, et al., 2018, and consistent with 17 BY MS. PARFITT: 18 18 the Hill criteria, suggests a small but Q Okay. So my question for you, 19 Dr. Diette, is do you disagree with the draft 19 consistently statistically significant positive 20 Health Canada assessment which found that there 20 association between ovarian cancer and perineal 21 was a causal relationship between the use of 21 exposure to talc. Further available data are 22 indicative of a causal effect. A clear point of 22 genital talcum powder products and ovarian cancer? 23 departure could not be derived from the available 23 MS. BROWN: Objection. That's not what 24 literature. Consequently, hazard characterization 24 the draft assessment --25 MS. PARFITT: Counsel, objection, form. 25 is qualitative in nature."

	Page 274		Page 276
1	MS. BROWN: You're it misstates the	1	talcum powder products used in the genital area
2	document intentionally attempting to mislead the	2	and ovarian cancer? That's the question.
3	witness.	3	MS. BROWN: Objection to the form of the
4	MS. PARFITT: Objection.	4	question, misstates the document
5	THE WITNESS: So I first of all,	5	BY MS. PARFITT:
6	SO	6	Q You may answer.
7	BY MS. PARFITT:	7	A Is there a specific sentence in there
8	Q And, Doctor, let me just say something.	8	that says that?
9	You can explain, but I have a question, and	9	Q It's the question that I've asked you.
10	then you can explain it if you wish.	10	A Oh, so I can't answer it. I can answer
11	And my question is, do you disagree with	11	the
12	the draft Health Canada assessment which found or	12	Q Is there a specific question
13	concluded that there was a causal relationship	13	MS. BROWN: Wait, wait, let him finish.
14	between the use of genital talcum powder product	14	BY MS. PARFITT:
15	and ovarian cancer?	15	Q 20, 21, 28, and Roman numeral iii?
16	MR. LOCKE: Objection.	16	MS. BROWN: What?
17	MS. BROWN: Objection to the form.	17	THE WITNESS: If there's a specific
18	You can answer it truthfully and	18	sentence that says that, and you want me to agree
19	accurately.	19	or disagree, I can agree or disagree with that
20	THE WITNESS: I can't answer it.	20	sentence.
21	BY MS. PARFITT:	21	What I can't agree with is an entire
22	O You can't wait one second.	22	document because I think it's not fair. I'm not
23	A I cannot answer it.	23	talking about just this one. I think, you know,
24	Q You can't answer the question as to	24	lawyers like to do this, right. They like to say,
25	whether or not you agree that they concluded that	25	Do you agree with a such-and-such paper. Well,
23	whether or not you agree that they concluded that	23	bo you agree with a such-and-such paper. Wen,
	Page 275		D 000

There's some good stuff and some bad stuff, and I can point out some ofsome of each.  But the point here is if there's a specific statement that they made that saysabout causation, I would just like to see that particular statement and tell you whether I can agree with it or not.  BY MS. PARFITT:  Q Well, look at page 28 or excuse me, 21, the page we were on.  Do you have that in front of you?  A I do. Q Okay. "Available data are indicative"  MS. BROWN: Counsel, where are you?  MS. PARFITT: It's the paragraph just above "Exposure Assessment." It says the recent

	Page 278		Page 280
1	above, Taher, and consistent with the Hill	1	A That sentence is there.
2	criteria, suggests a small but consistent	2	Q All right. Okay.
3	statistically significant positive association	3	MS. BROWN: Counsel, if you're moving to
4	between ovarian cancer and perineal exposure to	4	another area, would
5	talc. Further available data are indicative of a	5	MS. PARFITT: I am.
6	causal effect."	6	MS. BROWN: Would this be a good time
7	MS. BROWN: What's the question?	7	for a break?
8	BY MS. PARFITT:	8	MS. PARFITT: Yeah. I'm going to move
9	Q Do you agree with the conclusions of	9	on and change gears.
10	Health Canada?	10	THE VIDEOGRAPHER: The time is 1:52
11	MS. BROWN: Objection to the form. This	11	p.m., and we are off the record.
12	is not the conclusion section.	12	(Recess.)
13	THE WITNESS: So, first of all, the	13	THE VIDEOGRAPHER: The time is
14	the first sentence that you read there talks about	14	2:04 p.m., and we're back on the record.
15	a significant positive association, which isn't	15	BY MS. PARFITT:
16	the same as cause. Right. And then they say,	16	Q Dr. Diette, you mentioned before the
17	"Further available data are indicative of"	17	break the Heller article, and so I don't misquote
18	I I think if you're trying to say	18	you, what was your position with regard to Heller
19	that something causes something, you come out and	19	and what it stood for?
20	you say it. You don't say, "Further data are	20	A I think if we're talking about the
21	indicative of it." So I I don't think this	21	the right one, it's the one where the ovaries were
22	statement says talcum powder causes ovarian	22	removed from, I think, 24 women, and that 12 12
23	cancer.	23	had said that they were talcum powder users and 12
24	BY MS. PARFITT:	24	not, but they found a they found a similar

1	(Counsel conferring.)	1	A And it's about the middle of the
2	BY MS. PARFITT:	2	paragraph, and it says it is it says right
3	Q Do you have that in front of you?	3	above it, it says: "None of the exposed subjects
4	A I do.	4	in the study was directly occupationally exposed
5	Q All right. Now, this was a different	5	but all were passively exposed to household
6	Heller article than the one you were referring to?	6	contact. It is unclear why so many of the women
7	A Thank you, yes.	7	giving no exposure history did have detectible
8	Q Okay. All right. Now, let me direct	8	asbestos in their ovaries, although it is known
9	your attention to the Abstract section, the last	9	that there is a background level of asbestos in
10	paragraph.	10	the lung tissue of non-exposed individuals."
11	Okay. And it states: "This study	11	So I I don't know. I just don't
12	demonstrates that asbestos can reach the ovary.	12	that this this cements the idea that that we
13	Although the number of subjects is small, asbestos	13	know something about how asbestos, you know, can
14	appears to be present in ovarian tissue more	14	get to the ovaries.
15	frequently and in higher amounts in women with a	15	Q All right. Let me direct your attention
16	documentable exposure history."	16	to the bottom of 438, top of 439.
17	Did I read that correctly?	17	At the bottom of 438, it says "There
18	A Yes.	18	is," and then it goes on to the top of 439:
19	Q All right. Do you agree with that	19	"There is evidence of transport of particulate
20	statement?	20	matter into the female perineum by the
21	MS. BROWN: Objection to the form.	21	transvaginal route."
22	THE WITNESS: Give me one sec, because	22	A I apologize, I I'm not with you, and
23	I it's been a while since I looked at this.	23	I just
24	MS. BROWN: Take your time, Doctor.	24	Q Oh, sure.
25	THE WITNESS: (Peruses document.) Yeah,	25	A I'm just trying to
	Page 283		Page 285
1	again, like so not entirely.	1	Q It's right here, upper corner, 439.
2	BY MS. PARFITT:	2	A Got you.
3	Q What part what part	3	Q Okay?
4	MS. BROWN: Let him finish.	4	A Yep.
5	BY MS. PARFITT:	5	Q All right, again. "There is evidence of
6	Q What part do you agree with?	6	transport of particulate matter into the female
7	A Well, the I think that it's it's	7

1	prior to '70 1976, Cramer, 1982. The	1	If you know.
2	significance of this detection of talc in the	2	THE WITNESS: Can I assume or
3	majority of exposed women and in all women giving	3	MS. BROWN: No, if you don't know, don't
4	no exposure history is unclear and further studies	4	answer. Then you have no basis to answer the
5	are underway to further elucidate this question."	5	question.
6	Did I read that correctly?	6	BY MS. PARFITT:
7	A Yes.	7	Q My question is, do you know what Ken
8	Q Question: Are there chemical	8	Rothman's area of expertise is?
9	similarities between cosmetic talcs and asbestos?	9	MS. BROWN: Objection.
10	MS. BROWN: Objection to the form.	10	THE WITNESS: Well, he's he's made a
11	THE WITNESS: So some of the same	11	career out of out of case-control studies and
12	some of the same features chemically are present	12	articulating, you know, features of the design and
13	in both.	13	so forth.
14	BY MS. PARFITT:	14	BY MS. PARFITT:
15	Q All right. Set that aside for a minute.	15	Q All right. Is he an epidemiologist?
16	We may come back to that.	16	A Well, that's what I was trying to
17	Dr. Diette, for purposes of your	17	remember. Like, I would only be guessing. Like,
18	opinions in this case, you have stated that the	18	I assume for him to be in that role, he would be,
19	cohort studies lack statistical significance, and	19	but there are people that come to epidemiology
20	only a subset of the case-control studies are	20	from other you know, other backgrounds, and so
21	statistically significant. Therefore, there is a	21	I just don't know his credentials.
22	disparity and inconsistency between cohorts and	22	Q Okay. What about Sander Greenland, do
23	case control.	23	you know who he is?
24	Have I summed it up pretty well?	24	A I know the name, but I don't know him.
25	A That that's one of the one of the	25	Q Okay. Have you ever do you know what
	Page 287		Page 289
1	Page 287 bits of evidence of inconsistency.	1	Page 289 kind of scientist Sander Greenland is?
1 2		1 2	
	bits of evidence of inconsistency.		kind of scientist Sander Greenland is?
2	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard	2	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.
2	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are	2 3	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.
2 3 4	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically	2 3 4	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.
2 3 4 5	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?	2 3 4 5	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:
2 3 4 5 6	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.	2 3 4 5 6	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy
2 3 4 5 6 7	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from	2 3 4 5 6 7	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy Lash?
2 3 4 5 6 7 8	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that	2 3 4 5 6 7 8	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.
2 3 4 5 6 7 8	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes,	2 3 4 5 6 7 8	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.
2 3 4 5 6 7 8 9	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.	2 3 4 5 6 7 8 9	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:
2 3 4 5 6 7 8 9 10	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is	2 3 4 5 6 7 8 9 10	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of
2 3 4 5 6 7 8 9 10 11 12	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is pretty severe. Right. So I don't think that	2 3 4 5 6 7 8 9 10 11 12	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of scientist Tim Timothy Lash is?
2 3 4 5 6 7 8 9 10 11 12 13	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is pretty severe. Right. So I don't think that somebody should disregard any study, unless it's,	2 3 4 5 6 7 8 9 10 11 12 13	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of scientist Tim Timothy Lash is?  MS. BROWN: Same objection.
2 3 4 5 6 7 8 9 10 11 12 13 14	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is pretty severe. Right. So I don't think that somebody should disregard any study, unless it's, you know, fraudulent or, you know, created out of	2 3 4 5 6 7 8 9 10 11 12 13 14	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of scientist Tim Timothy Lash is?  MS. BROWN: Same objection.  THE WITNESS: It would be hard to know
2 3 4 5 6 7 8 9 10 11 12 13 14 15	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is pretty severe. Right. So I don't think that somebody should disregard any study, unless it's, you know, fraudulent or, you know, created out of nowhere. So I think that people should regard the	2 3 4 5 6 7 8 9 10 11 12 13 14 15	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of scientist Tim Timothy Lash is?  MS. BROWN: Same objection.  THE WITNESS: It would be hard to know that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is pretty severe. Right. So I don't think that somebody should disregard any study, unless it's, you know, fraudulent or, you know, created out of nowhere. So I think that people should regard the findings and interpret them appropriately.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of scientist Tim Timothy Lash is?  MS. BROWN: Same objection.  THE WITNESS: It would be hard to know that  BY MS. PARFITT:
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is pretty severe. Right. So I don't think that somebody should disregard any study, unless it's, you know, fraudulent or, you know, created out of nowhere. So I think that people should regard the findings and interpret them appropriately.  So I think that would be an overly	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of scientist Tim Timothy Lash is?  MS. BROWN: Same objection.  THE WITNESS: It would be hard to know that  BY MS. PARFITT:  Q Okay.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	bits of evidence of inconsistency.  Q Okay. Would you agree that to disregard study results based upon whether they are statistically significant or not statistically significant would be a mistake?  MS. BROWN: Objection to the form.  Counsel, is there something you're reading from that  MS. PARFITT: No. Actually, my notes, and he doesn't get those. Thank you.  THE WITNESS: Okay. So "disregard" is pretty severe. Right. So I don't think that somebody should disregard any study, unless it's, you know, fraudulent or, you know, created out of nowhere. So I think that people should regard the findings and interpret them appropriately.  So I think that would be an overly strong thing to do, which would be to disregard it	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	kind of scientist Sander Greenland is?  MS. BROWN: Objection. Form.  THE WITNESS: I do not.  MS. BROWN: Foundation.  BY MS. PARFITT:  Q Okay. All right. Do you know Timothy  Lash?  MS. BROWN: Objection. Foundation.  THE WITNESS: I don't know the name.  BY MS. PARFITT:  Q Okay. Do you know what kind of  scientist Tim Timothy Lash is?  MS. BROWN: Same objection.  THE WITNESS: It would be hard to know  that  BY MS. PARFITT:  Q Okay.  A without knowing him.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	bits of evidence of inconsistency.  Q Okay. 	Page 290		Page 292
1	Dr. Diette, that this is Chapter 2 out of the	1	MS. BROWN: I have a continuing
2	Third Edition, Modern Epidemiology.	2	foundation.
3	Do you see that?	3	MS. PARFITT: That's fine, Counsel.
4	A I do.	4	MS. BROWN: objection to this
5	Q Okay. And if you look at the front of	5	exhibit, for which no foundation has been laid.
6	it, it has three authors.	6	BY MS. PARFITT:
7	Do you see that?	7	Q All right. Again, I'm referring to the
8	A I do.	8	category consistency which I represent that is in
9	Q Okay. The first one is Ken Rothman. Do	9	Chapter 2 of the Rothman book, and we can just go
10	you see that?	10	ahead and circle the paragraph that starts: "One
11	A Correct.	11	mistake in implementing the consistency criterion
12	Q The second one is Sander Greenland.	12	is so common that it deserves special mention. It
13	A Correct.	13	is sometimes claimed that a literature or set of
14	Q And the third author is Tim Lash. Do	14	results is inconsistent simply because some
15	you see that?	15	results are statistically significant, and some
16	A I do.	16	are not."
17	Q And they are the book that they have	17	Did I read that correctly?
18	authored is called Modern Epidemiology, Third	18	A You did.
19	Edition. Do you see that?	19	Q "This sort of evaluation is completely
20	A I do.	20	fallacious, even if one accepts the use of
21	Q Okay. Let me let me direct your	21	significant testing methods."
22	attention to page 27.	22	Did I read that correctly?
23	MS. BROWN: Counsel, are you going to	23	A You did.
24	lay a foundation for the use of this document?	24	Q All right. Do you agree with that
25	MS. PARFITT: I can just ask a question.	25	statement?
	Page 291		Page 293
1	I can do that.	1	MR. LOCKE: Objection.
2	I can do that. BY MS. PARFITT:	2	MR. LOCKE: Objection. THE WITNESS: So wait a minute, I just
	I can do that. BY MS. PARFITT: Q Let me ask a question.	2 3	MR. LOCKE: Objection. THE WITNESS: So wait a minute, I just want to so there's a couple of statements

	Page 294		Page 296
1	Q Okay. Who is Daniel Ford?	1	Q Do you know about that?
2	A If it's the one that	2	A I'm aware of that.
3	Q Daniel E. Ford.	3	Q Okay. Now, are you did you read
4	A I don't know his middle name, but	4	Dr. Bowman's deposition?
5	there's a Dan Ford at our at our place.	5	A I did.
6	Q Okay. Is the Dan Ford you know vice	6	Q Okay. Did you see that in Dr. Bowman's
7	dean for clinical investigation, Johns Hopkins	7	deposition?
8	School of Medicine?	8	A I saw I'm just trying to remember. I
9	A Yes.	9	saw the Nature article, I think that is more
10	Q Okay. Is he a friend of yours?	10	recently published than you said 2016?
11	A We're friendly. I mean, we don't hang	11	Q Originally, yes.
12	out, though.	12	A Yeah, but I can't remember if 2016 was
13	Q Now, he is with the Institute for	13	in her deposition, but for sure the more recent
14	Clinical and Translational Research; is that	14	one.
15	correct?	15	Q The one in 2019?
16	A He has been. I'm just trying to think	16	A Exactly right, yeah.
17	if that still exists. Because I know there was a	17	Q All right. All right. Let me show you
18	funding issue, so but he he certainly was in	18	then what's been marked as or will be marked as
19	that role, and he may still be.	19	17. And it is the March 2019
20	Q He may what?	20	(Counsel conferring.)
21	A He may still be. I just I just I	21	BY MS. PARFITT:
22	thought I had heard that the ICTRs were going to	22	Q Okay. Let me show you what we will have
23	be not funded anymore.	23	marked as 17, a study that appeared in The
24	Q Okay.	24	American Statistician in 2019. It's Volume 73,
25	A Maybe it's true, maybe not; but I'm just	25	and it's called "Moving to a World Beyond P <
	Page 295		Page 297
1	saying for sure he was part of that.	1	0.05."
2	Q Mm-hmm. Okay. Sure. Okay.	2	Do you see that?
3	All right. Are you a member and I'm	3	A Actually, I was just sort of flipping
4	assuming you're not because you're not a	4	through to see what I'm looking at. Oh, so the
5	statistician, but I should assume nothing.	5	title, yes.
6	Are you a member of the American	6	
			O Okay. Is this a document you were
7	Statistical Association?		Q Okay. Is this a document you were
7 8	Statistical Association?  A Lam not	7 8	referring to?
8	A I am not.	7 8	referring to? A No.
8 9	<ul><li>A I am not.</li><li>Q Okay. Do you know who they are?</li></ul>	7 8 9	referring to?  A No. Q No?
8 9 10	<ul><li>A I am not.</li><li>Q Okay. Do you know who they are?</li><li>A Not not really. I mean, it it</li></ul>	7 8 9 10	referring to?  A No. Q No? A I was referring to the one in Nature
8 9 10 11	A I am not. Q Okay. Do you know who they are? A Not not really. I mean, it it sounds like the name gives them away, but I	7 8 9 10 11	referring to?  A No. Q No? A I was referring to the one in Nature that I think reports about this.
8 9 10 11 12	A I am not. Q Okay. Do you know who they are? A Not not really. I mean, it it sounds like the name gives them away, but I don't I don't know, you know, who they are as	7 8 9 10 11 12	referring to?  A No. Q No? Page 310 Page 312 1 significance with the researchers at Johns 1 read all 800, but I looked to see if there were 2 Hopkins? 2 people from Hopkins in particular that signed it, 3 And that's a mouthful. So let me make 3 and I knew one of the two. 4 4 Q Okay. Let me show you what we'll have it really clear. 5 MS. BROWN: Let me object --5 marked as Exhibit No. 20. And I will represent to 6 6 MS. PARFITT: I move to strike the you that it is a list of the 800 signatories that 7 7 question. joined together to support this movement to 8 MS. BROWN: You're going to strike it? 8 abandon p-value in statistical significance. 9 MS. PARFITT: Yeah, let me strike it. 9 (Diette Exhibit No. 20 was marked 10 BY MS. PARFITT: 10 for identification.) 11 Q Were you aware, Dr. Diette, that the 11 MS. PARFITT: Again, Counsel, I 12 division of Clinical and Translational Research 12 apologize. Apparently, we only have one copy of 13 over at Hopkins had distributed to its scientists 13 this document. 14 this group of 43 articles, including the 14 MS. BROWN: So is it the blog soliciting 15 Wassertine -- Wasserstein, for purposes of 15 the signatures, or is it just the list? 16 educating them with regard to this concern over 16 MS. PARFITT: It is the list of the misuse of statistical significance? 17 17 signatories. 18 MS. BROWN: I object to a complete 18 MS. BROWN: Okay, that's fine. 19 misrepresentation of the exhibit and to 19 BY MS. PARFITT: 20 foundation. 20 Q Do you see that? 21 THE WITNESS: So I mean, there's a lot 21 A I do. 22 of things, right. I'll try to answer as many as I 22 Q Okay. Do you know an Elizabeth Ogburn? 23 A I don't. I saw her name on here, but 23 24 So one is that I probably got something 24 I -- I don't know her. 25 because I'm -- I've been part of the ICTR, and I 25 Q All right. Do you know Daniel Page 311 Page 313 use the resources, I'm one of the people who 1 Sharfenstein (phonetic)? 1 2 2 helped to write the grant to get it funded, and A Sharfstein, and I know him. Yeah. 3 so -- like I get a zillion things that fly by. 3 Okay. Is that -- do you know anyone 4 I don't know if I saw this or not, but I 4 else that might appear on that list? 5 probably wouldn't have clicked on if it came 5 A I don't know. I didn't read it. I 6 6 through like an e-mail because I had already seen just -- I literally just did a word search for 7 7 it, like, as part of this -- as part of the Bowman "Hopkins," and I came up with like one person 8 8 whose name is Hopkins who works in England, and deposition. 9 9 BY MS. PARFITT: another one, something Hopkins Institute, which is 10 Q Mm-hmm. 10 not, and then two from Johns Hopkins. 11 Q Okay. When did you do this research? 11 A But other than that, I mean, I think 12 it's -- I think they're smart to do it. They 12 A In the last week. I mean, after -should always put stuff out there for people to 13 after reading the Bowman deposition. 13 14 read. It doesn't mean that we're going to get rid 14 Q All right. So you read the Bowman 15 deposition, and then you -- what caused you then 15 of p of 0.05. It doesn't mean we're going to get 16 rid of statistical significance. They're just 16 to -- to go back and look at that or for that? 17 saying it's an interesting read. 17 A Well, because it sounds like an 18 interesting topic, and, you know, who knows, maybe 18 Q Do you know any of the signatories to 19 one day it either will or won't change, but it's 19 this particular document? 20 an interesting thing to read about. And so I 20 A I found one. One that I know 21 wanted to just sort of see what -- what you guys 21 personally, and I'm just trying to remember if 22 there was anybody else that I saw. 22 were driving at. And then since I saw that there 23 Q Well, let me show you what we'll have 23 were 800 signatories, I just figured I would see 24 marked as Exhibit No. 20. 24 if there was anybody at Hopkins that was part of 25 25 A Yeah, so let me just say, so I didn't it or not.

79 (Pages 310 to 313)

	Page 314		Page 316
1	Q Mm-hmm. And you found a couple of	1	significance and p-values?
2	people from Hopkins?	2	A Yeah, well, I'd say the real world,
3	A Yeah, I found two. One I know, one I	3	right. And the real world
4	don't.	4	Q I'm sorry. You're in the real world?
5	Q All right. Again, you were not one of	5	A Real world, yeah.
6	the signatories?	6	Q Okay. And what's the real world doing?
7	A Still true, yeah.	7	A Well, the real world, if I want to write
8	Q Okay. Okay. What position does	8	a grant, I have to provide people with a sample
9	Dr. Sharfstein hold within the University?	9	size estimate of what it is that I'm looking for,
10	MS. BROWN: Objection. Speculation.	10	and the sample size estimate is almost always
11	THE WITNESS: He's been in the	11	based on hypothesis testing. And you have to
12	Department of Biostatistics, and I don't know	12	declare a certain p-value that you find to be a
13	what what other ways to label what he what	13	credible one.
14	his positions are.	14	So I can't just say, I've decided
15	BY MS. PARFITT:	15	because I read some editorial that I'm not going
16	Q Okay. From the time you saw the	16	to use a p-value of 0.05. That I'm still stuck
17	discussion about statistical significance and a	17	with 0.05 as a as an estimate. And so if I
18	movement away from that and did your bit of	18	want to have any success getting a grant, I'm
19	research, did you ever call Dr. Sharfstein to talk	19	going to have to still use the rules that we've
20	to him about it?	20	used for years.
21	A Not yet. I'm hoping I'll just run into	21	And if I publish a paper, I happened to
22	him at some point and and ask him about that.	22	look because I thought it was curious, I went on
23	Q Is the is your interest strong enough	23	New England Journal's website
24	that you might reach out to him?	24	Q Yes.
25	MS. BROWN: Objection to the form.	25	A and they have an extensive list of

1	Greenland and McShane. Or maybe not. Maybe	1	took wasn't anything novel or different. I mean,
2	that's wait a minute, I could be wrong. No,	2	I don't know at all what his plans are going
3	it's it's those three.	3	forward, but he still works at the University
4	Q And again, you don't know do you know	4	where we still compete for NIH grants
5	any of them? I know you don't know Dr. Greenland.	5	Q Mm-hmm.
6	Do you know any of the others?	6	A and I haven't seen any change in the
7	A I do not.	7	NIH's posture on this, and I haven't seen any, you
8	Q Okay. So if I understand your opinion	8	know, ground swell of support for just doing
9	today, you still believe in the strength of a	9	whatever you feel like in order to publish your
10	statistical significance versus not statistically	10	paper.
11	significant?	11	Q Well, are you suggesting that what
12	A It's	12	Dr. Greenland and others and Dr. Wasserstein have
13	MS. BROWN: Objection to the form.	13	suggested to do whatever you let me get your
14	THE WITNESS: It's still a factor to	14	words shall yeah. Okay.
15	consider when either planning, conducting, or	15	MS. PARFITT: Tell you what, let's take
16	interpreting a study.	16	a quick break. I want to find that part, and
17	BY MS. PARFITT:	17	we'll get back. Let's take a quick break.
18	Q Okay. And do you still live in the	18	THE VIDEOGRAPHER: The time is 2:44 p.m.
19	world that there is a threshold of a p-value of	19	We're going off the record.
20	0.05?	20	(Recess.)
21	A It depends.	21	THE VIDEOGRAPHER: The time is 2:53
22	Q Well, what do you mean "it depends"?	22	p.m., and we're back on the record.
23	A I'm going to explain.	23	BY MS. PARFITT:
24	Q Please.	24	Q Dr. Diette, when we left just before the
25	A So that's why I used the example of p at	25	break, you said: "I haven't seen any ground swell
	Page 319		Page 321
1	0.05, right? I could just say, I have decided	1	of support for doing whatever you feel like in
2	that now I only want to do studies with six people	2	order to publish your paper."
3	in them, and I'll be happy to have a p-value of	3	I'm not talking about the publication of
4	0.5. You'd have to wish me luck getting it	4	papers. What I would like to know from you is, do
5	published anywhere because it's not going to	5	you agree, though, when you were evaluating the
6	happen, right?	6	consistency of evidence, that one should not
7	So if I still want to do research and I	7	disregard studies that are nonstatistically
8	still want to get it published, I'm going to have	8	significant and give greater weight to those that
9	to pick a threshold for a p-value that's agreeable	9	are statistically significant?
10	to the peer reviewers and to the editor. And it	10	MS. BROWN: Objection to the form of the
11	doesn't have to be 0.05. In some circumstances it	11	question.
12	might be 0.01. It might be even lower than that.	12	THE WITNESS: I hear two questions
13	But a but a p threshold is necessary, at least	13	there, and the first part I agree with, and the
14	in our current era, if you want to be able to	14	second part, it depends.
15	conduct and talk about your research.	15	BY MS. PARFITT:
16	Q Do you do you think Dr. Sharfstein is	16	Q Okay. Do you agree that when you are
17	going to now have difficulty having his scientific	17	evaluating and weighing evidence, studies, that
18	works published?	18	you should evaluate studies the same whether they
19	MS. BROWN: Objection. Based on what?	19	are statistically significant or not statistically
20	There's no foundation for that question.	20	significant?
21	BY MS. PARFITT:	21	MS. BROWN: Objection to the form. In
22	Q You can answer the question, Doctor.	22	what context?
23	A Well, exactly that. So so Sharfstein	23	THE WITNESS: I don't know what
24	has been involved in some of our research and some	24	"evaluate the same" means. I mean, I think any
25	critical illness stuff, and the approach that we	25	any study that you think should be evaluated

### Case 3:16-md-02738-MAS-RLS Document 9895-3 Filed 05/30/19 Page 455 of 565 PageID: 71699

	Page 322		Page 324
1	should be evaluated, you know, as thoroughly as	1	BY MS. PARFITT:
2	you can.	2	Q Okay. Now, let's turn to your chart,
3	BY MS. PARFITT:	3	and specifically the studies that you set forth in
4	Q When you're evaluating the consistency	4	your report on pages 13 and 14.
5	of studies, is it proper epidemiology to consider	5	And if you'd go to your report, 13 and
6	those studies whether or not they are	6	14.
7	statistically significant or nonstatistically	7	A I'm sorry, I've got somebody else's
8	significant?	8	thing here.
9	MS. BROWN: Objection to the form.	9	Q That's okay.
10	THE WITNESS: It is. And I think, you	10	A Okay.
11	know, regardless of what Dr. Rothman has written,	11	Q Okay. You got there? All right.
12	you know, it's part of the information that's	12	What I would like all right. So you
13	available to you, and I think to ignore it would	13	have that in front of you, correct, sir?
14	be, you know, not in your best interest.	14	A I do.
15	BY MS. PARFITT:	15	Q Okay. Now, what I'll have marked as
16	Q Okay. And would you agree that one	16	for demonstrative purposes is a chart that we have
17	should not conclude there is no association or no	17	marked as Diette Exhibit 21.
18	difference just because a one study is	18	(Diette Exhibit No. 21 was marked
19	statistically significant and another study is	19	for identification.)
20	significant?	20	BY MS. PARFITT:
21	MS. BROWN: Objection to the form.	21	Q And let me hand that to you.
22	THE WITNESS: And I agree with you,	22	MS. BROWN: Counsel, can you give a
23	especially because you used "just because."	23	representation for the record about what
24	BY MS. PARFITT:	24	Exhibit 21 is?
25	Q All right. So maybe what do you	25	MS. PARFITT: Yes, I was about to do
	Page 323		Page 325
1	9		
_	mean?	1	that.
2	A No, it's a good sentence. I mean, I	1 2	that.  MS. BROWN: Thank you.
2	A No, it's a good sentence. I mean, I	2	MS. BROWN: Thank you.
2	A No, it's a good sentence. I mean, I it I think that over and over what we're	2 3	MS. BROWN: Thank you. BY MS. PARFITT:

	Page 330		Page 332
1	saying is not right.	1	MS. BROWN: Okay. Then let him
2	MS. PARFITT: Counsel, that's it. No.	2	MS. PARFITT: I just don't want you
3	I'm sorry.	3	coaching
4	MS. BROWN: Are you intentionally	4	MS. BROWN: answer the question.
5	misrepresenting what's in the paper?	5	MS. PARFITT: and touching the paper
6	MS. PARFITT: Counsel, if you heard my	6	and pointing at things.
7	question I think Dr. Diette understands the	7	MS. BROWN: You are intentionally
8	question.	8	misreading this document.
9	BY MS. PARFITT:	9	BY MS. PARFITT:
10	Q Dr. Diette, we have on the table a	10	Q Doctor all right, Dr. Diette, you're
11	genital use, which is 2.5 with a confidence	11	the one I'm interested in hearing from, to be
12	interval of 0.7 to 10.	12	perfectly candid.
13	Do you see that?	13	My question is, are the is the
14	A Yeah, I'm sorry. Can you give me just	14	relative risk that you have listed for Hartge
15	one second?	15	0.70, or should it be 2.5?
16	Q Okay. Of course I can.	16	A You know, the the study report is
17	A Thank you. (Peruses document.)	17	really tough I think to decide that either one of
18	Yeah, I'm with you.	18	them is ideal. And for a couple of reasons, and
19	Q Okay. And the only correction I I	19	one is just because this this genital with an
20	wish to make is that, instead of the 0.70 that you	20	asterisk, it isn't literally just genital
21	have for Hartge, it should be 2.5	21	application. It includes sanitary napkins.
22	MS. BROWN: Objection.	22	And you can see in a lot of the studies
23	BY MS. PARFITT:	23	that people have sort of broken out sanitary
24	Q for the genital	24	napkin use separate from like perineal
25	MS. PARFITT: Let me finish, Counsel.	25	application.

1 2	BY MS. PARFITT:	1 2	And so, you know, that's not an ideal
2	BY MS. PARFITT:  Q for the genital use of talc. Do you	2	And so, you know, that's not an ideal measure for this this chart either. I mean, I
2	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?	2 3	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else.
2 3 4	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.	2 3 4	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more
2 3 4 5	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just	2 3 4 5	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular
2 3 4 5 6	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got	2 3 4 5 6	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if
2 3 4 5 6 7	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:	2 3 4 5 6 7	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they
2 3 4 5 6 7 8	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.	2 3 4 5 6 7 8	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did
2 3 4 5 6 7 8 9	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know,	2 3 4 5 6 7 8	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every
2 3 4 5 6 7 8 9	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users,	2 3 4 5 6 7 8 9	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a
2 3 4 5 6 7 8 9 10	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.	2 3 4 5 6 7 8 9 10	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?
2 3 4 5 6 7 8 9 10 11 12	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.	2 3 4 5 6 7 8 9 10 11 12	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.
2 3 4 5 6 7 8 9 10 11 12 13	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on	2 3 4 5 6 7 8 9 10 11 12 13	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.
2 3 4 5 6 7 8 9 10 11 12 13 14	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.	2 3 4 5 6 7 8 9 10 11 12 13 14	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.  A I mean, I tried to pick the one that
2 3 4 5 6 7 8 9 10 11 12 13 14	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is	2 3 4 5 6 7 8 9 10 11 12 13 14 15	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.  A I mean, I tried to pick the one that that fit the best.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they  Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.  A I mean, I tried to pick the one that that fit the best.  Q Okay. And is the one that fits the best
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did. Q You did. A I mean, I tried to pick the one that that fit the best. Q Okay. And is the one that fits the best for Hartge the 0.70, or is the one that fits the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I  MS. BROWN: It's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they  Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.  A I mean, I tried to pick the one that that fit the best.  Q Okay. And is the one that fits the best for Hartge the 0.70, or is the one that fits the best for Hartge the 2.5?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I  MS. BROWN: It's  THE WITNESS: Yeah	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did. Q You did. A I mean, I tried to pick the one that that fit the best. Q Okay. And is the one that fits the best for Hartge the 0.70, or is the one that fits the best for Hartge the 2.5?  MS. BROWN: Objection to the form.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I  MS. BROWN: It's  THE WITNESS: Yeah  MS. PARFITT: You don't have to show the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select? BROWN: Objection to the form. THE WITNESS: So I don't know. I mean
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I  MS. BROWN: It's  THE WITNESS: Yeah  MS. PARFITT: You don't have to show the doctor.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did. Q You did. A I mean, I tried to pick the one that that fit the best. Q Okay. And is the one that fits the best for Hartge the 0.70, or is the one that fits the best for Hartge the 2.5?  MS. BROWN: Objection to the form. THE WITNESS: So I don't know. I mean other than the fact that you've got the word
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I  MS. BROWN: It's  THE WITNESS: Yeah  MS. PARFITT: You don't have to show the doctor.  MS. BROWN: Do you want the truth on the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.  A I mean, I tried to pick the one that that fit the best.  Q Okay. And is the one that fits the best for Hartge the 0.70, or is the one that fits the best for Hartge the 2.5?  MS. BROWN: Objection to the form.  THE WITNESS: So I don't know. I mean other than the fact that you've got the word "genital" there, I mean "all over" is kind of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I  MS. BROWN: It's  THE WITNESS: Yeah  MS. PARFITT: You don't have to show the doctor.  MS. BROWN: Do you want the truth on the record, or do you want	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they  Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.  A I mean, I tried to pick the one that that fit the best.  Q Okay. And is the one that fits the best for Hartge the 0.70, or is the one that fits the best for Hartge the 2.5?  MS. BROWN: Objection to the form.  THE WITNESS: So I don't know. I mean other than the fact that you've got the word "genital" there, I mean "all over" is kind of confusing, right, because it doesn't say like "all
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	BY MS. PARFITT:  Q for the genital use of talc. Do you agree with that?  MS. BROWN: Objection to the form.  THE WITNESS: So, maybe. I'm just trying to think about how I got  BY MS. PARFITT:  Q Sure.  A got here. Because the you know, the text says that it's there were ten users, so I guess like seven cases and three controls.  Q Mm-hmm.  A It said specifically mentioned use on sanitary napkins, underwear, or the genital area.  But then it says but estimated is  2.5, but the small number of exposed women yielded an unreliable estimate. So I  MS. BROWN: It's  THE WITNESS: Yeah  MS. PARFITT: You don't have to show the doctor.  MS. BROWN: Do you want the truth on the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	And so, you know, that's not an ideal measure for this this chart either. I mean, I get your point, the all over is something else. But there's at least you know, there's more than ten people at least in that particular that particular row. So I I'm not sure if either of these is great, but they Q Well, the analysis you went through, did you go through that analysis for each and every one of the studies that you listed when you made a decision as to which odds ratio to select?  A I did.  Q You did.  A I mean, I tried to pick the one that that fit the best.  Q Okay. And is the one that fits the best for Hartge the 0.70, or is the one that fits the best for Hartge the 2.5?  MS. BROWN: Objection to the form.  THE WITNESS: So I don't know. I mean other than the fact that you've got the word "genital" there, I mean "all over" is kind of

1			
	Page 334		Page 336
1	confusing is how you it's not a great study,	1	you did, where is that contained in your report?
2	right. I mean, I'm not saying the study is not	2	MS. BROWN: And you should feel free to
3	great. I'm saying the report of the study doesn't	3	answer both questions since counsel cut you off.
4	really tell us everything that you could really	4	THE WITNESS: I have no idea about what
5	wish to know.	5	you mean by where it is in the report.
6	BY MS. PARFITT:	6	BY MS. PARFITT:
7	Q So would you like to keep your chart	7	Q Well, I only have RRs here. I have a
8	with the 0.70, or do you think the chart should be	8	table. No analyses of the different case
9	modified to say 2.5?	9	controls. Just a table of their relative risks.
10	MS. BROWN: Objection to the form.	10	So, you've now gone through an analysis
11	THE WITNESS: I mean, I'd be happy to	11	of the Hartge case and said, You know, maybe this
12	put both rows there and just with an asterisk, and	12	is what we should have extracted, maybe we should
13	explain, you know, what each one of those is.	13	have looked at this, but I used my judgment and
14	BY MS. PARFITT:	14	put the 0.7.
15	Q Okay. Would you have you done that	15	And what I'm asking is, is that analyses
16	for all the other studies that you've listed here,	16	that you just did for us on the record the kind of
17	wherein there may be data for sanitary napkins and	17	analysis that you did for all the other studies?
18	data for genital use and data for cornstarch? Did	18	And if it was, where in the 51 pages of your
19	you go through that analysis?	19	report or this chart have you included that
20	MS. BROWN: Objection to the form.	20	information?
21	THE WITNESS: So, for this table I	21	MS. BROWN: Objection. Completely
22	haven't, but I have gone through all the sanitary	22	misstates his testimony, as well as the article,
23	napkin findings that I can. And that's one of the	23	as well as the report, as well as the chart.
24	things you'll find in my handwritten notes from	24	THE WITNESS: Let me just see. So
25	the from the prior case.	25	obviously it's not it's not documented, but I
	Page 335		Page 337
1	In terms of cornstarch, that's a	1	think part of what I'm trying to do is communicate
2	different question.	2	what the what the risks are that were reported
3	BY MS. PARFITT:	3	and what their confidence bounds were.
4	Q And, Doctor, I	4	And so, you know, the papers stand for
5	MS. BROWN: Wait, he needs to finish.	5	themselves. They all exist. They're all cited.
6	He's got to	6	We can look at anything we want.
7	BY MS. PARFITT:	7	I think in terms of the cornstarch
8	Q Doctor, that's really not my question.	8	issue
9	MS. BROWN: No, no, no, no, no, he	9	BY MS. PARFITT:
10	BY MS. PARFITT:	10	Q Doctor, I'm not asking about
11	Q My question is this	11	MS. BROWN: Stop cutting him off.

1	direct.	1	BY MS. PARFITT:
2	MS. BROWN: No, you have to let him	2	Q Correct?
3	answer the question or	3	A I did.
4	MS. PARFITT: Counsel.	4	Q Okay. And my last question is, is that
5	MS. BROWN: We're going off the record.	5	the position you wish to take today?
6	MS. PARFITT: Do you want to go we'll	6	MS. BROWN: Objection to the form.
7	go off the record right now.	7	BY MS. PARFITT:
8	MS. BROWN: Yeah, let's go. Fine. Do	8	Q Or would you modify that and use a
9	we need to call the Judge? You have to let him	9	different relative risk? That's all.
10	answer.	10	A I don't
11	MS. PARFITT: We'll call her. We'll	11	MS. BROWN: Objection.
12	call her.	12	THE WITNESS: I don't think anybody is
13	THE VIDEOGRAPHER: The time is 3:09 p.m.	13	well served by looking at this other number, other
14	We're going off the record.	14	than if you're just trying to make a point and
15	(A discussion was held off the record.)	15	be you know, for a plaintiff or something to
16	THE VIDEOGRAPHER: The time is	16	look at this 2.5.
17	3:10 p.m., and we're back on the record.	17	I think if you take this one that says
18	MS. PARFITT: Thank you.	18	there's a small number of exposed women, ten
19	BY MS. PARFITT:	19	people, you know, that yields an unreliable
20	Q And, Dr. Diette, all I'm trying to to	20	estimate. I mean, somebody should fuss about that
21	ask, and obviously very poorly, is the analysis	21	too. So that's not that's not an ideal
22	that you just discussed that you went through with	22	measure.
23	Hartge, as we sat here today and you did it on the	23	If it helps, we can put them on the
24	record, did you do that for all the other studies?	24	table, and it wouldn't really change things,
25	A I tried to.	25	right. You've got confidence bounds from 0.7 to
23	A Tulculo.	23	right. Touve got confidence bounds from 0.7 to
	Page 339		Page 341
1	Q Okay. And so you had to make	1	10. I mean, that's an enormous confidence value.
2	determinations as to what relative risks to	2	So there's not a lot of information from those ten
3	extract from those studies, correct?	3	people.
4	MS. BROWN: Objection to the form.	4	BY MS. PARFITT:
5	THE NUTBER OF THE 1 A 1 A 1		
	THE WITNESS: I I had to work with	5	Q And the reason I ask as well, as you
6	what they reported.	5 6	Q And the reason I ask as well, as you said earlier on in your deposition, you did not
6 7			
	what they reported. BY MS. PARFITT:	6	said earlier on in your deposition, you did not
7	what they reported.	6 7	said earlier on in your deposition, you did not know for all these studies their sample size.
7 8	what they reported. BY MS. PARFITT: Q Okay. And just like Hartge, they	6 7 8	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it,
7 8 9	what they reported. BY MS. PARFITT: Q Okay. And just like Hartge, they reported different pieces of information:	6 7 8 9	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of
7 8 9 10	what they reported. BY MS. PARFITT: Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital,	6 7 8 9 10	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the
7 8 9 10 11	what they reported. BY MS. PARFITT: Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?	6 7 8 9 10 11	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't
7 8 9 10 11 12	what they reported. BY MS. PARFITT: Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct? A Correct.	6 7 8 9 10 11 12	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long
7 8 9 10 11 12 13	what they reported.  BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information:  Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most	6 7 8 9 10 11 12 13	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of
7 8 9 10 11 12 13	what they reported.  BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information:  Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most appropriate data to pull from those studies to	6 7 8 9 10 11 12 13 14	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense
7 8 9 10 11 12 13 14	what they reported.  BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information:  Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct?	6 7 8 9 10 11 12 13 14 15	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.
7 8 9 10 11 12 13 14 15	what they reported. BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct?  A For the most	6 7 8 9 10 11 12 13 14 15	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.  Q So somewhere you have all the sample
7 8 9 10 11 12 13 14 15 16	what they reported. BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct?  A For the most  MS. BROWN: Objection to the form.	6 7 8 9 10 11 12 13 14 15 16 17	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.  Q So somewhere you have all the sample sizes pulled together for the various cases and controls for each one of these studies?
7 8 9 10 11 12 13 14 15 16 17	what they reported. BY MS. PARFITT: Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct? A Correct. Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct? A For the most MS. BROWN: Objection to the form. THE WITNESS: Yes, of course. BY MS. PARFITT:	6 7 8 9 10 11 12 13 14 15 16 17	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.  Q So somewhere you have all the sample sizes pulled together for the various cases and controls for each one of these studies?  A It's in every one of the studies.
7 8 9 10 11 12 13 14 15 16 17 18	what they reported. BY MS. PARFITT: Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct? A Correct. Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct? A For the most MS. BROWN: Objection to the form. THE WITNESS: Yes, of course. BY MS. PARFITT: Q Okay. So my question to you is, you	6 7 8 9 10 11 12 13 14 15 16 17 18	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.  Q So somewhere you have all the sample sizes pulled together for the various cases and controls for each one of these studies?  A It's in every one of the studies.  Q I know it's in each and every one of the
7 8 9 10 11 12 13 14 15 16 17 18 19 20	what they reported. BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct?  A For the most  MS. BROWN: Objection to the form.  THE WITNESS: Yes, of course.  BY MS. PARFITT:  Q Okay. So my question to you is, you chose for the Hartge, based upon that analysis, to	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.  Q So somewhere you have all the sample sizes pulled together for the various cases and controls for each one of these studies?  A It's in every one of the studies.  Q I know it's in each and every one of the studies, but did you document it on any kind of
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	what they reported. BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct?  A For the most  MS. BROWN: Objection to the form.  THE WITNESS: Yes, of course.  BY MS. PARFITT:  Q Okay. So my question to you is, you chose for the Hartge, based upon that analysis, to use the any talc mentioned, which gave us a	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.  Q So somewhere you have all the sample sizes pulled together for the various cases and controls for each one of these studies?  A It's in every one of the studies.  Q I know it's in each and every one of the
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	what they reported. BY MS. PARFITT:  Q Okay. And just like Hartge, they reported different pieces of information: Diaphragms used, no diaphragm, all over, genital, legs, feet, correct?  A Correct.  Q And you had to decide what was the most appropriate data to pull from those studies to include on your chart for relative risks, correct?  A For the most  MS. BROWN: Objection to the form.  THE WITNESS: Yes, of course.  BY MS. PARFITT:  Q Okay. So my question to you is, you chose for the Hartge, based upon that analysis, to	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	said earlier on in your deposition, you did not know for all these studies their sample size.  A Oh, no, no, no. I didn't memorize it, but I've got all the studies, and it's a piece of cake, we can just go look at them and look at the sample size. I didn't want to, like I didn't want to, like, make this is already a long enough report. I don't need to put every bit of data from every study in it to have it make sense to me.  Q So somewhere you have all the sample sizes pulled together for the various cases and controls for each one of these studies?  A It's in every one of the studies.  Q I know it's in each and every one of the studies, but did you document it on any kind of chart or anything like that?

	Page 342		Page 344
1	A We can just look at the studies. If I	1	doesn't change anything about this exercise.
2	documented the sample size next to each one of	2	BY MS. PARFITT:
3	these, it wouldn't tell you why I picked this	3	Q Okay. Well, I didn't select Hartge.
4	particular relative risk.	4	You selected Hartge.
5	Q It would it would not offer valid	5	A Well, I selected it because it exists.
6	information as to the relevance of those relative	6	I mean, I my my goal was to find all the
7	risks?	7	studies that exist.
8	A Oh, my gosh. I mean if you were	8	Q Okay.
9	interested in it, I could find it for you. It	9	A I mean, I didn't invent it, right? I
10	wasn't it wasn't important for me to	10	just I just looked at
11	communicate what I was trying to communicate.	11	Q Well, I just didn't want the record to
12	Q No, I it's a different question.	12	reflect that I was selecting your data.
13	Is sample size important when one is	13	A No, but you it sounds like you would
14	doing an analysis of a scientific study?	14	prefer me to use that 2.5 from the ten people,
15	A Yeah, that's why it's in the paper.	15	instead of the 0.7 from the nearly hundred people.
16	Q Okay. Because if the sample size is too	16	Q I have
17	small, it may be underpowered; is that correct?	17	A And I'm happy to look at them both. I
18	MS. BROWN: Objection.	18	mean they both tell us some information. It's not
19	THE WITNESS: Well, I don't know. I	19	like, you know, one is ideal and the other isn't.
20	mean, if we're going to do power now, I think	20	But it really doesn't change the basic premise
21	that's going to be a different a different	21	here.
22	conversation.	22	Q All right. So on my chart I have them
23	The sample size being small can have all	23	both. I have 0.7 and 2.5. Do you see that?  A Um
24 25	kinds of all kinds of impact. This to me is actually the most generous way to look at these	25	
25	actually the most generous way to look at these	45	Q Right at the bottom there, "Genital use"
	Page 343		Page 345
1	Page 343 data, rather than picking at the same size. I	1	Page 345 and "Any talc use." Do you see that?

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	data, rather than picking at the same size. I mean, I can do that too, right? I can say, This is a crummy study because it's got 23 people, or this is crummy one that wasn't my goal. It wasn't to sort of tear down the the case-control studies.  I was trying to have a balanced approach here, I think unlike the plaintiffs' experts, and I wasn't trying to say that this one particular design is awful and the other one is good. I was just trying to represent something about it in order to summarize it and communicate a point. BY MS. PARFITT:  Q Okay. And your balanced approach was to take the lower, the 0.7 relative risk, rather than the 2.5 relative risk.  A Oh, my goodness.  MS. BROWN: Objection to the form.  THE WITNESS: I I think I mean, I think this little article, that doesn't even fit	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	and "Any talc use." Do you see that?  A I do. Q Okay. All right. So as I appreciate your testimony, you had selected 25 population case controls, 7 hospital and 7 hospital case controls, correct?  MS. BROWN: Objection. BY MS. PARFITT: Q Do I have the numbers right? A I wasn't listening. I'm sorry. MS. BROWN: Look at the realtime. I just think you misspoke. You said seven hospitals twice. Is that what you meant? BY MS. PARFITT: Q As I appreciate your testimony, you selected no, this is populate 25 population case controls and 7 hospital case controls. I said it twice. Correct? A That's correct. Q Okay. And that formed the basis for
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	data, rather than picking at the same size. I mean, I can do that too, right? I can say, This is a crummy study because it's got 23 people, or this is crummy one that wasn't my goal. It wasn't to sort of tear down the the case-control studies.  I was trying to have a balanced approach here, I think unlike the plaintiffs' experts, and I wasn't trying to say that this one particular design is awful and the other one is good. I was just trying to represent something about it in order to summarize it and communicate a point. BY MS. PARFITT:  Q Okay. And your balanced approach was to take the lower, the 0.7 relative risk, rather than the 2.5 relative risk.  A Oh, my goodness.  MS. BROWN: Objection to the form.  THE WITNESS: I I think I mean, I think this little article, that doesn't even fit on an entire page, gives us so little information	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	and "Any talc use." Do you see that?  A I do. Q Okay. All right. So as I appreciate your testimony, you had selected 25 population case controls, 7 hospital and 7 hospital case controls, correct?  MS. BROWN: Objection. BY MS. PARFITT: Q Do I have the numbers right? A I wasn't listening. I'm sorry. MS. BROWN: Look at the realtime. I just think you misspoke. You said seven hospitals twice. Is that what you meant? BY MS. PARFITT: Q As I appreciate your testimony, you selected no, this is populate 25 population case controls and 7 hospital case controls. I said it twice. Correct? A That's correct. Q Okay. And that formed the basis for your selection of case studies, correct? MS. BROWN: Objection to the form.

	Page 346		Page 348
1	A Correct.	1	to be hard for me to read it off of your figure
2	Q Yes. Okay.	2	because I don't know, like like, the Harlow and
3	Now, looking at the chart, which is 21,	3	Weiss one what is wrong with that one? Or is
4	what is the point estimate wait.	4	it
5	What I would like you to do, rather, I	5	MS. BROWN: That looks wrong, doesn't
6	would like you to circle the point estimate for	6	it?
7	every study that exceeds that has a 1.0.	7	THE WITNESS: No, it's Harlow and Weiss
8	MS. BROWN: Objection. Based on the	8	versus Harlow.
9	document you created as 21?	9	So what am I circling? I'm circling
10	MS. PARFITT: Which is identical to the	10	the the on the forest plot?
11	doctor's document, with the exception of I put two	11	BY MS. PARFITT:
12	numbers for Hartge.	12	Q On the forest plot, if you would be kind
13	MS. BROWN: You put two numbers for	13	enough to circle every relative risk where the
14	Moorman too.	14	point estimate was 1.0 or above.
15	MS. PARFITT: Before and after 2014,	15	A Oh, I did it wrong.
16	correct?	16	Q That's all right.
17	MS. BROWN: Nope, Moorman is 2009. You	17	A Sorry. I'm circling the ones that
18	have you've broken out Moorman by race.	18	are do you have another another copy of
19	MS. PARFITT: I did.	19	this?
20	MS. BROWN: So I mean, my point here is	20	MS. MILLER: You can have mine.
21	just if you wanted to use his report, he's happy	21	MR. LOCKE: I didn't
22	to answer your questions, but	22	MS. PARFITT: I'm sorry. I'm sorry,
23	MS. PARFITT: He did it but he did it	23	Tom?
24	too.	24	MR. LOCKE: I just couldn't hear you
25	MS. BROWN: Okay. That's fine.	25	trailed off at the end.
	Do go. 247		Dago 240
	Page 347	_	Page 349
1	MS. PARFITT: It's on his chart.	1	MS. PARFITT: Sure.
2	BY MS. PARFITT:	2	BY MS. PARFITT:
3	Q I didn't do anything the only	3	Q You have and maybe I can shorten this
4	modification I made to your chart, Doctor, is	4	for you, how about that, in the interest of time.
5	Hartge, and there I kept your 0.70 and added the	5	A Your call.
6	genital 2.5.	6	Q We have thank you. I appreciate
7	And what I'd like you to do is circle in	7	that.
8	that document every point estimate or odds ratio	8	We've got about 32 studies here. How
9	that is 1.0 or above.	9	many of those studies reflect an odds ratio
10	A 1.0 or higher?	10	greater than 1.0?
11	Q That's right.	11	MS. BROWN: For a relative risk?
12	MS. BROWN: Objection to the exercise.	12	MS. PARFITT: Correct.
13	And, Doctor, if you need the articles,	13	THE WITNESS: I don't know what to do
14	we'll give them to you.	14	with Moorman, because it's one study, right. Two
15	THE WITNESS: So just as an example, if	15	different odds ratios.
16	we look at Jordan 2007, which has an odds ratio of	16	BY MS. PARFITT:
17	1.00	17	Q Mm-hmm.
		1 10	A But it looks like above the dotted line,
18	BY MS. PARFITT:	18	
	Q Mm-hmm.	19	it's there's 24 studies, I guess, and then down
18	<ul><li>Q Mm-hmm.</li><li>A you find that one that would be</li></ul>	19 20	it's there's 24 studies, I guess, and then down below it, there's one, two, three, four,
18 19 20 21	Q Mm-hmm.  A you find that one that would be interesting for me to circle.	19	it's there's 24 studies, I guess, and then down below it, there's one, two, three, four, five there's 5 that are above 1.0, and you said
18 19 20	<ul><li>Q Mm-hmm.</li><li>A you find that one that would be</li></ul>	19 20	it's there's 24 studies, I guess, and then down below it, there's one, two, three, four, five there's 5 that are above 1.0, and you said above 1.0 this time, before you said
18 19 20 21	Q Mm-hmm. A you find that one that would be interesting for me to circle. Q If it has a 1.0, I'd like you to circle it.	19 20 21	it's there's 24 studies, I guess, and then down below it, there's one, two, three, four, five there's 5 that are above 1.0, and you said
18 19 20 21 22	<ul> <li>Q Mm-hmm.</li> <li>A you find that one that would be interesting for me to circle.</li> <li>Q If it has a 1.0, I'd like you to circle</li> </ul>	19 20 21 22	it's there's 24 studies, I guess, and then down below it, there's one, two, three, four, five there's 5 that are above 1.0, and you said above 1.0 this time, before you said

88 (Pages 346 to 349)

	Page 350		Page 352
1	be	1	that those studies have a relative risk in excess
2	Q Right. So we're doing above 1.0.	2	of 1.0 demonstrate a positive result?
3	A Okay.	3	MS. BROWN: Objection to the form.
4	Q You pointed that out, and you're right.	4	THE WITNESS: So some some of those,
5	A Yeah. So have I done it? There's one,	5	yes, and some of those, no.
6	two, three, four well, I guess Hartge is	6	BY MS. PARFITT:
7	one, two, three, four, five	7	Q All right. Would it be fair to say that
8	Q Sure.	8	they're certainly trending above the null; is that
9	A there's five down below the dotted	9	correct?
10	line, and there were	10	MS. BROWN: Objection to the form.
11	Q Okay. And if you can just identify	11	THE WITNESS: Not necessarily. I'm just
12	those where the point estimate does not exceed	12	trying to imagine like I think I understand why
13	it's not above 1.0.	13	you're doing this but I'm just trying to
14	MS. BROWN: Counsel, can you represent,	14	imagine like standing in front of colleagues like
15	on the record, what this second up from the bottom	15	with the Tzonou one and say, I've decided that a
16	is?	16	relative risk of 1.05 is a positive risk.
17	MS. PARFITT: Sure. Hartge and Stewart,	17	I mean, you can only guess so close to
18	'94.	18	1.0. I mean, 1.0 is basically null, right?
19	MS. BROWN: Underneath that.	19	There's no there's no effect. So you can hope
20	MS. PARFITT: Wong.	20	for, but you're rarely going to get a 1.00. So if
21	MS. BROWN: No, above what is the	21	you get like a 1.01, 1.02, 1.03, those are
22	entry above Wong?	22	basically 1.0.
23	MS. PARFITT: Oh, in his table	23	I mean, you can you can say try to
24	THE WITNESS: Oh, that too.	24	make some point to somebody, Oh, it's a little bit
25	MS. PARFITT: In his table he had RR	25	above 1.0; therefore, it's a positive association.
	Mo.17114111. In mo duote ne mad rec		above no, increase, its a postave association.

	Page 351		Page 353
1	0.03, RR 0.05. It was just extracted from his	1	Page 353  But other than this setting, you're going to get
1 2		1 2	
	0.03, RR 0.05. It was just extracted from his		But other than this setting, you're going to get
2	0.03, RR 0.05. It was just extracted from his table.	2	But other than this setting, you're going to get laughed out of the room. I mean, this is this
2	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge	2 3	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it
2 3 4	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.	2 3 4	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive
2 3 4 5	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.	2 3 4 5	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.
2 3 4 5 6	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just	2 3 4 5 6	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:
2 3 4 5 6 7	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?	2 3 4 5 6 7	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is
2 3 4 5 6 7 8	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:	2 3 4 5 6 7 8	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of
2 3 4 5 6 7 8	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.	2 3 4 5 6 7 8	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence
2 3 4 5 6 7 8 9	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer,	2 3 4 5 6 7 8 9	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.
2 3 4 5 6 7 8 9 10	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness,	2 3 4 5 6 7 8 9 10	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the
2 3 4 5 6 7 8 9 10 11	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios	2 3 4 5 6 7 8 9 10 11 12	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.
2 3 4 5 6 7 8 9 10 11 12	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos,	2 3 4 5 6 7 8 9 10 11 12 13	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:
2 3 4 5 6 7 8 9 10 11 12 13 14	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two	2 3 4 5 6 7 8 9 10 11 12 13 14	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle
2 3 4 5 6 7 8 9 10 11 12 13 14 15	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore	2 3 4 5 6 7 8 9 10 11 12 13 14 15	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?  A I'm not, no.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing a line, right. Because it I mean, this scale here isn't really like there's no vertical
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?  A I'm not, no.  Q Okay. If you could do that because we'll attach it as an exhibit. Sorry.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing a line, right. Because it I mean, this scale here isn't really like there's no vertical scale that's labeled here. Right. So you've got
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?  A I'm not, no.  Q Okay. If you could do that because we'll attach it as an exhibit. Sorry.  A Should I just finish saying them	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing a line, right. Because it I mean, this scale here isn't really like there's no vertical scale that's labeled here. Right. So you've got 1.0, 1.1 and 1.2. I mean if you want, I think you
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?  A I'm not, no.  Q Okay. If you could do that because we'll attach it as an exhibit. Sorry.  A Should I just finish saying them  Q Sure.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing a line, right. Because it I mean, this scale here isn't really like there's no vertical scale that's labeled here. Right. So you've got 1.0, 1.1 and 1.2. I mean if you want, I think you ought to just take a ruler and run it up from 1.2.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?  A I'm not, no.  Q Okay. If you could do that because we'll attach it as an exhibit. Sorry.  A Should I just finish saying them  Q Sure.  A and then go back and do it?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing a line, right. Because it I mean, this scale here isn't really like there's no vertical scale that's labeled here. Right. So you've got 1.0, 1.1 and 1.2. I mean if you want, I think you ought to just take a ruler and run it up from 1.2.  Q Why don't you just go ahead and identify
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0? BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?  A I'm not, no.  Q Okay. If you could do that because we'll attach it as an exhibit. Sorry.  A Should I just finish saying them  Q Sure.  A and then go back and do it?  So Rosenblatt, Tzonou, and that's it.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing a line, right. Because it I mean, this scale here isn't really like there's no vertical scale that's labeled here. Right. So you've got 1.0, 1.1 and 1.2. I mean if you want, I think you ought to just take a ruler and run it up from 1.2.  Q Why don't you just go ahead and identify them, if you will, and we can go ahead and do
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	0.03, RR 0.05. It was just extracted from his table.  MS. BROWN: Oh, it's the second Hartge and Stewart.  MS. PARFITT: Yeah.  THE WITNESS: And so you want where just the midpoint is above the number 1.0?  BY MS. PARFITT:  Q Correct.  A So Cramer, Harlow, Harlow, Chen, Cramer, Purdie, Chang, Cook, Green, Godard, Cramer, Ness, Mills, Cramer, Gates, Merritt; the two odds ratios for Moorman, Wu, Rosenblatt, Kurta, Kotsopoulos, Wu, Cramer, Schildkraut; and then one of the two Hartge's, Whittemore  Q And are you circling those, Doctor?  A I'm not, no.  Q Okay. If you could do that because we'll attach it as an exhibit. Sorry.  A Should I just finish saying them  Q Sure.  A and then go back and do it?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	But other than this setting, you're going to get laughed out of the room. I mean, this is this is a 1.05. So, you know, that's you call it what you want. I don't call that a positive finding.  BY MS. PARFITT:  Q Okay. Now, what I'd like you to do is look at the confidence intervals for each one of those studies, and circle where the confidence interval shows a relative risk of 1.2.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q And again, if you will just circle those.  A I I think you'd be better off drawing a line, right. Because it I mean, this scale here isn't really like there's no vertical scale that's labeled here. Right. So you've got 1.0, 1.1 and 1.2. I mean if you want, I think you ought to just take a ruler and run it up from 1.2.  Q Why don't you just go ahead and identify

89 (Pages 350 to 353)

	Page 354		Page 356
1	Q My question is just simply this: Would	1	was inconsistent.
2	you identify all studies where the confidence	2	Q And that aspect
3	interval is 1.2 or higher?	3	MS. BROWN: Are you looking at the
4	MS. BROWN: Objection to the form.	4	report?
5	BY MS. PARFITT:	5	THE WITNESS: Yeah.
6	Q And you can just circle them.	6	BY MS. PARFITT:
7	A And it doesn't have to mean anything to	7	Q was with regard to population study
8	me, right?	8	versus hospital-based studies?
9	Q Nope. Just circle anything where the	9	A Well, I think I made a comment about
10	confidence interval is above a 1.2.	10	both, right?
11	A So where the confidence interval	11	Q And if I can summarize your testimony,
12	includes 1.2?	12	but feel free to look, but your testimony from the
13	Q 1.2, correct.	13	report or your writings and your report suggest
14	A Or where it's above 1.2?	14	that the case-control studies are inconsistent,
15	Q It's above 1.2.	15	and you focus on the fact that the hospital-based
16	MS. BROWN: The entire interval?	16	controls were inconsistent with the population-
17	THE WITNESS: Well, so there's not many,	17	based controls.
18	right? So there's one	18	A That's one one of the areas of
19	BY MS. PARFITT:	19	inconsistency.
20	Q You understand that it includes 1.2?	20	Q Okay. And you base that opinion on the
21	A I heard oh, that's different,	21	fact that there the hospital-based studies were
22	because there's only one where it's above 1.2.	22	not statistically significant, but the
23	Q It includes the 1.2.	23	population-based studies were statistically
24	A Or two that are above it.	24	significant; is that correct?
25	So the two that are above it, don't	25	MS. BROWN: Objection to the form.
	Page 355		Page 357
1		1	
1 2	include it, right, so we got to start over.	1 2	THE WITNESS: That's one piece of
3	Q Everywhere sure. You go ahead and do it. Everywhere where the confidence interval is	3	evidence, right. So one piece of evidence is that the hospital-based ones, none of them were
4	above includes 1.2.	4	statistically significant, and some of the
5	A That's all right. I'm just going to put	5	population-based ones were.
6	a little asterisk next to them, because I already	6	BY MS. PARFITT:
7	made a mark	7	Q All right. And because you had some of
8	Q Sure, that's fine.	8	the population-based studies, you found
9	A next to the ones that are above 1.2.	9	inconsistent because the confidence intervals were
10	Okay.	10	not were such that they were not statistically
11	Q Okay. Let's go ahead and just put this	11	significant; is that correct?
12	here. I appreciate that.	12	A That's a
13	Okay. Here we go. Let's see here.	13	MS. BROWN: Objection to the form.
14	Okay. So let's just stay with that one	14	THE WITNESS: And as before, that's a
15	here for a moment. Let me give you give you a	15	piece of a piece of the information here.
16	blank one here for a moment. Is that all right?	16	BY MS. PARFITT:
17	So you have something in front of you.	17	Q Okay. I've reviewed your report. Other
	A Sure.	18	than the distinction between the statistical
1 Ω		19	significance of studies versus the nonstatistical
18 19			significance of studies, how else did you discern
19	Q Okay. All right.	20	SIZHILICANCE OF SHIGHES. HOW EISE OID VOIL DISCETTI
19 20	Dr. Diette, looking at the chart that we	20	
19 20 21	Dr. Diette, looking at the chart that we just talked about, you have described in your	21	that they were different and not consistent?
19 20 21 22	Dr. Diette, looking at the chart that we just talked about, you have described in your report that the case-control studies are	21 22	that they were different and not consistent?  A Well, I have a section on consistency.
19 20 21 22 23	Dr. Diette, looking at the chart that we just talked about, you have described in your report that the case-control studies are inconsistent. Is that your testimony?	21 22 23	that they were different and not consistent?  A Well, I have a section on consistency.  So it there's other things about these studies
19 20 21 22	Dr. Diette, looking at the chart that we just talked about, you have described in your report that the case-control studies are	21 22	that they were different and not consistent?  A Well, I have a section on consistency.

Page 358 Page 360 1 dose-response relationships are all over the 1 like that. So I'm -- that's more inconsistency. 2 place. So that I found to be an inconsistency. 2 Q Okay. Dr. Diette, what I'm trying to 3 The findings about certain kinds of ovarian 3 get at here is, the underbelly, I guess, of your 4 cancers, some showed a particular cell type and 4 opinions seem to be from your report that cohort 5 5 some -- some didn't. studies are inconsistent with the case-control 6 6 Let me just -studies, which they themselves are inconsistent 7 7 Q Let me ask you -because population-based studies and 8 8 hospital-based studies, some were statistically MS. BROWN: Wait, I don't think he's 9 finished. 9 significant and some were not. Correct? 10 10 A Exactly, yes. MS. PARFITT: No. Let's just make sure. 11 Q Okay. And that's really the -- the guts 11 THE WITNESS: I think we've said it, but I want to make it clear, right, because we were --12 of your report, correct? 12 13 MS. BROWN: Objection to the form. 13 we were really just sort of focused very -- very THE WITNESS: I -- no. I mean, those 14 14 much on population-based and hospital-based case 15 are two very important points, but I'd say there's 15 controls. 16 a heck of a lot more than that in the report. 16 BY MS. PARFITT: 17 BY MS. PARFITT: 17 Q That's right. 18 Q Okay. Did you go through -- let's --18 A But I think the fact that there is 19 let's talk a little bit about that. 19 basically, you know, not a signal from the cohort 20 You described these relative risks of 20 studies is an inconsistency with studies of 21 the case-control studies as small, weak -- small 21 another design, so another form of inconsistency. 22 and weak, correct? 22 I think that -- and what I've tried to 23 A Correct. 23 say here, right, because I think -- I think some 24 Q Okay. What type of -- those words 24 of these Hill criteria, it's hard to -- hard to 25 "small and weak," are those scientific words? 25 keep every -- every comment you want under one Page 359 Page 361 1 particular heading, and so I've tried to get at A So they're words that my colleagues and 1 2 this issue here too that if it were consistent 2 I use. I mean, it's a word that Dr. Rothman used 3 that talc caused or was associated with ovarian 3 when he did his analysis in 2000 and called the 4 cancer, I would expect to see it under a variety 4 summary odds ratio or the risk -- risk of 1.3, he 5 of circumstances, not just perineal dusting. And 5 called it weak. I'm not sure whether he's citing 6 6 so one of the inconsistencies is that, you know, a particular definition, but, you know, it --7 7 diaphragms and condoms, that we don't see that it's -- there's probably reasons, just like where signal. So I'm just saying that that's an 8 8 you talk about a p-value of 0.05 not being the 9 inconsistency. It's the opposite of consistency. 9 absolute line. I think it's why people have 10 And I guess too -- I mean just while 10 resisted trying to say that it has to be above an we're even still on the -- on the types of 11 11 exact specific number. 12 studies, I mean the Taher study that, I guess, you 12 But I think we can all recognize risks know, even though it's not published yet, I mean 13 13 that are large. You know, we know that a risk of 14 they've got a summary risk for the hospital-based 14 10 is a large risk. We know that 20 is a large 15 studies which is less than 1.0. Right. So now 15 risk. We know that a relative risk of 1.01, it's 16 it's not even just like -- if -- I don't know 16 got to be tiny, right, because it can't be any 17 whether we should like the Taher study or not, but 17 smaller than that on that particular scale. 18 it's out there, right. And so now we've got --18 So somewhere in there we have to use 19 Q It's out there. It's a piece of the 19 some judgment, and I think if you got a 1.2 or 20 evidence. 20 1.3, I don't know who -- I don't know who thinks 21 21 A Yeah, it's something that's out there, that's strong. It doesn't make any sense. 22 so now we've got something that's unpublished from 22 Q Do you agree that having a weak 23 2018 that's got not even a positive risk. I mean, 23 association does not rule out a causal connection? 24 this -- this exercise of going to look and see 24 MS. BROWN: Objection to the form. what's over 1.0, there's a 0.94 or 6 or something 25 25 THE WITNESS: Wait a minute, say it

	Page 362		Page 364
1	again because I think	1	Q Secondhand smoke and lung cancer.
2	BY MS. PARFITT:	2	MR. LOCKE: Objection.
3	Q Having a weak association would not rule	3	THE WITNESS: I think really the Surgeon
4	out a causal association.	4	General has put it at it's either about 1.7 or
5	A That's correct.	5	1.9, somewhere in there.
6	Q All right. Would you also agree that	6	BY MS. PARFITT:
7	while the strength of an association is a	7	Q Okay. Let me show you I'm sorry.
8	guideline for drawing an inference of causation,	8	1.7 or 1.9.
9	there is no specified threshold required?	9	Let me show you a study by Kim. And
10	MS. BROWN: Objection to the form.	10	it's entitled "Exposure to Secondhand Smoke and
11	THE WITNESS: I don't think there's a	11	the Risk of Cancer in Never Smokers." And I'll
12	specified threshold. I think it's a gradient,	12	represent that it's in the International Journal
13	right, that you have to use as you're applying	13	of Environment, 2018. And this would be a
14	your judgment about all of the evidence. And that	14	meta-analysis by Dr. Kim.
15	when you have a very small risk, you should be	15	A Do you know, is it something I cited or
16	more concerned about the distorting effects of	16	is this new new to me or
17	other factors, and if you have a larger risk, you	17	Q I did not see it in your
18	can be less worried about those distorting	18	A Okay. Thank you.
19	factors.	19	Q list of references.
20	BY MS. PARFITT:	20	In fact, good question. None of the 167
21	Q But you will agree with me under the	21	articles that were in your curriculum vitae did I
22	Bradford Hill factors, strong association or weak	22	see that you cited in support for your expert
23	association, neither are necessary for finding	23	report; is that correct?
24	causality, correct?	24	A That would I'm sure that's correct.
25	MS. BROWN: Objection to the form.	25	Q Okay. Okay. Do you see that?

Gregory B. Diette, M.D.

1 Q Okay. Let me show you as well the Lv study, and it was a 2015 study. "Risk of 2 programs to reduce secondhand smoke for 3 All-Cause Mortality Associated With Secondhand Smoke."  5 A Do I have that?  6 Q I'm getting that for you. Hold on one second.  8 A Oh, I'm sorry. I thought I — 8 The WITNESS: Oops, sorry.  10 A I thought I missed it. 10 (Diette Exhibit No. 23 was marked 12 for identification.) 12 they would use these risks to drive that or 14 or 14 or 14 throw what 14 the risk of 1.1 and 1.2 are very — are actually less than the relative risks that we seen with talcum powder products and ove cancer, correct?  10 A The last name, yeah. 20 A So all on the case-control structure of the results — 24 first sight — 25 Q That's right — 25 Q Correct. And they then report in the 28 A Yea, all though — exactly right, yep. 40 Qokay. Now, you yourself have do studies on indoor particulate matter, correct with that you do as well, correct? 21 A New Cornect and this is work that you do as well, correct? 22 A So the so seen with that you do as well, correct? 31 A Correct. 40 Qokay. Now, you yourself have do studies on indoor particulate matter, correct with the young down which — which particular one the Q All right. It's Common — it's Common Household Products, 2008." McCormack is article — author. 40 Q Research. And it's dated February 18 WR. PARFITT: 41 A Fervironmental Res, Environmental Tesearch. 40 United States and in other countries, there have been health programs implemented to reduce 2 the programs to reduce accencenthand smoke based upon relative risks for 12 programs to reduce accenthand smoke based upon relative risks, like 2 you've just seen, 1.1, 1.8, 1.2? 17 for identification.) 3 Programs to reduce secondhand 3 minute to 20 programs to a secondhand smoke based upon relative risks, like 3 programs to reduce accence. The programs to a Scord and the accent and this is sorrect. 40 programs to a secondhand smoke based upon relative risks, like 40 programs to a secondhand smoke based upon relative risks, l	age 368
2 study, and it was a 2015 study. "Risk of 3 All-Cause Mortality Associated With Secondhand 4 Smoke." 4 Smoke." 5 A Do I have that? 6 Q I'm getting that for you. Hold on one 7 second. 7 second. 7 second. 8 A Oh, I'm sorry. I thought I	e types of
4 Smoke."  A Do I have that?  6 Q I'm getting that for you. Hold on one 7 second.  8 A Oh, I'm sorry. I thought I 9 Q No, no worries.  9 Q No, no worries.  9 Q No, no worries.  10 A I thought I missed it.  11 (Diette Exhibit No. 23 was marked 11 thought I missed it.  12 for inputs they they used, and I don't I'm: 13 BY MS. PARFITT:  14 Q Do you have that in front of you? 15 A Yes. So this is by Lv? 16 Q That's right.  17 A The last name, yeah. 18 Q And now again, looking at the abstract 19 section, does it report the relative risk for 19 never smokers exposed to secondhand smoke versus 21 unexposed? 22 A So the pooled relative risk for never smokers exposed to secondhand smoke versus 23 smokers compared to those is that so that 24 first sentence of the results 25 Q That's right  Page 367  Page  A Correct.  Page 367  Page  A Correct.  Q Okay. Now, you yourself have do study with McCormack and Diette on common thousehold exposures?  A Yeah, although exactly right, yep, 6 Q Okay. Now, there have been and this is work that you do as well, correct?  MS. BROWN: Objection to the form. 9 BY MS. PARFITT: 9 DO Ayou do research work on secondhand 10 Q You do research work on secondhand 11 smoke? 12 A I have done, yeah, and still do. 13 Q Okay. And are you aware that in the use condhand smoke based upon relative risks, like 16 Cibette Exhibit No. 24 was marked 17 you've just seen, 1.1, 0.8, 1.2? 17 (Diette Exhibit No. 24 was marked 18 A So I don't know what input they would us these risks to drive that or input they would us these risks to drive that or input they would use these risks to drive that or input they would use these risks to drive that or input they would use these risks to drive that or input they would use these risks to drive that or input they would use these risks to drive that or input they would use these risks to drive that or input they would use these risks to drive that or input they wouldn't know what input don't know what input don't know what input they wouldn't know w	
5 A Do I have that? 6 Q I'm getting that for you. Hold on one 7 second. 8 A Oh, I'm sorry. I thought I 9 Q No, no worries. 9 Q No, no worries. 9 Q No, no worries. 10 A I thought I missed it. 11 (Diette Exhibit No. 23 was marked 12 for identification.) 12 by MS, PARFITT: 13 BY MS, PARFITT: 14 Q Do you have that in front of you? 15 A Yes, So this is by Lv? 16 Q That's right. 17 A The last name, yeah. 18 Q And now again, looking at the abstract 19 section, does it report the relative risk for never 20 never smokers exposed to secondhand smoke versus 21 unexposed? 22 A So the pooled relative risk for never 23 smokers compared to those is that so that 24 first sentence of the results 25 Q That's right  Page 367  Page	data, 1.1,
6 Q I'm getting that for you. Hold on one second. 7 second. 8 A Oh, I'm sorry. I thought I 8 THE WITNESS: Oops, sorry. 9 Q No, no worries. 9 Like, I don't I don't know what inputs they they used, and I don't I'm inputs they they used, and I don't know what they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they would use these risks to drive that or they used use these risks to drive that or the they would use these risks to drive that or they would use these risks to drive that or they used used they used used used they used used used used used used used used	у

	Page 378		Page 380
1	smoke and and lung cancer.	1	Q That's all right.
2	And what I would like you to do is	2	is related to secondhand smoke and
3	and I apologize, I don't have copies of this so	3	lung cancer?
4	I'm showing you what is the report of the Surgeon	4	MS. BROWN: Objection to the form.
5	General, I believe it was back in 2006, "The	5	THE WITNESS: It looks like it there. I
6	Health Consequences of Involuntary Exposure to	6	remember there's other numbers in there as well,
7	Tobacco Smoke, A Report of the Surgeon General."	7	but I mean, I remember it being 1-point something
8	Have you read that in the past?	8	and
9	A So definitely not every word, but I've	9	BY MS. PARFITT:
10	read big chunks of it.	10	Q Does that refresh my memory?
11	Q Okay. I figured with your work you may	11	MS. BROWN: Well, let him finish,
12	have.	12	please.
13	A Yeah.	13	THE WITNESS: I think there's somewhere
14	Q All right. Let me direct your attention	14	else in there where there's other estimates, but
15	to	15	still not like not sky high. Still less than
16	MS. PARFITT: And I apologize to all, so	16	2.0.
17	you have to look on the camera on the screen.	17	BY MS. PARFITT:
18	MS. BROWN: Okay. So just for the	18	Q But you don't disagree with the Surgeon
19	record, we don't have copies of this, and so I	19	General's conclusion that the pooled evidence
20	will object to the fact that we have no context or	20	indicates a 20 to 30 percent increase in the risk
21	ability to look at the document ourselves.	21	of lung cancer from secondhand smoke exposure
22	MS. PARFITT: All right.	22	associated with living with a smoker, correct?
23	BY MS. PARFITT: All right.	23	MR. LOCKE: Objection.
24	Q And again, Doctor, you've reviewed this	24	MS. BROWN: Objection. He doesn't have
25	report, correct, in the past?	25	the document, he can't review it.
23	report, correct, in the past:	25	the document, he can't review it.
	Page 379		Page 381
1	A In the past, and I've read parts of it,	1	BY MS. PARFITT:
2	but as you know, I mean it's a humongous	2	Q Are you disputing that conclusion?
3	Q It is big.	3	MS. BROWN: Objection. He has no basis
4	A document, and so some parts	4	to do it, he doesn't have the document.
5	weren't weren't for me.	5	BY MS. PARFITT:
6	Q All right. I want to focus your

BROWN: Objection to the form. THE WITNESS: That is correct. BY MS. PARFITT: Q Okay. And so what we rely on, and what

	Page 382		Page 384
1	correct?	1	BY MS. PARFITT:
2	MS. BROWN: Objection to the form.	2	Q Okay. When you say it doesn't change
3	MR. LOCKE: Objection.	3	the totality of the evidence that we have
4	THE WITNESS: I I wouldn't	4	available for us, isn't it true that the presence
5	characterize it exactly that way. I mean I would	5	of a carcinogen, like asbestos in talcum powder
6	say that I can't really sort between different	6	products, supports the biological biologically
7	brands based on the epidemiologic literature, but	7	plausible mechanism for association between talcum
8	whatever all brands is, I don't you know, I	8	powder products and ovarian cancer?
9	don't know what that represents.	9	MS. BROWN: Objection to the form of the
10	BY MS. PARFITT:	10	question.
11	Q And would it be fair then if one product	11	THE WITNESS: I I'd say no. And for
12	that contained one product, talcum powder	12	reasons, if you want them, or just leave it at no.
13	product contained asbestos, and another did not,	13	BY MS. PARFITT:
14	that would result in a conclusion that would draw	14	Q Well, you've testified that asbestos is
15	it towards the null? Is that fair?	15	a carcinogen. Correct?
16	MS. BROWN: Objection to the question.	16	A Correct.
17	THE WITNESS: I don't understand that.	17	Q All right. And the fact that asbestos
18	BY MS. PARFITT:	18	might be in the talcum powder product does not
19	Q Okay.	19	impact your opinions with regard to the increased
20	A I mean I understand the idea of drawing	20	biologically plausible mechanism for talc to cause
21	something to the null. I just don't understand	21	ovarian cancer.
22	Q Sure.	22	MS. BROWN: Objection to the form. Are
23	A what preceded that.	23	you talking about a Johnson & Johnson product?
24	Q If you have a product like Johnson &	24	MS. PARFITT: Just generally.
25	Johnson, and you and it has a carcinogen in it,	25	MS. BROWN: Objection to the form.
		23	MS. BRO WIV. Objection to the form.
	Page 383		Page 385
1	and you lump it together with other products that	1	THE WITNESS: It it does not.
2	are not infected or contaminated with asbestos,	l .	4 4 4 7 7
2		2	As you ask these things, I'm trying to
3	what does that do to the overall relative risk	3	As you ask these things, I'm trying to figure out if I'm supposed to explain what I'm
4	what does that do to the overall relative risk A Oh.		· · · · · · · · · · · · · · · · · · ·
		3	figure out if I'm supposed to explain what I'm
4	A Oh.	3 4	figure out if I'm supposed to explain what I'm saying or is
4 5	<ul><li>A Oh.</li><li>Q when studying that product?</li></ul>	3 4 5	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the
4 5 6	<ul><li>A Oh.</li><li>Q when studying that product?</li><li>MS. BROWN: Objection to the incomplete</li></ul>	3 4 5 6	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question.
4 5 6 7	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical.	3 4 5 6 7	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay.
4 5 6 7 8	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality,	3 4 5 6 7 8	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one
4 5 6 7 8 9	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that	3 4 5 6 7 8	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one.
4 5 6 7 8 9	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure	3 4 5 6 7 8 9	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right.
4 5 6 7 8 9 10	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from	3 4 5 6 7 8 9 10	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. PARFITT: Q Does Johnson & Johnson sell baby powder
4 5 6 7 8 9 10 11	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another	3 4 5 6 7 8 9 10 11	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. PARFITT: Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent
4 5 6 7 8 9 10 11 12 13	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there	3 4 5 6 7 8 9 10 11 12 13	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. PARFITT: Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance?
4 5 6 7 8 9 10 11 12 13 14	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it	3 4 5 6 7 8 9 10 11 12 13 14	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. PARFITT: Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance? MS. BROWN: Objection to the form of the
4 5 6 7 8 9 10 11 12 13 14	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there	3 4 5 6 7 8 9 10 11 12 13 14 15	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. PARFITT: Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance? MS. BROWN: Objection to the form of the question.
4 5 6 7 8 9 10 11 12 13 14 15 16	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would	3 4 5 6 7 8 9 10 11 12 13 14 15 16	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would move it towards towards one. The reality is there wouldn't be any	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. PARFITT: Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance? MS. BROWN: Objection to the form of the question.
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would move it towards towards one. The reality is there wouldn't be any impact whatsoever because the epidemiology already	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	figure out if I'm supposed to explain what I'm saying or is MS. BROWN: No, you answered the question. THE WITNESS: Okay. MS. BROWN: She'll ask you another one if she has one. THE WITNESS: Okay. All right. BY MS. PARFITT: Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance? MS. BROWN: Objection to the form of the question. THE WITNESS: If they do, I'm not aware of that. BY MS. PARFITT:
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would move it towards towards one. The reality is there wouldn't be any impact whatsoever because the epidemiology already takes into account whatever those brands are, and	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	figure out if I'm supposed to explain what I'm saying or is  MS. BROWN: No, you answered the question.  THE WITNESS: Okay.  MS. BROWN: She'll ask you another one if she has one.  THE WITNESS: Okay. All right.  BY MS. PARFITT:  Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance?  MS. BROWN: Objection to the form of the question.  THE WITNESS: If they do, I'm not aware of that.  BY MS. PARFITT:  Q Okay. And if I understand, the presence
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would move it towards towards one. The reality is there wouldn't be any impact whatsoever because the epidemiology already takes into account whatever those brands are, and so it doesn't change the totality of the evidence	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	figure out if I'm supposed to explain what I'm saying or is  MS. BROWN: No, you answered the question.  THE WITNESS: Okay.  MS. BROWN: She'll ask you another one if she has one.  THE WITNESS: Okay. All right.  BY MS. PARFITT:  Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance?  MS. BROWN: Objection to the form of the question.  THE WITNESS: If they do, I'm not aware of that.  BY MS. PARFITT:  Q Okay. And if I understand, the presence of asbestos in a talcum powder product does not in
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would move it towards towards one. The reality is there wouldn't be any impact whatsoever because the epidemiology already takes into account whatever those brands are, and so it doesn't change the totality of the evidence that we have available for us.	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	figure out if I'm supposed to explain what I'm saying or is  MS. BROWN: No, you answered the question.  THE WITNESS: Okay.  MS. BROWN: She'll ask you another one if she has one.  THE WITNESS: Okay. All right.  BY MS. PARFITT:  Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance?  MS. BROWN: Objection to the form of the question.  THE WITNESS: If they do, I'm not aware of that.  BY MS. PARFITT:  Q Okay. And if I understand, the presence of asbestos in a talcum powder product does not in your mind impact the biologically plausible
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would move it towards towards one. The reality is there wouldn't be any impact whatsoever because the epidemiology already takes into account whatever those brands are, and so it doesn't change the totality of the evidence that we have available for us. So concept, I mean you could sort of	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	figure out if I'm supposed to explain what I'm saying or is  MS. BROWN: No, you answered the question.  THE WITNESS: Okay.  MS. BROWN: She'll ask you another one if she has one.  THE WITNESS: Okay. All right.  BY MS. PARFITT:  Q Does Johnson & Johnson sell baby powder that's 99 percent asbestos and 1 percent fragrance?  MS. BROWN: Objection to the form of the question.  THE WITNESS: If they do, I'm not aware of that.  BY MS. PARFITT:  Q Okay. And if I understand, the presence of asbestos in a talcum powder product does not in your mind impact the biologically plausible mechanism for talcum powder products to cause
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A Oh. Q when studying that product? MS. BROWN: Objection to the incomplete hypothetical. THE WITNESS: So concept and reality, right. So the concept would be, if you knew that there were enough asbestos that led to an exposure that was enough in order to cause a disease from one product, and it was pooled with another product that didn't have that same amount or didn't have any asbestos but you knew that there was enough to cause disease, then it would it would do exactly what you're saying, is it would move it towards towards one. The reality is there wouldn't be any impact whatsoever because the epidemiology already takes into account whatever those brands are, and so it doesn't change the totality of the evidence that we have available for us.	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	figure out if I'm supposed to explain what I'm saying or is  MS. BROWN: No, you answered the question.  THE WITNESS: Okay.  MS. BROWN: She'll ask you another one if she has one.  THE WITNESS: Okay. All right.  BY MS. THE WITNESS: If they do, I'm not aware of that.  BY MS. PARFITT:  Q Okay. And if I understand, the presence of asbestos in a talcum powder product does not in your mind impact the biologically plausible

Gregory B. Diette, M.D.

Page 388 Page 386 THE WITNESS: No, there's not enough 1 1 And then I think if you -- if you pair 2 information in what you said there. 2 that with more modern studies, if you take like 3 BY MS. PARFITT: 3 the Reid study from Australia, you take women who 4 4 worked, you know, in and around a crocidolite Q What would you need? 5 5 A So I would need a couple of things. One mine, they certainly had enough exposure to get 6 is I would need to have some estimate of what the 6 asbestos-related diseases, but they don't get 7 7 dose would be, and some assurance from somewhere. ovarian cancer. 8 which I don't have, that that represented a dose 8 And so I think that the -- you know, the 9 that was sufficient to cause -- and by dose, I'm 9 sum total of all that just -- it doesn't make 10 10 talking about dose of asbestos, right -- that that sense that just knowing the fact that there's some 11 11 was a sufficient dose to cause ovarian cancer. particle -- even if it's true, that some particle 12 12 of asbestos is going to be enough to cause And based on what I've seen, I can't 13 13 make that link. I can't -- I haven't seen disease. anything that says that there's a plausible 14 Q Okay. Have you -- have you read -- I 14 15 concentration or dose that people would be exposed 15 didn't see it in your reliance list -- Reid, 2012? 16 16 to that links to anything I can find in the A I have two Reeds, I think, and if I only 17 17 epidemiologic literature about how much, if any, listed one, I meant to include two. 18 it would take in order to -- to cause ovarian 18 Q Yeah, you only listed 2011 Reid. You cancer. And what I -- should I finish? didn't list 2012 Reid. 19 19 20 Q Mm-hmm, yeah, finish. 20 A I meant -- so I don't know which one is 21 21 A Okay. I'm sorry. there. There's one from Whitnum, which is the 22 22 Q I'm trying not to interpret you. study of the women that -- you know, that I was 23 23 A No, no, you're not. I didn't mean -- I just describing, and a separate one is -- it's 24 basic -- basically like a meta-analysis or a 2.4 didn't think you were. 25 25 Q So doing better. reanalysis of the ovarian cancer and asbestos Page 387 Page 389 1 A I didn't think you were. 1 literature. 2 So I mean there's more, right. I mean 2 Q Okay. Do you recall from your reading 3 so the -- if you look at IARC and what those 3 that the scientists in Reid 2012 determined that 4 studies represented, they represent for the most 4 childhood exposure to asbestos was associated with 5 part -- and by IARC, I'm talking about IARC and 5 an increased risk of cancer mortality which was 6 6 ovarian cancer and asbestos -- you know, mostly 3.5 times greater than the general population? Do 7 7 circumstances that aren't typical of American you recall those numbers? 8 A I don't, but cancer mortality to -women. For example, so women in Europe who were 8 9 working at a time and place when there was 9 MS. BROWN: Objection. 10 different forms and lots of asbestos that may have 10 THE WITNESS: Can you tell me which -been sufficient to cause other asbestos-related because I don't remember which year links to which 11 11 12 diseases. 12 Reid study. 13 So if you -- if those -- if those 13 BY MS. PARFITT: 14 findings are absolutely accurate -- you know, you 14 Q That was the 2012 that I was speaking 15 take away the issue of misclassification or 15 of. 16 anything else -- if they're absolutely accurate, 16 A No, I understand that. I heard the 17 you've got a relative risk in the neighborhood of 17 year, but I don't know what the title is. 18 like 1.75 or something like that. 18 Q Oh, the title is "All-cause mortality in 19 19 So I'm not saying that's not an cancer incidence among adults exposed to blue 20 20 asbestos during childhood." important risk, but it's not a huge risk, right? 21 21 So we're taking heavy industrial exposure to get A I think that's a third study then, 22 to a 1.75. I haven't seen anything that could 22 because I think the two I'm referring to are --23 tell me that anything we're talking about here 23 are two different ones. 24 could possibly rise to the level of heavy 24 Q All right. So did you read the 2012 or 25 industrial exposure. 25 that just wasn't one you read?

98 (Pages 386 to 389)

	Page 390		Page 392
1	MS. BROWN: Well, Counsel, can you show	1	THE WITNESS: I'm not disagreeing with
2	it to him and he'll tell you?	2	you, I think that's the language they use, but
3	MS. PARFITT: Sure.	3	they they used their their strongest
4	THE WITNESS: I don't know if either of	4	their strongest grading.
5	the ones that I cite, you know, that I'm familiar	5	BY MS. PARFITT:
6	with are from 2012, but I don't think I read the	6	Q How many of the IARC studies that formed
7	one that you're talking about.	7	the basis for IARC's conclusion that asbestos
8	BY MS. PARFITT:	8	causes ovarian cancer was there information
9	Q Okay. From looking at your curriculum	9	concerning the exposure and the dose?
10	vitae and the studies you cited, you cited Reid	10	A So I think you said something that you
11	actually you cited three Reids. You cited Reid	11	didn't mean to, because I think you said how many
12	2011, you cited Reid 2008, and you cited Reid	12	of the IARC studies that IARC considered. I
13	2009. The study that you did not cite was Reid	13	think did you mean how many of the underlying
14	2012.	14	studies that IARC considered?
15	A That that sounds believable. That	15	Q Correct.
16	makes sense.	16	A Okay. And so there's at least five that
17	Q All right. So for purposes of the	17	I remember that were like sort of factory worker
18	opinions in your report, you did not rely on Reid	18	type studies, and then I think there were a couple
19	2012, is that fair?	19	of more. I'd have to go back, though, to look and
20	MS. BROWN: Objection to the form of the	20	see what what they had about dose, if anything.
21	question.	21	My I'm thinking like at least for the World
22	THE WITNESS: I I don't think I'm	22	War II era ones, they probably didn't have good
23	familiar with that study.	23	measures at all, you know, if any.
24	BY MS. PARFITT:	24	Q Okay. Let me show you what I will have
25	Q Okay. Fair enough.	25	marked as Exhibit 27.

BY MS. PARFITT:  Q Let me show you what we have marked as Exhibit 27.  Do you have that in front of you?  A I have the "Arsenic, Metals, Fibres and Dusts," 100C IARC.  Q That's correct, that's the right one.  Okay. Let me direct your attention to the bottom of page 253.  Do you have that?  A 253?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Are you able to share with us, Dr. Diette, what the minimum dose of asbestos is necessary in order to cause an ovarian cancer?  MS. BROWN: Objection to the form of the question.  THE WITNESS: I haven't seen that published. I can tell you that at least in one of those Whitnum studies that women were exposed to as much as 40 fiber/cc years cumulatively of crocidolite, and and that apparently wasn't enough to cause ovarian cancer. But I didn't see, you know, good measurements or estimates from the the more historic to say what the exposures were.  BY MS. PARFITT:  Q Okay. IARC looked at the issue of asbestos and ovarian cancer, correct?  A They did.  MS. BROWN: Form.  THE WITNESS: Sorry.  BY MS. PARFITT:  Q All right. IARC concluded that asbestos causes ovarian cancer.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	(Diette Exhibit No. 27 was marked for identification.)  MR. ROSEN: 26, for the record, is the Surgeon General's report, which we'll supplement with a paper copy.  THE WITNESS: The same one the same one that we were talking about before the secondhand smoke or involuntary smoke?  MR. ROSEN: Right, so there won't be a 26 in the file.  THE WITNESS: Got you.  BY MS. PARFITT:  Q Let me show you what we have marked as Exhibit 27.  Do you have that in front of you?  A I have the "Arsenic, Metals, Fibres and Dusts," 100C IARC.  Q That's correct, that's the right one. Okay. Let me direct your attention to the bottom of page 253.  Do you have that?  A 253? Q 253, correct.

BROWN: Thank you.  MS. PARFITT: Of course.  Sorry, guys. I'm going to need one.  I'm sorry. I'll give you this one later.  BY MS. PARFITT:  Q Okay. I will represent to you that that is that is Table 2.8, which is referenced in the IARC report on page 253 and 254.  And it says: "Epidemiological studies of asbestos exposure and ovarian cancer," and then in parens, "and for comparison, lung cancer and mesothelioma."
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	established based on five strongly positive cohort  Page 395  mortality studies of women with heavy occupational exposure to asbestos."  Do you see that?  A I do.  Q Okay. And then if you go and then it cites those studies.  Do you see that?  A I do.  Q And go down to where it starts: "The working group carefully considered the possibilities that cases of peritoneal mesothelioma may have been misdiagnosed as ovarian cancer, and that these contributed to the observed excesses."  Do you see that?  A I do.  Q Okay. Did I read that correctly?  A Yes.  Q Okay. In your report you stated that it was your belief that perhaps the results were limited by virtue of the fact that there may have been misdiagnosis between peritoneal mesothelioma	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	marked as Exhibit 28.  Page 397  (Diette Exhibit No. 28 was marked for identification.)  BY MS. PARFITT:  Q Okay. Diette Exhibit 28, if you will.  There you go.  MS. PARFITT: And, Counsel, I have a copy for you.  MS. BROWN: Thank you.  MS. PARFITT: Of course.  Sorry, guys. I'm going to need one.  I'm sorry. I'll give you this one later.  BY MS. PARFITT:  Q Okay. I will represent to you that that is that is Table 2.8, which is referenced in the IARC report on page 253 and 254.  And it says: "Epidemiological studies of asbestos exposure and ovarian cancer," and then in parens, "and for comparison, lung cancer and mesothelioma."  Do you see that?  A I do.  Q All right. Look over at the first study
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	established based on five strongly positive cohort  Page 395  mortality studies of women with heavy occupational exposure to asbestos."  Do you see that?  A I do.  Q Okay. And then if you go and then it cites those studies.  Do you see that?  A I do.  Q And go down to where it starts: "The working group carefully considered the possibilities that cases of peritoneal mesothelioma may have been misdiagnosed as ovarian cancer, and that these contributed to the observed excesses."  Do you see that?  A I do.  Q Okay. Did I read that correctly?  A Yes.  Q Okay. In your report you stated that it was your belief that perhaps the results were limited by virtue of the fact that there may have	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	marked as Exhibit 28.  Page 397  (Diette Exhibit No. 28 was marked for identification.)  BY MS. PARFITT:  Q Okay. Diette Exhibit 28, if you will.  There you go.  MS. PARFITT: And, Counsel, I have a copy for you.  MS. BROWN: Thank you.  MS. PARFITT: Of course.  Sorry, guys. I'm going to need one.  I'm sorry. I'll give you this one later.  BY MS. PARFITT:  Q Okay. I will represent to you that that is that is Table 2.8, which is referenced in the IARC report on page 253 and 254.  And it says: "Epidemiological studies of asbestos exposure and ovarian cancer," and then in parens, "and for comparison, lung cancer and mesothelioma."  Do you see that?  A I do.
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	established based on five strongly positive cohort  Page 395  mortality studies of women with heavy occupational exposure to asbestos."  Do you see that?  A I do.  Q Okay. And then if you go and then it cites those studies.  Do you see that?  A I do.  Q And go down to where it starts: "The working group carefully considered the possibilities that cases of peritoneal mesothelioma may have been misdiagnosed as ovarian cancer, and that these contributed to the observed excesses."  Do you see that?  A I do.  Q Okay. Did I read that correctly?  A Yes.  Q Okay. In your report you stated that it was your belief that perhaps the results were limited by virtue of the fact that there may have been misdiagnosis between peritoneal mesothelioma	25 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	marked as Exhibit 28.  Page 397  (Diette Exhibit No. 28 was marked for identification.)  BY MS. PARFITT:  Q Okay. Diette Exhibit 28, if you will.  There you go.  MS. PARFITT: And, Counsel, I have a copy for you.  MS. BROWN: Thank you.  MS. PARFITT: Of course.  Sorry, guys. I'm going to need one.  I'm sorry. I'll give you this one later.  BY MS. PARFITT:  Q Okay. I will represent to you that that is that is Table 2.8, which is referenced in the IARC report on page 253 and 254.  And it says: "Epidemiological studies of asbestos exposure and ovarian cancer," and then in parens, "and for comparison, lung cancer and mesothelioma."  Do you see that?  A I do.  Q All right. Look over at the first study

	Page 398		Page 400
1	risk for ovarian cancer and lung cancer, for	1	BY MS. PARFITT:
2	ovarian cancer it was 2.75, and for lung cancer it	2	Q Sure.
3	was 2.41. Do you see that?	3	A In one of your questions a little while
4	A I do.	4	back, you were asking me to agree that you were
5	Q Okay. Then move down to the Wignall and	5	reading fine, and you were for the relative risks.
6	Fox study. It's a 1982 study. Do you see that?	6	Q Yeah.
7	A I don't oh, yeah, the next one down,	7	A None of these are relative risks,
8	yeah.	8	though. They're SMRs and SIRs. So just a
9	Q Okay, yeah. Do you see that the	9	slightly different
10	relative risk for ovarian cancer were 2.13, and	10	Q I appreciate that. Thank you. Thank
11	for lung cancer 2.73?	11	you for the correction. Thank you.
12	A Correct.	12	Next question. Do you intend to give an
13	Q And let's move down to Pira in 2005. Do	13	opinion that fibrous tale is a carcinogen?
14	you see where the relative risk for ovarian cancer	14	MS. BROWN: Form.
15	were 2.61 and for lung cancer 2.82?	15	THE WITNESS: I'm not sure I understand
16	A I do.	16	what fibrous tale is.
17	Q All right. And then let's move to	17	BY MS. PARFITT:
18	Magnani, a 2008 study.	18	Q Okay. Let me direct your attention
19	All right. Do you see and this is	19	to we'll go back to the IARC on ovarian
20	one of the studies that the working group of IARC	20	cancer or, excuse me, IARC on asbestos.
21	looked at. They determined that the relative risk	21	Paragraph 1.1 on page 219.
22	for not determined they indicated that the	22	Are you there?
23	relative risk for ovarian cancer on the Magnani	23	A Paragraph 1, yes.
24	study was 2.27, and for lung cancer 2.20.	24	Q Yes. Okay. Do you see where after it
25	Do you see that?	25	has IARC, '73, and USGS, 2001, it states: "The
	Page 399		Page 401
1	A I do.	1	conclusions reached in this monograph about
2	Q All right. And let's go on to the	2	asbestos and its carcinogenic risks apply to these
3	Ferrante study. Do you see that?	3	six types of fibres wherever they are found, and
4	MS. BROWN: Where where are you?	4	that includes talc containing asbestiform fibres."
5	MS. PARFITT: On the last page.	5	Do you see that?
6	BY MS. PARFITT:	6	A Yes.
7	Q Do you see that? It's on the last page,	7	Q All right. Do you intend to give an
8	Ferrante, 2007. Do you see that?	8	opinion in this case that talc containing
9	A I do.	9	asbestiform fibers can cause ovarian cancer?
10	Q Okay. And the relative risk for ovarian	10	MS. BROWN: Objection to the form.
11	cancer was 1.43, and for lung cancer it was 1.17.	11	That's different than the original question.
12	Now I'll represent to you Doctor	1 12	MS. PARFILL: IIIS.
12 13	Now, I'll represent to you, Doctor or, Dr. Diette, is it fair to say that this	12 13	MS. PARFITT: It is.  MS. BROWN: Did you mean it to be?
13	or, Dr. Diette, is it fair to say that this	13	MS. BROWN: Did you mean it to be?
13 14	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos	13 14	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new
13 14 15	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the	13 14 15	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question.
13 14 15 16	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report	13 14 15 16	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay.
13 14 15 16 17	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes	13 14 15 16 17	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay. THE WITNESS: So, because to me, the wa
13 14 15 16 17 18	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes ovarian cancer?	13 14 15 16 17 18	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay. THE WITNESS: So, because to me, the wa I have read this before and then also again now, I
13 14 15 16 17 18	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes ovarian cancer?  A I assume so, yeah.	13 14 15 16 17 18 19	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay. THE WITNESS: So, because to me, the wa I have read this before and then also again now, I think, although I can't know what they were
13 14 15 16 17 18 19 20	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes ovarian cancer?  A I assume so, yeah. Q Okay. All right. Let's talk a little	13 14 15 16 17 18 19 20	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay. THE WITNESS: So, because to me, the wa I have read this before and then also again now, I think, although I can't know what they were intending, but this to me says basically talc with
13 14 15 16 17 18 19 20 21	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes ovarian cancer?  A I assume so, yeah. Q Okay. All right. Let's talk a little bit do you intend to give an opinion in this	13 14 15 16 17 18 19 20 21	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay. THE WITNESS: So, because to me, the wa I have read this before and then also again now, I think, although I can't know what they were intending, but this to me says basically talc with asbestos in it what we would agree is talc with
13 14 15 16 17 18 19 20 21 22	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes ovarian cancer?  A I assume so, yeah. Q Okay. All right. Let's talk a little bit do you intend to give an opinion in this case that fibrous talc is a carcinogen?	13 14 15 16 17 18 19 20 21 22	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay. THE WITNESS: So, because to me, the wa I have read this before and then also again now, I think, although I can't know what they were intending, but this to me says basically talc with asbestos in it what we would agree is talc with asbestos in it, as opposed to something else.
13 14 15 16 17 18 19 20 21 22 23	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes ovarian cancer?  A I assume so, yeah. Q Okay. All right. Let's talk a little bit do you intend to give an opinion in this case that fibrous talc is a carcinogen? MS. BROWN: Objection to the form.	13 14 15 16 17 18 19 20 21 22 23	MS. BROWN: Did you mean it to be?  MS. PARFITT: No. I mean the new question.  MS. BROWN: Okay.  THE WITNESS: So, because to me, the wa I have read this before and then also again now, I think, although I can't know what they were intending, but this to me says basically talc with asbestos in it what we would agree is talc with asbestos in it, as opposed to something else.  And I don't think you need the "talc
13 14 15 16 17 18 19 20 21 22	or, Dr. Diette, is it fair to say that this Table 2.8 of epidemiological exposures, asbestos exposure and ovarian cancer formed part of the bases for IARC's decision in their IARC report that asbestos or ovarian asbestos causes ovarian cancer?  A I assume so, yeah. Q Okay. All right. Let's talk a little bit do you intend to give an opinion in this case that fibrous talc is a carcinogen?	13 14 15 16 17 18 19 20 21 22	MS. BROWN: Did you mean it to be? MS. PARFITT: No. I mean the new question. MS. BROWN: Okay. THE WITNESS: So, because to me, the wa I have read this before and then also again now, I think, although I can't know what they were intending, but this to me says basically talc with asbestos in it what we would agree is talc with asbestos in it, as opposed to something else.

	Page 402		Page 404
1	increase carcinogenic risk if there's enough of a	1	sufficient dose. It's not a measurement of dose.
2	dose.	2	It's an indicator of sufficient sufficient
3	BY MS. PARFITT:	3	exposure to be linkable to things like lung
4	Q Okay. Did you see anywhere in the IARC	4	cancer.
5	working group document that we've been talking	5	The same kind of question for being
6	about that the working group determined that there	6	around coworkers, and so a yes/no to that has been
7	was a causal association between asbestos and	7	sufficient.
8	ovarian cancer, but it depended on the dose?	8	In our other studies, we we get more
9	MR. LOCKE: Objection.	9	precise so that we'll and use a variety of
10	MS. BROWN: Objection to the form of the	10	overlapping methods. So one is to to query
11	question.	11	if it's a child study, to query the parent about
12	THE WITNESS: I don't recall.	12	the number of cigarettes that are smoked per day
13	BY MS. PARFITT:	13	in the home, and with a very elaborate procedure
14	Q Okay. You've worked an secondhand smoke	14	of asking not only the person who is answering the
15	studies, correct?	15	questionnaire but about all the other people that
16	A Yes.	16	are in and out of the house that day, so we get a
17	Q How do you determine the dose for those?	17	count of cigarettes.
18	MS. BROWN: Objection to the form.	18	We also use different types of
19	THE WITNESS: So the dose of secondhand	19	particulate matter monitors, and we've established
20	smoke?	20	that you can estimate about 1 microgram per meter
21	BY MS. PARFITT:	21	cubed of particulate matter per cigarette smoked
22	Q Mm-hmm.	22	in the home. So we've got an estimate that way.
23	A So it depends, right. So at the moment,	23	We we collect nicotine and cotinine
24	it so it depends upon which kind of study. And	24	from a variety of sources, so we've collected
25	when you say "you," do you mean you in the broad	25	hair, saliva, urine, and blood. And so depending
	Page 403		Page 405
1	sense or me, Greg Diette?	1	upon which study and which population, we can
0			
2	Q Well, Greg Diette has been doing	2	estimate something about dose based on what
3	research on secondhand smoke, and you, Greg		estimate something about dose based on what their what their sort of biomarker is.
	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to	2	estimate something about dose based on what their what their sort of biomarker is. Q All right. How much have you
3	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure	2 3	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better
3 4	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.	2 3 4	estimate something about dose based on what their what their sort of biomarker is. Q All right. How much have you
3 4 5	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different	2 3 4 5	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?
3 4 5 6	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.	2 3 4 5 6	estimate something about dose based on what their what their sort of biomarker is. Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to
3 4 5 6 7	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different	2 3 4 5 6 7	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?
3 4 5 6 7 8	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking?	2 3 4 5 6 7 8	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not
3 4 5 6 7 8 9 10	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No.	2 3 4 5 6 7 8 9 10	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.
3 4 5 6 7 8 9	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT:	2 3 4 5 6 7 8 9	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.
3 4 5 6 7 8 9 10 11 12	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you,	2 3 4 5 6 7 8 9 10 11 12 13	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated
3 4 5 6 7 8 9 10 11	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you, Dr. Diette, have done several secondhand smoke	2 3 4 5 6 7 8 9 10 11 12	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated question, I guess, because we don't at least in
3 4 5 6 7 8 9 10 11 12	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you, Dr. Diette, have done several secondhand smoke studies, correct?	2 3 4 5 6 7 8 9 10 11 12 13	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated question, I guess, because we don't at least in our studies, we don't measure like I don't know
3 4 5 6 7 8 9 10 11 12 13 14 15 16	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you, Dr. Diette, have done several secondhand smoke studies, correct? A Yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated question, I guess, because we don't at least in our studies, we don't measure like I don't know what that means, like how much they inhale. I can
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you, Dr. Diette, have done several secondhand smoke studies, correct? A Yes. Q Okay. And how do you measure the dose	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated question, I guess, because we don't at least in our studies, we don't measure like I don't know what that means, like how much they inhale. I can tell you, you know, what their absorbed dose is of
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you, Dr. Diette, have done several secondhand smoke studies, correct? A Yes. Q Okay. And how do you measure the dose in the studies that you have performed?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated question, I guess, because we don't at least in our studies, we don't measure like I don't know what that means, like how much they inhale. I can tell you, you know, what their absorbed dose is of nicotine, right, which has some implication about
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you, Dr. Diette, have done several secondhand smoke studies, correct? A Yes. Q Okay. And how do you measure the dose in the studies that you have performed? A So different ways, depending upon the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated question, I guess, because we don't at least in our studies, we don't measure like I don't know what that means, like how much they inhale. I can tell you, you know, what their absorbed dose is of nicotine, right, which has some implication about how much they might have inhaled, but I don't
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. So what I'd like to know is how you measure the dose in your secondhand smoke.  A Yeah, so a lot of different MS. BROWN: Objection. Dose is important to him as it relates to secondhand smoke, is that what the question is asking? MS. PARFITT: No. BY MS. PARFITT: Q I was just reiterating that you, Dr. Diette, have done several secondhand smoke studies, correct? A Yes. Q Okay. And how do you measure the dose in the studies that you have performed? A So different ways, depending upon the studies. So for some studies, it's simple enough	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	estimate something about dose based on what their what their sort of biomarker is.  Q All right. How much have you understanding those metrics, for lack of a better word, how much smoke does a patient need to actually inhale?  MS. BROWN: For what?  BY MS. PARFITT:  Q In order to determine whether or not they have been impacted by secondhand smoke.  MS. BROWN: Objection to the form.  THE WITNESS: That's a complicated question, I guess, because we don't at least in our studies, we don't measure like I don't know what that means, like how much they inhale. I can tell you, you know, what their absorbed dose is of nicotine, right, which has some implication about how much they might have inhaled, but I don't relate that to like sort of a volume of smokey air
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	research on secondhand smoke, and you, Greg Diette, has indicated that dose is important to you. ### Case 3:16-md-02738-MAS-RLS Document 9895-3 Filed 05/30/19 Page 476 of 565 PageID: 71720

Gregory B. Diette, M.D.

	Page 406		Page 408
1	inhaled it enough in order to get that particular	1	couple-year study and, you know, tens of thousands
2	fluid level high enough to for you to measure	2	of dollars spent doing it?
3	it. And same with saliva and same with hair.	3	MR. LOCKE: Objection.
4	BY MS. PARFITT:	4	MS. BROWN: Objection to the form.
5	Q Okay.	5	There are multiple questions in there, Counsel.
6	A I left one out too. We also measure	6	Can you rephrase?
7	airborne nicotine, and so that's another	7	BY MS. PARFITT:
8	indicator. So I was talking about cotinine that's	8	Q Do you understand the question?
9	measured in in the people, but we also have	9	A The the last part you said I'll
10	nicotine matches, and we'll measure nicotine	10	try to paraphrase it so we know we're talking
11	directly in the environment.	11	about the same thing. I have not I have not
12	Q Based upon I meant to ask this	12	done anything to inform the medical community
13	earlier. Based upon your study of ovarian cancer	13	about the findings so far from my you know,
14	and talcum powder products that you've done for	14	from my work on these cases.
15	Johnson & Johnson, have you made any of these	15	Q Do you intend to do so?
16	recommendations to Johnson & Johnson as to how	16	A I don't have any active intention to do
17	what kind of study they could perform in order to	17	it right now.
18	ascertain dose?	18	Q Okay. Do you intend to have your report
19	MS. BROWN: What?	19	peer published?
20	MR. LOCKE: Objection.	20	A It's not in the right format for that.
21	MS. BROWN: Objection to the form of the	21	Q Okay. Do you intend to do any
22	question.	22	meta-analysis of your work?
23	BY MS. PARFITT:	23	MS. BROWN: Objection to the form.
24	Q Let me ask it again.	24	THE WITNESS: Not on that not on that
25	A Oh, no, I heard it. I was just I	25	topic.
	Page 407		Page 409
1	guess the broad answer is no. I mean I haven't	1	BY MS. PARFITT:
2	made any recommendations about studies to Johnson	2	Q Okay. And if you saw with regard to
3	& Johnson for for anything.	3	Health Canada, they have given they gave
4	Q Okay. And the reason I ask is, your	4	individuals an opportunity to comment on the work
5	work appears to be reviewing and surveying the	5	that they did and present that to them.
6	literature for Johnson & Johnson in order to give	l .	
		6	You saw that, correct?
7	_	6 7	You saw that, correct?  A Yes.
	litigation opinions on whether or not talcum	7	A Yes.
7 8 9	_		
8	litigation opinions on whether or not talcum powder products can cause ovarian cancer.	7 8	<ul><li>A Yes.</li><li>Q Okay. So you had an opportunity as</li></ul>

BROWN: Objection to the form, lacks foundation.  THE WITNESS: I guess. I actually don't
8 9 10 11 12 13 14 15 16 17	litigation opinions on whether or not talcum powder products can cause ovarian cancer.  MR. LOCKE: Objection.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q Correct?  A Can you say it again?  Q Sure.  A I spaced out a little bit.  Q No, that's all right. It's getting late in the day.	7 8 9 10 11 12 13 14 15 16	A Yes. Q Okay. So you had an opportunity as someone who's reviewed the literature to write to Health Canada and inform them of your concern about the manner in which they conducted their study. Fair?  MS. BROWN: Objection to the form, lacks foundation.  THE WITNESS: I guess. I actually don't know who they're asking. Like I haven't looked to see whether they're looking for people outside of Canada.
8 9 10 11 12 13 14 15 16 17	litigation opinions on whether or not talcum powder products can cause ovarian cancer.  MR. LOCKE: Objection.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q Correct?  A Can you say it again?  Q Sure.  A I spaced out a little bit.  Q No, that's all right. It's getting late in the day.  Your work for Johnson & Johnson appears	7 8 9 10 11 12 13 14 15 16 17	A Yes. Q Okay. So you had an opportunity as someone who's reviewed the literature to write to Health Canada and inform them of your concern about the manner in which they conducted their study. Fair?  MS. BROWN: Objection to the form, lacks foundation.  THE WITNESS: I guess. I actually don't know who they're asking. Like I haven't looked to see whether they're looking for people outside of Canada.  I don't even know who they are. I mean
8 9 10 11 12 13 14 15 16 17 18 19 20	litigation opinions on whether or not talcum powder products can cause ovarian cancer.  MR. LOCKE: Objection.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q Correct?  A Can you say it again?  Q Sure.  A I spaced out a little bit.  Q No, that's all right. It's getting late in the day.  Your work for Johnson & Johnson appears to be surveying the literature, preparing	7 8 9 10 11 12 13 14 15 16 17 18 19 20	A Yes. Q Okay. So you had an opportunity as someone who's reviewed the literature to write to Health Canada and inform them of your concern about the manner in which they conducted their study. Fair?  MS. BROWN: Objection to the form, lacks foundation.  THE WITNESS: I guess. I actually don't know who they're asking. Like I haven't looked to see whether they're looking for people outside of Canada.  I don't even know who they are. I mean the only reason I've heard of Health Canada is
8 9 10 11 12 13 14 15 16 17 18 19 20 21	litigation opinions on whether or not talcum powder products can cause ovarian cancer.  MR. LOCKE: Objection.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q Correct?  A Can you say it again?  Q Sure.  A I spaced out a little bit.  Q No, that's all right. It's getting late in the day.  Your work for Johnson & Johnson appears to be surveying the literature, preparing litigation reports, and then giving testimony in a	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A Yes. Q Okay. So you had an opportunity as someone who's reviewed the literature to write to Health Canada and inform them of your concern about the manner in which they conducted their study. Fair?  MS. BROWN: Objection to the form, lacks foundation.  THE WITNESS: I guess. I actually don't know who they're asking. Like I haven't looked to see whether they're looking for people outside of Canada.  I don't even know who they are. I mean the only reason I've heard of Health Canada is because of this litigation and because something,
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	litigation opinions on whether or not talcum powder products can cause ovarian cancer.  MR. LOCKE: Objection.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q Correct?  A Can you say it again?  Q Sure.  A I spaced out a little bit.  Q No, that's all right. It's getting late in the day.  Your work for Johnson & Johnson appears to be surveying the literature, preparing litigation reports, and then giving testimony in a court that the Johnson & Johnson product is safe.	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A Yes. Q Okay. So you had an opportunity as someone who's reviewed the literature to write to Health Canada and inform them of your concern about the manner in which they conducted their study. Fair?  MS. BROWN: Objection to the form, lacks foundation.  THE WITNESS: I guess. I actually don't know who they're asking. Like I haven't looked to see whether they're looking for people outside of Canada.  I don't even know who they are. I mean the only reason I've heard of Health Canada is because of this litigation and because something, you know, opportunistic came up. But otherwise, I
8 9 10 11 12 13 14 15 16 17 18 19 20 21	litigation opinions on whether or not talcum powder products can cause ovarian cancer.  MR. LOCKE: Objection.  MS. BROWN: Objection to the form of the question.  BY MS. PARFITT:  Q Correct?  A Can you say it again?  Q Sure.  A I spaced out a little bit.  Q No, that's all right. It's getting late in the day.  Your work for Johnson & Johnson appears to be surveying the literature, preparing litigation reports, and then giving testimony in a	7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A Yes. Q Okay. So you had an opportunity as someone who's reviewed the literature to write to Health Canada and inform them of your concern about the manner in which they conducted their study. Fair?  MS. BROWN: Objection to the form, lacks foundation.  THE WITNESS: I guess. I actually don't know who they're asking. Like I haven't looked to see whether they're looking for people outside of Canada.  I don't even know who they are. I mean the only reason I've heard of Health Canada is

103 (Pages 406 to 409)

	Page 410		Page 412
1	Q Something opportunist came up. Is that	1	MS. BROWN: Objection.
2	the fact that you are being engaged in this	2	THE WITNESS: The only studies I've seen
3	litigation	3	are the ones that I think that were cited by
4	A No.	4	by IARC with if that's what we're talking
5	MS. BROWN: Objection	5	about, is like women who were about to have
6	BY MS. PARFITT:	6	surgery for some other reason and and different
7	Q as an expert witness?	7	things placed either in their uterus or vagina,
8	MS. BROWN: Objection to the form.	8	although not necessarily talc. I mean all kinds
9	THE WITNESS: Oh, no, I just see I	9	of things, you know, carbon particles,
10	think the reason that I have it in front of me is	10	radiolabeled particles, different things that
11	because it it seemed to help help	11	aren't talc.
12	plaintiffs' experts to be able to say something	12	(Counsel conferring.)
13	else about this this story. And if if it	13	BY MS. PARFITT:
14	had said something else, then I probably wouldn't	14	Q So sitting here today, is it your
15	even have heard about it.	15	testimony that you have not reviewed or seen in
16	BY MS. PARFITT:	16	the medical literature that particles of talc can
17	Q Okay. This story, Dr. Diette, is about	17	migrate to the ovaries, lymph nodes, of a woman's
18	women who are dying of ovarian cancer	18	body?
19	MS. BROWN: Careful what's the	19	MS. BROWN: Objection to the form of the
20	question?	20	question.
21	BY MS. PARFITT:	21	MR. LOCKE: Objection.
22	Q having been exposed to talcum powder	22	THE WITNESS: So so the study would
23	products.	23	be one where somebody applied talc to the perineum
24	Do you understand that?	24	and then demonstrated that it migrated from there
25	MR. LOCKE: Objection.	25	to the ovaries or into some lymph node somewhere?
1	Page 411		Page 413

	cells, like these precursor cells, and and at	1	BY MS. PARFITT:
2	least, you know, from histologic specimens, not	2	Q T-A-H-E-R.
3	seeing evidence of inflammation. And I haven't	3	A Oh.
4	really seen much that that would confirm that	4	Q 2018.
5	there's a link between chronic inflammation.	5	A Sorry, I was saying Taher.
6	BY MS. PARFITT:	6	Q No, no problem.
7	Q What I'm asking you is, based upon your	7	A But I don't now how you
8	review, Dr. Diette, have you seen anything in the	8	Q You could be right on that. Probably
9	peer-reviewed literature that there are	9	are.
10	biologically plausible mechanisms of tale's	10	A I don't know.
11	carcinogenicity demonstrated by chronic	11	I did.
12	inflammation from migration of the talc to the	12	Q Do you see where Taher authors found
13	ovaries?	13	that there was biologically plausible evidence of
14	MS. BROWN: Objection. I don't	14	inflammation from talc exposure?
15	understand that question.	15	MS. BROWN: Objection. Counsel, can we
16	MR. LOCKE: Objection.	16	see the article if you want to ask him about it?
17	THE WITNESS: Would you	17	MR. LOCKE: Objection.
18	BY MS. PARFITT:	18	BY MS. PARFITT:
19	Q The question let me rephrase it.	19	Q You've read the article. Do you know
20	A Okay.	20	the answer to that?
21	Q Is there are there studies in the	21	MS. BROWN: But it's not a memory test.
22	peer-reviewed literature that support an	22	MS. PARFITT: No, it's not, but perhaps
23	association of inflammation and increased risk of	23	he can answer. I didn't ask you the question.
24	ovarian cancer?	24	BY MS. PARFITT:
25	MS. BROWN: Objection to the form, asked	25	Q Do you know the answer to that?
	Page 423		Page 425
1	and answered.	1	A Well, the paper wasn't about that, so I
2	BY MS. PARFITT:	2	don't I don't remember whether there was sort
3	Q Is there something in the literature?	3	of a preamble thing, but they they weren't
4	MS. BROWN: Objection.	4	really analyzing that. They were doing a
5	BY MS. PARFITT:	5	meta-analysis, you know, sort of combining the epi
6	Q Not whether there is a lot or a little.	6	studies. So, I mean, I don't remember what their
7	Is there anything in the peer-reviewed literature	7	statement was, but when you
8	that you've seen that supports an association	8	Q All right. Did you
9	between inflammation and an increased risk of	9	A I'm sorry, I just want to say, but if
10	ovarian cancer?	10	you say that they found it, by finding it, I don't
11	MS. BROWN: Objection to the form.	11	think they demonstrated it or it was a finding
12	THE WITNESS: I've seen the paper where	12	from their study per se.
13	C-reactive protein in the serum popped out of	13	Q Okay. Have you read Langseth, 2008?
14	dozens of different markers of inflammation and	14	A Langseth, 2008?
15	predated the diagnosis of ovarian cancer.	15	Q Correct.
16	I guess I haven't really seen something	16	A Is that a meta-analysis?
17	that shows that chronic inflammation in the	17	Q Correct.
18	ovaries is is a precursor to ovarian cancer or	18	A Yes.
19	that talc induces that particular chronic	19	Q All right. And do you see where the
20	inflammation that would in turn lead to cancer.	20	Langseth authors also found migration and and
1 0-	BY MS. PARFITT:	21	concluded that there was chronic inflammation that
21	Q Have you read Taher? You've read the	22	was biologically plausible?
21 22			
	Taher study, correct?	23	MS. BROWN: No, I I object. If
22		23 24	MS. BROWN: No, I I object. If you're going to quote articles

	Page 426		Page 428
1	Q Do you remember?	1	He doesn't have the article.
2	MS. BROWN: I would request the	2	MS. PARFITT: That's fine.
3	article.	3	MS. BROWN: And he's never read it.
4	MS. PARFITT: I can do that.	4	BY MS. PARFITT:
5	BY MS. PARFITT:	5	Q Look at the abstract, first sentence.
6	Q Do you know, Doctor?	6	It says: "Perineal talc use is associated with
7	A I don't remember what they said.	7	ovarian carcinoma in many case-control studies.
8	(Counsel conferring.)	8	Such talc may migrate to pelvic organs and
9	MS. PARFITT: Doctor, if we can take a	9	regional lymph nodes, with both clinical and legal
10	quick break here	10	significance."
11	THE WITNESS: Sure.	11	Did I read that correctly?
12	MS. PARFITT: right now, so maybe I	12	A Yes.
13	can	13	Q All right. Would it be I believe you
14	THE WITNESS: Yeah, it's a good time.	14	had some concerns about the Heller study that we
15	MS. PARFITT: shorten things.	15	talked about earlier because it involved some
16	THE VIDEOGRAPHER: The time is 4:59 p.m.	16	unexposed what you testified were unexposed
17	We're going off the record.	17	women.
18	(Recess.)	18	MS. BROWN: Objection to the form.
19	THE VIDEOGRAPHER: The time is 5:12 p.m.	19	THE WITNESS: Correct, women who
20	and we're back on the record.	20	reported not being perineal talc users.
21	MS. PARFITT: I apologize.	21	BY MS. PARFITT:
22	BY MS. PARFITT:	22	Q Right. Okay. You understand in this
23	Q Dr. Diette, and I apologize, I have only	23	study that what Drs. McDonald and Godleski were
24	one copy that isn't marked up, so we're going to	24	doing were looking at particles in exposed women.
25	have to put this and substitute it on the on	25	MS. BROWN: No, he doesn't understand
	Page 427		Page 429
1	the ELMO, if I may. We've done pretty good with	1	that because he doesn't have the study and he
2	copies all day today.	2	hasn't read it. I object. It's not fair.
3	So here we go.	3	THE WITNESS: I honestly have no idea
4	MR. ROSEN: This will be Exhibit 31.	4	what they've done.
5	(Diette Exhibit No. 31 was marked	1 -	
6	£: .1	5	BY MS. PARFITT:
	for identification.)	6	Q Okay. Well, do you dispute that talc

1	MS. BROWN: Of course.	1	You had testified earlier that you
2	BY MS. PARFITT:	2	disagree with Health Canada when they state that
3	Q If it's from the vaginal area to the	3	talc can migrate to the ovaries; is that correct?
4	ovaries and the lymph nodes, does that make a	4	MR. LOCKE: Objection.
5	difference whether	5	MS. BROWN: Objection. Misstates prior
6	MR. LOCKE: Objection.	6	testimony. I don't even think he said that.
7	MS. BROWN: Objection to the form, lacks	7	BY MS. PARFITT:
8	foundation, calls for speculation about a document	8	Q Well, let me ask you. In the Health
9	he told you he's never read.	9	Canada report, they discuss the fact that it is
10	MR. LOCKE: Does the witness have a	10	biologically plausible for talc to migrate to the
11	copy?	11	ovaries and then cause an inflammatory process.
12	MS. BROWN: No. That's the objection.	12	Do you agree or disagree with that?
13	MS. PARFITT: Tom, we didn't we only	13	MR. LOCKE: Objection.
14	have one copy of it.	14	MS. BROWN: Objection. Lacks
15	MR. LOCKE: I think you need to disclose	15	foundation. Do you want to show him where they
16	to the witness that three of these authors are	16	said that?
17	paid experts, et cetera	17	THE WITNESS: I don't remember their
18	MS. PARFITT: Tom, Tom, Tom, Tom.	18	statement about that.
19	MR. LOCKE: Come on.	19	BY MS. PARFITT:
20	MS. BROWN: No, but to be fair, you	20	Q You don't. Okay.
21	guys, if you want to ask him questions, he's got	21	How about this statement. Go down to
22	to look at it. I'm going to take it off the ELMO	22	I believe it's one, two, three the third
23	and give it to him if you're going to continue	23	paragraph. Do you see that? It starts with
24	asking him questions.	24	"While."
25	BY MS. PARFITT:	25	A No.
	Page 431		Page 433
1	Q I'm not going to ask him any more	1	Q No?
2	questions on it, Doctor.	2	A Oh, I'm on a different page.
3	A Okay. Thank you.	3	Q I'm sorry. Page 5. Page 5.
4	Q All right. Let me show you	4	A Okay.
5	MR. LOCKE: Come on. Give him if	5	Q Okay. "While there exists no direct
6	you're going to give him if you're going to ask	6	proof of talc and ovarian carcinogenesis, the
7	him about it	7	potential for particles to migrate from the
8	MR. TISI: You're not even on record.	8	perineum into the vagina to the peritoneal cavity
9	MS. PARFITT: Tom, it was just	9	is indisputable."
10	MS. BROWN: Hey, hey, hey, guys. It's	10	Do you see that?
11	the end of the day.	11	A I do.
12	MS. PARFITT: Okay. Let's don't	12	Q Okay. Do you agree with the FDA?
13	MS. BROWN: Let's get through this.	13	MS. BROWN: Objection to the form.
14	(Diette Exhibit No. 32 was marked	14	THE WITNESS: So there's no citation for
15	for identification.)	15	that. I don't know how they get I mean I don't
16	BY MS. PARFITT:	16	know why they make that statement, and I it
17	Q 32. Let me show you what's been marked	17	certainly doesn't seem to be indisputable, because
18	as Plaintiffs' Exhibit 32.	18	there several of the articles that we've looked
	I need a copy. There you go. Sorry.	19	at today and others say it's not clear what the
19			mechanism is or the biologic plausibility. So
19 20	A Thank you.	20	
19 20 21	<ul><li>A Thank you.</li><li>Q Okay. You previously testified that you</li></ul>	21	it's it's obviously disputable, at the very
19 20 21 22	A Thank you.  Q Okay. You previously testified that you take a look at it. You read this before, the	21 22	it's it's obviously disputable, at the very least, but there's no citation, so it's hard to
19 20 21 22 23	A Thank you. Q Okay. You previously testified that you take a look at it. You read this before, the FDA letter 2014?	21 22 23	it's it's obviously disputable, at the very least, but there's no citation, so it's hard to know how to how to process this.
19 20 21 22	A Thank you.  Q Okay. You previously testified that you take a look at it. You read this before, the	21 22	it's it's obviously disputable, at the very least, but there's no citation, so it's hard to

	Page 434		Page 436
1	regard to whether or not talc can migrate, do you	1	think my answer was along the lines of I haven't
2	dispute that?	2	seen a study that shows that that's true.
3	MS. BROWN: Objection. Misstates the	3	BY MS. PARFITT:
4	document.	4	Q We talked about Schildkraut. We talked
5	THE WITNESS: I don't I don't dispute	5	about Schildkraut, didn't we?
6	that they said it obviously, because it's right	6	A Yeah, they didn't show that either,
7	here, but there's just no citation for it, and	7	though.
8	there's no information that tells who in	8	Q When you say they didn't show it, have
9	particular thinks that.	9	they opined in medical or let me ask you this
10	BY MS. PARFITT:	10	question. I see the disconnect.
11	Q Well, the Food and Drug Administration	11	Is there evidence contained in
12	is our regulatory body here in the United States,	12	peer-reviewed scientific articles wherein it is
13	correct?	13	stated that talcum powder products can migrate to
14	A It is one.	14	the ovaries?
15	MR. LOCKE: Objection.	15	MS. BROWN: Objection.
16	BY MS. PARFITT:	16	MR. LOCKE: Objection.
17	Q All right. Would you agree that	17	MS. BROWN: Misstates everything we've
18	dissemination of information that is accurate and	18	looked at and his testimony.
19	truthful is is something that they would	19	THE WITNESS: I think there's been
20	probably take quite seriously? Would you agree?	20	opinions of different people in different articles
21	MS. BROWN: Objection.	21	that are both supportive and not supportive of
22	THE WITNESS: I I hope so.	22	that statement.
23	BY MS. PARFITT:	23	BY MS. PARFITT:
24	Q Right. And would you agree that the FDA	24	Q All right. So you've seen scientific
25	would not be disseminating information about the	25	
25	would not be disseminating information about the	⊿5	writers who have said talc can migrate to the
	would not be disseminating information about the	25

Let me show you  (Diette Exhibit No. 33 was marked for identification.)  MR. ROSEN: Exhibit 33.  MS. PARFITT: Beg your pardon? 33?

	Page 438		Page 440
1	Q So I'm going to share this with you,	1	Take a moment and take a look at that, to eyeball
2	and actually, if we could put it on the ELMO,	2	that.
3	and then I will give it to you so I can at least	3	MS. BROWN: Take as long as you need to
4	identify it for counsel.	4	inform your response
5	Is that fair?	5	MS. PARFITT: It's a one-page document.
6	A Yeah. We will see how it goes.	6	MR. LOCKE: No. This this is a
7	Q All right. Let me show you it is	7	document that he hasn't seen before.
8	marked September 30th, 2004, and I will represent	8	MS. PARFITT: That's correct.
9	that it is to Bill Ashton from Richard Zazenski,	9	MR. LOCKE: Why don't we go off the
10	and it's a Luzenac document.	10	record.
11	MS. BROWN: What? I'm going to object	11	MS. PARFITT: It's one page, Doctor.
12	on form and foundation.	12	MS. BROWN: Right, and that's just fair.
13	BY MS. PARFITT:	13	MS. MILLER: If you're going to ask him
14	Q Okay. Can you see that, Doctor? I	14	questions about what you just threw out there
15	don't want to strain your eyes too much.	15	MS. BROWN: That's fine. That's fine,
16	MS. BROWN: No, we need to give him	16	but you understand there's no foundation. He's
17	he's never seen it. He hasn't reviewed it. His	17	never relied it.
18	opinions are not based on it. If you want to ask	18	MS. PARFITT: Okay, guys
19	him questions about it, he needs to hold it and	19	MS. BROWN: So if we want to ask
20	look at it.	20	questions
21	BY MS. PARFITT:	21	THE REPORTER: Excuse me.
22	Q I'm going to give it to you. I'm going	22	MS. PARFITT: I'm not having him
23	to let you hold it in one moment.	23	whoa, whoa.
24	Dr. Diette, this is a document I will	24	(A discussion was held off the record.)
25	represent that's dated September 30, 2004, and	25	BY MS. PARFITT:
	Page 439		Page 441
1	that would have preceded any litigation.	1	Q Dr. Diette, I'm simply referring to the
2	And it states: "Bill, I came across	2	cover letter.
3	this paper this morning published in the April	3	A Oh.
4	2004 journal Human Reproduction, an official	1 4	
	200 i Journal Haman Reproduction, un official	4	Q And that's all, just one page. Do you

And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004,
6 7 8 9 10 11	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a	5 6 7 8 9 10	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to
6 7 8 9 10 11 12	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a	5 6 7 8 9 10 11 12	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it
6 7 8 9 10 11 12	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."	5 6 7 8 9 10 11 12 13	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.
6 7 8 9 10 11 12 13 14	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?	5 6 7 8 9 10 11 12 13 14	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's
6 7 8 9 10 11 12 13 14	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.	5 6 7 8 9 10 11 12 13 14 15	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature
6 7 8 9 10 11 12 13 14 15	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.  Q So let me because counsel wants you	5 6 7 8 9 10 11 12 13 14 15	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature compelling evidence in support of a migration
6 7 8 9 10 11 12 13 14 15 16	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.  Q So let me because counsel wants you to hold it, let me have you take	5 6 7 8 9 10 11 12 13 14 15 16 17	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature compelling evidence in support of a migration hypothesis
6 7 8 9 10 11 12 13 14 15 16 17	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.  Q So let me because counsel wants you to hold it, let me have you take MS. BROWN: Well, only if you're going	5 6 7 8 9 10 11 12 13 14 15 16 17	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature compelling evidence in support of a migration hypothesis  MS. BROWN: Object.
6 7 8 9 10 11 12 13 14 15 16 17 18	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.  Q So let me because counsel wants you to hold it, let me have you take  MS. BROWN: Well, only if you're going to ask him questions about it.	5 6 7 8 9 10 11 12 13 14 15 16 17 18	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature compelling evidence in support of a migration hypothesis  MS. BROWN: Object. BY MS. PARFITT:
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.  Q So let me because counsel wants you to hold it, let me have you take  MS. BROWN: Well, only if you're going to ask him questions about it.  MS. PARFITT: I am. I am. But I can't	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature compelling evidence in support of a migration hypothesis  MS. BROWN: Object.  BY MS. PARFITT: Q that was shared between the two companies.
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.  Q So let me because counsel wants you to hold it, let me have you take  MS. BROWN: Well, only if you're going to ask him questions about it.  MS. PARFITT: I am. I am. But I can't do both. BY MS. PARFITT:	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature compelling evidence in support of a migration hypothesis  MS. BROWN: Object.  BY MS. PARFITT: Q that was shared between the two companies. Did J&J ever share with you this
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	journal of the European Society for Human Reproduction and Embryology. It offers some compelling evidence in support of the migration hypothesis. Combine this evidence with the theory that the talc deposition on the ovarian epithelium initiates epithelium inflammation, which leads to epithelium carcinogenesis, and you have a potential formula for NTP classifying talc as a causative agent in ovarian cancer."  Now, did I read that correctly?  A Yes.  Q So let me because counsel wants you to hold it, let me have you take  MS. BROWN: Well, only if you're going to ask him questions about it.  MS. PARFITT: I am. I am. But I can't do both.	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	see that?  A I do. Q Okay. And that's what I just read into the record. Do you see that? A I do. Q Okay. And do you see back in 2004, there was information with regard and I have to see it, I can't be sorry. I can't memorize it either.  So you see back in 2004, the company's being advised that there is indeed literature compelling evidence in support of a migration hypothesis  MS. BROWN: Object.  BY MS. PARFITT: Q that was shared between the two companies.

1	one does not need to prove mechanism in order to	1	exposure can lead to the outcome that you're
2	find causality, correct?	2	interested in.
3	A I need to prove	3	BY MS. PARFITT:
4	MR. LOCKE: Objection.	4	Q Okay. Doctor, from your review of the
5	MS. BROWN: Objection to form.	5	peer-reviewed scientific literature, have you read
6	THE WITNESS: Sorry. Wow, sorry.	6	where study authors who have actually looked at
7	BY MS. PARFITT:	7	the issue of migration and other biological
8	Q We had a chorus.	8	plausible methods by which talc can get to the
9	A Yeah.	9	ovary?
10	No, you don't need to prove it, but	10	A I guess
11	it's	11	MS. BROWN: I object. I don't
12	Q You don't need to prove mechanism.	12	understand.
13	A You don't need to prove mechanism in	13	THE WITNESS: I mean I've looked at both
14	order to establish causation, but it's hard to get	14	the human and the animal studies that I could find
15	there for a low observed risk if you don't have	15	cited on the topic. And and you said that
16	biological plausibility.	16	talc talc can get to the ovary?
17	Q I'll take that back yes, I'm sorry.	17	BY MS. PARFITT:
18	I hope I didn't ask you this before, but	18	O Mm-hmm.
19	is biological plausibility the same as proof of	19	A Because, you know, some are not talc,
20	mechanism?	20	right. There there are other kinds of
21	MR. LOCKE: Objection.	21	particles or substances. And so I've looked at
22	MS. BROWN: Objection to the form of the	22	both the animal and the human studies that I could
23	question.	23	find.
24	THE WITNESS: Proof of I don't know	24	Q And in those studies that you have
25	if I would use the so "proof of mechanism"	25	reviewed, have you seen where those authors who
	Page 447		Page 449

MR. LOCKE: Objection.  MS. BROWN: No, objection. He's

114 (Pages 450 to 453)

	Page 454		Page 456
1	seen it, you've seen it. If you dispute it, you	1	probably means one thing in the world in general.
2	dispute it.	2	I think if you're talking about Rothman, yeah,
3	A Well, it's it's none of those.	3	Rothman has written about that
4	But you just said reports. Does that	4	BY MS. PARFITT:
5	are we now talking about expert reports or are	5	Q Right.
6	Q No.	6	A and about it being simply a
7	A we still talking about	7	competition of sort of counting those that are
8	Q No, we're still talking	8	significant and those that are not.
9	A Okay. We're talking about like	9	I didn't see that. I think the way I
10	peer-reviewed publications?	10	described it I think was was the way I
11	Q That's right.	11	approached it, which said some of the information
12	A So I've seen a mixture, yeah. It's like	12	that's available is that some of the studies were
13	when you look at the epi literature, I mean the	13	statistically significant and some weren't. It's
14	the way I read it is like is, you know, an	14	informative, but it's not literally the same as
15	epidemiologist is supposed to be able to get up to	15	saying, I'm just going to count them up and stop
16	speed without becoming an expert in absolutely	16	there.
17	everything, right?	17	Q Because that would be improper, correct?
18	So I already told you I'm not a cancer	18	MS. BROWN: Objection.
19	biologist, but I do count on the authors to set	19	THE WITNESS: To only do that, yes.
20	the stage with the introduction and then interpret	20	BY MS. PARFITT:
21	their findings and the discussion and sort of take	21	Q Okay. All right. Let me ask a couple
22	us at least partway towards there.	22	of question questions.
23	So even the recent meta-analysis, if you	23	What is the minimal level of exposure to
24	look at Berge or Burge (phonetic), however you say	24	cigarette smoke in terms of cigarette smoke at
25	that, and Penninkilampi, you know, they talk about	25	home that's necessary to cause lung cancer?
	Page 455		Page 457
1	there there being uncertainty about the	1	MS. BROWN: Form.
2	mechanism. So I'm just saying even as recently as	1 1	THE WITNESS: I do not know.
3		2	
	the the very latest meta-analysis, there's	3	BY MS. PARFITT:
4	uncertainty expressed.	3 4	BY MS. PARFITT:  Q Okay. What is the minimal level of
	uncertainty expressed.  Q Do you see uncertainty being expressed	3 4 5	BY MS. PARFITT:  Q Okay. What is the minimal level of exposure to asbestos fibers inhaled that is
4 5 6	uncertainty expressed.  Q Do you see uncertainty being expressed by biologically plausible mechanisms?	3 4 5 6	BY MS. PARFITT:  Q Okay. What is the minimal level of exposure to asbestos fibers inhaled that is sufficient to cause ovarian cancer?
4 5 6 7	uncertainty expressed.  Q Do you see uncertainty being expressed by biologically plausible mechanisms?  MS. BROWN: Objection.	3 4 5	BY MS. PARFITT:  Q Okay. What is the minimal level of exposure to asbestos fibers inhaled that is

And then, you know, when we looked at the IARC, I didn't even when you and I looked at it together, I didn't see information that talked about what dose would be required. BY MS. PARFITT:  Q Okay. Same question. What's the minimal level of exposure to asbestos fibers inhaled that is sufficient to cause mesothelioma?

### Case 3:16-md-02738-MAS-RLS Document 9895-3 Filed 05/30/19 Page 489 of 565 PageID: 71733

	Page 458		Page 460
1	or	1	Q Okay. You criticize the plaintiffs'
2	BY MS. PARFITT:	2	experts for what you called a muted examination of
3	Q Pleural.	3	the case-control studies that they reviewed.
4	A So the so the amount for pleural	4	Do you remember saying that in your
5	mesothelioma is and did you say fiber type or	5	report?
6	you didn't mention fiber type?	6	A I don't remember that word, but it's
7	Q I didn't. I just said fibers.	7	it makes a lot of sense to me.
8	A Okay. So it would matter fiber type.	8	Q Okay. Where in your port report did
9	If it's chrysotile predominant, then above 200 to	9	you set forth all of the limitations and
10	400 fiber/cc years would be, you know, one	10	weaknesses of the cohort studies of talcum
11	estimate of the dose. If it's crocidolite, you	11	talcum powder products and asbestos and ovarian
12	know, you could divide that by 500. And if it's	12	cancer?
13	amosite, by a hundred, and other amphiboles, you	13	A Well, there's a bunch, right. So
14	know, somewhere in between those sort of ranges.	14	Q Well, where did you
15	And so, you know, I think for	15	A I'm telling you.
16	amphiboles, above like the single digit fiber/cc	16	Q provide us in your report that
17	years, and for chrysotile, above the couple of	17	information
18	like 200 to 400 fiber/cc years.	18	A I'm telling you.
19	Q Is it true that the dose-response curve	19	MS. BROWN: Let him finish
20	for any genotoxic carcinogen intersects with zero?	20	THE WITNESS: I understand your
21	MS. BROWN: Objection to the form.	21	question.
22	THE WITNESS: Well, there's got to be a	22	MS. BROWN: and answer your question.
23	zero point if there's zero exposure, right? If	23	THE WITNESS: So one of the criticisms,
24	there's literally zero exposure, then there can't	24	which I think is pretty profound, which is the
25	be there can't be a signal from that zero.	25	lack of a validated measure of talcum powder
	Page 459		Page 461
1	BY MS. PARFITT:	1	exposure that could have someone estimate whether
2	Q What does the what does it mean if a	2	or not somebody is exposed at all or whether or
3	dose-response curve intersects zero?	3	not there's a dose-response, and that applies to
4	MS. BROWN: Form.	4	all the studies, right. So that's uniformly
5	BY MS. PARFITT:	5	applied to whether they're case-control studies
6	Q What does that mean?	6	or or cohort studies.
7	A It's not a term that's familiar. I	7	BY MS. PARFITT:
8	mean, it's just I'm not sure if you've got	8	Q That would be the exposure
9	zero exposure, you can't have any outcome from	9	misclassification.
10	that. So I I assume that's what we're talking	10	MS. BROWN: Objection.
11	about is just like a like a no exposure	11	THE WITNESS: No, no, no. So it would
12	estimate.	12	be you could misclassify it, but it but what
13	If you're talking about like the	13	I'm talking about is, that in order to measure an
14	place I've seen people talk about it is like with	14	exposure, you need a valid measure of that
15	low doses of things and what happens, you know,	15	exposure. That doesn't exist, or at least if it
16	below the concentration or the level at which	16	exists, it hasn't been employed in the in the
17	there's known effects, then what happens between	17	published literature. And that applies to the
18	there and zero. But if it's literally zero if	18	cohort studies and the case controls.
19	there's literally zero exposure, it's got to be	19	What I what I did was I tried to
20	zero outcome.	20	actually not denigrate any of the study designs.
21	(Counsel conferring.	21	I thought that was appalling. You know, when you
21	DVAC DADRICE	22	talk about where this came from, you know, to sort
22	BY MS. PARFITT:		7.5
	Q Okay. You reviewed the cohort studies	23	of single out the cohort studies repeatedly by
22	Q Okay. You reviewed the cohort studies in this case, correct?		
22 23	Q Okay. You reviewed the cohort studies	23	of single out the cohort studies repeatedly by

	Page 462		Page 464
1	terrible for whatever reason, it's extraordinary,	1	Q Okay. So you would agree with me there
2	and it's to me it's unprecedented for for	2	are studies in the peer-reviewed literature that
3	epidemiologists or other healthcare professionals	3	have demonstrated a dose-response between talcum
4	to sort of look at cohort studies and find that	4	powder products and ovarian cancer?
5	those are so awful, and that case-control studies	5	MS. BROWN: Objection
6	are suddenly so sturdy. It doesn't make any	6	MR. LOCKE: Objection.
7	sense.	7	MS. BROWN: to the form.
8	So so for me, like the task wasn't	8	MS. PARFITT: Let him answer, please.
9	really so much I wasn't trying to criticize	9	MS. BROWN: I get to object.
10	either form of the study, but just to point out	10	THE WITNESS: I think just a couple.
11	realistically that there are biases, that there	11	MS. PARFITT: Let's go off the record.
12	are confounding issues, and and things of	12	THE VIDEOGRAPHER: The time is 5:53 p.m.
13	that that sort.	13	We're going off the record.
14	BY MS. PARFITT:	14	(Recess.)
15	Q In your review of the literature for	15	THE VIDEOGRAPHER: The time is 5:58 p.m.
16	purposes of your opinions today, did you see	16	We're back on the record.
17	evidence from any of the studies that you read	17	MR. HEASLIP: Can we go off for one
18	that there was a dose-response associated between	18	moment? I apologize.
19	talcum powder products and ovarian cancer?	19	THE VIDEOGRAPHER: The time is 5:58 p.m.
20	A So in total, no. In a couple of	20	We're going back off the record.
21	studies, there are purported dose-response	21	(A discussion was held off the record.)
22	findings, right. So the latest Cramer study is an	22	THE VIDEOGRAPHER: The time is 5:59 p.m.
23	example. There may have been another, but there	23	We're back on the record.
24	are so many studies that show absolutely the	24	CROSS-EXAMINATION
25	opposite, meaning either flat dose-response,	25	BY MR. FINCH:
	Page 463		Page 465
1	upside down dose-response, zig-zaggy, haphazard	1	Q Good afternoon, Dr. Diette. My name is
2	dose-response. So I would say looking at the	2	Nate Finch. You and I have met before, correct?
3	evidence in total, it's a mess. I mean it's	3	A Yes.
4	certainly not supportive.	4	Q You were asked a question about the
5	And I'll you the truth, if you go back	5	dose-response curve to genotoxic carcinogens. Do
6	to like to 2000 and I know we're in a hurry,	6	you recall that question?
7	so I will try to talk a little faster but the	7	A I do.
8	Rothman the Rothman review, at least up until	8	Q And your answer was something to the
9	2000, they they plotted out all the	9	effect of if the dose was zero, then it would be
10	dose-response they found, and they found an	10	an intersection of zero.
11	inverse relationship overall, which is one of the	11	D 11.1
			Do you recall that answer?
12	things they found to be inconsistent with there	12	A Something like that.
12 13	things they found to be inconsistent with there being causation.		
	things they found to be inconsistent with there	12	A Something like that.
13	things they found to be inconsistent with there being causation.  So I think, you know, from 1982, when the first case-control study was published, to	12 13	<ul><li>A Something like that.</li><li>Q All right. I want you to assume that</li></ul>
13 14	things they found to be inconsistent with there being causation. I want you to assume that we're talking about a dose-response curve where there is a positive dose, not a dose of zero. Your typical dose-response curve looks something like this (indicating), right, with dose on the X-axis and response on the Y-axis?  A You can draw it that way.  MS. MILLER: Is that a exhibit?  MR. FINCH: You can mark it as an exhibit. It's got somebody's notes on the back of

117 (Pages 462 to 465)

	Page 466		Page 468
1	genotoxic carcinogen where there is a positive	1	about the sort of mechanical process of writing
2	dose, the dose-response curve always intersects	2	your report. Do you remember that?
3	with zero?	3	A I do.
4	MS. BROWN: Objection to form.	4	Q And to be clear, Doctor, did you write
5	THE WITNESS: That's not something that	5	every substantive word of the expert report that
6	I say. I mean I don't people may say that, but	6	we've marked as an exhibit in this case?
7	I I think when we're talking about like zero	7	A To the yes, everything substantive.
8	is zero, right. So zero exposure means zero risk.	8	Q Did MSA or Medical Science Affiliates
9	BY MR. FINCH:	9	make any substantive contributions to your expert
10	Q I'm not I'm not talking about zero.	10	report in this proceeding?
11	MS. BROWN: Wait, let him finish,	11	A No.
12		12	Q You spoke a little bit earlier today
13	please.	13	about some administrative support that you
14	THE WITNESS: Well, I know. That's what	14	received from MSA. Do you remember that?
15	I'm talking about when I when I hear that	15	A I do.
	question.	16	Q And tell us what you meant by
16	BY MR. FINCH:	17	"administrative support."
17	Q All right. So if someone were to	18	A So by "administrative support," I meant,
18	testify when you're talking about a genotoxic		
19	carcinogen where there is a positive exposure,	19	you know, gathering like collating materials
20	there the dose-response curve intersects with	20	for me, helping to to format the report, you
21	zero, meaning that there isn't it true that	21	know, putting you know, putting the reference
22	that means that there at any level of exposure,	22	citations in correctly. You know, creating the
23	there's an excess risk of cancer for a genotoxic	23	the list of reliance documents at the end. You
24	carcinogen?	24	know, things of that sort. And then and then
25	MS. BROWN: Objection to the form.	25	generating invoices.
	Page 467		Page 469
1	THE WITNESS: So I don't know. That may	1	I'm trying to think what else.
2	be part of some field that's not my field. But I	2	Whatever whatever I said earlier was the was
3	but in the fields that I work in, I recognize	3	the full list, I think.
4	that you need a certain amount of exposure in	4	Q You also mentioned earlier today
5	order to cause a disease, including cancer.	5	receiving some editorial support from the folks at
6	BY MR. FINCH:	6	MSA. Tell us what you meant by that.
7	Q Okay. But you cannot dispute that	7	A So to look for typos or I gave the
8	genotoxic carcinogens, the dose-response curve	8	example of like where I had a really long
9	intersects with zero. You haven't studied that	9	paragraph, and they broke it up with bullets to
10	issue; is that correct?	10	make it look more readable, that sort of thing,
11	MR. LOCKE: Objection.	11	and and instruction this actually bear the
	Witt. EOCKE. Objection.		and and just making this actually have the

#### **EDITORIAL**

# The ASA's Statement on p-Values: Context, Process, and Purpose

In February 2014, George Cobb, Professor Emeritus of Mathematics and Statistics at Mount Holyoke College, posed these questions to an ASA discussion forum:

- Q: Why do so many colleges and grad schools teach p = 0.05?
- A: Because that's still what the scientific community and journal editors use.
- Q: Why do so many people still use p = 0.05?
- A: Because that's what they were taught in college or grad school.

Cobb's concern was a long-worrisome circularity in the sociology of science based on the use of bright lines such as p < 0.05: "We teach it because it's what we do; we do it because it's what we teach." This concern was brought to the attention of the ASA Board.

The ASA Board was also stimulated by highly visible discussions over the last few years. For example, ScienceNews (Siegfried 2010) wrote: "It's science's dirtiest secret: The 'scientific method' of testing hypotheses by statistical analysis stands on a flimsy foundation." A November 2013, article in Phys.org Science News Wire (2013) cited "numerous deep flaws" in null hypothesis significance testing. A ScienceNews article (Siegfried 2014) on February 7, 2014, said "statistical techniques for testing hypotheses ... have more flaws than Facebook's privacy policies." A week later, statistician and "Simply Statistics" blogger Jeff Leek responded. "The problem is not that people use P-values poorly," Leek wrote, "it is that the vast majority of data analysis is not performed by people properly trained to perform data analysis" (Leek 2014). That same week, statistician and science writer Regina Nuzzo published an article in Nature entitled "Scientific Method: Statistical Errors" (Nuzzo 2014). That article is now one of the most highly viewed Nature articles, as reported by altmetric.com (http://www.altmetric.com/details/2115792#score).

Of course, it was not simply a matter of responding to some articles in print. The statistical community has been deeply concerned about issues of *reproducibility* and *replicability* of scientific conclusions. Without getting into definitions and distinctions of these terms, we observe that much confusion and even doubt about the validity of science is arising. Such doubt can lead to radical choices, such as the one taken by the editors of *Basic and Applied Social Psychology*, who decided to ban *p*-values (null hypothesis significance testing) (Trafimow and Marks 2015). Misunderstanding or misuse of statistical inference is only one cause of the "reproducibility crisis" (Peng 2015), but to our community, it is an important one.

When the ASA Board decided to take up the challenge of developing a policy statement on *p*-values and statistical significance, it did so recognizing this was not a lightly taken step. The ASA has not previously taken positions on specific matters of statistical practice. The closest the association has come to this is a statement on the use of value-added models (VAM) for educational assessment (Morganstein and Wasserstein

2014) and a statement on risk-limiting post-election audits (American Statistical Association 2010). However, these were truly policy-related statements. The VAM statement addressed a key educational policy issue, acknowledging the complexity of the issues involved, citing limitations of VAMs as effective performance models, and urging that they be developed and interpreted with the involvement of statisticians. The statement on election auditing was also in response to a major but specific policy issue (close elections in 2008), and said that statistically based election audits should become a routine part of election processes.

By contrast, the Board envisioned that the ASA statement on *p*-values and statistical significance would shed light on an aspect of our field that is too often misunderstood and misused in the broader research community, and, in the process, provides the community a service. The intended audience would be researchers, practitioners, and science writers who are not primarily statisticians. Thus, this statement would be quite different from anything previously attempted.

The Board tasked Wasserstein with assembling a group of experts representing a wide variety of points of view. On behalf of the Board, he reached out to more than two dozen such people, all of whom said they would be happy to be involved. Several expressed doubt about whether agreement could be reached, but those who did said, in effect, that if there was going to be a discussion, they wanted to be involved.

Over the course of many months, group members discussed what format the statement should take, tried to more concretely visualize the audience for the statement, and began to find points of agreement. That turned out to be relatively easy to do, but it was just as easy to find points of intense disagreement.

The time came for the group to sit down together to hash out these points, and so in October 2015, 20 members of the group met at the ASA Office in Alexandria, Virginia. The 2-day meeting was facilitated by Regina Nuzzo, and by the end of the meeting, a good set of points around which the statement could be built was developed.

The next 3 months saw multiple drafts of the statement, reviewed by group members, by Board members (in a lengthy discussion at the November 2015 ASA Board meeting), and by members of the target audience. Finally, on January 29, 2016, the Executive Committee of the ASA approved the statement.

The statement development process was lengthier and more controversial than anticipated. For example, there was considerable discussion about how best to address the issue of multiple *potential* comparisons (Gelman and Loken 2014). We debated at some length the issues behind the words "a *p*-value near 0.05 taken by itself offers only weak evidence against the null

hypothesis" (Johnson 2013). There were differing perspectives about how to characterize various alternatives to the p-value and in how much detail to address them. To keep the statement reasonably simple, we did not address alternative hypotheses, error types, or power (among other things), and not everyone agreed with that approach.

As the end of the statement development process neared, Wasserstein contacted Lazar and asked if the policy statement might be appropriate for publication in The American Statistician (TAS). After consideration, Lazar decided that TAS would provide a good platform to reach a broad and general statistical readership. Together, we decided that the addition of an online discussion would heighten the interest level for the TAS audience, giving an opportunity to reflect the aforementioned controversy.

To that end, a group of discussants was contacted to provide comments on the statement. You can read their statements in the online supplement, and a guide to those statements appears at the end of this editorial. We thank Naomi Altman, Douglas Altman, Daniel J. Benjamin, Yoav Benjamini, Jim Berger, Don Berry, John Carlin, George Cobb, Andrew Gelman, Steve Goodman, Sander Greenland, John Ioannidis, Joseph Horowitz, Valen Johnson, Michael Lavine, Michael Lew, Rod Little, Deborah Mayo, Michele Millar, Charles Poole, Ken Rothman, Stephen Senn, Dalene Stangl, Philip Stark and Steve Ziliak for sharing their insightful perspectives.

Of special note is the following article, which is a significant contribution to the literature about p-values and statistical significance.

Greenland, S., Senn, S.J., Rothman, K.J., Carlin, J.B., Poole, C., Goodman, S.N. and Altman, D.G.: "Statistical Tests, P-values, Confidence Intervals, and Power: A Guide to Misinterpretations."

Though there was disagreement on exactly what the statement should say, there was high agreement that the ASA should be speaking out about these matters.

Let us be clear. Nothing in the ASA statement is new. Statisticians and others have been sounding the alarm about these matters for decades, to little avail. We hoped that a statement from the world's largest professional association of statisticians would open a fresh discussion and draw renewed and vigorous attention to changing the practice of science with regards to the use of statistical inference.

# **Guide to the Online Supplemental Material to the ASA** Statement on P-Values and Statistical Significance

Many of the participants in the development of the ASA statement contributed commentary about the statement or matters related to it. Their comments are posted as online supplements to the statement. We provide here a list of the supplemental articles.

# **Supplemental Material to the ASA Statement on** P-Values and Statistical Significance

• Altman, Naomi: Ideas from multiple testing of high dimensional data provide insights about reproducibility and false discovery rates of hypothesis supported by *p*-values

- Benjamin, Daniel J, and Berger, James O: A simple alternative to p-values
- *Benjamini*, *Yoav*: It's not the *p*-values' fault
- Berry, Donald A: P-values are not what they're cracked up
- Carlin, John B: Comment: Is reform possible without a paradigm shift?
- Cobb, George: ASA statement on p-values: Two consequences we can hope for
- Gelman, Andrew: The problems with p-values are not just with *p*-values
- Goodman, Steven N: The next questions: Who, what, when, where, and why?
- Greenland, Sander: The ASA guidelines and null bias in current teaching and practice
- Ioannidis, John P.A.: Fit-for-purpose inferential methods: abandoning/changing P-values versus abandoning/changing research
- Johnson, Valen E.: Comments on the "ASA Statement on Statistical Significance and P-values" and marginally significant *p*-values
- Lavine, Michael, and Horowitz, Joseph: Comment
- Lew, Michael J: Three inferential questions, two types of P-value
- Little, Roderick J: Discussion
- Mayo, Deborah G: Don't throw out the error control baby with the bad statistics bathwater
- Millar, Michele: ASA statement on p-values: some implications for education
- Rothman, Kenneth J: Disengaging from statistical signifi-
- *Senn*, *Stephen*: Are *P*-Values the Problem?
- Stangl, Dalene: Comment
- *Stark*, *P.B.*: The value of *p*-values
- Ziliak, Stephen T: The significance of the ASA statement on statistical significance and p-values

# ASA Statement on Statistical Significance and *P*-Values

#### 1. Introduction

Increased quantification of scientific research and a proliferation of large, complex datasets in recent years have expanded the scope of applications of statistical methods. This has created new avenues for scientific progress, but it also brings concerns about conclusions drawn from research data. The validity of scientific conclusions, including their reproducibility, depends on more than the statistical methods themselves. Appropriately chosen techniques, properly conducted analyses and correct interpretation of statistical results also play a key role in ensuring that conclusions are sound and that uncertainty surrounding them is represented properly.

Underpinning many published scientific conclusions is the concept of "statistical significance," typically assessed with an index called the p-value. While the p-value can be a useful statistical measure, it is commonly misused and misinterpreted. This has led to some scientific journals discouraging the use of p-values, and some scientists and statisticians recommending their abandonment, with some arguments essentially unchanged since *p*-values were first introduced.

In this context, the American Statistical Association (ASA) believes that the scientific community could benefit from a formal statement clarifying several widely agreed upon principles underlying the proper use and interpretation of the *p*-value. The issues touched on here affect not only research, but research funding, journal practices, career advancement, scientific education, public policy, journalism, and law. This statement does not seek to resolve all the issues relating to sound statistical practice, nor to settle foundational controversies. Rather, the statement articulates in nontechnical terms a few select principles that could improve the conduct or interpretation of quantitative science, according to widespread consensus in the statistical community.

## 2. What is a p-Value?

Informally, a p-value is the probability under a specified statistical model that a statistical summary of the data (e.g., the sample mean difference between two compared groups) would be equal to or more extreme than its observed value.

#### 3. Principles

1. P-values can indicate how incompatible the data are with a specified statistical model.

A p-value provides one approach to summarizing the incompatibility between a particular set of data and

a proposed model for the data. The most common context is a model, constructed under a set of assumptions, together with a so-called "null hypothesis." Often the null hypothesis postulates the absence of an effect, such as no difference between two groups, or the absence of a relationship between a factor and an outcome. The smaller the p-value, the greater the statistical incompatibility of the data with the null hypothesis, if the underlying assumptions used to calculate the p-value hold. This incompatibility can be interpreted as casting doubt on or providing evidence against the null hypothesis or the underlying assumptions.

# 2. P-values do not measure the probability that the studied hypothesis is true, or the probability that the data were produced by random chance alone.

Researchers often wish to turn a p-value into a statement about the truth of a null hypothesis, or about the probability that random chance produced the observed data. The p-value is neither. It is a statement about data in relation to a specified hypothetical explanation, and is not a statement about the explanation itself.

## Scientific conclusions and business or policy decisions should not be based only on whether a p-value passes a specific threshold.

Practices that reduce data analysis or scientific inference to mechanical "bright-line" rules (such as "p < 0.05") for justifying scientific claims or conclusions can lead to erroneous beliefs and poor decision making. A conclusion does not immediately become "true" on one side of the divide and "false" on the other. Researchers should bring many contextual factors into play to derive scientific inferences, including the design of a study, the quality of the measurements, the external evidence for the phenomenon under study, and the validity of assumptions that underlie the data analysis. Pragmatic considerations often require binary, "yes-no" decisions, but this does not mean that p-values alone can ensure that a decision is correct or incorrect. The widespread use of "statistical significance" (generally interpreted as " $p \le 0.05$ ") as a license for making a claim of a scientific finding (or implied truth) leads to considerable distortion of the scientific process.

# 4. Proper inference requires full reporting and transparency

P-values and related analyses should not be reported selectively. Conducting multiple analyses of the data and reporting only those with certain p-values (typically those passing a significance threshold) renders the 132 ( EDITORIAL

reported *p*-values essentially uninterpretable. Cherrypicking promising findings, also known by such terms as data dredging, significance chasing, significance questing, selective inference, and "p-hacking," leads to a spurious excess of statistically significant results in the published literature and should be vigorously avoided. One need not formally carry out multiple statistical tests for this problem to arise: Whenever a researcher chooses what to present based on statistical results, valid interpretation of those results is severely compromised if the reader is not informed of the choice and its basis. Researchers should disclose the number of hypotheses explored during the study, all data collection decisions, all statistical analyses conducted, and all p-values computed. Valid scientific conclusions based on p-values and related statistics cannot be drawn without at least knowing how many and which analyses were conducted, and how those analyses (including *p*-values) were selected for reporting.

# 5. A p-value, or statistical significance, does not measure the size of an effect or the importance of a result.

Statistical significance is not equivalent to scientific, human, or economic significance. Smaller *p*-values do not necessarily imply the presence of larger or more important effects, and larger p-values do not imply a lack of importance or even lack of effect. Any effect, no matter how tiny, can produce a small p-value if the sample size or measurement precision is high enough, and large effects may produce unimpressive p-values if the sample size is small or measurements are imprecise. Similarly, identical estimated effects will have different *p*-values if the precision of the estimates

# 6. By itself, a p-value does not provide a good measure of evidence regarding a model or hypothesis.

Researchers should recognize that a p-value without context or other evidence provides limited information. For example, a *p*-value near 0.05 taken by itself offers only weak evidence against the null hypothesis. Likewise, a relatively large *p*-value does not imply evidence in favor of the null hypothesis; many other hypotheses may be equally or more consistent with the observed data. For these reasons, data analysis should not end with the calculation of a p-value when other approaches are appropriate and feasible.

#### 4. Other Approaches

In view of the prevalent misuses of and misconceptions concerning *p*-values, some statisticians prefer to supplement or even replace p-values with other approaches. These include methods that emphasize estimation over testing, such as confidence, credibility, or prediction intervals; Bayesian methods; alternative measures of evidence, such as likelihood ratios or Bayes Factors; and other approaches such as decision-theoretic modeling and false discovery rates. All these measures and approaches rely on further assumptions, but they may more directly address the size of an effect (and its associated uncertainty) or whether the hypothesis is correct.

#### 5. Conclusion

Good statistical practice, as an essential component of good scientific practice, emphasizes principles of good study design and conduct, a variety of numerical and graphical summaries of data, understanding of the phenomenon under study, interpretation of results in context, complete reporting and proper logical and quantitative understanding of what data summaries mean. No single index should substitute for scientific reasoning.

### **Acknowledgments**

The ASA Board of Directors thanks the following people for sharing their expertise and perspectives during the development of the statement. The statement does not necessarily reflect the viewpoint of all these people, and in fact some have views that are in opposition to all or part of the statement. Nonetheless, we are deeply grateful for their contributions.
